C. Hillebrandt.....	Part of 100-vara Lot No. 317.....	104 50
		<hr/> \$2,853 00

The amount of Bonds outstanding on the 31st day of May, 1867, as stated in our Report dated June 11th, 1867, was \$1,257,900 00
 Redeemed during the past year 68,700 00
 Leaving outstanding on the 31st ultimo \$1,189,200 00

The interest on this sum for the year 1868-69, to be provided for by the city, amounts to \$118,920 00.

The financial operations of the Board during the past year leave a net profit to the city, after deducting all expenses, of \$106,779 98; and if there be added thereto the sum of \$2,853, received under the Act of the Legislature, authorizing the Commissioners to compromise with parties in possession of certain lots, conveyed to the Board, the total net gain to the city will be \$109,632 98.

The Sinking Fund on the 31st ult., amounted to \$1,111,221 57 (exclusive of the sum of \$68,513 43, due from the city on the requisition of 1856-57). The following items compose this amount:

Loans on Stocks and Bonds.....	\$672,200 00
Loans on Real Estate.....	91,330 00

Carried forward..... \$763,530 00

<i>Brought forward</i>	\$763,530 00
\$219,500 San Francisco 6 per cent. Bonds, costing	120,545 50
\$243,000 San Francisco 7 per cent. Bonds, costing	181,734 13
\$45,000 Santa Clara County Bonds, costing	31,626 00
\$3,000 Mississippi Railroad Bonds, costing	2,464 15
\$7,103 73 State Controllers' Warrants, costing...	6,200 00
Real Estate taken to account	1,158 20
Cash on deposit with Parrott & Co.	11,771 90
	<hr/>
	\$1,119,029 88
Interest due and accumulated on Loans and In- vestments	14,891 69
	<hr/>
	\$1,133,921 57
Coupons due but not presented (deduct)	22,700 00
	<hr/>
	<u>\$1,111,221 57</u>

In the foregoing statement, the Bonds owned by the Board are estimated at their cost price; if the difference between cost and their present market value be added to the aforementioned Sinking Fund, the available fund will be found to amount to \$1,205,-151 79—exceeding by \$16,000 the sum required to meet the Bonds outstanding and becoming due May 1st, 1871.

Appended to the accompanying Statement of Receipts, Disbursements, etc., is a list of Conveyances made by the Board during the past year, under the Act of the Legislature of April 2d, 1866, embracing the names of the parties to whom deeds were issued, a partial description of the property conveyed, and the price paid therefor.

All of which is respectfully submitted.

Signed,

{ JOHN MIDDLETON, Pres't,
C. M. HITCHCOCK,
C. L. LOW.

Office of the Commissioners of the Funded Debt of the City of San Francisco, June 4th, 1868.

REPORT ON WIDENING OF KEARNY STREET.

“In the matter of Widening Kearny Street and Third Street, in the City and County of San Francisco.”

The “Transcript of the Report and Award of the Commissioners of Appraisal and Assessment, appointed to assess damages and benefits to the several persons interested in the widening of said streets, made pursuant to the order and direction of the Mayor of said City and County,” was received at this office on Monday, September 16th, 1867, the same day on which the Real Estate Assessment Roll for 1867-8 was turned over to the Tax Collector; hence the subsequent proceedings were similar in both cases, the statute providing that these assessments “shall be collected in the manner prescribed by law for the collection of general taxes in said City and County.” (See Statutes 1863-4, page 353, Section 14, Fifth.)

SAN FRANCISCO, June 30, 1868.

CHAS. R. STORY,
Tax Collector.

ASSESSOR'S REPORT.

ASSESSOR'S OFFICE,
San Francisco, August 1, 1868. }

To the Honorable the Board of Supervisors of the City and County of San Francisco:

GENTLEMEN: In compliance with resolution No. 8,566 of your honorable body, passed June 29th, 1868, I submit herewith a Report of matters connected with the Office of City and County Assessor, for the fiscal year 1867-8, ending June 30th, 1868.

Salary of Assessor from July 1, 1867, to July 1, 1868.	\$4,000 00
Salary of Deputies from July 1, 1867, to July 1, 1868.	17,488 33
Books, Maps, Blanks and Stationery, from July 1, 1867, to July 1, 1868.....	1,320 76
Total.....	\$22,809 09
Deduct State's proportion $\frac{1}{3}\frac{2}{3}$ of \$22,809 09.....	7,478 39
City and County's proportion is.....	<u>\$15,330 70</u>

The Assessment Roll of Personal Property delivered on the first Monday in June last, for the fiscal year, amounts to \$41,027,202 60, of which \$8,386,555 41 are solvent debts secured by mortgage.

There are also nearly \$16,000,000 of mortgages held by the different Savings and Loan Societies, which were not included in this Roll, for the reason that in their sworn statements it is stated that they have none; the Farmers' and Mechanics' Bank being the only exception.

The Assessor, in his judgment and construction of the law concerning sworn statements, has accepted the same as made by said Societies, and has since referred to the City and County Attorney for instructions in relation thereto, a copy of which is respectfully submitted, viz:

ASSESSOR'S OFFICE,
San Francisco, June 6, 1868. }

H. M. Hastings, City and County Attorney, San Francisco County:

DEAR SIR: Your attention was (I believe, by the Board of Equalization,) called to the fact that many of the Savings and Loan Societies of this city, in making sworn statements of their personal property for the fiscal year 1868-9, have omitted to include all mortgages held by them, giving, verbally, as a reason therefor, that their mortgages were nothing more than "solvent debts," upon which they were not assessable, inasmuch as their solvent debts were not in excess of their liabilities. So far I have acted in compliance with my interpretation of the law, in the acceptance of these sworn statements. I shall complete the Real Estate Roll by the first of next month, at which time the Supplemental Roll will be taken up and completed as soon as practicable, and in order to facilitate which, you will please give me the necessary advice or instruction whether said mortgages shall be assessed in said Roll for the fiscal year 1868-9 or not.

Most respectfully, your obedient servant,

(Signed.)

BEN E. HARRIS,
City and County Assessor.

OFFICE OF THE CITY AND COUNTY ATTORNEY, }
San Francisco, July 28, 1868. }

SIR: In answer to your inquiry, I have to say that I see no reason why you may not accept the sworn statements of the Savings and Loan Societies in regard to their personal property for the fiscal year of 1868-9.

Very respectfully,

(Signed.)

HORACE M. HASTINGS,
City Attorney.

Ben E. Harris, City and County Assessor.

The Supplemental Roll is now being made up by the Assessor, who will include therein all mortgages recorded on and after the 15th day of April last, up to which time only were mortgages assessed in the Original Roll of Personal Property, and should the City and County Attorney so direct, the mortgages of the Savings and Loan Societies will also be included in said Supplemental Roll.

The Real Estate Roll has this day been completed and turned over to the Clerk of your honorable body. The valuation of property contained therein is \$65,452,965.

Enclosed herewith I submit for your approval a copy of my Annual Report to the Surveyor General of the State, together with a Report of Statistics of the Manufactures and Mechanical Industries of this City and County, which I hope may serve as an appendix to this Report.

All of which is most respectfully submitted.

BEN E. HARRIS,
Assessor.

REPORT TO THE SURVEYOR GENERAL.

ASSESSOR'S OFFICE,
City and County of San Francisco, August 1, 1868. }

Hon. J. W. Bost, Surveyor General State of California:

SIR: In compliance with the law of 1866 (California Statutes, page 201), herewith I hand you statistical report of the agricultural products of the County of San Francisco, together with a report of the manufactures and mechanical industries of this city and county for the year 1867.

In making up this report I have endeavored, so far as possible, to make it full and complete in every particular, but owing to many reasons, not fully known to me, I have experienced much difficulty in obtaining the necessary data to make such report as was doubtless contemplated by the passage of said law.

The penalty provided in the premises rests alone upon the Assessor, while it is evident to me that it should apply with equal force to all, especially those in charge of manufacturing and agricultural pursuits, in order that something like an approximate idea might be formed. A conception of the worth and benefit of statistics can be derived only from their correctness and extent; hence the importance of an imperative obligation to give data in relation thereto. There are many extensive commercial and mechanical enterprises which have been commenced and perfected during the past year, too elaborate for detail, the synopsis of which may be found in their regular order. There are also many in the process of organization at the present time, which have likewise been mentioned in this Report, but with reference to capacity only. The facts connected with manufac-

tures and mechanical industries for 1867 show, as was contemplated by the Assessor in his last Annual Report, an interesting degree of prosperity and mechanical success; and, judging the future by the past and present indications, I think the statistics of 1868 will show a handsome and reliable increase. In submitting the following list, where the articles are small and varied the value only is set down.

AXLE GREASE MANUFACTORY.		1
Men employed		5
Rosin used, barrels		1,000
Butter used, pounds		12,000
BELLOWS MANUFACTORY.		1
Men employed		4
Horse power of Engine		5
Value of manufactures		\$10,000
BILLIARD TABLE MANUFACTORIES.		3
Men employed		22
Tables made :		97
Average value of Tables		\$450
BOX MANUFACTORIES.		5
Men employed		169
Lumber used (Pine, Fir and Spruce) feet		5,600,000
Spanish Cedar used		160,000
Horse power of Engines		90
BRASS FOUNDRIES.		5
Men employed		85
Value of manufactures		\$143,000
GLASS WORKS.		2
Men employed		86
Furnaces		2
Pots		15
Value of manufactures	(Not reported.)	
Capacity of works per month	(Not reported.)	

BREWERIES.

	21
Men employed	153
Beer made, barrels.....	120,300
Monthly capacity, barrels.....	9,750

BROOM AND WOODEN WARE MANUFACTORIES.

	7
Men employed	66
Brooms made, dozen.....	35,000
Pails, dozen.....	6,500
Tubs, nests, 4 each	1,650
Zinc Washboards, dozen.....	3,800
Barrel Covers, dozen.....	450
Peach Baskets, dozen.....	600
Sieves, dozen.....	800
Broom Handles, dozen.....	26,500
Butter Moulds, dozen.....	400
Cheese Saws, dozen.....	450
Salt Boxes, dozen.....	2,200
Syrup Kegs, number.....	8,000
Powder Kegs, number	6,000

CANDLE MANUFACTORY.

	1
Men employed	11
Candles made, boxes.....	15,000
Capacity per year, Candles, boxes.....	25,000

CHEMICAL WORKS.

	3
Men employed	15
Nitrate of Soda used, tons.....	250
Sulphur consumed, tons.....	450
Sulphuric and Nitric Acid made, tons.....	520
Sulphate of Copper made, tons.....	125
Capacity of works per day, Sulphuric Acid, tons....	4
Capacity of works per day, Nitric Acid, tons.....	1

CIGAR MANUFACTORIES.

	60
Men employed	1,132
Monthly capacity.....	3,000,000
Cigars made.....	35,672,000

CORDAGE FACTORY.

	1
Men employed	50
Horse power of Engines.....	150
Hemp manufactured, tons	1,000
Capacity of works per year, tons	1,750

DRY DOCK.

[See Historical Report.]

FLOUR MILLS.

	11
Men employed	131
Flour made in 1867, barrels.....	410,400
Pearl Barley, tons.....	210
Hominy, tons	630
Farina, tons.....	100
Oatmeal, tons	500
Groats, tons.....	53
Buckwheat and Rye Flour, tons.....	1,950
Feed Barley, ground, tons.....	5,700
Run of Stone.....	42
Horse power of Engines.....	711
Aggregate daily capacity of mills, barrels Flour.....	2,005

FURNITURE, ETC., MANUFACTORIES.

	8
Men employed	138
Horse power of Engines.....	20
Value of manufactures.....	\$170,000

GAS METER MANUFACTORY.

	1
Men employed	4
Value of manufactures	\$4,000

GLASS-CUTTING WORKS.

	2
Men employed	6
Value of manufactures	\$8,500

GOLD AND SILVER REFINERY.

	1
Men employed	5
Gold and Silver refined, ounces	1,500,000

HOSE AND BELTING MANUFACTORIES.		2
Men employed		17
Hose made, feet.....		14,000
Belting made, feet.....		75,000
Horse Collars made, dozen.....		500
Hose and Belting Leather used, sides.....		2,800
Collar Leather used, feet.....		50,000

IRON FOUNDRIES AND BOILER SHOPS.		17
Men employed		1,073
Pig Iron used, tons.....		9,080
Bar Iron used, tons.....		1,754
Sheet and Boiler Iron used, tons		2,004
Rivets of Iron used, tons		190

IRON DOOR, SHUTTER AND SAFE SHOPS.		7
Men employed		84
Sheet Iron used, tons		542
Bar Iron used, tons.....		589
Cast Iron used, tons		9
Cast Steel used, tons.....		4

GLUE MANUFACTORY.		1
Men employed		21
Glue made, tons.....		500
Neat's-foot Oil made, gallons		5,000
Curled Hair made, pounds.....		20,000
Capacity per day for Glue, tons.....		30
Capacity per day for Oil, gallons.....		200

LAST MANUFACTORY.		1
Men employed		4
Value of manufactures.....		\$7,000

LEAD AND SHOT WORKS.		1
Men employed		18
Quantity of Lead manufactured, tons		900
Quantity of Shot manufactured, tons.....		200
Capacity of works per year, tons.....		2,000

LINSEED OIL WORKS.	
	1
Men employed	8
Flax Seed used, tons.....	300
Oil made, gallons.....	25,000
Capacity per day, Oil, gallons.....	900

MALT MANUFACTORIES.	
	6
Men employed	18
Grain malted, Barley, 100-pound sacks.....	68,250

MATCH MANUFACTORIES.	
	5
Men employed	41
Matches made, gross.....	94,500

MIRROR SILVERING WORKS.	
	1
Men employed	5
Silvering Tables.....	4
Value of manufactures	\$20,000

PIANO FORTE MANUFACTORIES.	
	3
Men employed	14
Pianos made.....	122
Average value of each instrument.....	\$350

PYROTECHNIC WORKS.	
	1
Men employed	4
Value of manufactures.....	\$7,000

ROLLING MILLS.	
	1
Men employed	58
Horse power of Engines.....	300

[Further Statistics the Superintendent could not give in due time for this Report.]

SALT MILLS.	
	5
Men employed	35
Salt ground, Domestic, tons	4,500
Salt ground, Foreign, tons	2,800
Run of Stone.....	8
Horse power of Engines.....	77

SASH AND DOOR MANUFACTORIES.		7
Men employed		261
Value of manufactures		\$773,000
SAW MILLS.		8
Men employed		380
Lumber sawed, feet.....	14,510,000	
Saws run		49
Horse power of Engines.....		400
SOAP MANUFACTORIES.		16
Men employed		54
Soap made, pounds.....	4,032,000	
Washing Powder made, pounds.....	225,000	
Capacity of works per month, pounds.....	1,000,000	
STAVE FACTORY.		1
Men employed		22
Horse power of Engine.....		18
Capacity, Staves per day		3,000
STEAM MARBLE SAW WORKS.		1
Men employed		28
Horse power of Engine.....		20
Saws run (one Gang).....		25
Value of manufactures.....	(Not reported.)	
SUGAR REFINERIES.		3
Men employed		264
Horse power of Engines.....		250
Raw Sugar used, pounds.....	23,160,000	
Refined Sugar made, pounds.....	20,254,000	
Syrup made, gallons.....	627,000	
Capacity of works per day (raw sugar) pounds.....	165,000	
TOOL AND FILE MANUFACTORIES.		2
Men employed		13
Value of manufactures.....		\$14,000

REPORT TO SURVEYOR GENERAL.

129

TANNERIES.

	15
Men employed	122
Tan Bark used, cords.....	2,487
Hides tanned, No.....	16,350
Calf Skins tanned, dozen.....	950
Kip and Sheep Skins tanned, dozen.....	2,054

TRUNK MANUFACTORIES.

	2
Men employed	30
Value of manufactures	\$37,000

TYPE FOUNDRY.

	1
Men employed	35
Value of manufactures	\$28,000
Capacity of works per year.....	\$50,000

VINEGAR MANUFACTORY

	1
Man employed	1
Vinegar made, gallons	45,000

WIRE GOODS MANUFACTORY

	1
Men employed	12
Value of manufactures	\$25,000

WOOLEN MILLS

	3
Men employed.....	750
Horse power of Engines.....	350
Sets of cards.....	29
Mules and Jacks.....	40
Looms	122
Spindles.....	11,000
Blankets made, pairs.....	94,500
Broad cloth, Cassimeres and Tweeds, yards.....	161,600
Flannel, yards	845,000
Flannel Shirts and Drawers, dozen	10,000
Wool used, pounds.....	3,000,000

The California Dry Dock Company, a corporation formed in August, 1867, have two dry docks—a stone dry dock and a float-

ing dry dock—in complete working order, at Hunter's Point, in the City and County of San Francisco.

The dimensions of the stone dry dock are as follows:

Length on keel blocks.....	421 feet.
Width on top.....	120 feet.
Width at bottom in the clear.....	60 feet.
Perpendicular depth.....	32 feet.
Depth of water on miter sill at mean high tide	22 feet.

Will take in a ship drawing 22 feet of water without lighterage.

The formation of the rock in which the dock has been dug is serpentine, and exhibits no fissures or seams.

The sides of the dock are lined with 10 by 10-inch Puget Sound pine, so arranged as to form a series of steps. These timbers are securely anchored into the rock with 1½-inch bolts, California manufacture, and sulphured with sulphur from the Borax Lake Works.

The keel blocks are of laurel, from Russian River, California.

The dock is opened and closed by a floating caisson gate, strongly constructed of the best Oregon pine, caulked, copper-bottomed and fastened with composition bolts, spikes and tree nails.

DIMENSIONS OF CAISSON.

Length.....	92 feet.
Beam.....	20 feet.
Keel.....	68 feet.
Depth of hold.....	24 feet.

A double steam engine, with the necessary pumps, is placed on the caisson for pumping purposes and working the gates and valves.

ENGINES AND PUMPS.

There are two high-pressure engines, 22-inch cylinders, four foot stroke, used for pumping out the dock. The engines are supplied with steam from four tubular boilers, each 16 feet in length and 54 inches in diameter, and together having a fire surface of 3,800 square feet, and burning 2,000 pounds per hour.

There are two centrifugal pumps, the invention of Col. A. W. Von Schmidt and J. H. Von Schmidt, of this city.

Each of these pumps will discharge 30,000 gallons per minute,

and at an average rate of speed will empty the dock of water in two hours.

The pumps, engines and boilers were built at the foundry of the Vulcan Iron Works Company.

The floating dry dock is moved between two piers about 75 yards from the entrance of the stone dry dock.

It is constructed of the strongest Oregon pine, and is of the following dimensions:

Width 80 feet.

Length 210 feet.

Respectfully submitted by

BEN. E. HARRIS,
Assessor for City and County of San Francisco.

STATISTICS, JANUARY 1, 1867, TO JANUARY 1, 1868.

COMPILED FROM THE BOOKS OF THE ASSESSOR OF SAN FRANCISCO COUNTY,
FOR REPORT TO THE SURVEYOR-GENERAL.

I would recommend that the surplus funds to the credit of this office be placed as a Sinking Fund for the purpose of erecting a more commodious Hall of Records, to be built of stone and iron, so as to be completely fire-proof, and detached from all other buildings.

Should the business of this office continue to increase in the same ratio for the next five years that it has for the past year, the present Hall will not be large enough to hold the books and accommodate the public.

Respectfully submitted,

E. W. LEONARD,
County Recorder.

COUNTY CLERK'S REPORT.

OFFICE OF THE COUNTY CLERK,
OF THE CITY AND COUNTY OF SAN FRANCISCO, }
SAN FRANCISCO, July 30, 1868.

*To the Honorable the Mayor and Members
of the Board of Supervisors—*

GENTLEMEN:—In compliance with the Resolution of your Honorable Body, adopted on the 29th June last, I submit the following Report of the condition of the County Clerk's Office, and of the business transacted in its several departments, during the fiscal year ending June 30, 1868.

Very respectfully,

WASHINGTON BARTLETT,
County Clerk.

APPEALS.

During the last year ten Appeals were taken from the County Court to the Supreme Court in civil cases. Six of these Appeals are still pending. In three of them the Judgment of the Court was affirmed, and in one the Appeal was dismissed. There were also six Appeals from the proceedings in the matter of the Widening of Kearny Street and Third Street. In these Appeals the judgment of this Court was affirmed.

In the matter of the extension of Montgomery and Connecticut Streets, in the City and County of San Francisco, there were filed in this Court on the 13th day of January, 1868, copies of the records and proceedings for the extension of these streets. On the 17th of April, 1868, Commissioners to assess damages and awards arising from this undertaking were appointed by the County Judge; said Commissioners qualified on the 22d of April. There is a protest filed against this proceeding, on the part of Selim E. Woodworth, which matter is now pending and undetermined.

In the matter of the proceedings of William H. Joliffe and John Delavan against the Board of Pilot Examiners for the Ports of San Francisco, Mare Island and Benicia, on mandamus from this Court to said Board, to certify and transmit all of their proceedings in regard to the dismissal of said Joliffe and Delavan, Pilots, by said Board, is still pending and undetermined.

There are pending before the Court and Judge proceedings on the part of the Clear Lake and Lake Merced Water Companies, for the appointment of Commissioners to condemn certain lands and waters in the vicinity of the lake known as Laguna de la Merced.

There are pending, also, petitions on the part of certain property holders for the appointment of Commissioners to assess damages and benefits arising out of proposed changes of grades of streets, under a recent Act of the last Legislature, giving power to the Board of Supervisors to regulate the grade of streets, and providing for parties interested, to petition the County Court for the appointment of Commissioners to assess damages arising therefrom.

Respectfully submitted,

WASHINGTON BARTLETT,
County Clerk.

REPORT OF THE CHIEF OF POLICE.

POLICE OFFICE,
San Francisco, August 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In response to Resolution No. 8,566, I herewith present my Report of the operations of the Police Department for the year ending June 30, 1868:

Schedule "A."—showing the number and classification of arrests made by the Police during the year.

Schedule "B."—An exhibit of the amount of property reported as stolen and lost, and the amount recovered by the Police for the year ending June 30, 1868.

Schedule "C."—Showing the number of witnesses subpoenaed for the Police Judge's Court; nuisances on private property abated; street obstruction notices served, and lost children restored to their parents or guardians, by the Police, for the year ending June 30, 1868.

Schedule "D."—Cash received from Sheriffs of other counties, Masters of vessels and others, for the keeping of prisoners in the City Prison, for the year ending June 30, 1868.

Schedule "E."—A list of unclaimed money and property in the possession of the Chief of Police, to June 30, 1868.

The number of Policemen employed and paid by the City is the same as it was at the date of my last report; namely, four Captains of Police and eighty Policemen.

POLICE TELEGRAPH.

The Police Telegraph has been in use during the year, connecting Central Office with—

Harbor Police Station,
Mission Station,
Fourth and Harrison Street Station,
Hayes Park Station,
Jones and Pacific Street Station, and the
Chief's House.

The instruments of the telegraph have not worked well recently, and I learn that the Committee of your Board intend to replace them with better ones.

I would respectfully suggest that, as soon as possible, provision be made in suitable localities for durable and substantial District Police Stations, in place of those which are now mere shells or sentry boxes. It would seem that the growth of the city and the public convenience would justify a reasonable expenditure for this purpose.

Better ventilation of the City Prison has been suggested by the Grand Jury, and it is hoped may soon be provided.

The Detective Department have been usually successful in the detection and arrest of criminals during the year.

Respectfully,

P. CROWLEY,
Chief of Police.

SCHEDULE A.

REPORT OF CITY AND COUNTY ATTORNEY.

OFFICE OF THE CITY AND COUNTY ATTORNEY, }
San Francisco, August 22, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In compliance with Resolution No. 8,566, I hereby submit the following Statement in regard to the City and County litigation since the date of my last Report, 29th of July, 1867 :

PART FIRST.

ACTIONS BEGUN SINCE DATE OF LAST REPORT.

Phillip Bill,	} Plaintiff,	12th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	Crockett, Whiting & Napthaly, <i>Attorneys for Plaintiff.</i> No. 13,577.

Begun August 2, 1867. Action to quiet title—property described as follows: Commencing at the southwesterly corner of O'Farrell and Leavenworth streets; running thence westerly along the southerly line of O'Farrell street 137 feet and 6 inches; thence at right angles southerly and parallel with Leavenworth street 137 feet and 6 inches, etc., etc.; being 50-vara Lot No. 1,172. Case referred to Court Commissioner. Proofs being taken on the part of Plaintiff.

John W. Brittain,	}	Plaintiff,	12th District Court.
vs.			Alexander Ely,
The City and County of San Francisco, and The Commis- sioners of the Funded Debt,	}	Defendant.	<i>Attorney for Plaintiff.</i> No. 13,594.

Action to quiet title to portion of Block No. 13, of the South Beach Water Lot property. Answer filed August 19, 1867, and case ready for trial.

Gustave Touchard,	}	Plaintiff,	Circuit Court of the United States.
vs.			Eugene Lies and Delos Lake,
The City and County of San Francisco,	}	Defendant.	<i>Attorneys for Plaintiff.</i> No. 386.

Injunction prayed for by Plaintiff as against the Defendant from disposing of, or in any manner interfering with, a certain piece of land alleged to belong to Plaintiff, and situate in that tract of land known and designated as the Outside Lands. Action begun October 19, 1867. Demurrer filed by Defendant November 30, 1867. On being pressed for argument, Plaintiff dismissed his action.

W. W. Johnson et als.,	}	Plaintiffs,	12th District Court.
vs.			Turner & Crane,
The Board of Supervisors of the City and County of San Fran- cisco,	}	Defendant.	<i>Attorneys for Plaintiff.</i> Felton, with City Attorney, <i>for Defendant.</i> No. 13,791.

This action was brought to enjoin and restrain the Defendants

from granting the Pueblo Lands of said city outside of the line known as the Van Ness Ordinance line in quantities exceeding 100-varas square, and to enjoin the passage of an Order No. 733; and further to enjoin the Defendants from destroying the petitions of the Plaintiffs and others for grants of Homestead Lots, and from the carrying into effect the Resolution No. 7,533. Action begun 29th of October, 1867. Defendants demurred. Demurrer has been argued and determined in favor of Defendants. No appeal has been taken by Plaintiffs, and the cause is at an end.

Jas. McKewen,	Plaintiff,	}	4th District Court.
vs.			D. Bard,
The City and County of San Francisco,	Defendant.	}	<i>Attorney for Plaintiffs.</i>
			No. 13,747.

Action brought to recover damages in the sum of \$540 for destruction of Plaintiff's property by the negligence of the officers of the Fire Department. This action has been tried, and judgment rendered for Plaintiff in said sum. The judgment appeared altogether just, and by my advice the same has been paid.

Addison E. Head et al.,	Plaintiffs,	}	4th District Court.
vs.			Porter & Holladay,
The City and County of San Francisco,	Defendant.	}	<i>Attorneys for Plaintiffs.</i>
			No. 14,039.

Action to quiet title to a piece of land, commencing on the

west line of Gough street at a point midway between Clay and Washington streets, running thence westerly parallel with and between said streets, 369 feet $7\frac{1}{4}$ inches, to the westerly line of the J. D. Stevenson claim, etc. Suit begun March 7, 1868. Answer filed March 10, 1868, and case ready for trial.

Daniel Hutchinson,	} Plaintiff,	4th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	Harmon & Estee, <i>Attorneys for Plaintiff.</i>
		No. 14,042.

Action to quiet title to one-third of 50-vara Lot No. 2 of Block No. 416 of the Western Addition. Action begun on March 9, 1868. Answer filed March 13, 1868, and case ready for trial.

James M. Wood,	} Plaintiff,	12th District Court.
vs.		
M. B. Stone and The City and County of San Francisco,	} Defendants.	Wood & Putnam, <i>Attorneys for Plaintiff.</i>
		No. 13,966.

Action to quiet title to parts of 50-vara Lots Nos. 1 and 6 in Block No. 393, as shown on the Official Map of the Western Addition, and parts of 50-vara Lots Nos. 1 and 6 in Block No. 392; and those 50-vara Lots Nos. 2, 3, 4 and 5 in Blocks Nos. 392 and 393; also, all those 50-vara Lots Nos. 1 and 6 in Block No. 423; also, all that 50-vara Lot No. 6 in Block No. 422; also, all those 50-vara Lots Nos. 3, 4 and 5 in Block No. 346, all as

shown on said Official Map. Action begun February 12, 1868; answer filed February 18, 1868, and case ready for trial.

M. M. Estee,	Plaintiff,	} 4th District Court.
vs.		
The City and County of San Francisco,	Defendant.	} J. B. Harmon, <i>Attorney for Plaintiff.</i> No. 14,092.

Action to quiet title to 50-vara Lot No. 2 in Block 419 of the Western Addition. Suit begun March 4, 1868. Answer filed March 10, 1868, and case ready for trial.

Henry Hahn,	Plaintiff,	} 4th District Court.
vs.		
Sarah Anthony et als.,	Defendants.	} Alfred Rix, <i>Attorney for Plaintiffs.</i> No. 14,066.

Action to quiet title to Lots Nos. 4 and 5 in Block 144 of what is known as the Thomas Hayes tract. Answer filed March 30, 1868. Case has since been tried, and judgment rendered in favor of plaintiff.

John W. Coleman,	Plaintiff,	} 15th District Court.
vs.		
Charles B. Stuart et als.,	Defendants.	} Wm. M. Pierson, <i>Attorney for Plaintiff.</i> No. 3,626.

Action to quiet title to a portion of 50-vara Lots Nos. 1 and 6

of Western Addition, Block No. 119. Suit begun March 21, 1861. Answer filed July 7, 1868. In this case the city is joined with numerous defendants, and her defense will be made with them.

John W. Coleman,	} Plaintiff,	15th District Court.
vs.		
John Satherlee, <i>Administrator</i> , et als.,	} Defendants.	Wm. M. Pierson, <i>Attorney for Plaintiff.</i> No. 3,625.

Action to quiet title to Nos. 2, 4 and 5, and to all of 50-vara Lot No. 3, of Block No. 119, in the Western Addition. Suit begun March 11, 1868. Answer filed July 7, 1868. This case stands in the same position as the one next preceding, and the same course will be pursued with it.

John W. Coleman,	} Plaintiff,	15th District Court.
vs.		
Wm. Neely Johnson et als.,	} Defendants.	Wm. M. Pierson, <i>Attorney for Plaintiff.</i> No. 3,627.

Action to quiet title to a portion of 50-vara Lots Nos. 1, 2, 5 and 6, of Western Addition, Block No. 119. Suit begun on March 11, 1868. Answer filed July 7, 1868. This suit is of the same character as the two next preceding, and the same course will be taken with it as with them.

John Nightengale,
 Plaintiff, } 4th District Court.
 vs. } Felton & Hittell,
 } *Attorneys for Plaintiff.*
 The City and County of San }
 Francisco, } No. 13,805.
 Defendant. }

Action to quiet title to a portion of Alamo Square. Suit begun October 28, 1867. Answer filed January 29, 1868. Suit has been tried and judgment rendered in favor of the city.

The City and County of San }
 Francisco, } Plaintiff, } 15th District Court.
 vs. }
 } No. 3,809.
 Orson Felt et al., }
 Defendants. }

Ejectment for piece of land bounded on the north by Solano street, on the east by Kansas street, on the south by Butte street, on the west by Vermont street, known and laid down on the Wm. J. Lewis Survey of the Potrero Nuevo as Block No. 127. Summons not yet issued. Action begun April 17, 1868.

Henry Lee Nelson,
 Plaintiff, } Circuit Court of the United
 States.
 vs. } George F. Sharp,
 } *Attorney for Plaintiff.*
 The City and County of San }
 Francisco, } No. 689.
 Defendant. }

Ejectment for that piece of land bounded on the north by.

Bush street, on the southeast side by Market street, and on the west by the continuation of Battery street until it intersects the northerly line of Market street, the same being dedicated as a Plaza. Action begun April 17, 1868. Answer filed July 7, 1868, and case ready for trial.

Chas. A. Belden et als.,	}	Plaintiffs,	15th District Court.
vs.		The City and County of San Francisco,	Defendant.
			Felton & Hittell, <i>Attorneys for Plaintiff.</i> No. 3,622.

Action to quiet title to a piece of land commencing at the corner formed by the intersection of the southwesterly line of Seventh (formerly Harris street) with the southeasterly side of Channel street; thence running along said line of Channel street southwesterly 825 feet; thence at right angles southeasterly 240 feet and to the northwesterly line of Hooper street; thence northeasterly along said line of Hooper street 825 feet, and to the southwesterly line of Seventh street; thence along the said last line northwesterly 240 feet and to the point of commencement. Also, commencing at the corner formed by the intersection of the southwesterly side of Seventh street with the northwesterly line of Irwin street; thence running along said line of Irwin street southwesterly 825 feet; thence at right angles northwesterly 240 feet and to the southeasterly line of Hooper street; thence along the last mentioned line northeasterly 825 feet and to the southwesterly line of Seventh street; thence along said line of Seventh street southeasterly 240 feet and to the point of commencement. Suit begun March 9, 1868. Answer filed March 10, 1868. Case ready for trial.

John W. Hendrie,	} Plaintiff,	15th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	Felton & Hittell, <i>Attorneys for Plaintiff.</i>
		No. 2,628.

Action to quiet title to a piece of land commencing on the southeasterly line of Irwin street, at a point $412\frac{1}{2}$ feet distant southwesterly from the southeasterly corner of Irwin and Seventh (or Harris) street; thence running southwesterly along the southeasterly line of Irwin street to the northerly line of Center street; thence in an easterly direction following the northerly line of Center street to the intersection of the northerly line of Center street with the northeasterly line of Eighth (or Price) street; thence southeasterly along the northeasterly line of Eighth (or Price) street to the northwesterly line of Hubbell street; thence northeasterly along the northwesterly line of Hubbell street 525 feet, and to a point on the said northwesterly line of Hubbell street 300 feet southwesterly from Seventh (or Harris) street; thence at right angles northwesterly and parallel with Seventh (or Harris) street 120 feet; thence at right angles northwesterly and parallel with Irwin street $112\frac{1}{2}$ feet; thence at right angles northwesterly and parallel with Eighth (or Harris) street 120 feet to southeasterly line of Irwin street and to the place of commencement. Suit begun March 12, 1868. Answer filed March 16, 1868. Case ready for trial.

Josiah Belden,	} Plaintiff,	15th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	Felton & Hittell, <i>Attorneys for Plaintiff.</i>
		No. 3,632.

on the corner formed by the intersection of the southwesterly line of Seventh (or Harris) street with the southeasterly line of Irwin street extended; running thence southwesterly along the southeasterly line of Irwin street extended 412½ feet; thence at right angles southeasterly and parallel with Seventh (or Harris) street 120 feet; thence at right angles northeasterly and parallel with Irwin street 412½ feet to the southwesterly line of Seventh (or Harris) street; thence northwesterly along the southwesterly line of Seventh (or Harris) street 120 feet and to the place of commencement. Action begun March 14, 1868. Answer filed March 16, 1868. Case ready for trial.

Thomas Knight,

Plaintiff,

vs.

The City and County of San
Francisco,

Defendant.

15th District Court.

Felton & Hittell,

Attorneys for Plaintiff.

No. 3,679.

Action to quiet title to a piece of land commencing on the southeasterly line of Berry street, as extended, at a point 300 feet southwesterly on said line from the southwesterly line of Seventh (or Harris) street; thence southwesterly along the southeasterly line of Berry street to the northeasterly line of Eighth (or Price) street; thence at right angles southeasterly and along the northeasterly line of Eighth (or Price) street to the northwesterly line of Channel street; thence at right angles northeasterly and along the northwesterly line of Channel street 425 feet to a point 300 feet southwesterly from the southwesterly line of Seventh (or Harris) street; thence northwesterly and parallel with Seventh (or Harris) street 240 feet and to the place of commencement. Action begun April 4, 1868. Answer filed April 8, 1868. Case ready for trial.

Theodore Le Roy,	} Plaintiff,	15th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	Felton & Hittell, <i>Attorneys for Plaintiff.</i> No. 3,641.

Action to quiet title to a piece of land commencing on the southwesterly corner of Berry and Eighth (or Price) streets; thence westerly along Berry street 550 feet to Ninth (or Johnson) street 240 feet to Channel street; thence at right angles southerly along Ninth (or Johnson) street 240 feet to Channel street; thence at right angles easterly along Channel street 550 feet to Eighth (or Price) street; thence northerly along Eighth (or Price) street 240 feet to the place of beginning, being Lots Nos. 39 and 40, making Block No. 73—red ink—as laid down on the map adopted May 5, 1857, by the Board of California State Land Commissioners. Also, Lots Nos. 41 and 42, making Block No. 76; and, also, Lots Nos. 16 and 17, making Block No. 74. Action begun March 19, 1868. Answer filed March 26, 1868.

Louis E. Ritter,	} Plaintiff,	15th District Court.
vs.		
The Board of Education of the City and County of San Francisco and The City and County of San Francisco,	} Defendants.	Patterson, Wallace & Stow, <i>Attorneys for Plaintiff.</i> No. 2,672.

Action to quiet title to a portion of land, being a part of the tract of land known as the "Hayes Claim," and containing $3\frac{1}{2}$ acres, and being fractional parts of Blocks Nos. 151, 152, 136 and 137. Action begun March 6, 1867. Demurrer filed. De-

murrer has been argued and the same overruled. Under interlocutory decree, Commissioners have been appointed for partition. From the whole judgment herein, and from every part thereof, the defendants will appeal to the Supreme Court.

Elizabeth Douglass,	} Plaintiff,	} 4th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	} Samuel H. Henry, <i>Attorney for Plaintiff.</i> No. 14,032.

Action to quiet title to City Slip Lot No. 21. Suit begun March 6, 1868. Answer, plea, and abatement filed March 12, 1868.

F. Rading et al.,	} Plaintiffs,	} 15th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	} Byrne & Freelon, <i>Attorneys for Plaintiff.</i> No. 4,084.

Action to quiet title to a piece of land described as follows: Commencing at a point on the northerly side of Union street, distant easterly 23 feet from the northeasterly corner of said Union street and Leavenworth street; thence running easterly along said line of Union street 50 feet; thence at right angles northerly 137½ feet, etc., being part of 50-vara Lot No. 396, as laid down on the Official Map of San Francisco. Action begun June 13, 1868. Answer filed July 7, 1868. Case has been referred to Court Commissioner and is now being tried.

Wm. Patton,	Plaintiff,	} 15th District Court.
vs.		
The City and County of San Francisco,	Defendant.	} Byrne & Freelon, <i>Attorneys for Plaintiff.</i> No. 4,083.

Action to quiet title to part of 50-vara Lot No. 396, as laid down on the Official Map of the City and County of San Francisco. Action begun June 13, 1868. Answer filed July 7, 1868. Case has been referred to Court Commissioner and is now being tried.

Henry V. Herbert,	Plaintiff,	} 15th District Court.
vs.		
The City and County of San Francisco,	Defendant.	} Byrne & Freelon, <i>Attorneys for Plaintiff.</i> No. 4,081.

Action to quiet title to part of 50-vara Lot No. 396, as laid

down on the Official Map of the City and County of San Francisco. Action begun June 13, 1868. Answer filed July 7, 1868. Case has been referred to Court Commissioner and is now being tried.

Frederick L. Castle, vs. The City and County of San Francisco, Defendant.	}	Plaintiff, T. B. Bishop, <i>Attorney for Plaintiff.</i> No. 14,509. Defendant.	4th District Court.
---	---	--	---------------------

Action to quiet title to a piece of land commencing at a point on the northeasterly side of Sixth street, distant 110 feet northwesterly from the northerly corner of Sixth and Brannan streets; thence northwesterly along said northeasterly line of Sixth street 95 feet, and being a portion of 100-vara Lot No. 312. Action begun July 23, 1868. Case ready for trial.

Charles Carroll Wilson, vs. The City and County of San Francisco, Defendant.	}	Plaintiff, Eugene B. Drake, <i>Attorney for Plaintiff.</i> No. 14,442. Defendant.	4th District Court.
--	---	---	---------------------

Action to quiet title to certain premises, being 50-vara Lot No. 5, in Block No. 199, of the Western Addition. Action begun June 25, 1868. Answer to be filed on five days' notice.

The City and County of San Francisco,	} Plaintiff,	4th District Court.
vs.		Parker & McAllister, <i>Attorneys for Defendants.</i>
Yankee Brown et als.,	} Defendants.	No. 14,179.

Ejectment by the city to recover a portion of land lying in the City and County of San Francisco, and described as follows: Commencing at a point distant 152 feet 6 inches southeasterly from the southwesterly corner of Jackson and East streets, which point is the northwesterly corner of Oregon and East streets; thence running westerly along the northerly line of Oregon street 75 feet; thence southeasterly on a line parallel with the westerly line of East street to the southerly line of Oregon street; thence easterly and along said southerly line of Oregon street 75 feet to the southwesterly corner of Oregon and East streets, and thence northwesterly to the place of beginning. Action begun April 17, 1868. In this case separate answers have been filed by the defendants, and also a demurrer on the part of one of the defendants. Case not yet ready for trial.

Joseph S. Paxson,	} Plaintiff,	Supreme Court, State of Cali- fornia.
vs.		Haight & Temple, <i>Attorneys for Plaintiff.</i>
Henry M. Hale, Auditor of the City and County of San Fran- cisco,	} Defendant.	No.

This action is one of mandamus in order to compel certain moneys claimed to be due the Mayor, Treasurer and Controller (Auditor) of the City and County of San Francisco, on the ground that they have been created a Board of Fund Commissioners. The sum involved in this particular action is that of

\$2,400, but in reality it is the sum of \$30,000, for if the suit is maintained it will result in that charge against the city. Suit begun. Case has been argued, and the briefs submitted on both sides, and awaits the judgment of the Court.

<p>The People of the State of California upon the relation of John Ferguson,</p> <p style="text-align: right;">Applicant,</p> <p style="text-align: center;">vs.</p> <p>The Board of Supervisors of the City and County of San Francisco,</p> <p style="text-align: right;">Respondent.</p>	}	<p>Supreme Court, State of California.</p> <p>Wilson & Crittenden, <i>Counsel for Applicant.</i></p> <p>Felton & Merrill, with City Attorney.</p> <p>No.</p>
---	---	--

This is an application for a mandamus to compel the Board of Supervisors to grade Second street and cut through Rincon Hill. The case is before the Supreme Court. Argument has been made and briefs filed.

<p>The City and County of San Francisco,</p> <p style="text-align: right;">Plaintiff,</p> <p style="text-align: center;">vs.</p> <p>Thomas Mooney and 600 other Defendants,</p> <p style="text-align: right;">Defendants.</p>	}	<p>15th District Court.</p> <p>No. 3,756.</p>
---	---	---

Ejectment suit brought by the city for every part and portion of land situate in the said city and county. Description in the complaint is taken from the statute which defines the boundaries of the City and County of San Francisco. Complaint filed April 16, 1868. The suit is brought merely to avoid any doubts as to Statute of Limitations. Summons not yet issued.

The eight suits that follow are familiarly termed "The Newspaper Suits." The history of these actions is briefly this. At the time of the assassination of the late President Lincoln, a mob caused the destruction of various newspaper offices, their presses, type, etc. My opinion, rendered shortly after coming into office, was, that no remedy existed at common law, and in the absence of express statute for such injury, no damage could be recovered. The Legislature of last winter thereupon passed a law, copied from the Statute of 1855 of the State of New York, whereby it was made lawful to institute actions of this character and extending it back so as to include the sufferers of 1865. (Vide Statutes of 1867-8, page 418, *et seq.*) These actions have, therefore, been commenced in view of that statute, and the aggregate damage thus far claimed is some \$200,000. All the suits have not as yet, however, been brought; all that are at issue will be tried in the coming month of November. I number the eight suits in their order:

(1) John Fine,	Plaintiff,	} 4th District Court.
vs.		
The City and County of San Francisco,	Defendant. }	R. F. Ryan,
		<i>Attorney for Plaintiff.</i>
		No. 14,327.

Action begun May 5, 1868. Claim \$2,000. Demurrer filed. Case argued and submitted. Decision of Court rendered in favor of the city sustaining the demurrer, on the ground that the plaintiff did not show by his complaint that he had suffered any injury or damage as to property; for that which plaintiff sued was destruction of his route, he being a newspaper carrier.

(2) Beriah Brown,	Plaintiff,	}	4th District Court.
vs.			Haight, Temple & Felton,
The City and County of San Francisco,			<i>Attorneys for Plaintiff.</i>
Defendant.			No. 14,452.

Action begun July 2, 1868. Claim, \$50,000. Motion in this case to strike out the greater portion of the plaintiff's complaint. A determination of such motion in favor of the city will be to put an end to the plaintiff's claim. Motion has not yet been argued, for the reason that plaintiff's counsel have been engaged in the trial of other causes at each time the motion has been called up. I have to say that when the same is reached, which will be shortly, and presented to the Court, that I have no doubt that judgment will be given allowing the motion, and in favor of the city.

In the six cases, demurrers have been filed and overruled by the Court, and exceptions taken by the defendant. Answers have since been filed in all the cases. They are now ready for trial. Their titles are as follows:

(3) Fred. Marriott,	Plaintiff.	}	4th District Court.
vs.			Pixley & Smith,
The City and County of San Francisco,			<i>Attorneys for Plaintiff.</i>
Defendant.			No. 14,183.

Action begun April 17, 1868. Claim, \$19,097 69.

- (4) Jeffrey Nunan, }
 Plaintiff, } 4th District Court.
 vs. } R. F. Ryan,
 } *Attorney for Plaintiff.*
 The City and County of San }
 Francisco, } No. 14,143.
 Defendant. }
- Action begun April 15, 1868. Claim, \$13,000.
-

- (5) Zach Montgomery et al., }
 Plaintiffs, } 4th District Court.
 vs. } Pixley & Smith,
 } *Attorneys for Plaintiffs.*
 The City and County of San }
 Francisco, } No. 14,339.
 Defendant. }
- Action begun May 11, 1868. Claim, \$18,862 15.
-

- (6) T. A. Brady, }
 Plaintiff, } 4th District Court.
 vs. } H. E. Highton,
 } *Attorney for Plaintiff.*
 The City and County of San }
 Francisco, } No. 14,128.
 Defendant. }
- Action begun April 11, 1868. Claim, \$13,499.

(7) I. B. J. Shannon,	Plaintiff,	} 4th District Court.
vs.		} Jno. R. Jarboe and Geo. W.
The City and County of San Francisco,	Defendant.	} Tyler, <i>Attorneys for Plaintiff.</i>
		} No. 14,323.

Action begun April 28, 1868. Claim, \$25,000.

(8) E. Derbec,	Plaintiff,	} 4th District Court.
vs.		} N. Hubert,
The City and County of San Francisco,	Defendant.	} <i>Attorney for Plaintiff.</i>
		} No. 14,404.

Action begun June 10, 1868. Claim, \$50,000.

Jean P. Manciet,	Plaintiff,	} 15th District Court.
vs.		} Campbell, Fox & Campbell,
The City and County of San Francisco,	Defendant.	} <i>Attorneys for Plaintiff.</i>
		} No. 4,164.

This action was brought to obtain a decree of the Court adjudging that plaintiff was the owner of certain premises situated on Kearny street, in the city of San Francisco, known as the "Hotel de France," and particularly described in the complaint; and that plaintiff is entitled to have and receive the sum of \$3,381 63 as for recompense for his premises, taken in for the widening of Kearny street. Action begun July 22, 1868. Demurrer filed.

PART SECOND.

ACTION HAD IN CASES AT ISSUE PRIOR TO DATE OF LAST REPORT.

E. E. White,	} Plaintiff,	} 4th District Court.
vs.		
The Board of Education of the City and County of San Fran- cisco,	} Defendants.	} Burnett & Burnett & T. J. Ber- gin, <i>Attorney for Plaintiff.</i> No. 13,476.

Action in ejectment, to recover a portion of the Tehama street School Lot, with the building thereon. The portion sought to be recovered out of the lot was 28 by 75 feet. The suit was begun May 7, 1867. Answer filed June 11, 1867. The case has been tried and judgment recovered in favor of the Defendant in the 4th District Court. The Plaintiff appealed to the Supreme Court, where he has been defeated, and judgment in full rendered in favor of the City.

Spring Valley Water Works,	} Plaintiff,	} 15th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	} Eugene Lies, <i>Attorney for Plaintiff.</i> No. 2,825.

Suit to determine the right of the City to water for the purpose of irrigating Plazas, and as to what particular purpose or purposes the water must be applied, that the City may obtain the same free of charge. Action begun May 4, 1867. Answer filed June 14, 1867. Case has been tried and judgment rendered in favor of the City.

E. V. Sutter,	} Plaintiffs,	12th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	E. A. Lawrence and J. McM. Shafter,
		<i>Attorneys for Plaintiff.</i>
		No. 13,398.

Action for partition of lands, commencing at a point on the southeast side of Folsom street, 275 feet south of Sixth street; thence running southerly on Folsom street 275 feet; thence at right angles southeasterly 550 feet. Action begun May 3, 1867. Since the date of last Report the demurrer has been filed in this case, and after argument the whole matter has been determined in favor of the City. Plaintiff has appealed to the Supreme Court. Argument has been made for the City before that Court and briefs filed.

George McKinstry,	} Plaintiff,	12th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	E. A. Lawrence and J. McM. Shafter,
		<i>Attorneys for Plaintiff.</i>
		No. 13,411.

This action is of the same nature and character as the last. Same course has been taken with it, and the same result—judgment in favor of the City—arrived at. Case abides the appeal in Sutter vs. City, *supra*.

Elizabeth Douglass,	} Plaintiff,	15th District Court.
vs.		
Robert Murdock and The City and County of San Francisco,	} Defendants.	Samuel H. Henry, <i>Attorney for Plaintiff.</i>
		No. 2,855.

Action to quiet title to City Slip Lot No. 43, corner of Commercial and Drumm streets. Suit begun May 16, 1867. Answer filed June 20, 1867. This suit has been brought on for trial, but on account of the conduct of the Plaintiff the Court has ordered all proceedings on her part to be stayed until she comply with certain requests made of record by the Defendants.

The City and County of San Francisco,	} Plaintiff,	12th District Court.
vs.		
Martin Fulda et al.,	} Defendants.	Q. M. Sewell, <i>Attorney for Defendants.</i>
		No. 12,312.

At the date of last report judgment had been obtained in favor of the City. Action, that of ejectment for City Slip Lot No. 43. The Defendants have appealed to the Supreme Court. Case has there been submitted on briefs filed.

Joseph Frank,	} Plaintiff,	15th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	George & Cary,
		No. 2,959.

Action to quiet title. Commencing at a point on the southerly line of Commercial street, distant 481 feet 8 inches easterly from the corner formed by the intersection of said southerly line of Commercial street with the easterly line of Drumm street; thence easterly along said southerly line of Commercial street 38 feet 4 inches to the corner formed by the intersection of said southerly line of Commercial street with the westerly line of East street; thence at right angles southerly 59 feet 9 inches; thence at right angles northerly 59 feet 9 inches to said southerly line of Commercial street and point of commencement. Suit begun June 19, 1867. Has been tried and judgment rendered in favor of Plaintiff.

Michael Greeny,	} Plaintiff,	4th District Court.
vs.		
Daniel Callaghan et als.,	} Defendants.	Charles H. Parker,
		No. 13,505.

Action to recover the sum of \$768 70, alleged to be due Plaintiff from the said City. Action begun May 30, 1867. Demurrer filed July 10, 1867. Demurrer has been overruled, and the City has appealed to the Supreme Court. Argument has been made and briefs filed. Case awaits decision of that tribunal.

Jesse L. Wetmore, vs. The City and County of San Francisco, Defendant.	Plaintiff, Defendant.	} 12th District Court. B. S. Brooks, <i>Attorney for Plaintiff.</i> Felton, with City Attorney, <i>for Defendant.</i> No. 1,176.
--	--------------------------------------	---

This action was begun fifteen years ago, and is for the recovery of nearly \$200,000, principal and interest, for street work alleged to have been done in 1853, for the City by the Plaintiff. A branch of this case was tried some years ago in the case of Lucas, Turner & Co. against the City; Lucas, Turner & Co. being the assignees of a certain portion of the contract said to exist between the City and Wetmore. The amount assigned was \$47,000—principal—and interest added made the whole sum due Lucas, Turner & Co. \$83,000, which, by appeal and delay in settlement, reached the sum of \$134,000. A judgment in that case for that amount was recovered by Lucas & Co. against the City, final action in which is reported in volume 28 of California Supreme Court Reports, page 591, October Term, 1865. The present case has been tried and submitted; printed arguments have been filed on both sides, and the case awaits the decision of the Judge of the 12th District Court. I have myself taken the greatest pains with this case in all its detail, and have had the valuable aid of J. B. Felton, Esq., in the conduct of the same before the Court.

D. P. Belknap, <i>Administrator,</i> <i>etc.</i> , of the estate of D. C. Broderick, deceased, vs. Charles Witney et al., Defendants.	Plaintiff, Defendants.	} 12th District Court. Wm. Loewy, <i>Attorney for Plaintiff.</i> No. 7,470.
--	-----------------------------------	--

D. P. Belknap, <i>Administrator</i> ,	} 12th District Court.
Plaintiff,	
vs.	} Wm. Loewy,
H. W. Byington et al.,	} No. 6,639.
Defendants.	

These two cases are fully noticed by me in my last Report, *vide* Municipal Reports for 1866-7, page 188. The decision of the Court below has been reversed by the Supreme Court, and the cases are to be heard *de novo*.

Joseph Emery, Wm. A. Piper and The City and County of San Francisco,	} Circuit Court of the United States.
Plaintiffs,	
vs.	} Doyle & Barber, with City At- torney,
Pardon G. Seabury, Ward M. Parker and Henry B. Gifford,	} Williams & Thornton,
Defendants.	

This is a suit to enjoin the Defendants from enforcing a certain judgment rendered in the Court on the 14th day of August, 1867, in favor of Seabury, Parker and Gifford, and against Edward Field (Plaintiffs' grantors) and others, for the possession of Water Lot 458 in San Francisco. The City and County is the owner by conveyance from William A. Piper, one of the Plaintiffs, of a small street, portion of the premises covered by said judgment. Bill filed June 5th, 1868.

Juanita Pimental,	} Plaintiff,	4th District Court.
vs.		
The City and County of San Francisco,	} Defendant.	Patterson, Wallace & Stow, <i>Attorney for Plaintiff.</i>
		No.

This is one of the City Slip cases. It was, originally commenced in the 12th District Court, and afterwards transferred to the 4th District Court, in which latter Court judgment was rendered against the City for the whole amount claimed by Plaintiff. An appeal was taken to the Supreme Court, where judgment was reversed and a new trial ordered. Case reported in 21 California, 352. The case was re-tried in the 4th District Court, and judgment again rendered against the City. A new trial was afterwards granted, and, on the third trial of the case, judgment was rendered in favor of the City. This last decision was rendered in the latter part of July. It is believed that should an appeal be taken, the last judgment will be affirmed.

CONCLUSION.

In conclusion, I am happy to state that during the past fiscal year covered by this Report, and, I may add, during the fiscal year next preceding, reviewed in my Report of 1866-7, no judgment of any kind has been recovered against the City and County of San Francisco, except two or three in suits to quiet title, in which I would have entered disclaimers at the outset, if I had not deemed it best that in all actions the Plaintiff should prove his case in open Court, no matter how clear his claim might be; and one judgment for money, for the sum of \$540, in the case of McKewen vs. The City, which was so just and equitable that I refused to take advantage of technicalities in order to defeat the action. On the other hand, during said period of time all suits brought by the city, in so far as they have been determined, have resulted in judgment in her favor.

In neither of my reports have I made any mention of cases in the Justices' Courts, or County Court, for the reason that they have been few, the amounts involved small, and all of them the City has gained. If she had been defeated I would have noticed them.

Responsible as has been the conduct of the City litigation, I have to say that I do not consider it more important than the "advisory" duty that rests with the Counsel for the Corporation. Various circumstances have contributed to render such duty peculiarly difficult during the past eighteen months, but in what manner the same has been performed there is no occasion here to speak, for no one is better qualified to judge in regard thereto than your honorable body.

I have the honor to be, very respectfully,

HORACE M. HASTINGS,
City and County Attorney and Counselor.

REPORT

OF THE

BOARD OF FIRE COMMISSIONERS.

FIRE COMMISSIONERS' OFFICE,
San Francisco, August 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In accordance with Resolution No. 8,566, adopted by your honorable body, June 29th, 1868, the Board of Fire Commissioners herewith submit their Report, showing the operations and condition of the Fire Department of the City and County of San Francisco, for the fiscal year ending June 30th, 1868.

At a meeting of the Board of Supervisors, held on the evening of September 9th, 1867, Supervisor P. H. Daly was elected to succeed Mr. Jacob S. Dimon, whose term of office expired December 3d, 1867.

Mr. Daly took his seat in this Board on December 3d, and deceased on the 10th of the same month, having been present at only one meeting of the Board.

On the 13th of January, 1868, the Board of Supervisors elected Mr. James H. Reynolds a Fire Commissioner, to take the place made vacant by the decease of Mr. Daly.

The Board at present consists of Erastus N. Torrey, John C. Merrill, Benjamin H. Freeman, John V. McElwee and James H. Reynolds.

Since the date of our last Report, an Amendatory Act to the Organic Law of the Fire Department was passed by the Legislature, and received the Executive approval on the ninth (9th) day of March of the present year, and has been in full force and effect since that time, as follows:

AN ACT to amend an Act entitled "An Act to establish a Paid Fire Department for the City and County of San Francisco," approved March 2, 1866.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section four (4) of the Act entitled "An Act to establish a Paid Fire Department for the City and County of San Francisco," approved March 2, 1866, is amended to read as follows:

Section 4. The Fire Department of the City and County of San Francisco shall consist of one Chief Engineer, two Assistant Engineers, one Clerk to the Board of Fire Commissioners and Chief Engineer, who shall give a bond in the sum of Ten Thousand Dollars, with two or more sureties, for the faithful performance of his duties; one Corporation Yard-Keeper, seven Steam Fire Engine Companies, to consist each of one Foreman, one Engineer, one Driver, one Fireman, and eight Horsemen, one of whom shall act as Assistant Foreman, and one as Clerk, which Clerk shall receive five dollars per month extra. Two Hook and Ladder Companies, to consist each of one Foreman, one Driver, one Tillerman, and twelve Hook and Ladder men, one of whom shall act as Assistant Foreman, and one as Clerk; said Clerk shall receive five dollars per month extra; and five Hose Companies, to consist each of one Foreman, one Driver, one Steward, and six Hosemen, one of whom shall act as Assistant Foreman, and one as Clerk, which Clerk shall receive five dollars per month extra. Each Steam Fire Engine Company shall have one Steam Fire Engine, one Hose Reel, one thousand feet of Hose, and not more than three horses. Each Hook and Ladder Company shall have one Truck with Hooks and Ladders, and necessary and proper appurtenances and appliances and two horses. Each Hose Company shall have one Hose Cart and Reel, with one thousand feet of Hose, and one horse. But the Board of Supervisors shall have power to increase or diminish the number of Fire Companies, as the public safety of the city and county may require, and to purchase the necessary steam engines, apparatus and appurtenances therefor; and they may organize such Volunteer Companies for outside districts as they may deem necessary, and to place apparatus in their keeping; but no member of any such Volunteer Company shall receive any salary for such service from the City and County. Said Volunteer Companies shall be subject to the Rules and Regulations governing the Fire Department.

SEC. TWO. Section Six of said Act is hereby amended to read as follows:

Section 6. The salaries of the officers and men comprising said Fire Department shall not exceed the following sums, to be paid monthly: Chief En-

gineer, two hundred and fifty dollars per month; two Assistant Engineers, one hundred and forty dollars per month, each; one Clerk to the Board of Fire Commissioners and Chief Engineer, one hundred and thirty dollars per month; Superintendent of Corporation Yard, seventy-five dollars per month; each Foreman, forty-five dollars per month; each Engineer, one hundred and forty dollars per month; each Driver, seventy-five dollars per month; each Fireman, seventy-five dollars per month; each Tillerman, seventy-five dollars per month; each Steward, sixty-five dollars per month; each Hose and Hook and Ladder Man, thirty-five dollars per month. All the paid members of the Fire Department, except the Foreman, Assistant Foremen, Clerk, Hosemen, and Hook and Ladder Men, shall give their undivided attention to their respective duties under this Act; the Foreman, Assistant Foremen, Clerk, and Hosemen, and Hook and Ladder Men, shall perform such duties as may be prescribed from time to time by the Board of Fire Commissioners.

SEC. Three. Section eight of the said Act is amended so as to read as follows:

Section 8. The said Board of Supervisors are hereby authorized to appropriate, allow and order paid, annually, out of the General Fund the salaries hereinbefore specified and allowed; twenty-five thousand dollars per annum for running expenses, horse feed, repairs to apparatus, and other expenses of the said Department; and three thousand dollars, for the purchase of three Horses, one Hose, Reel and Harness; and ten thousand dollars annually for the purchase of Hose and Steam Fire Engines; also a sum, not exceeding twenty thousand dollars annually, in lieu of the amount now allowed by law for the construction and erection of Hydrants and Cisterns. And the Board of Supervisors shall have power to advertise for proposals, and make contracts for the construction of said Cisterns, and the erection of said Hydrants; and they are hereby empowered to locate the same.

SEC. Four. This Act shall take effect and be in force from and after its passage.

C. T. RYLAND,
Speaker of the Assembly.

WM. HOLDEN,
President of the Senate.

Approved March 9, 1868.

H. H. HAIGHT,
Governor of the State of California.

H. L. NICHOLS,
Secretary of State.

[SEAL.]

This Department at present consists of seven (7) Steam Fire Engines, twelve (12) Horse Hose Reels, two (2) Hook and Ladder Trucks, thirty-one (31) Horses, with the necessary equipments.

The number of Members to which the Department is now enti-

tled is one hundred and fifty-nine (159), exclusive of the Board of Engineers and Clerk of the Board of Fire Commissioners, and divided as follows: Seven (7) Enginemen, seven (7) Firemen, fourteen (14) Drivers, five (5) Stewards, two (2) Tillermen, and one (1) Corporation Yard-keeper, who are permanently employed; and one hundred and twenty-three (123) Members who do fire duty only when alarmed for that purpose.

These, together with four (4) men employed by your honorable body in the Corporation Yard, one (1) Superintendent of Steamers, one (1) Assistant Superintendent, one (1) Hydrant Man, and one (1) Drayman, constitute the entire force of the Fire Department.

Referring you to the Report of the Chief Engineer, herewith accompanying, for details of the transactions and workings of the Department for the fiscal year ending June 30th, 1868,

We are, very respectfully,

ERASTUS N. TORREY,
JOHN C. MERRILL,
BENJAMIN H. FREEMAN,
JOHN V. McELWEE,
JAMES H. REYNOLDS,
Board of Fire Commissioners.

REPORT OF THE CHIEF ENGINEER
OF THE
SAN FRANCISCO FIRE DEPARTMENT.

To the Honorable Board of Fire Commissioners:

GENTLEMEN—In response to the Resolution your honorable body adopted July 17th, 1868, I have the honor to hereby transmit the following Report of the condition, operations and wants of the San Francisco Steam Fire Department for the fiscal year ending June 30th, 1868.

As a matter of information, a portion of this Report will be a repetition of the Annual Report received by your honorable body December 3d, 1867, of which the Honorable Board of Supervisors have no official knowledge.

The Department is in excellent condition, and it is very gratifying to me to certify to the good feeling and harmony that exists among its members. Although the past year has been one of unusual trial and sacrifice to the members, yet in the discharge of their arduous duties they have exhibited that courage, zeal and devotion that has ever characterized the Firemen of San Francisco. It is this, and the respect and strict obedience to the rules and regulations governing them, that has given the Department the reputation it has acquired for promptness, discipline and efficiency, to which it is eminently entitled.

It cannot, however, be denied that in some instances members of the Department have been influenced to a violation of the rules and regulations, by *supposed friends* of the Department, for

political purposes, thereby creating disturbing causes which affected their former efficiency and tranquility; but, I am pleased to say, that such violations have been met with well-merited and prompt rebuke at your hands—and I improve the present opportunity to give expression to the opinion that if politics, of whatever name or nature, be allowed in any building now or hereafter to be occupied for Fire Department purposes, it will prove an element of self-destruction to this important branch of our municipal government, which you have so ably conducted and directed, from its inception, to the high and useful position it has at this time attained. But, gentlemen, your past history is a sufficient guarantee that you will resist any encroachments that will tend to impair the usefulness or lessen the dignity of the organization of which we are so justly proud.

In my Annual Report of December 3d, 1867, and Monthly Reports to this date, I have communicated to your honorable body all the wants and necessities of the Department, and, I believe, all have received your approval, and may, before this Report is acted on by you, be carried into effect. The extra second first-class Engine and Hose Cart, extra Tubes for Boilers, extra Hydrant Suctions, and extra valute springs for Engines, have been ordered and may shortly be expected to arrive. The other necessary material reported to you but not as yet ordered, I learn are before the respective committees of the Board of Supervisors awaiting their authorization; they are as follows, viz: Three new Houses for Hose Companies One, Two and Five, the last named being recently located in Hayes valley. Two of the above named companies are now occupying houses for which the city is paying a monthly rent, and in this connection allow me to remind your honorable body that there is now remaining in the City Treasury sixty thousand (\$60,000) dollars or upwards for the purchase of lots and the erection of houses for the Fire Department, *and none other*; and I would respectfully suggest that it would be more economical for the city to own its houses and lots for the use of this Department.

The other wants mentioned were a brick stable and workshop at the Corporation Yard, also badges for each member, beds, bedding and seats for each company. The last two items, I have been informed, but not officially, that the Board of Supervisors

disapprove of furnishing them at the public expense; if this be so, I trust your honorable body will exert your influence for the reconsideration of this matter by the Honorable Board of Supervisors, for I believe it is just and necessary that at least the Engineman, Fireman and Driver should be provided with this necessary furniture, and at the expense of the city. Many reasons could be given in support of this recommendation, but two may suffice: First—Cities having a Paid Fire Department, without exception, have furnished the supplies asked for. Second—That your honorable body may control and regulate the sanitary condition of the houses of the Department.

All of the above recommendations were more fully set forth in the several communications from me to your honorable body during the past year, and I trust that they will be carried into effect, for if they were necessary then they are doubly so now.

I also at this time recommend that a third-class Amoskeag Steam Fire Engine be purchased and placed in charge of Hose Company No. Three (3) on Pacific street, near Jones. The expense of changing the Hose Company to an Engine Company will be trifling, in comparison to the benefit to be derived. No Hose Cart will be required, and but three (3) men—Engineman and two (2) Extramen—to complete the change asked for. Should this recommendation meet your approval and be effected, it will carry security to the feelings of the residents of that neighborhood, and we shall be able to overcome the difficulties caused by the light pressure in the water company's pipes in that vicinity, and reach all buildings in that elevated portion of the city. I would further suggest that the apparatus mentioned be kept in active service on the following described lines: Gough street to Pine, to Stockton, to Broadway, to Montgomery, to the Bay—except in cases of emergency that may arise. An early consideration of this recommendation is respectfully solicited, as at best you will not be able to accomplish the desired result before the commencement of the coming year.

FORCE AND CONDITION OF THE DEPARTMENT.

The Department at the present time consists of the following, viz: One (1) Chief Engineer, two (2) Assistant Engineers, and

one hundred and sixty-three (163) men, which includes Engine-men, Drivers, Firemen, Stewards, Tillermen, Officers of Companies—Superintendent and Assistant Superintendent of Steamers—Corporation Yard-keeper, Hydrant Man, and Drayman.

The apparatus consists of seven (7) Amoskeag Steam Fire Engines and Hose Tenders, two (2) Hook and Ladder Trucks, three (3) two-wheel Hose Carts, and two (2) four-wheel Hose Carts.

There has been added to the force of the Department since my Report for the fiscal year of 1867, two (2) second first-class Amoskeag Steam Fire Engines and twelve (12) men; one Engine is located on Sixteenth street (Mission), in place of Hose Company No. Five (5) removed to Hayes valley, the other is in charge of Engine Company No. Six (6) located on Sixth street, in place of what is better known as Monumental Steamer No. Six (6), which had become unreliable, and is now laid up with the old Steamer Pennsylvania No. Twelve (12) in the Corporation Yard, both of which I would recommend to be sold. The extra Amoskeag Steam Fire Engine ordered and daily expected to arrive, will, when received, add strength to our force in its *strongest sense*; giving us, for the first time, a reliable extra or relief Steamer in case of accident or breakage to either of the others.

All our Steamers and Hose Carts are in excellent working condition, and without doubt are in many respects better than when received from the city, for the reason that when a defect presented itself or an improvement was needed, it has been promptly attended to.

I congratulate you, gentlemen, on the possession and success of the two new Steamers last purchased. They are all that could be desired. The purchaser is entitled to thanks for his wisdom and good judgment. I hope the new one may prove as satisfactory and useful.

HOSE.

The accompanying statistics will show the amount of Hose belonging to the city and the manner in which it has been distributed to the various companies. There is now in the Corporation Yard and upon the reels of the different companies about eighteen thousand nine hundred (18,900) feet, of which twelve

thousand eight hundred and fifty (12,850) feet is in good order; four thousand two hundred and fifty (4,250) feet is in an indifferent condition, and two thousand (2,000) feet is worthless.

I regret exceedingly to be obliged to report that the one thousand (1,000) feet of three-ply gum Hose manufactured by Torrey & Twombly, of New York city, and purchased by the Honorable Board of Supervisors, has, in the short period of seven (7) months, become entirely worthless, notwithstanding the precautions adopted for its preservation by placing it on the reel immediately after use, where it would have the air and become dry. This style of Hose, not sweating when in use and requiring no oil, was looked upon with favor by every person connected with the Department. The cause of its rapid decay I am unable to solve. Substitutes of various kinds for leather have been introduced and tested from time to time, but I am of opinion that a good quality of single-rivited leather Hose is the most serviceable of any now in use. I would, therefore, recommend that one thousand (1,000) feet of leather Hose be purchased as soon as possible, to take the place of the gum Hose above mentioned, and now condemned and out of service.

With the new Hose asked for and that in the possession of the Department, and proper care and management exercised, we will have a sufficient quantity to last us for another year at least.

HORSES.

The number of Horses that have been purchased for the use of the Department since its organization is thirty-eight (38); the number now belonging to the Department is thirty-five (35), of which thirty (30) are required for the conveyance of apparatus to fires, one (1) for use in the dray of the Department, and the remaining four (4) are kept as spare horses, to be substituted for any that may become sick or disabled in the several companies of the Fire Department.

The number of Horses which have received medical treatment is nineteen (19), of which thirteen (13) were entirely restored to health and service, partially cured six (6); one died from the effects of a severe burning on the night of February 23d, 1868, at a fire on Valparaiso street, caused by the spring on reel be-

coming disarranged and projecting in such a manner as to stop its revolution, which threw the horse off his feet immediately opposite the fire and when it was at its height. The Driver and several other members of the company were very severely burned in their efforts to rescue him from his perilous position, and, when released, was found to be so severely injured that after a few days I was advised by the veterinary surgeon in attendance that there was no hopes of his recovery, and I ordered him to be killed, which was done. Three (3) of those partially cured it was deemed advisable to dispose of. The average number of horses requiring treatment has been about fifty (50) per cent. It is our custom as soon as a horse is unable to work, to send him to the stable at the Corporation Yard for treatment, and a spare horse put in his place. As soon as he is sufficiently recovered he is returned to the company to which he belongs. I do not profess to have more than ordinary knowledge of the horse or the diseases peculiar to that animal, but feel certain that, considering the dangerous and laborious nature of the duties required of our horses, the heats and colds they are constantly subject to, the ascending and descending the hills and the unevenness of the streets of our city, I think the health and condition of our horses will compare favorably with the same number in any employment, and that the proportion of sickness and death among them is exceedingly small.

LOSSES BY FIRE.

The loss by fire during the past year amounted to the sum of \$626,996 95. This amount, large as it appears at the first glance, must, upon reflection, be considered small in proportion to the number of fires which have occurred. During the year just closed there has been a large increase of fires in most of the cities throughout our country, but *we* can congratulate *ourselves* that no extended conflagrations have occurred, and that the loss in our city has been scarcely above the average of former years. The above loss, to a great extent, was caused by the use of Hose which was not of sufficient strength to convey water to the desired point at the breaking out of the fires. Another serious cause, in several instances, is the delay in giving the alarm, thus allowing

fires to gain headway. When property owners in the vicinity of fires are questioned as to the cause of the delay, they answer—we did not know where the alarm boxes are located; and in many cases they say they did not think it was their business, they thought it was the Firemen's business, who are paid for it. The last, however, are exceptions, and occurred early in the organization of our Department; but even now there are many excellent and worthy citizens who do not take the time necessary to inform themselves of the location of the Fire Alarm boxes. This is wrong and should be remedied.

I refer you to the tabular statement annexed to this Report, in which will be found a detailed account of the number of fires and the losses in each month. And I am pleased to say that since the organization of the Paid Fire Department not one malicious false alarm has been given. The annexed table will also show more fires by incendiarism during the last year than any preceding year since the settlement of our city. But, with all the disadvantages we have labored under, I have no apology to offer for the services of the Department at fires. The work performed speaks for itself.

HYDRANTS.

A list of Hydrants, with their locations, will be found annexed to this Report. Since the organization of the new Fire Department, Hydrants have been set in localities where they are most needed. Improvements in the city are extending so rapidly in all directions that the number of Hydrants allowed annually (50) is not sufficient to meet the wants of the Department in the growing districts of the city; in fact, the tax-payers in several districts have made such urgent demands that one hundred Hydrants will be required for the coming year; and, in my judgment, they should be provided. Another reason why we should have an increase in the number of Hydrants is, that the steamers can be concentrated in closer proximity to fires, thereby saving a great deal in the wear of Hose by using short lines, instead of the long lines necessarily used at present in consequence of the Hydrants being placed so far apart. Again, many of the Hydrants in use must sooner or later be raised or lowered to conform to the

grades; and, in localities where sidewalks are widened in accordance with law, Hydrants must be re-set to the curb. These constant changes are expensive, costing at least thirty (\$30) dollars for every alteration, and often double that amount. During the past year not less than twenty (20) Hydrants have been broken by the supposed carelessness of drivers of vehicles; and, notwithstanding diligent inquiry has been made, the whereabouts of said parties, or any information tending to secure their arrest, has in every case been unsuccessful. It is also a constant practice of builders and others to blockade Hydrants with building material and merchandise of various descriptions. This is a daily occurrence, although in violation of an Ordinance of the City, which provides that Police Officers shall see that no such obstructions shall take place; and, although their attention has been frequently called to this Ordinance, not one arrest has yet been made for this violation of the laws. If the Chief of Police will use his power and have at least one person arrested and punished for either of the above misdemeanors, I think this growing evil will cease.

CISTERNs.

During the past year a contract for the repair of Cisterns in a leaky condition was made with Mr. Mulrain. The work is progressing, but I cannot at this time speak definitely as to the character of the work. In a former communication to your honorable body, I recommended the building of eight (8) new Cisterns with a capacity of one hundred thousand (100,000) gallons each, at certain localities, seven (7) of which have been finished, and they overrun the capacity of the figures mentioned in the contract. The contractor has done his work well, and given the city a substantial and permanent Cistern in each. It is my duty at this time to call your attention to portions of our city still destitute of the necessary supply of water for fire purposes, and I recommend that six (6) more Cisterns of the same capacity as those just completed be ordered and constructed at the following places, viz: Folsom and Nineteenth streets, Park and Columbia streets, Mission and Park streets, Hyde and Union streets, Kearny and Lombard streets, and California and Mason streets. Many

of these places the water company have not yet laid their pipes; the others are at elevated points where Hydrants do not give a sufficient supply of water for fire purposes. These facilities should be immediately provided, thereby relieving the anxiety of citizens of the above mentioned neighborhoods.

FIRE ALARM TELEGRAPH.

The Telegraph is so complete in all its details that it is unnecessary for me on the present occasion to offer any suggestions in addition to those mentioned in my Report for the fiscal year ending June 30, 1867 (page 15). I would not again refer to this matter, but I believe it would be an improvement, and hope it will be carried into effect.

NEW HOUSES.

I have in another portion of this Report alluded to the absolute necessity of furnishing Hose Companies Nos. One (1), Two (2) and Five (5) with suitable buildings for their use. The first two named are in such bad condition that the health of the men is seriously endangered, and they are entirely without any of the necessary conveniences. The last named is located in a small barn or shed, and is unfit to be occupied by either man or beast. And I now reiterate what I gave as my opinion to your honorable body one year ago, that all of the Houses and Lots now occupied for Fire Department purposes are too valuable, and should not be located, as they now are, on the principal and business thoroughfares of the city. And at this time I would recommend that as soon as suitable lots can be secured and buildings erected those now in use be disposed of; and that the plan of Engine House adopted by your honorable body, and approved by the honorable Board of Supervisors, be the standard for Houses hereafter to be erected for Fire Department purposes. And I recommend that a sufficient amount be appropriated to whiten the walls and ceilings of the Fire Department Houses, and that the Stables be whitewashed. For sanitary purposes, as well as the preservation of the property, I deem this indispensable.

COST OF MAINTAINING THE FIRE DEPARTMENT.

In a former communication under this head I alluded particularly to the large outlay attending the repairs to apparatus. Under the law, as construed by the City and County Attorney, the Fire and Water Committee of the Board of Supervisors have authority to order such repairs; and in the exercise of that authority have and do order such repairs done at the shop of a carriage maker, much of the needed work cannot be done at such an establishment; if this be so, can the proprietors of one firm employ another to do work without both being paid for the same time and labor. I think not. I do not wish to be understood that my objections to this manner of doing the Department work are because any one particular firm or firms do this work, or that the charges of that or another firm would be more or less. I believe the whole system is wrong and more costly than that contemplated by the framers of the bill creating this Fire Department. For instance, one of my duties as Chief Engineer is, in case of breakage of any of the apparatus, to give an order for such repairs upon the party designated by the Fire and Water Committee of the Board of Supervisors. If said repairs are completed, at the first of every month I am called upon to sign the bill as correct, or, in other words, that said repairs have been made. The cost is a matter over which your honorable body or myself have no control. We have already had one or two tests of this matter, which further substantiates what I have before stated; and I am well aware that your honorable body are powerless to prevent its continuance. With the existing state of affairs it is impossible for me to approximate to the amount expended; and I shall be obliged to refer you to the Auditor for the total expenses of the Fire Department.

I earnestly hope that some remedy may be found to obviate this evil, which is so detrimental to the Department; and to exonerate your honorable body from the only disparaging assertion that can possibly be made, viz.: that the Department is too expensive. Permit me to say that if all interested are really seeking an economical administration of the affairs of the Fire Department they must, in my opinion, see the necessity of establishing a work-shop, where repairs can be performed with economy and

dispatch. As I have several times before urged that a repair shop be established at the Corporation Yard, and that a practical Machinist, a Blacksmith and a Wheelwright be employed, who, together with the Enginemen, who are practical machinists, and the co-operation of the Firemen, could assist in repairing their own Engines when necessary; this would not only be economical, but would make the Enginemen and Firemen familiar with the minutiae of their Engines. The establishment of such a shop, in my judgment, would repay the city in a brief period its outlay for construction.

Every eastern city has become convinced of the necessity and economy of doing their repairing, and have, or are establishing, workshops for that purpose.

BADGES.

I have heretofore called your attention to the necessity of adopting a suitable Badge, to be worn upon the breast by our members at fires and alarms, that they may be distinguished from other citizens, and to prevent interlopers and thieves from intruding upon and robbing those who may be suffering from the calamity of fire in their premises. This should receive your early attention.

A new Bell of sufficient power should be placed at the southwestern portion of the city, that the Firemen of Hayes valley and the Mission districts may be promptly alarmed in case of fire. Our men, who are known as good Firemen, complain bitterly of not hearing alarms in these localities, and we hear the same complaint from property owners who reside in the neighborhoods mentioned, and who have large investments in the city proper. They feel that if alarmed promptly they could assist in saving at least their own property. The insufficiency of sound from the small Bell on the House of Engine Company No. 7, which is struck by hand, is conceded by all. The next nearest Alarm Bell in a direct line, is on the Engine House of Engine No. 6, on Sixth street, near Folsom, sixteen blocks southeast, and this fact must be taken into consideration that during the summer months the prevailing winds blow the sound in an opposite direction. You can judge that the Firemen have but a slight chance of get-

ting an alarm from this quarter. I feel that I cannot be too urgent in this recommendation.

I formerly recommended that one other Assistant Engineer be added to the force to reside in the southwestern part of the city, and although the Legislature overlooked this matter, I see no good reason why I should change my opinion on this subject; and again renew that recommendation.

There is attached to the Corporation Yard a wooden Stable, where the extra and sick and disabled Horses are kept, and there are often from two to five Horses in charge there, and, as I have previously informed you, the whole neighborhood (with the exception of the Corporation building) is composed of the most inflammable material, and should a fire get headway it would scarcely be possible to save Horses, Harness, or any other property on the premises. I also at the same time suggested that a proper and comfortable sleeping-room be fitted up for the Drayman, or some other responsible person, to sleep on the premises. I solicit again your attention to this suggestion.

REVISION OF FIRE ORDINANCES.

Our Fire Ordinances should be revised in many respects, and none are more cognizant of this necessity than the honorable members of the Board of Supervisors. In many instances that are on record in the office of the Chief Engineer, parties have, and are, erecting buildings in violation of these Ordinances, who have been served with the proper notices by the Fire Wardens, but in a few days they are informed by the parties or through the newspapers, that permission has been granted them by the Board of Supervisors. The Fire Wardens have no alternative but submit to that decision. This should not be the case, and I trust that the honorable Board of Supervisors may, through your honorable body, be induced to remodel and extend the fire limits and the Ordinances, and allow the Fire Wardens to carry out the amended laws without any interruption hereafter, thus placing them before the community in their proper sphere as guardians of this particular law; and, in this connection, I earnestly ask that you will use your influence in having all buildings now, or hereafter to be erected, that are set on studs, that each tenement

be closely boarded from the earth to the first flooring sills, thus giving the Firemen some chance of arresting a fire in the building in which it originates. There are many buildings now erected where the unfinished basements are in such condition that a person may walk upright under from ten to fifteen dwellings, and in some cases it may be done from one street to another. When a fire occurs in any of these unfinished places and before its exact location can be ascertained, the fire has spread, and shows itself, perhaps, in the rear of some building quite a distance from its place of origin. All this time the work of destruction is going on underneath other buildings, assisted materially by the great current of air that is naturally created by the fire. To illustrate, allow me to call your attention to one of this class of fires, and one which most of you gentlemen have witnessed. I allude to the fire on Second street, between Market and Mission, which commenced in one of these unfinished basements. The Department were promptly on the ground and supposed the fire had commenced on the first floor. Their efforts were directed to that point, and when we supposed we would soon have the control of the fire, we were suddenly warned by the buildings slightly settling, and by the time the Firemen had reached the awnings in front, three of the buildings came down with a crash. The fall of the buildings was caused solely by the burning of the supporting studs, the upper portions not being at all injured by fire. The lives of the Firemen are endangered in this class of buildings, and many may be lost if proper means are not adopted to compel owners to brick or board closely each and every unfinished basement. With reference to the fire limits, I would suggest that instead of curtailing them, as has been intimated, they should be extended in all directions, except on the hills. No valid reason can be given why the blocks from Market south to Folsom street, should not be declared within the fire limits, and when property owners desire to replace the buildings within this boundary, it should be with safe and substantial material. Unless a law shall be passed extending the fire limits, what encouragement or incentive is offered to the business man, who is being crowded out of the present contracted limits by the growth of trade, to erect suitable buildings in this combustible locality? I answer, there are none: and would ask your influence in favor of the above recommendations.

FIREMEN'S RELIEF FUND.

I congratulate the Department on the establishment of a Fund for the relief of the sick and disabled members, and am proud that the original Board of Fire Commissioners were the recipients of the first donations for this purpose; and, in this connection, take occasion to return the thanks of the members of the Fire Department to the following gentlemen for liberal donations:

Patterson, Wallace & Stow.....	\$300 00
William Sherman.....	100 00
M. Gately.....	100 00
Captain M. R. Roberts.....	25 00

I earnestly trust that our citizens will contribute with their usual liberality to increase and extend the usefulness of this very worthy and meritorious object, so that not only the sick and disabled may be provided for, but the intellectual and moral may be encouraged; and to this end would suggest that so soon as the Fund will admit, a library of five or six hundred volumes be established at the rooms of the Fire Commissioners for the use of the members of the Department, and especially for those whose duties require their constant attendance at their respective houses. It would afford relaxation and improvement, and greatly tend to alienate them from objectionable excitements. The proverb that idleness is the mother of mischief, and that Satan finds some mischief for idle hands, will apply in this case.

Some months since I presented this matter to you, and I believe now, as then, that if carried out it will be promotive of the general public good.

I would respectfully inform you that the Relief Fund is growing, and is sustained now by a small contribution monthly from each member of the Department; and I would again say that this Fund commends itself for a generous support and assistance to all our citizens; and, before quitting this subject, I desire, in behalf of the members of the Fire Department, to express their hearty thanks and appreciation to Stephen T. King, Esq., General Agent of the Brooklyn Life Insurance Company, for his generous tender of a Life Insurance Policy to ten (10) members

of the Fire Department, of \$1,000 each, without any charge for premium; and, although the kind offer of Mr. King has not yet been acted on, for the reason that your honorable body has not yet signified the manner in which the ten (10) favored ones should be chosen, yet we look upon the good will as if the noble deed had been consummated, and I hope that other gentlemen connected with similar institutions will unite with Mr. King in this effort for the advancement of the interests of our members and their families, until each member of our Department is furnished with a similar policy.

I avail myself of this opportunity to return thanks to the Chief of Police and his Force, to the Fire Marshal and his Deputies, for the co-operation and aid rendered me in the discharge of my duties as Chief Engineer; and to the Assistant Engineers, Messrs. Burkes and Ackerson, for their invaluable support and assistance. Gentlemen, receive my grateful thanks. To the honorable Board of Fire Commissioners, whose instrument I have been in carrying out their views during the past year, I feel grateful for the uniform courtesy extended, and for the confidence reposed in me, and for which I return my sincere thanks. And, in conclusion, gentlemen, I scarcely need say that the past year will be an eventful one in the history of the Fire Department, and the future will be more so. For some time to come many obstacles will present themselves to seriously affect the efficiency of its workings. To me is confided the duty of executing your orders, and I shall always endeavor to discharge all the duties incumbent on me with honesty and fidelity, as a man and an officer.

Respectfully submitted,

F. E. R. WHITNEY,
Chief Engineer.

The Engineman, Fireman and Driver are permanently employed. These, together with the Foreman and eight Hosemen, who do duty only when alarmed, constitute the entire company.

This Engine was built by the Amoskeag Manufacturing Company, at Manchester, New Hampshire, and is a first-class double Engine. It has two vertical reciprocating steam cylinders, $7\frac{1}{2}$ inches diameter, and two double-acting vertical pumps, $4\frac{1}{2}$ inches in diameter and 12-inch stroke, and will discharge about 600 gallons per minute.

A Tender, to carry fuel, and a Water Tank, for the supply of the Boiler, make a part of the machine. The Tender will carry fuel enough for two hours' consumption, and the Water Tank will contain 60 gallons.

This company was organized December 3d, 1866, from which time they have had charge of this Engine.

The weight of this Engine, with three men, is about 8,500 pounds.

The house of this company is in fair condition. This company have in charge 600 feet of Hose, in good condition.

The Hose-reel is two-wheeled, of the Amoskeag build. The returns show that this company have rolled to 265 alarms; have worked 55 times, and performed 57 hours and 40 minutes' duty during the year.

INVENTORY OF PROPERTY IN POSSESSION OF THIS COMPANY.

One first-class Amoskeag Engine, in good order.	Two Brooms.
One hose-reel, Amoskeag, good order.	One patent Hose-Washer.
Six hundred feet leather Hose, good order.	One Coal Hod.
Four Lanterns.	One Engine Poker.
Two Oil Cans, in bad order.	One small extra-length Suction.
One Monkey-Wrench, bad order.	Three Spittoons.
One Suction Spanner.	Three Hose Ropes.
Four Leading Hose Spanners and Belts.	Three Mattresses, very bad order.
One Hammer for Engine.	One Stove and stove-pipe.
One Stuffing-Box Wrench.	One Table, broken.
Four Hydrant Spanners.	Three Horses, in good condition.
Fifty feet small hand Hose.	Three sets Harness, good order.
One small hand Hose pipe.	Three Blankets for horses, one in bad order.
One Reducing Coupling.	One Whip, useless.
One Crowbar.	Three Horse Brushes, two good order.
One Axe.	Two Currycombs, one very bad.
One Hand Axe.	One Stable Fork, useless.
Two Jackscrews.	One Stable Broom.
Two Cranks for Hose-reel.	One Manure Box.
Two Blunderbusses.	One Shovel.
One Coal Shovel, useless.	Two Hand Basins.
One Suction Hose Rope, twenty-five feet.	One Ladder.
One Cot Bed; two broken and destroyed.	One Fall and Tackle, forty-five feet rope and two blocks.
	Two Buckets, bad order.
	One Feed Box.

The Engineman, Fireman and Driver are permanently employed. These, together with the Foreman and eight Hosemen, who do duty only in case of fire, constitute the entire company.

This company was organized and took charge of their present Engine on the 3d of December, 1866.

It has one steam cylinder, $8\frac{1}{2}$ inches in diameter, and one double-acting vertical plunger pump, of $4\frac{3}{4}$ inches diameter and 12-inch stroke. At a fair working speed, her builders, the Amoskeag Manufacturing Company, claim that she can discharge 400 gallons per minute. The weight of this Engine, including three men, is about 6,500 pounds. This company have one two-wheeled Hose Cart, in fair order, of the Amoskeag pattern, built in this city. The returns of this company show that the Engine has rolled to 267 alarms, and worked at 68 fires; $75\frac{1}{3}$ hours during the year.

INVENTORY OF PROPERTY IN POSSESSION OF THIS COMPANY.

One Steam Amoskeag Engine, good order.	Eight hundred feet of leather Hose.
One Hose Cart, fair order.	Fifty feet gutta-percha Hose.
Twenty-three feet of Suction Hose.	Six feet Hydrant Suction. Three Horses, good condition.

One double Harness, good order.	One Stable Broom.
One single Harness, good order.	One Pitchfork, bad order.
One full set of tools for Engine.	One Shovel.
Four Lanterns, good order.	Three Spittoons.
Three Horse Blankets.	Two Currycombs.
Two Whips.	One Sponge.
Three Hydrant Wrenches.	One coarse Brush.
Six Hose Spanners and Belts.	One Chamoise.
Two Blunderbusses.	One Feed Box.
Sixty-five feet $\frac{3}{4}$ -inch rubber	One Hose-Washer.
Hose and brass Pipe.	One cylinder Stove.
Two Buckets.	Three Chairs, bad order.
Two Jackscrews.	One Table.
One Washbowl, good; one, bad.	

The house of this company is in fair condition.

REPORT OF SUPERINTENDENT
FIRE ALARM AND POLICE TELEGRAPH.

OFFICE OF FIRE ALARM AND POLICE TELEGRAPH, }
June 30th, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In compliance with Resolution No. 8,566 of your honorable body, I herewith submit my third annual report of the condition and workings of the Fire Alarm and Police Telegraph for the fiscal year ending June 30, 1868.

All the machinery of the Fire Alarm Telegraph has worked with remarkable regularity during the year. The apparatus connected with this Department is under the care and control of the Superintendent of Fire Alarms, and of a Standing Committee of the Board of Supervisors—Messrs. Shattuck, Clayton and Cavallier. A constant watch is kept at the Central Office, City Hall, night and day, by the operators. Each operator serves two alternate terms of four hours, each as Principal and the same as Assistant Operator, so that sixteen hours service in every twenty-four is required from each operator. No operator is permitted to sleep during his watch. Each operator is accountable to the Superintendent for any omissions or mistakes that may occur at the Central Office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and the station from which it originates.

The meridian bells, six bells and twenty gongs at their various locations at Engine Houses and other localities are struck from the Fire Alarm Office at noon, every day (Sunday excepted). Arrangements have been made with Mr. Thomas Tennent to furnish standard time for the city. A chronometer has been furnished, and the rate and variation is given us three times a week, so that we are able now to give accurate time. As our facilities for communicating time are far superior to all others in the city, it is a desideratum that will be duly appreciated.

We have in operation seventy (70) Signal Boxes and about forty (40) miles of Wire. The number of Boxes should be increased to at least one hundred (100). An addition to the Boxes is now being made.

One new bell, weighing eight hundred and fifty (850) pounds, has been erected during the year.

The total number of alarms received by Telegraph and struck, for the fiscal year ending June 30, 1868, were 267; distributed in months as follows: July, 30; August, 23; September, 31; October, 17; November, 19; December, 14; January, 16; February, 26; March, 17; April, 17; May, 24; June, 33. Of the above number 237 were actual fires; rekindling, 6; second alarm, 1; Chimneys, 17; bonfires, 4; stove-pipe, 1; false, 1. The highest number of alarms given during any month was 33, in June; the least in December, 14. The days on which alarms were given are as follows: Sunday, 42; Monday, 44; Tuesday, 34; Wednesday, 39; Thursday, 33; Friday, 38; Saturday, 37. The most alarms have occurred during the past year between the hours of 8 and 9 o'clock p. m.—25; the least from 9 to 10 o'clock a. m.—2. The Boxes from which the largest number of alarms have been struck are Nos. 17, 19, 27, 32 and 61. Out of 70 Signal Boxes alarms have been received from all but 10.

The Police Telegraph is in daily use, but the instruments are poor and require replacing by others more reliable. The Telegraph would be a valuable auxiliary to the Police Department should better instruments be furnished. The line is being extended to the Almshouse.

The Signal Boxes are tested once in every two weeks. The striking machinery of the Bells is carefully examined every few days, so that it is scarcely possible for any serious derangement of the apparatus to occur.

Keys to the Signal Boxes are in the hands of the Police, and are also left in grocery stores and dwellings most convenient to the Boxes. The instructions to key-holders are the same as heretofore, viz.: Upon the discovery of or positive information of a fire near your Signal Box, turn the crank slowly and steadily twenty-five or thirty times; then wait a few moments, and if you hear no ticking in the Box, or alarm on the large Bells, turn again; if you still hear no alarm, go to the nearest Box and give the alarm from that. 1st. Never touch the crank except to give an alarm; 2d. Never signal for a fire seen at a distance; 3d. Be sure your box is locked before leaving it; 4th. Give an alarm for no cause whatever other than an actual fire; 5th. Do not give an alarm for a burning chimney; 6th. Touch no part of the Box but the crank. Upon a second alarm being given for the same fire, it will be considered a general alarm. Second alarms will be turned in only by the Chief Engineer or his Assistants. Alarms are transmitted to the Central Office from the Signal Boxes by turning the crank. Alarms are usually struck in thirty seconds from the time the crank is turned. Property owners and tenants are requested to inform themselves of the location of all the Boxes near their property; also, of the places where Keys are kept. Upon the breaking out of a fire see that the alarm is promptly and correctly given. Complaints concerning the workings of the Fire Alarm Telegraph, irregular striking of the bells or gongs, broken wires, etc., should in all cases be made at the Fire Alarm Telegraph Office, City Hall.

The Boxes are located as follows:

1. Corner Stockton and Francisco streets.
2. Corner Mason and Lombard streets.
3. Corner Stockton and Greenwich streets.
4. Corner Sansome and Greenwich streets.
5. Corner Battery and Union streets.
6. Corner Jones and Filbert streets.
7. Corner Union and Hyde streets.
8. Corner Powell and Union streets.
9. Corner Dupont and Green streets.
12. Corner California and Kearny streets.
13. Corner Front street and Broadway.

14. Corner Stockton street and Broadway.
15. Corner Leavenworth and Pacific streets.
16. Corner Mason and Pacific streets.
17. Corner Kearny and Pacific streets.
18. Corner Sansome and Jackson streets.
19. Corner Davis and Washington streets.
21. City Hall.
23. Corner Taylor and Clay streets.
24. Corner Powell and Clay streets.
25. Corner Dupont and Clay streets.
26. Corner Battery and Clay streets.
27. Corner Montgomery and Commercial.
28. Corner Leavenworth and Sacramento.
29. Corner Stockton and California streets.
31. California street, near Sansome.
32. Corner Drumm and California streets.
34. Corner Mason and Pine streets.
35. Corner Hyde and Bush streets.
36. Engine House No. 2, Bush street.
37. Market street, near Battery.
38. Corner Montgomery and Sutter streets.
39. Corner Stockton and Sutter streets.
41. Engine House No. 3, Sutter street.
42. Corner Geary and Mason streets.
43. Hook and Ladder No. 1, O'Farrell, near Dupont.
45. Corner Hyde and O'Farrel streets.
46. Corner Jones and Turk streets.
47. Corner Market and Powell streets.
48. Corner Kearny and Geary streets.
49. Corner Mission and Steuart streets.
51. Corner Folsom and Spear streets.
52. Corner Mission and Fremont streets.
53. Corner Folsom and First streets.
54. Engine House No. 4, Second street.
56. Corner Harrison and Second streets.
57. Corner Brannan and Second streets.
58. Corner Townsend and Third streets.
59. Corner Bryant and Third streets.
61. Corner Howard and Third streets.

62. Corner Fourth and Mission streets.
63. Corner Harrison and Fourth streets.
64. Corner Howard and Fifth streets.
65. Corner Mission and Sixth streets.
67. Engine House No. 6, Sixth street.
68. Corner Harrison and Seventh streets.
69. Corner Howard and Eighth streets.
71. Corner Mission and Eleventh streets.
72. Corner Mission and Thirteenth streets.
73. Corner Folsom and Sixteenth streets.
74. Hose House No. 5, Sixteenth street.
75. Corner Kearny and Union streets.
76. Corner Montgomery and Green streets.
78. Corner Folsom and Eleventh streets.
79. Corner Polk street and Broadway.
81. Corner Hayes and Franklin streets, Hayes Valley.
82. Pioneer Woolen Mills, North Beach.
83. Corner Eighth and Brannan streets.
84. Corner Market and Valencia streets.
85. Mail Company's Wharf, First and Brannan.

Persons interfering with or maliciously injuring the Telegraph apparatus, or giving false alarms through the Signal Boxes, are made liable to heavy penalties. It is also provided that when found necessary for any person or persons to remove, interfere with, or disturb any portion of the Telegraph lines, for removal of buildings, or other cause, due notice must be given to the Superintendent, or, in his absence, to the operator on duty, at the City Hall, between the hours of six o'clock A. M. and twelve o'clock M., stating the locality at which and the manner it may be necessary to disturb, interfere with, or remove the wire. The above provision does not give the protection to the Telegraph which it needs. In a large number of cases house-movers undertake to get through the wires by themselves, without giving the notice required. The result is, our wires are often broken, thereby endangering that portion of the city through which the broken wire runs. Again, they frequently get through the wires without actually breaking them, but do other damage equally great, such as crossing the different wires, loosening them from their fasten-

ings, and otherwise deranging them. These derangements are not, in some cases, discovered until too late to find the party doing the damage. Again, it frequently happens that a house is placed upon wheels, and when fully prepared to start for the Mission, or some point, necessitating the removal of six or eight wires, word is given us of their *intention*. It often occurs, when such notice is given, that all available help of the Office is engaged with other house-movers. The Fire Alarm Telegraph is at the present time an almost indispensable auxiliary to the Fire Department, and should be better protected than it is at present. I would recommend that the Ordinance regulating house-moving be so amended as to give the necessary protection.

Since the introduction of the Paid Fire Department false alarms have entirely ceased.

The officers and members of the Paid Fire Department have interested themselves to make its workings as effective as possible. No effort will be spared by those having it in charge to make it work in entire harmony with the Fire Department, and to the satisfaction of the public.

The expenditures of this Department have been as follows:

Repairs and Extensions.....	\$255 30
Bell, Bell-Tower and Architect's services.....	1,175 90
Material.....	323 20
Blacksmith's Bill.....	206 74
Bluestone.....	60 13
Wire and Keys.....	584 62
House Repairing.....	100 00
63 Poles.....	126 00
Hauling and Setting same.....	90 00
Lumber.....	20 00
Zinc (500 pounds).....	56 00
Sundries.....	142 52

Total.....	<u>\$3,140 41</u>
------------	-------------------

Respectfully submitted,

M. GREENWOOD,
Superintendent Fire Alarm and Police Telegraph.

CORONER'S REPORT.

OFFICE OF THE CORONER,
San Francisco, June 30, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—I have the honor to submit the following Report of cases which came under my jurisdiction, from the 2d of December, 1867, to June 30th, 1868, as well as the cases under my predecessor, from July 1st, 1867, to December 2d, 1867, according to the records furnished me by him.

Very respectfully, your obedient servant,

JONATHAN LETTERMAN,
Coroner.

From the records turned over to me by my predecessor, I find the number of cases which came under his supervision, from July 1st, 1867, to December 2d, 1867, to have been 71.

Of this number the deaths from accidents were, viz:

1867—July.....	10
August.....	8
September.....	4
October.....	5
November.....	3
Total.....	30

And from the following causes, viz:

Blow on the head.....	1
Cannon shot	2
Caught in machinery.....	1
Caving of a bank of earth.....	2
Concussion of the brain	1
Drowning.....	10
Falling from a wall	1
Fracture of the skull.....	1
Gunshot.....	3
Injury by falling off a building.....	1
Injury of the spine.....	1
Injury by falling from second story of a house.....	1
Run over by cars	3
Run over by a truck.....	2
Total.....	<u>30</u>

The deaths by suicide were:

1867—July.....	4
August.....	3
September.....	1
October.....	0
November.....	1
Total.....	<u>9</u>

And by the following means, viz:

Gunshot.....	1
Hanging.....	2
Laudanum.....	1
Pistol shots.....	4
Strychnine.....	1
Total.....	<u>9</u>

The cases of murder were:

1867—July.....	2
August.....	0
September.....	1
October.....	0
November.....	0
	<hr/>
Total.....	3

Committed as follows:

Abortion (supposed).....	1
Gunshot (by whom unknown).....	1
Infanticide.....	1
	<hr/>
Total.....	<u>3</u>

The deaths from other causes were, viz:

1867—July.....	8
August.....	5
September.....	9
October.....	6
November.....	2
	<hr/>
Total.....	30

Produced as follows:

Aneurism of the aorta.....	2
Apoplexy.....	6
Asphyxia.....	1
Convulsions.....	1
Delirium tremens.....	1
Effusion of the brain.....	1
Enteritis.....	2
Heart, disease of.....	1
	<hr/>
<i>Carried forward</i>	15

<i>Brought forward</i>	15
Heart, hypertrophy of.....	1
Heart, valvular disease of.....	3
Hemorrhage from the lungs.....	2
Hydropericardium.....	1
Inflammation of the lungs.....	1
Miscarriage.....	1
Phthisis pulmonalis.....	3
Pulmonary apoplexy.....	1
Unknown.....	1
<hr/>	
Total.....	<u>30</u>

NATIVITY OF CASES.

Australia.....	1
California.....	6
Chili.....	1
China.....	2
Denmark.....	2
England.....	3
France.....	4
Germany.....	7
Ireland.....	15
Maine.....	3
Massachusetts.....	4
Mexico.....	1
New York.....	4
Nova Scotia.....	1
Ohio.....	1
Pennsylvania.....	2
Russia.....	2
Scotland.....	1
Spain.....	1
Sweden.....	2
Virginia.....	1
Unknown.....	7
<hr/>	
Total.....	<u>71</u>

The ages of the cases were as follows:

Under one year	2	
Between one and five years	1	
Between five and ten years	3	
Between ten and twenty years	4	
Between twenty and thirty years	10	
Between thirty and forty years	19	
Between forty and fifty years	17	
Between fifty and sixty years	8	
Between sixty and seventy years	3	
Between seventy and eighty years	1	
Unknown	3	
	—	
Total		71
Number of inquests	24	
Number of autopsies	17	
Number of inquests and autopsies	17	
Number of cases in which neither inquests were held nor autopsies made	13	
	—	
Total		<u>71</u>

The number of cases which came under my supervision, from December 2d, 1867, to June 30th, 1868, were 142.

Of these the number of deaths from accidents were:

1867—December	3
1868—January	5
February	6
March	11
April	6
May	8
June	7
	—
Total	46

Produced by the following causes, viz:

Ambustio.....	1
Concussion of the brain.....	4
Dislocation of cervical vertebrae.....	1
Drowning.....	22
Fracture of leg.....	1
Fracture of skull.....	8
Fracture of spine.....	2
Hemorrhage.....	1
Poisoning by opium.....	1
Poisoning by cyanide of potassium.....	1
Rupture of the heart.....	1
Starvation.....	2
Suffocation.....	1
Total.....	<u>46</u>

The number of suicides were, viz:

1867—December.....	2
1868—January.....	1
February.....	4
March.....	1
April.....	2
May.....	0
June.....	3
Total.....	<u>13</u>

Committed by the following means:

Cutting the throat.....	2
Drowning.....	3
Gunshot.....	3
Hanging.....	1
Hydrocyanic acid.....	1
Laudanum.....	1
Strychnia.....	1
Strangulation.....	1
Total.....	<u>13</u>

The number of deaths from other causes were, viz:

1867—December.....	9
1868—January.....	19
February.....	5
March.....	8
April.....	12
May.....	8
June.....	16

Coroner.

HARBOR MASTER'S REPORT.

HARBOR MASTER'S OFFICE,
San Francisco, July 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In accordance with your directions I have the honor to submit the following report:

During the past year one section of the Bulkhead has been filled in, from Vallejo to Green street, and a wharf, 600 feet long by 60 feet wide, built outside and parallel with said Bulkhead. The Bulkhead from Pacific to near Washington street, outside of East street, has also been filled in with dirt and stone to a height of three (3) feet above high water mark. Greenwich wharf, at the end of Battery street, has also had an addition built to it, of forty (40) feet on the Bay front by one hundred (100) feet on the side of or end of said street. There has also been an addition built to North Point Dock of about one hundred and fifty (150) feet on the Bay or City Front by two hundred (200) feet on the end or shore side of the Dock.

The Lumber Association Dock, at the foot of Beale street, has had two (2) Wharves run out in the Bay from the City Front of said Wharf, one of which is one hundred and fifty (150) by eighty-two feet, and one is one hundred and fifty (150) by sixty (60) feet. On Berry street a Wharf has been run into the Bay two hundred (200) by forty (40) feet, and also one sixty (60) by forty (40) feet, which wharves will give ample accommodation for some time.

Five Wharves have been dredged to a sufficient depth of water for the largest ships, viz.: The Pacific Mail Company's Wharf, at the foot of Bryant street; Folsom street Wharf; Pacific street Wharf; Vallejo Street Wharf, and Cowell's Wharf.

You will perceive by the tabular statement annexed that 107 ships and vessels have arrived from foreign and domestic ports since the 1st day of December, 1867, or during my term of office; and as I have no books of the late Harbor Master, I can only give the amount collected and paid in by him to the City and County Treasurer, as I read the same from his monthly statements filed with the City Auditor.

During the seven months I have been in office the following vessels belonging to this port have been lost:

- Schooner Andrew J. Wester, with all hands.
- Barkentine Western Belle, with all hands.
- Schooner Eliza Walker, with all hands.
- Schooner L. C. Lane, lost at Little River, crew saved.
- Schooner Sarah, lost at Cuffy's Cove, crew saved.
- Schooner S. F. Blunt, lost at Timber Cove, crew saved.
- Brig Hugh Barkley, lost at Umpqua River, crew saved.

The Harbor dues paid into the City and County Treasury by Marcus Harloe, late Harbor Master, for five (5) months, viz.: July, August, September, October and November, by monthly statements on file with the City Auditor, amount to \$9,642 62. My receipts for seven months, from December 1st, 1867, to June 30th, 1868, inclusive, by statements on file with City Auditor, amount to \$15,930—making a total of \$25,572 62 for the year ending June 30th, 1868.

Respectfully submitted,

JAMES HOUSEMAN,
Harbor Master.

VESSELS IN THE COASTING AND BAY TRADE.

45 Steamers.....	22,466 tons.
11 Ships.....	8,360 tons.
42 Barks.....	16,626 tons.
19 Brigs.....	4,223 tons.
221 Schooners.....	11,115 tons.
70 Sloops	1,450 tons.
12 Barges	1,440 tons.
<hr/>	
420 vessels aggregating.....	<u>65,680 tons.</u>

There have been built, during the last seven months fifteen Schooners, whose tonnage amounts to 1,128 tons; also four Bay Steamers and one Ferry Boat, whose tonnage amounts to 1,224 tons.

REPORT OF CITY AND COUNTY SURVEYOR.

OFFICE OF THE CITY AND COUNTY SURVEYOR, }
San Francisco, July 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In compliance with Resolution No. 6,963 of your Board I submit the following report of Surveys made and Certificates issued since December 2d, 1867—the day I entered upon the discharge of my official duties—to June 30th, 1868, the termination of the fiscal year:

• Surveys made	627
Certificates.....	403

In my next report I shall give in detail all important work that is now and may be in progress at the termination of the present fiscal year.

Respectfully submitted,

WM. P. HUMPHREYS,
City and County Surveyor.

HEALTH OFFICER'S REPORT.

SAN FRANCISCO, July 1, 1868.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN—In accordance with your instructions, I herewith submit my Report for the fiscal year ending June 30th, 1868.

It is very gratifying to find from the vital statistics accompanying this Report, that although during a portion of the fiscal year, we have been visited with epidemic; the death record is but a fraction over that of the previous year, notwithstanding that the population of the city has increased thirteen (13) per cent. since my last Report.

Whether this sanitary condition is owing to climatic causes, or to the unwearied efforts of the Health Department, the effect is the same—a city free from miasma, and a death record that is lower than any reports I have received from other American cities. It becomes my duty again to revert to the large destruction of infantile life. I say destruction advisedly, for in my last Report I warned parents of the carelessness—nay, the recklessness—of their conduct towards their offspring in the matter of scanty clothing on their extremities, and yet the record of the past year shows how utterly they neglected the warning. Of the zymotic class of diseases we have had a preponderance over last year, which may be attributed chiefly to the excessive humidity of the atmosphere; to the same cause we are also chiefly indebted for the appearance of small-pox, which is at this writing assuming a malignant type. At my request, early in June, the Board of Health met and devised such precautionary measures as they deemed proper.

The number of deaths for the year ending June 30th, 1868, were as follows:

Caucasian.....	2,329
Mongolian.....	171
African.....	77
	<hr/>
Total.....	2,577
Males.....	1,704
Females.....	873
	<hr/>
Total.....	<u>2,577</u>

RECAPITULATION.

The number of deaths in the city from July, 1867, to June, 1868, reported at this office, were.....	2,577
White	2,329
Copper	171
Black.....	77
	<hr/>
Total	2,577
Adults.....	1,401
Minors.....	1,176
	<hr/>
Total	<u>2,577</u>

If we deduct premature births, 24; cyanosis, 16; old age, 14; casualties, 105; suicides, 28; and deaths from unknown causes, 87—in all, 274—it will leave 2,303 deaths to be accredited to the city for the year.

Rating the population at one hundred and fifty thousand (150,000) and the deaths from registered diseases two thousand three hundred and three (2,303), we find the following percentage of deaths to the population:

Mortality—Per day.....	6 $\frac{2}{3}$
Per month	191 $\frac{1}{2}$
Per year.....	2,303
Or per diem, one in	23,445
Or per month, one in	781 $\frac{1}{2}$
Or per year, one in	65 $\frac{13}{100}$

VACCINATION.

An alarming indifference to the necessity of early vaccination of children has long manifested itself among all classes of society, as the large number of children vaccinated since the appearance of the small-pox will testify; and still, I have reason to believe, that at least one-third of the children of San Francisco have not been vaccinated. The apathy shown by parents is more strange, considering that the city authorities provide free vacci-

nation from pure virus. It may be that the immunity from epidemic experienced by us causes a fatal sense of security until the cry is heard—Rachel weeping for her children. I, therefore, hope that in future parents and guardians will, in justice to the helpless infant, assist by vaccination to save them from that loathsome disease.

THE SMALL-POX

has just made its appearance, and has assumed a malignant or typhoid type. Several cases have resulted fatally before the eruption had been developed. In others, the moment the eruption did appear it assumed a livid, and, in some instances, an almost black hue with purpura hemorrhagica. These cases nearly all resulted fatally before any true vesicle or lymph was formed; but one of this peculiar livid type came under my observation which reached the suppurative stage before death.

Previous to the prevalence of this epidemic, the other exanthemata—measles and scarlatina—prevailed to a considerable extent, and of a very grave type, showing that some peculiar metrological condition existed favorable to the development of the eruptive class of fevers. One fact worthy of note in this place and worth remembering by all who may read this Report, is that vaccination, when well performed, never failed to protect or so materially modify the disease that it leaves little or none of that frightful mutilation or disfigurement so common to genuine unmitigated variola. This cannot be too thoroughly impressed upon the minds of all—"the importance of vaccination"—as the only prophylactic against the spread and ravages of this pestilential scourge.

INFANTS UNDER ONE YEAR OF AGE.

Of these tender buds five hundred and forty-one (541) have appeared to gladden the fond hearts of the authors of their being, but meteor-like have passed away, leaving a gloom behind. Between the ages of one and five, nine hundred and thirty-eight (938) have shown the promise of a bright dawn, but alas, the inexorable hand of death has beckoned them away ere life's morn had scarce begun. There must be a reason for this

slaughter of the innocents. Are our skies less sunny than in other climes? Is the air more impure than in other lands? What, then, is the cause of this decimation of our infant population? I answer, want of proper care. Mothers, on you rests the blame.

STILL-BORN INFANTS.

The number is still increasing. The reported of this year amount to two hundred and thirty-four, or within a fraction of twenty per month. This tells a sad story, and should awaken in the minds of the public solemn thought.

PHTHISIS PULMONALIS.

Of this disease there were three hundred and twenty-four (324) cases reported, about one-third of which died in the Hospitals. Of aneurism there were forty-one (41), and it is somewhat remarkable that exactly the same number of persons died from these two diseases last year. Of heart disease there have been sixty-five (65) cases since my last Report. The number of casualties have decreased since last year. The suicides have been less; and fewer deaths have occurred from the use of the demon rum. In conclusion, I would say, we have reason to be thankful for the mercies extended to us—a healthy climate, abundant crops, and those two greatest gifts of God to man, Liberty and Peace.

NECESSITY FOR A MARKET INSPECTOR.

Should any unprejudiced person take a stroll through our markets, they would be profoundly impressed with the fact that a great number of the zymotic diseases weekly reported at the Health Office, are in fact owing to the incipient and unwholesome meat, putrescent fish, and decayed vegetables, offered for sale. While we enjoy a healthy climate, and abundant edible resources, how is it that the olfactory senses and the unwary purchaser are subjected, the one to offensive effluvia and the other to the loss of both cash and dinner after culinary preparation? Now, all this could be avoided by the appointment of a proper and intelligent officer thoroughly acquainted with what is fit for human food, whose duty it should be to seize and con-

demn all unwholesome meats, etc., thereby preventing the cupid-ity of the vendor from causing disease or perhaps death to the unthinking or uninitiated buyer. This matter is worthy the con-sideration and action of the proper authorities, as we have the summer upon us, the season when all edibles are most liable to decay, and when unripe fruit and premature veal is crimi-nally offered in our markets for sale.

Following is the number of nuisances reported at this office, with the action taken thereon:

Nuisances reported	954
Nuisances abated.....	739
No cause of complaint.....	131
Remaining unabated.....	84
	—
Total.....	<u>954</u>

To effect the above results there were but thirty-four (34) ar-rests made for non-compliance with the law; and, in this con-nection, I would wish to say that the Health Inspector has been indefatigable in the execution of his duties, and has by his suave and affable manner done more good in the abatement of nuis-ances than by arresting a whole community, and it is but justice to say that there has been three times the number of nuisances abated than what appears on the complaint book.

SEWERAGE.

I have recommended sewerage as a sanitary measure in thirty (30) different streets, which your honorable Board have ordered to be built. I still protest against the order for connecting privy vaults with the street sewers, as I am satisfied the custom is highly prejudicial to public health.

I. ROWELL, M. D.,
Health Officer.

HOSPITAL REPORT.

CITY AND COUNTY HOSPITAL,
San Francisco, July 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—I have the honor to present the Annual Report of the Hospital, from July 1st, 1867, to June 30th, 1868, inclusive:

Patients in Hospital, July 1st, 1867.....	291
Patients admitted.....	1,753
	2,044
To be accounted for.....	2,044
Discharged cured.....	1,217
Discharged by request.....	248
Died.....	218
Sent to Stockton.....	10
Sent to Almshouse.....	111
	1,804
 Patients remaining in house, July 1st, 1868....	 240
 Average number of patients.....	 261
Number of outside treatments.....	5,512
Children born—Boys.....	19
Girls.....	20
	39

Respectfully submitted,

WM. T. GARWOOD, M. D.,
Resident Physician.

REPORT
OF THE
INDUSTRIAL SCHOOL DEPARTMENT.

OFFICE OF THE INDUSTRIAL SCHOOL DEPARTMENT, }
August 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—Responding to Resolution No. 8,566, passed by your honorable body, June 29th, 1868, I respectfully present for your consideration the Report of the President of this Department to the Board of Managers, together with those of the Secretary and Auditor.

Your obedient servant,

JAS. S. THOMSON,
Secretary Industrial School Department.

PRESIDENT'S REPORT.

*To the Board of Managers
Of the Industrial School Department:*

GENTLEMEN—In presenting a report of the condition and operations of this institution for the past year, I regret to state that the number of its inmates has considerably increased. The report of the Secretary, Mr. J. S. Thomson, which I append, will

give you details of the number and character of the inmates of the school, and affords a clue to the causes which have led so many of these unfortunate children to be placed under the kind and protective restraints of this institution. The facts and figures of the Secretary's Report leave no room to doubt that parental neglect is the root of the tree that produces such a prolific crop of degradation, vice and crime, among the members of our young community. The laxity of the parental and municipal care of the rising generation in this city is cause for serious alarm to every parent. The publicity with which places of infamy are conducted in the leading thoroughfares of the city, and the facility with which the wretches who pander to the baser appetites of the most depraved of men escape punishment, are a disgrace to those entrusted with the duty of guarding the public morals. Who can doubt that the majority of the unfortunate girls now in this school owe their degradation to this laxity of morals among those in authority? The idea of the contaminating influence of vice is beautifully and truthfully expressed in the lines of Pope:

"Vice is a monster of so frightful mien,
That to be hated needs but to be seen;
But seen too oft, familiar with its face,
We first endure, then pity, then embrace."

To you, gentlemen, is entrusted the difficult task of remedying the evils society fears, yet cultivates. Our labors and responsibilities would be lightened greatly if parents and guardians would exercise the same restraints in their homes that we exercise in this institution.

Here, many of the unfortunate children first experience the effects of the law of kindness, and learn to submit to reasonable, wholesome restraint. Here, under a uniform, consistent and agreeable system of industry, they are taught the rudiments of the law of self-respect, and the means by which they may realize an honest self-maintenance when sent into the world to struggle for a livelihood. The duty of teaching them these things could be much more effectually performed at home, and would be, if fathers and mothers more generally comprehended the parental responsibility.

While it must be a source of pain to every christian heart to

know that such an institution as the Industrial School has become a necessity through the vitiation of public morals, it is a source of hope and pleasure to them to know how diligently, zealously and effectively the officers of this institution have performed their responsible duties, and the extent of the good work they have accomplished.

The records of the school show how many of the boys and girls who have been its inmates have been snatched from the paths of ruin and disgrace, and sent on their way rejoicing on the high road to moral and social prosperity.

The great increase in the number of girls admitted into the school, and the absolute necessity for the most rigid separation of the sexes in such an institution, requires that a separate building be erected for the girls' department as soon as possible. With such an addition to the buildings, the girls would be better accommodated than at present. More teachers could be advantageously employed, who could come more directly in contact with the children, and become better acquainted with their habits, feelings and modes of thought, and to enlist their attention in such things as will enlarge their understanding, give them a hopeful view of life, and thus allure them into the paths of usefulness and virtue. Experience has convinced me that kindness is far more effectual as a reformer than coercion. For this reason I recommend the immediate erection of a separate building for the accommodation of the girls confined in the school. There is abundance of room and building material on the land belonging to the institution for that purpose, and there is no reason to doubt that the city and State authorities will make sufficient appropriations to defray the expenses for erecting such additional accommodations.

The Managers, the children and the public generally are under many obligations to the clergy of nearly all denominations, and to the Sisters of Mercy for their valuable assistance in the moral and religious training of the children. Mr. W. O. Andrews and many kind christian ladies and gentlemen are entitled to thanks for their assistance in organizing and conducting the Sabbath schools, and teaching the unfortunate children the truths of Scripture and the loving mercy of God.

I regret exceedingly that the private business affairs of my

worthy predecessor as President of the Industrial School Department, William G. Badger, Esq., have deprived the institution of the efficient services of that gentleman. The children, officers and managers of the institution are under great obligations to him for the watchful care he ever exercised over their interests, and his uniform kindness toward all. His active christian charity, great knowledge of human nature, and excellent business habits, rendered him exceedingly well qualified to fill the position of presiding officer of such an institution. Under his judicious supervision, assisted by the Board of Managers, a system of government for the school has been perfected, by which the moral as well as the physical training of the children is attended to.

It is proposed, as soon as the necessary funds are available, to erect workshops, in which the children shall be taught such useful trades as will enable them to earn an honest livelihood when they leave the school. It is but little use to teach children of their class how to read, write, sing, etc., if we do not afford them opportunities to obtain a living when they are cast on the world to look out for themselves. Not a few of the inmates of our State Prison owe their degradation to a defective education, which omitted the essential qualification of knowing how to make an honest living.

There are a number of occupations which the boys and girls in the school might be taught with profit to the institution and advantage to the children. At present, for want of suitable workshops, only shoemaking and tailoring can be taught. These occupations, though restricted for want of room, effect a considerable saving in the expenses of the institution. All the clothing, boots and shoes, worn by the children are made by themselves. The articles made in these workshops will compare favorably with similar articles made anywhere, affording an illustration of the value of the labor of these children when properly directed. Nearly all the vegetables used in the institution are raised by the boys; all the washing and ironing is also done by the children.

There can be no doubt that with more extended means for instructing them in the useful arts, they and the State would be benefited.

During the last session of the State Legislature, the Hospital

Committees of both houses united in recommending that the boys confined in the State Reform School at Marysville, be transferred to this institution. Acting on this recommendation, the Legislature passed an Act to carry it into effect. This Act was approved by his Excellency, Governor Haight. The Commissioners appointed by the Legislature to see the provisions of the law properly executed—Doctors Hubbard and Sharkey—have since placed twenty-eight of the boys from the State Reform School in charge of the officers of this institution. These children have been treated with the same kindness and consideration as the others confined in this school. It is most earnestly hoped that the great improvement in their condition may have the effect of inducing them to behave in such a manner as will enable the officers of the school to make a favorable report of their conduct, for their own good as well as for the credit of this institution. Since the transfer of these children, his Excellency, the Governor, has become a member of the Board of Managers of this department. The State, in consideration of such transfer, donated the sum of \$10,000 to this institution. This amount, with an additional sum of \$1,000 per month granted by the city and county of San Francisco, makes the revenue of the institution amount to upwards of \$3,000 per month. For the liberal increase of their resources, the Board of Managers feel deeply grateful, as it enables them to pay off a portion of the debt of nearly \$20,000, incurred during the past two years in making necessary repairs, improvements and additions to the buildings to meet the increased number of inmates of the school. Had the State made appropriations for that purpose, we should have been enabled to have erected workshops, which, as already shown, are imperatively necessary, in order to make this great reformatory establishment what so great a State as California requires.

The following contract between the Industrial School Department and the State authorities will give the terms and conditions under which such transfer and appropriation were made:

CONTRACT.

WHEREAS, in and by an Act of the Legislature of the State of California, entitled "An Act to provide for the inmates of the State Reform School, approved March 30th, 1863," J. M. Sharkey and Lorenzo Hubbard were ap-

pointed Commissioners to contract with the authorities of the Industrial School at San Francisco, for the care, maintenance and instruction of the boys or inmates legitimately of the State Reform School, on such terms and conditions as they might be able to effect, subject, however, to the limitations imposed by said Act.

And whereas, said J. M. Sharkey and said Lorenzo Hubbard, as such Commissioners, have covenanted and agreed with the Industrial School Department of the city and county of San Francisco, for the care, maintenance and education of the inmates of the State Reform School as hereinafter named:

Now, this Indenture witnesseth: That the said Industrial School Department of the city and county of San Francisco, in consideration of the covenants and agreements hereinafter contained, and of the payment by the State of California of the moneys hereinafter expressed, have covenanted and agreed, and do hereby covenant and agree with the State of California to receive, in the Industrial School of the city and county of San Francisco, all the boys and inmates of the State Reform School at Marysville, Yuba county, California, and to care for, maintain and instruct the said boys and each of them, for the full term of one year and eleven months, from the first day of May, A. D. 1868.

Said boys and inmates shall have at all times during the continuance of this agreement, maintenance of good and sufficient quality and quantity, medical attendance, medicines and instruction, and shall be treated in all respects as other inmates of said Industrial School, and shall be cared for, provided for, and governed by virtue of and under the regulations and rules governing said Industrial School, and not otherwise.

The Board of State Medical Visitors shall at all times during the continuance of this agreement, have the right to visit said Industrial School for the purpose of ascertaining the condition and treatment of the inmates thereof, received and cared for under this agreement.

The State of California, in consideration of the foregoing covenant and agreement of the said Industrial School Department, to pay to said department the sum of *fifteen dollars* in gold coin per month for each boy or inmate of the said Reform School who may be received and maintained by said Industrial School Department pursuant to the terms of this agreement, for the term of one year and eleven months from the first day of May, A. D. 1868. Payments to be made monthly under such regulations as the proper authorities may prescribe; and to be paid to and received by said Industrial School Department in full for all the charges, claims and demands of said Department upon the State of California for the care, maintenance and education of said boys and each of them.

In witness whereof, the said Industrial School Department has caused these presents to be subscribed by its President and Secretary in duplicate, and the said J. M. Sharkey and Lorenzo Hubbard, Commissioners as aforesaid, have hereunto set their hands in duplicate, this sixteenth day of April, A. D. 1868.

(Signed.)

JAS. M. SHARKEY,
LORENZO HUBBARD.

JACOB DEETH,
President Industrial School,
JAS. S. THOMSON,
Secretary Industrial School Department.

To the Superintendent of the institution, Col. Joseph Wood, much credit is due for the general efficiency in every department. The excellent order throughout, the clean and neat condition of the buildings, the comfortable and tidy appearance of the children, the flourishing state of the farm and gardens, the excellent condition of the property of the institution generally, all combine to prove that he has labored diligently and faithfully in the discharge of his arduous duties. Captain Morrill and his assistants, who have had charge of the educational department, are also entitled to commendation for the zeal and ability with which they have discharged their duties. Under their management, the advancement of the scholars has been eminently satisfactory. The school under their charge will compare favorably with any in the State for discipline and proficiency.

Mrs. Wood, the matron, and Miss Hutchinson, the teacher of the girls' school, also deserve much credit for their successful efforts to teach those placed under their charge how to respect themselves and others, as well as to become useful members of society.

The general conduct of the children in the school, it affords me much pleasure to state, has been exemplary. The few exceptions to the general good behavior, show how difficult it is to eradicate the effects of early training in vice and ignorance.

The salubrious location of the school, the considerate care of its managers, and the skill of its medical attendants have been clearly shown during the several years of its occupancy. During the past season, when sickness was unusually prevalent among the homes of the poor and negligent in the city, scarcely any sickness, and not a single death, occurred in the school. There have been but five deaths within its walls, three boys and two girls, since it was opened, May 17th, 1859, a period of nine years. The children are much better cared for than the majority of them would be at home.

Dr. Benjamin D. Dean, the visiting physician, deserves much praise for his unremitting attention to the welfare of the children in this school.

The Visiting Committee have been diligent and faithful in the performance of their duty. Their frequent visits to the institution at all seasons, have insured vigilance and attention on the part of officers and inmates of the school.

The Finance Committee, the Committee on Buildings and Grounds, the Judiciary Committee, the Executive Committee, the Committee on Instruction, all deserve my most profound consideration for the efficient manner in which they have exerted themselves for the benefit of the institution and its inmates.

I am under many obligations to Mr. James S. Thomson, the efficient Secretary of the Department, for his assiduous attention to the duties of his office, and for the interest he has taken in the welfare of this institution.

From those lately under our charge, but now widely scattered on the land and sea, is conveyed the pleasing intelligence of their welfare, prosperity and happiness, and the satisfactory assurance that the friends of humanity and reform are not called to look in vain for the fruits of their labor, and will have the consolation that they have been the means of saving some of our youth from ruin and disgrace to glory and immortality.

All of which is respectfully submitted,

JACOB DEETH,
President.

SECRETARY'S REPORT.

OFFICE OF THE INDUSTRIAL SCHOOL DEPARTMENT, }
San Francisco, June 6, 1868. }

*To the President and Board of Managers
Of the Industrial School Department:*

GENTLEMEN—Herewith please find statistical tables, showing the progress of the institution during the year ending this day.

Since the opening of this institution, May 3d, 1859, there have been committed as follows, viz:

Boys	595
Girls.....	143

Of this number there have been re-committed—

Boys	32	
Girl.....	1	
	—	33

Making the whole number of commitments since May
3d, 1859—

Boys	627	
Girls.....	144	
	—	771

Remaining in the institution June 6th, 1867

188

Committed during the year ending June 6th, 1868—

Boys	100	
Girls.....	14	
	—	114

Recaptured—

Boys		5
------------	--	---

Returned, who had been absent on leave—

Boys	37	
Girls.....	14	
	—	51

Returned, who had been indentured—

Boy.....	1	
Girl.....	1	
	—	2

To be accounted for.....

360

Absent on leave—

Boys.....	56	
Girls.....	6	
	—	62

Indentured—

Girls.....		3
------------	--	---

Discharged—

Boys	38	
Girls.....	12	
	—	50

Carried forward.....

Respectfully submitted,

JAS. S. THOMSON,

Sec’y and *ex officio* Auditor Ind. School Dep’t.

OFFICERS OF THE INDUSTRIAL SCHOOL DEPARTMENT.

PRESIDENT, 1868-9,
JACOB DEETH.

VICE-PRESIDENT, 1868-9,
EDWARD BOSQUI.

MANAGERS, 1868-9,
CHARLES D. CARTER, JAMES R. KELLY,
HENRY A. COBB, EDWARD MARTIN,
ALFRED F. DURNEY, RICHARD O'NEILL.

MANAGERS, 1868-70,
HENRY L. DAVIS, THOMAS H. HOLT,
BENJ. D. DEAN, M.D., L. W. KENNEDY,
HENRY H. HAIGHT, JOHN SWETT.

APPOINTED FROM BOARD OF SUPERVISORS,
P. H. CANAVAN, MONROE ASHBURY,
CHARLES CLAYTON.

SECRETARY,
JAMES S. THOMSON.

TREASURER,
THOMAS B. LUDLUM.

STANDING COMMITTEES — BOARD OF MANAGERS, 1868-9.

Buildings and Grounds.—Henry L. Davis, Chairman; Richard O'Neill, Edward Bosqui.

Finance and Auditing.—Charles D. Carter, Chairman; Edward Martin, Henry H. Haight.

Instruction.—Charles D. Carter, Chairman; John Swett, P. H. Canavan.

Judiciary.—Monroe Ashbury, Chairman; Leonard W. Kennedy, Thomas H. Holt.

Executive.—Benj. D. Dean, M.D, Chairman; Charles Clayton, James R. Kelly.

Escapes.—Benj. D. Dean, M.D., Chairman; Richard O'Neill, John Swett.

Visiting.—Henry A. Cobb, Alfred F. Durney.

Trades.—Edward Bosqui, Chairman; Charles Clayton, Edward Martin.

Commitments.—Edward Bosqui, Chairman; Charles D. Carter, Monroe Ashbury.

OFFICERS AND EMPLOYEES OF THE INDUSTRIAL SCHOOL.

SUPERINTENDENT,
JOSEPH WOOD.

PRINCIPAL TEACHER AND DEPUTY SUPERINTENDENT,
JOSEPH C. MORRILL.

MATRON,
MRS. R. A. WOOD.

First Assistant Teacher.....	WILLIAM D. WALKER.
Second Assistant Teacher.....	WILLIAM W. HOLDER.
Female Teacher.....	MISS JANE HUTCHINSON.
Music Teacher.....	WASHINGTON ELLIOT.
Janitor.....	WILLIAM HASTY.
Assistant Janitor.....	FRANK WADSWORTH.
Farmer.....	JAMES W. ROWAN.
Watchman.....	JAMES P. STILL.
Foreman of Shoe Shop.....	HENRY HARBOURNE.
Foreman of Tailor Shop.....	HENRY SMITH.
Carpenter.....	LABAN PATRIQUIN.
Nurse and Seamstress.....	MISS JANE LEWIS.
Cook.....	CHARLES DUMONT.
Laundress.....	MRS. CHARLES DUMONT.
Physician.....	BENJAMIN D. DEAN.

ADDRESS OF REV. JAMES EELLS, D.D.,

At the Celebration of the Ninth Anniversary of the Industrial School, May 18th, 1868.

The glory of christianity has been, that with anxiety and care it has always sought to relieve, and elevate, and bless, those whom selfishness would disregard. Other systems of religion have been distinguished for neglect of the dependent, the infirm, the aged, and children. Christianity has demanded that they be treated with benevolent concern; and in so far as it has shown interest in children, has this been one prominent element in its success, whether it be as respects the Church, or the State. The reason is plain. It has thus been laying a firm and reliable highway on which to advance. It has been gathering the materials with which to build. It has been providing the aliment upon which to grow. The problem that has engaged the men of thought in every generation, has been respecting the improvement and elevation of the race. How shall the evils that abound be remedied? How shall society be freed from the depraved elements it contains, and be made beautiful and delightful? How shall the great interests of philanthropy, of government, of religion, be rendered safe and permanent? These are the questions that have long been asked, nor have they lost their interest with the lapse of time. We walk around the temple we would all like to see an abiding and magnificent structure, though we really see it rocked by every storm, and almost shaken down by every convulsion of the earth, and each one has a scheme by which to effect the end. One says, "Put up a marble front, and put in plate-glass windows—that is what it needs." Another says, "Add to its height, and make it more elegant within, as well as more spacious." Another says, "Prop it up with buttments, and repair the damages that have already occurred." But the true way is, to build beneath it, while we may, a better and more solid foundation. Then, marble and plate-glass, and increase of dimensions, and improvements of all kinds, will add to its worth, till we have the splendid temple we desire.

That human society may be, what those who really love the race have longed that it shall be, some propose that more inducements be offered, for all classes to gain wealth, believing that the poverty of the many is the cause of the most serious evils. Others, that more stringent laws be made against vice, believing that legislation can make virtue universal. Others, that the paths of honor and respectability be rendered more attractive and inviting, believing that thus they would soon be thronged by those who would delight to walk in them. Others, that reforms be inaugurated, books be circulated, distinctions be broken down, and that men be taught that depravity is a curse, and doubting that, old habits will yield at once to the gentle influences thus brought to bear on them. But the true way to change society so that improvement will be abiding, and radical, and universal, affording opportunity for all other advantages that are valuable, is to work first, and thoroughly, at its foundation—to give right principles, and intelligence, and the stimulus to what is noble and good, to the children of our people. Nor, is it either benevolent or safe, to discriminate in such interest, against the poor, or the vicious. No class,

in a country like ours, can be neglected without damage that all must feel, for we are interlinked by the very relations made necessary by our government, and that each care for all is a demand of our whole political economy. Yet it is not this consideration that should be chief with a christian people, nor am I willing to believe that only prudential reasons were effective in creating this noble institution, for the reformation of children who have been subjected to temptations to evil, which few of us ever knew. I rather look upon the spectacle before me to-day, as the result of christian and philanthropic interest in those who may be rescued from a life of sin, notwithstanding they have borne some of its curse. I recognize in it the features of our Lord's benevolence, who found none unworthy of his sympathy, and reward enough for his attempt to bless, if in any respect the blight of evil was removed, and its power broken. An old story has come down to us, that "Jesus one evening arrived at the gates of a city, and sent His disciples forward to prepare supper, while He, Himself, intent on doing good, walked through the streets into the market-place. At the corner of the market, He saw some people gathered together, looking at an object on the ground, and he drew near to see what it might be. It was a dead dog, with a halter round his neck by which he had been drawn through the dirt; and a viler, more unclean thing could hardly meet the eyes of man. Those who stood by looked on with abhorrence. 'Faugh!' said one, 'how it pollutes the air!' 'How long,' said another, 'shall this foul beast offend our sight!' 'Look at his torn hide,' said a third, 'it is utterly worthless.' 'No doubt,' said a fourth, 'he has been hanged for thieving!' Jesus heard them, and looking down compassionately on the dead creature, He said, 'pearls are not equal to the whiteness of his teeth!' Then the people turned towards Him with amazement, and said among themselves, 'Who is this?—this must be Jesus of Nazareth, for only He could find something to pity and approve, even in a dead dog,' and being ashamed, they bowed their heads before Him, and went each on his way." How much more did He who was the friend of those whom others despised, regard the living immortal beings whose very degradation awakened His pity—the possibility of whose rescue called forth His eager and continued help! Nor is it the least beautiful, or worthy, or suggestive record of Jesus Christ, that He manifested the deepest interest in children. He knew their relation to the future, as well as the bearing of good influences on their personal character and destiny. The children whom He blessed were chiefly of the poor, the classes whom Jewish grandees regarded as of no importance to mankind. Indeed, from the materials that all others had rejected, He undertook to rear the temple of His praise, and He proved what philanthropy, and patriotism, and religion have alike accepted since, that there is no field so hopeful, or so broad, as that in which they strive to save and educate, and prepare for the future, those children, who without such help would be ruined themselves, and would ruin others. Here, vice is anticipated and prevented. Here, riots and anarchy are checked at their fountain. Here, the attempt is not made to rush on the thick bosses of the giant's buckler, but to strangle the infant Hercules in his cradle, before he can defy our opposition.

I am sorry for the man who does not feel an interest in such a work, even were no other good to result than the relief of so many young hearts from present suffering, and the sending far out upon the path of life that sacred and beautiful light we all so highly prize—the memory of a happy childhood. To add so much to the aggregate happiness of the world—to bring in the sunshine, if only for the season, where would have been the reign of gloom, would be worth all the cost. But when we take within the range of vision the bearing of a work like this upon all great human interests, to say nothing of what is eternal and past computation, and allow what may be within the lifetime of these children to send back its radiance upon this charity, it grows upon our sight, till he is to be pitied who desires no share in so blessed a means of good. There are some men, on whose hearts, as on the doors of their offices and shops, we find written “No admittance except on business;” but they take no rank among the true nobility of our race. There are men who ask when any appeal is made to them on behalf of others, “what effect will a response have on my prospects, my coffers, or my fame?”—but the very question reveals a selfishness that we never honor. There are men who go through the world wrapping close around them the cloak of exclusive meanness, and reckon themselves fortunate, in proportion as they come in contact with none of their needy fellows, whose condition pleads for help—but we lay such men in their graves, “unwept, unhonored and unsung.” There are others, who can be moved to acts that seem benevolent, only by the offer of reward in return, of thanks, or praise, or money—who keep an account with the world, and make all others debtors to themselves, in the ratio of what they have contributed to them. But there are some—would there were more—there are some, as such monuments of disinterested philanthropy as this on which we look to-day most clearly prove—who seek no reward from without, though no call from those whom they can help is ever unheeded, but they rejoice in every opportunity to relieve themselves of the pressure of obligation to do good. They are like the loaded fruit tree, which yields its luscious burden, asking no thanks, but the privilege of bearing another season—like the full clouds that pour forth their treasures for their own comfort—like the great powers of nature, on which the Creator has written lessons of benevolence, that should not be lost, as they seem urged by a debt to one another, the discharge of which is essential to their own free and harmonious action. Oh! it is refreshing, when on the highways of life, where we are jostled so frequently by the rigid selfishness that abounds, and men treat their fellows so generally as though they had no worth, unless they can be used by them, to meet one of these universal debtors! His heart warms towards everybody. He seeks some mode of blessing all around him. He finds the means of showing others, that love is the quality that stamps nobility upon man, and though it may sometimes flow out upon unworthy objects—though it may excite the ridicule of those who boast that they are wiser in the world’s ways, and make what they call their wisdom into locks and bolts, with which to fasten in their nobler nature—still, heaven and all the good rejoice that not all such men are gone!

Humanity never wears such a celestial mien, as when it is arrayed with the

beauty of such a spirit. Nor does one who has himself struggled up to wealth or fame, ever shine with so much of the true glory of elevator, as when he stoops to lend a hand to some other struggler, who but for such sympathy and aid might sink down in despair and perish in the wreck of character and hopes. Such a man was Clay, where from the height in which he might have been content, he bent to help upward that brilliant Kentucky orator, Richard H. Menefee, whom he found a poor and friendless boy in the mountains, whose rugged barriers he had never passed. Such a man was Amos Lawrence, whose judicious gifts, stimulated some of the noblest merchants in Boston, when as portionless and patronless lads, they launched upon the whirlpool of a city life. Such a man is George H. Stuart, whose name is spoken almost with tears of respect and love by scores of those now rising on the slopes of renown and wealth, whom he has literally rescued from the tide of vice and crime by which in the tender years of childhood they were swept along. Such men there are on this distant coast, as is demonstrated on every side by tokens of their influence, and never were they needed in greater numbers, or with larger hearts. I never envy the rich, when I look upon their splendid palaces, and equipages, and estates, or when I fancy them calculating their interest and numbering their bonds—but when I think of the rewards that are possible to them, these always stir a fever in my blood—while I am thankful for the compensatory words addressed to all, “If there be first a willing mind, it is accepted according to what a man hath, and not according to what he hath not.” And when I see one rich who really knows how to use his money—who makes it bring him its full value, who adds to the worth of dollars by all their freight of usefulness, and relief, and satisfaction, and blessing which they bear cut to others, and by all the return of worthy self-regard, and proof of good accomplished, and thanks from those relieved—I rejoice that he has been prospered, and pray that he may have more. In this new country we need wealthy men, who shall have broad views and genuine liberality. We have the foundations to lay of the grandest superstructure civilization has ever beheld, and they are to be envied who comprehend the work, and both by what they give and by what they do, have a share in it. A part of that work is before us here, in the moral and intellectual education of those whose training elsewhere would fit them to be only a tax and evil in the years to come. In a state of society like ours, composed of such elements, there are always peculiar temptations to vice—a larger number than elsewhere, who are in danger of early shipwreck—and the wisdom can hardly be overestimated which established an institution so soon, the healthful effects of which have been already so manifest. In some respects there is reason for congratulation that in a certain sense it has been taken more directly under the patronage and supervision of the State. Regarded as a matter of economy and governmental policy, there is nothing more worthy of legislative and executive care, than a school with such purposes and results. Yet, it would be occasion for real regret if the assumption of some responsibility respecting it on the part of the State, should alienate from the school the interest and support which individuals have heretofore bestowed on it. As an institution founded and maintained, for the most part,

by voluntary means—supervised by men of different views, yet having a common love for this christian charity, it has had success that may well excite the congratulations of all who know the facts. Let us hope that those who have been so long identified with it, will not cease to bestow upon it both their money and their care; and that though such offices as they have rendered must be at no little cost to selfishness, they will not refuse to continue what these hundreds of boys and girls who have already found a home within these walls, will sometime acknowledge to have been of untold worth to them. Nor can I refrain, just at this point, from saying a word in reference to the strictures that have been made upon the management of the school, amounting in some cases to severe criticism and actual blame. Probably the gentlemen who have had control during the year would not claim that in all respects their course has been free from opportunity for fault-finding. Where so many interests and sentiments are represented, this would be impossible, and this would be the first instance in the history of charitable institutions, if all concerned were perfectly satisfied with the acts throughout a year of those having it in charge. But we should remember that nothing is easier than to find fault, and that it is much more difficult to build up than to throw down. If those who have the work to perform do not build according to our wishes, we may exert our influence to change the policy; but men who give time and labor in such public service, are entitled to public confidence and generous support until there is clear proof that they are unworthy of it. This is too valuable an institution to be assailed without good cause, while its very value should lead us to watch very narrowly the manner of its administration.

For my own part, there are no men whom I more profoundly respect than those who try to do something for God and man, in these underground places where there are few to look on and praise. Yet they have a reward that none can estimate, if they really apprehend it. As I have been listening to these songs that form so pleasant a feature in these anniversary exercises, they seemed at first but the beautiful notes of children's music, to be soon forgotten—but, as I thought on them a moment, they seemed to change into strains sent back from the future in which these children are to have their stations, to cheer those in their service who seek to prepare them for a life amid such scenes. As I looked upon these faces, at first they seemed only like the thousand others that one meets with the passing feeling that they are of little worth—but as I thought longer, and studied closer the line traced by the soul on these not yet fully developed features, the image of God shone out on each countenance, and their Maker's commendation seemed to be uttered for the cheer of those who would make them worthy of the likeness. It is this nobler, more magnificent, more glorious reward, for the maintenance of such a charity as this, that I like to contemplate. The advantage to the State I fully appreciate. The advantage to society I would not fail to note. But, transcendent, beyond any conception of such lower good, though connected with it, is the priceless advantage possible to these children themselves, whom Providence has in a measure thrown upon public sympathy and care, for the impress they are to wear forever! There is no compensation for money and labor here

bestowed, like that arising from the reflection upon what they would have been, and what they now may be. A poor mechanic died in Brooklyn, of whom none knew that he had done much for others' welfare. A few friends bore his body to Greenwood, and were about to leave the grave after it had been filled, when a man whom none of them knew came up to its head, and as his tears watered the gift placed a bouquet of flowers on the fresh earth. They asked him why he showed this interest in the dead, and his only answer was, "He who lies there once helped me when I needed help," then left the group. I know not that I speak your sentiments, but for myself, I would rather have that monument upon my grave, than the most grand and costly shaft of marble, or of brass, in all that splendid city of the dead. It would be more noble, more beautiful, more abiding, with its simple inscription, "He helped me when I needed help." I will desire no worthier proof for you who take interest in these whom multitudes would leave to perish, than your regard for them is not forgotten, than the future confession of some rescued boy or girl, that through this school of reform and culture, you brought them help, without which they would have passed a life of vice, if not of crime. Your names may not be connected with the confession, but He who knows the bearing and results of all acts will see that you have the honor and the reward.

RULES OF INDENTURING.

1. Applications in writing for indenturing or adopting pupils shall be presented to the Board of Managers, and be determined by them, regard being had to the moral character of the applicant, and, as far as practicable, to the capacity of the pupil for the employment proposed.

2. The contract of indenture shall be executed in duplicate by the President of the department and the applicant, and shall contain the following provisions:

That the pupil shall, at all times, have liberty to communicate freely with the Board.

That the Board of Managers shall have the right, when in their judgment there is sufficient reason therefor, to cancel the indenture and receive back the pupil.

That written notice shall immediately be given to the Board, in case the pupil shall leave service before the expiration of the term.

That the pupil shall not be put to service with any other person, nor the indenture assigned without written consent of the Board.

That the indenture shall terminate upon the death of the master or mistress.

That upon the expiration of the term of indenture, the master or mistress shall pay to the pupil not less than twenty-five dollars, and give him or her an entire new suit of clothing, of proper kind.

3. No person adopting a pupil shall be at liberty to transfer him or her to any other person, without written consent of the Board. A transfer without such consent shall entitle the Board at once to take him or her back to the institution,

4. No female pupil shall be indentured to any unmarried man, or to serve in a boarding house or hotel, or in any establishment where spirituous liquors are sold. And if, during the term of her indenture, any master of a female pupil shall employ her in any place or manner which, in the opinion of the Board, would be likely to injure her moral character and reputation, the Board shall have the right to cancel the indenture, and take her back into the institution.

These provisions, in addition to those above stated, shall be inserted in every indenture of a female pupil.

5. A printed copy of these rules shall be furnished to every one to whom a pupil is indentured.

LICENSE COLLECTOR'S REPORT.

OFFICE OF THE COLLECTOR OF LICENSES, }
San Francisco, July 13, 1868. }

*To the Honorable the Board of Supervisors

Expenditures by Administrator..... 50 10

Commissions, 4 per cent.

Estate of Pierre Loubet, deceased July 7, 1867.

Letters issued July 30, 1867.

Total value of Estate..... \$2,404 00

Expenditures by Administrator..... 372 00

Commissions, 4 per cent.

Estate of Patrick Byrne, deceased June 19, 1867.

Letters issued July 17, 1867.

Total value of Estate..... \$3,771 41

Expenditures..... 830 40

Commissions, 4 per cent.

Estate of Francois Grandeau, deceased June 14, 1867.

Letters issued July 15, 1867.

Total value of Estate..... \$202 00

Expenditures..... 89 99

Commissions, 4 per cent.

Estate of Samuel Trask, deceased July 17, 1867.

Letters issued July 30, 1867.

Total value of Estate..... \$2,681 59

Expenditures..... 552 83

Commissions, 4 per cent.

Estate of Julius Sturm, deceased July 17, 1867.

Letters issued August 8, 1867.

Total value of Estate..... \$4,815 68

Expenditures..... 2,531 93

Commissions, 4 per cent.

Estate of Thomas Smith, deceased July 13, 1867.

Letters issued August 8, 1867.

Total value of Estate \$280 67

Expenditures 107 84

Commissions, 4 per cent.

Estate of Maria Mack, deceased August 17, 1867.

Letters issued September 5, 1867.

Total value of Estate \$410 67

Expenditures 410 67

Commissions, 4 per cent.

Estate of Christine Lenglet, deceased Sept. 1, 1867.

Letters issued September 13, 1867.

Total value of Estate \$4,099 62

Expenditures 1,020 31

Commissions, 4 per cent.

Estate of David S. Lindley, deceased May 3, 1867.

Letters issued October 17, 1867.

No property discovered.

Estate of Edward A. Magrath, deceased Sept. 16, 1867.

Letters issued October 17, 1867.

Total value of Estate \$790 70

Expenditures 446 70

Commissions, 4 per cent.

Estate of Jean B. Delabigne, deceased, Oct. 3, 1867.

Letters issued November 9, 1867.

Total value of Estate \$850 38

Expenditures 413 30

Commissions, 4 per cent.

Estate of H. C. Korf.

Letters issued September 19, 1867.

No property discovered.

Estate of George Martin, deceased October 15, 1867.

Letters of Administration issued Nov. 11, 1867.

Total value of Estate..... \$715 00

Expenditures..... 182 00

Commissions, 4 per cent.

Estate of Peter Bradley, deceased October 9, 1867.

Letters of Administration issued Oct. 22, 1867.

Total value of Estate..... \$729 15

Expenditures..... 206 73

Commissions, 4 per cent.

Estate of Frederick R. Reichel, deceased Nov. 19, 1867.

Letters issued December 4, 1867.

Total value of Estate..... \$28,634 78

Expenditures..... 7,693 00

Commissions, 4 per cent.

Estate of Benoit Georg, deceased November 9, 1867.

Letters issued November 22, 1867.

Total value of Estate..... \$714 50

Expenditures..... 224 00

Commissions, 4 per cent.

Estate of Jochim Wiese, deceased Sept. 2, 1867.

Letters issued December 5, 1867.

Total value of Estate..... \$1,847 20

Expenditures..... 364 15

Commissions, 4 per cent.

Estate of J. C. Matayron, deceased Dec. 9, 1867.

Letters issued December 29, 1867.

Total value of Estate..... \$254 80

Expenditures..... 86 69

Commissions, 4 per cent.

Estate of J. O'Hern, deceased November 10, 1867.

Letters issued December 12, 1867.

Total value of Estate..... \$1,596 65

Expenditures..... 401 30

Commissions, 4 per cent.

Estate of E. Barbaoch, deceased December 16, 1867.

Letters issued January 28, 1868.

Total value of Estate..... \$514 65

Expenditures..... 351 13

Commissions, 4 per cent.

Estate of George W. Cornell, deceased Nov. 29, 1867.

Letters issued January 28, 1868.

Total value of Estate..... \$126 00

Expenditures..... 110 00

Commissions, 4 per cent.

Estate of James Brokaw, deceased Dec. 22, 1867.

Letters issued January 11, 1868.

Total value of Estate..... \$166,081 13

Administration transferred to Abraham Brokaw,
brother of deceased.

Estate of John P. Krider, deceased January 13, 1868.

Letters issued February 14, 1868.

Total value of Estate \$1,135 71

Expenditures 338 01

Commissions, 4 per cent.

Estate of Thomas Fagan, deceased January 25, 1868.

Letters issued February 13, 1868.

Total value of estate \$610 90

Expenditures 220 50

Commissions, 4 per cent.

Estate of Owen C. Nolan, deceased February 5, 1868.

Letters issued February 25, 1868.

Total value of estate \$1,133 93

Expenditures 348 95

Commissions, 4 per cent.

Estate of Herman Greenhood, deceased Aug. 15, 1867.

Letters issued February 25, 1868.

No property discovered.

Estate of G. W. Gipson, deceased February 1, 1868.

Letters issued February 29, 1868.

Total value of Estate \$180 10

Expenditures 119 50

Commissions, 4 per cent.

Estate of Samuel Kerr, deceased January, 1868.

Letters issued January 26, 1868.

JOHN SHORT, JR.,
Pound Keeper.

SHERIFF'S REPORT.

SHERIFF'S OFFICE,
City and County of San Francisco. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In compliance with Resolution No. 8,566, I beg to report to your honorable body the condition of the Sheriff's Department.

RECEIPTS.

For the fiscal year ending June 30, 1868, the Sheriff's receipts have been less than in the last preceding year, which is mainly to be attributed to the General Bankrupt Law. Since it has been in full operation, attachment suits and Sheriff's sales under execution have considerably decreased in number, and it was from these, to a great extent, that the Sheriff's receipts were previously derived.

During the said fiscal year, the receipts and payments into the Treasury have been as follows, viz :

By Henry L. Davis, Esq., my predecessor in the office of Sheriff	\$4,889 97
And by myself, as per monthly statements filed in the office of the Auditor	4,684 59
Total	<u>\$9,574 56</u>

EXPENSES.

Besides the bills for books, stationery and printing for the use of my office, allowed by your Honorable Board and paid by the Treasurer, my said predecessor and myself disbursed in all the sum of \$628 50 during said fiscal year for taking to the Insane Asylum, Stockton, 149 insane persons, viz:

My said predecessor for 50 insane persons.....	\$212 00
And I myself for 99 insane persons.....	416 50
	<hr/>
In all, as aforesaid.....	<u>\$628 50</u>

This is exclusive of the transportation charges of the California Steam Navigation Company.

COUNTY JAIL.

	<hr/>
Total.....	<u>132</u>

In the second Annual Report of the California Prison Commission, under the head of "Fallen Women," page 17, the following recommendation is made, viz: "I have to repeat the recommendation presented in my last Report, that a place be provided for the women known as 'common drunkards,' who spend the most of their lives in the County Jail, that shall be to them a home, where they can be sentenced on very long terms and be taken care of until reformation has apparently taken place, with cells for the confinement of all women convicted of offenses now punishable by imprisonment in the jail. If an arrangement talked of by the Board of Managers of the Industrial School—that of erecting a separate building for the girls—should be made, it could be planned so as to embrace everything necessary for carrying out the suggestion made in this paragraph, without interfering at all with the institution in regard to its primary object or bringing the younger inmates into dangerous association with the older ones. The better way would be to

have a place entirely distinct for the women and the older girls now in the school, and to provide for the younger ones elsewhere—perhaps, at the Home of the Ladies' Protection and Relief Society, or Magdalen Asylum.'

I would respectfully call the attention of your honorable body to said recommendation, and urge the carrying out thereof.

Respectfully submitted,

P. J. WHITE,
Sheriff.

REPORT

OF THE

SUPERINTENDENT OF PUBLIC SCHOOLS.

OFFICE OF SUPERINTENDENT OF PUBLIC SCHOOLS, }
San Francisco, July 1, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In compliance with law and general usage, I have the pleasure to present to your honorable body the following Annual Report of the financial and general condition of the Public Schools for the fiscal year ending June 30, 1868.

The year just closed has been one of unusual progress and prosperity in our schools. They have greatly increased in the number of scholars in attendance and in efficiency of instruction. Last year the average number of scholars in attendance was 10,177, requiring a corps of 225 teachers; while this year the average number of pupils attending the public schools has been 11,871, requiring 272 teachers to instruct them—thus showing an increase of 1,694 pupils and 47 teachers.

The health of both pupils and teachers has been unusually good. In consequence of our salubrious climate, and the vigilant care exercised by the teachers in carrying out the sanitary regulations of the Department, but few deaths have occurred among the children during the year.

SCHOOL STATISTICS.

It is an important question to what extent of minuteness school statistics are beneficial to the cause of education or interesting

to the public. The subject has excited much interest and attention all over the country for several years. Our National Government, in response to a general sentiment and desire for a more uniform system of public instruction in every part of the Union, has organized a National Bureau of Education at Washington for the general dissemination of school statistics and educational information, which it is hoped will prove a permanent benefit and blessing to the cause of public instruction.

School statistics should not be too meagre or general in their character, or so minute as to confuse important and desirable facts with useless details. It is necessary that the public should be informed of the character of the schools, and how the public funds have been expended, in order to enlist their interest and support. Especially is it important that school officers should have a thorough knowledge of the details of the department to enable them to intelligently discharge the important trusts committed to their charge. Since I have but lately entered upon the duties of my office, I do not propose in this report to enter into any lengthy discussion upon the importance of public instruction, or recommend many radical changes in the present organization or management of our public schools. This organization is the result of nearly seventeen years' labor and experience of our ablest teachers, combined with the wisdom and experience of the best educators in other cities and countries. It now commands the respect and confidence of our citizens at home and the praise and admiration of strangers from abroad; any change would, therefore, be unwise and dangerous, until demanded by the progressive wants and future interests of our rapidly increasing population.

The following statistics have been carefully compiled from the records of the Department. They will represent the expenditures of the Board of Education and the comparative standing and progress of the public schools during the year. In the Appendix will be found a complete statement of the attendance of pupils in the different schools, the cost of tuition of each pupil for the last year, and the names of the teachers engaged in the various schools of the city for the present year.

Cash on hand June 30, 1868.....		76 82
	<u>\$376,469 55</u>	<u>\$376,469 55</u>

According to the foregoing statement, it will be observed that there was at the close of the fiscal year 1867-68 a deficit in the School Fund of \$34,554 33. This deficit was mainly caused by the extraordinary expenditures for printing and supplies; also for repairs on old School buildings and for costly furniture required to supply the new Primary School houses, erected during the year. The item for furniture was \$19,931 32, while there were expended for repairs \$13,439 43, amounting in the aggregate to nearly the whole deficit of the year. There were \$5,854 61 appropriated for grading and improving street in front of School property, which was an expense that should never have been paid from the School Fund. The Board of Education was relieved from this tax upon its finances by a special Act of the last Legislature. There were also \$42,863 20 transferred from the School Fund to form a Sinking Fund, and to pay the interest upon the School Bonds which have been issued to raise money to erect school houses, etc. This transfer for the next year will amount to \$46,610, which will seriously cripple the finances of the Department. The city should provide for its payment from some other source, as the income of the School

Department should not be burdened with expenditures which more properly belong to the General Sinking Fund.

Formerly, it has been customary to provide for the payment of any deficit in the School Fund by issuing School Bonds, the principal and interest of which are made payable from the income of the School Department. The present Board of Education being strongly opposed to taxing the future income of the School Department by issuing any more bonds, resolved to apply to the last Legislature for an increase of the School Tax of five cents, to provide a fund to pay this deficit of last year. This was granted, and the amount has been added to the usual tax of 35 cents on every hundred dollars, which will account for the slight increase in the School Tax this year. At the same time, the following Legislative provisions were passed prohibiting the Board of Education from incurring any deficit in the future. Section 4 of this Act provides that "It shall be the duty of the Committee on Finance and Auditing of the Board of Education, during the month of July of every year, to make an annual estimate of all revenue and disbursements of the School Department for the current fiscal year, specifying separately the amount of funds necessary to defray the different items of expenditures for the first and last half-year; and in no case shall it be lawful for the said Board to exceed, during the first half-year, the estimated items of expenditures for that period, or, in the entire year, the revenues for school purposes. All surplus or unexpended funds of any half-year shall be available for expenditures of the following half-year. The Auditor and Treasurer shall conform strictly to the provisions of this section."

In accordance with the requirements of this Act, the Committee on Finance and Auditing prepared the following Report of the receipts and disbursements of the School Department for the fiscal year 1868-9:

ESTIMATE OF THE PROBABLE RECEIPTS AND DISBURSEMENTS
FOR THE FISCAL YEAR 1868-69, AS PER REPORT OF FINANCE
COMMITTEE, JULY, 1868.

RECEIPTS.

From City and County Taxes, estimating the School
Tax on \$85,000,000 of property at 40 cents on every

hundred dollars.....	\$340,000 00
From State Apportionment, as per estimate of State Superintendent.....	60,000 00
From all other sources.....	5,000 00
	\$405,000 00

From which deduct the indebtedness of the fiscal year 1867-68 remaining unpaid, to wit, \$34,554 34, leaving a balance of \$370,645 66 to defray the expenses of conducting the School Department for the fiscal year 1868-69.

DISBURSEMENTS.

	First Six Months.	Second Six Months.
Teachers' salaries estimated.....	\$135,000 00	\$138,000 00
Janitors' Salaries estimated.....	8,500 00	8,500 00
Marshal's salary estimated.....	1,400 00
Clerk's salary fixed.....	900 00	900 00
Carpenter's salary fixed.....	600 00	600 00
Lights estimated.....	375 00	375 00
Water estimated.....	75 00	75 00
Books and Supplies estimated.....	5,000 00	3,000 00

Officers of Board and Sundries.....	3,017 83	3,017 83
Transfers to Sinking and Interest Fund.....	46,610 00
Total.....	\$208,327 83	\$162,317 83 208,327 83
Total for the year.....		\$370 645 66

According to this Report, there cannot be any danger of being compelled to close the schools in the future for want of funds to defray the current expenses, since ample provision has been made for each item of expenditure. The Report has been adopted by the Board of Education, and is now a law, equally binding upon the Auditor and Treasurer, as upon the officers of the School Department. The sum of \$273,000 has been appropriated for the first and last half of the fiscal year for teachers' salaries, which is an increase of \$31,916 94 over the expenditure for the same purpose last year. This amount will be necessary in consequence of the large increase of children requiring additional teachers.

Owing to the great increase of the current expenses and the transfer of \$46,610 to the Interest and Sinking Fund, no provision has been made from the General School Fund for furniture and repairs. This is to be regretted, since it will be necessary to draw largely upon the Special Building Fund for these items of expenditure.

SPECIAL BUILDING FUND FOR 1866-67.

STATEMENT OF PROCEEDS OF SCHOOL BONDS AUTHORIZED BY ACT OF MARCH 17TH, 1866.

[Amount of School Bonds authorized, \$275,000.]

The proceeds from the sale of these Bonds have been as follows: 1866.

June 23.	From sale of 45 Bonds, at 81 cents.....	\$36,450 00	
June 23.	From sale of 30 Bonds, at 82 cents.....	24,600 00	
			\$61,050 00

						118	960	\$123,972 00		

Total number of classrooms provided in new buildings, 118; total number of seats, 7,093; at a total cost of \$123,972, exclusive of valuation of Post Street and Synagogue Buildings, which were obtained by the Board of Education in exchange for a part of the School Lot corner of Fourth and Harrison Streets.

† Full capacity, without reference to the present number of pupils.

Notwithstanding the Board of Education has within the last two years erected sixteen new Public School buildings, with a capacity to seat 7,365 pupils, the Department is compelled to rent the following buildings to accommodate the increasing number of children daily applying for admission to our Public Schools: The Synagogue on Mason street, near Geary, with four rooms, accommodating 240 pupils of the Cosmopolitan Schools; German Church on Geary street, near Powell, with three rooms, which accommodate 180 of the Cosmopolitan pupils; Bethel Church, corner of Drumm and Sacramento streets, with five rooms and 180 pupils in attendance; building on the corner of Bryant and Second streets, with two rooms, which will accommodate 120 pupils; School building connected with the St. Joseph's Church, on Tenth street, with six rooms, which accommodate 423 pupils; one room on the corner of Sixteenth and Shotwell streets, which accommodates 60 primary pupils of the Mission School; one room on the corner of Folsom and Twenty-second streets, which accommodates 60 primary pupils of the Shotwell street School; a small building near the Ocean House, which accommodates the children of the families living in that part of the city and county; one room near the corner of Eighth and Bryant streets, which accommodates 60 pupils of the Eighth street Primary School; one room in Pixley Hall, corner of Polk and Pacific streets, with accommodations for 60 primary pupils of the Spring Valley School.

From the foregoing statement, it will be observed that the School Department is now renting inferior accommodations for 1,408 pupils, at a monthly expense of \$568. The Committee on Finance has set apart \$7,200 for rents, which will be required to furnish room for all who will apply during the year.

SPECIAL BUILDING TAX.

To meet the wants of our increasing population, the Board of Education, at the last session of the Legislature, secured the passage of a law authorizing the Board of Supervisors to levy an assessment of five cents on every hundred dollars valuation of property, to raise a "Special Building Fund" for the purpose of erecting and repairing school houses. This tax, according to the estimate of the Auditor, will amount to \$42,500, which, added

to \$6,237 65, the surplus of the School Fund of 1866-7, will give the Board of Education a Building Fund of \$48,737 65. This, it was hoped, would be ample to meet the increasing wants of the Department, but owing to the large increase in the number of teachers and pupils in our public schools, the general school fund will barely meet the current expenses. It will therefore be necessary to draw largely upon the Building Fund for furniture and repairs, thus rendering it impossible to erect, during the coming year, more than a plain wooden building for the Girls' High School, and a three-class room structure for the colored school.

I exceedingly regret that the Board of Education has not ample funds to erect suitable and commodious school buildings, for the accommodation of every pupil applying for admission.

NEW SCHOOL HOUSES REQUIRED.

A large Grammar School building is very much needed in the vicinity of Tenth and Harrison streets. Another Primary building is also required in the Tenth District, to relieve the crowded condition of the Lincoln and Fourth street Primary schools, and to accommodate the large number who cannot now be received for want of room.

RINCON GRAMMAR SCHOOL.

A large Grammar School building, for girls, should be erected as soon as possible, to accommodate the increasing population of the Seventh, Ninth, and Tenth Districts. The present building was erected for a Primary School; the rooms are, therefore, not large enough to conveniently seat full classes of large Grammar pupils. Four of the classes are now placed in small cottages detached from the main building, which makes it exceedingly inconvenient for teachers and pupils.

The crowded condition of the Primary Schools in the Rincon District should receive the earliest consideration of the Board of Education. Two hundred and forty pupils are now crowded in the Bryant street Engine House, a building totally unfit for school purposes, and from which we may be compelled to remove at any moment. If a new building is erected for the Grammar School of this District, the old house will afford ample accommodations for the present for Primary pupils.

COSMOPOLITAN SCHOOLS.

Increased accommodations are immediately required for the South Cosmopolitan School. The present buildings on Post street are badly arranged for Grammar and Primary pupils, upon the same premises. The lot is not large enough to afford decent yard room, in consequence of which the Board is compelled to rent two adjoining lots for the boys' play ground, at an extra expense of \$45 per month. A permanent building should therefore be erected for the Grammar Department, apart from the Primary.

When the Girls' High School building is completed, the seven classes which are now taught in rented rooms in the Geary street church and the Mason street synagogue, can be transferred to the present High School building, corner of Bush and Stockton streets.

MISSION DISTRICT.

As soon as a Grammar School is established in the vicinity of Tenth and Harrison streets, another large Grammar building should be erected somewhere between the Mission and Shotwell street schools to accommodate all the Grammar pupils in that portion of the city. The present buildings would then afford ample room for the Primary pupils.

PRESIDIO ROAD.

A Primary building of not less than four class rooms will soon be required near the corner of Davidson and Union streets. The Spring Valley building is too far from the centre of the district to accommodate the large number of children living near the Presidio.

OCEAN HOUSE.

A school house of not less than two session rooms should be erected for this increasing section of the county. The present rented building is too small, and so badly arranged as to be entirely unfit for school purposes.

SOUTH SAN FRANCISCO.

A two class-room building should be erected at once in South

San Francisco. The citizens in that section of the county have just cause for complaint at the neglect which they have received from the School Department. They bear the same burden of taxation as those of other parts of the city and county, and are entitled to equal consideration with those living in the more thickly settled portions of the city.

In addition to the 1,408 pupils now attending school in unsuitable buildings rented by the city, the census returns show that there are 1,824 children between five and six years old who will, during the next year, become of legal age to attend school. There are also 16,109 children under five years of age who will, within a few years, be knocking for admission to our Public Schools. This large number, in connection with the rapid immigration which is daily pouring into our city from every part of the world, should admonish our city and State legislators to make wise and liberal provisions for the education of these wards of the commonwealth, who will soon be called upon to direct and control the future destiny of our country. It is admitted by all, that as every civilized nation increases in population, it is certain to advance in wealth and prosperity; we should therefore welcome this increase of our educational responsibilities and burdens with pride and pleasure as the elements of our future greatness and perpetuity.

EXPENSE OF TUITION.

As it may be interesting to know how much the liberality and bounty of San Francisco has been taxed for the support of her Public Schools since their commencement, under the present organization, I have carefully compiled the following statement of the yearly expenditures of the School Department since 1852:

1852.....	\$23,125 00
1853.....	35,040 00
1854.....	159,249 00
1855.....	136,580 00
1856.....	125,064 00
1857.....	92,955 00
1858.....	104,808 00
<i>Carried forward.....</i>	<hr/> \$676,821 00

<i>Brought forward</i>	\$676,821 00
1859.....	134,731 00
1860.....	156,407 00
1861.....	158,855 00
1862.....	134,567 00
1863.....	178,929 00
1864.....	228,411 00
1865.....	346,862 00
1866.....	361,668 00
1867.....	507,822 00
1868.....	376,392 00
Total.....	<u>\$3,261,465 00</u>

This statement includes, in addition to the current expenses of the School Department, all the money expended for the purchase of school sites and the erection of school houses, which will explain the great difference in the total disbursements for school purposes in different years. For instance, in 1867, when the Board of Education erected nine new buildings, the total expenditure was \$507,822—nearly double the amount of the previous year. The real expense of tuition, based upon the teachers' salaries since 1852, has been \$1,627,336.

An unfavorable opinion exists among a portion of the community in regard to the management of our Public Schools. It is charged that, while the city has been liberal in taxing every one for the cause of education, yet, in consequence of the extravagance of the Board of Education, the Department has been constantly embarrassed for want of funds. Objections have also been made in regard to the expense of tuition here in comparison with Eastern cities. While it may be true that the tuition per scholar is greater in San Francisco than in some of the older cities, yet, if we carefully investigate the facts, we shall find that the yearly expense of educating a child in our Public Schools is less than it is in New York, Boston and many of the large cities of the Eastern States. The whole number of pupils attending Public Schools during the year was 17,426, with an average number belonging of 12,661. The current expenses of conduct-

ing the Department for the same time, including teachers' and janitor's salaries, fuel and rent were \$265,544, being \$20 98 for each pupil under instruction for the whole year, and \$15 23 for each scholar attending a longer or shorter period.

In New York in 1864 the cost per scholar was about \$22. In Worcester, Mass., in 1867, the annual tuition was \$15 34. In Brooklyn in 1866 the annual tuition per scholar was \$14. In Milwaukie in 1860 the tuition was \$15 34. The city of Boston, which is famed for economy combined with wisdom and liberality in managing public affairs, expends annually \$25 88 for the education of each youth attending the Public Schools. While the expense of tuition in San Francisco compares favorably with the cost of education in Eastern cities, yet it is not a just criterion by which to approve or condemn the management of the Board of Education. There are many expenses attending the organization of our Public Schools in California where prices are so high, which are not incurred in conducting schools in Eastern cities. The true standard by which to judge of the necessary expense of education here, is a comparison of the cost of tuition in our private and public schools, where the salaries and the cost of living are the same, and where in private schools competition has reduced the charges to the lowest living rates. According to their published rates, the tuition for each pupil in private schools is from \$3 to \$12 per month, making an average of \$6 50; this for ten months will amount to \$65, which is nearly three times the sum expended in our public schools. It is true that the schools of San Francisco have been established and maintained at no small cost. The price of planting thus early upon these Pacific shores the seeds of knowledge and prosperity has necessarily been expensive. Many mistakes may have been made through inexperience and want of system, incident to every new enterprise, but upon a broad view and a just estimate of the part we should take in shaping the civilization and future destiny of this western world, I think the charge of extravagance is unjust and unwarrantable. A rich harvest for every dollar expended will be reaped through future ages in the general intelligence and patriotism of a great and prosperous people.

SCHOOL CENSUS.

The census taken during the month of June shows the number of youth in our city to be as follows:

Total number of white children under 15 years of age..	39,728
Total number of white children between 5 and 15 years of age.....	23,227
Total number of negro children between 5 and 15 years of age.....	142
Total number of Indian children between 5 and 15 years of age.....	17
Total number of white children under 5 years of age...	16,034
Total number of negro children under 5 years of age...	75
Total number of Mongolian children under 15 years of age.....	233
Total number of white children between 5 and 6 years of age.....	1,824
Total number of white children between 6 and 15 years of age, who have attended public schools at any time during the school year.....	13,576
Ditto, negro children.....	68
Ditto, Indian children.....	1
Total number of white children between 6 and 15 years of age, who have attended private schools at any time during the year.....	3,996
Ditto, negro children.....	10
Ditto, Indian children.....	2
Total number of white children between 6 and 15 years of age, who have not attended school at any time during the school year.....	3,324
Ditto, negro children.....	41
Ditto, Indian children.....	1
Total number of Mongolian children between 6 and 15 years of age, attending school.....	9
Total number of deaf and dumb children between 5 and 21 years of age.....	54
Total number of blind children between 5 and 21 years of age.....	35

These figures are encouraging, and show that our city is rap-

idly increasing in population. Last year, the whole number of children, of all races and colors, under fifteen years of age, was 34,889; this year, the total number is 39,728—an increase of 4,839. Last year, the whole number between five and fifteen years—the legal age for drawing public funds from the State—was 20,432; this year, the total number is 23,619—making a gain of 3,187.

The following is a comparative statement of the children of all ages and colors under eighteen years of age, from 1859 to 1865, inclusive. Since 1865, the census has only been taken of children under the age of fifteen:

1859.....	13,858
1860.....	15,400
1861.....	20,933
1862.....	22,044
1863.....	25,952
1864.....	30,480
1865.....	32,529

Under fifteen years of age:

1866.....	30,675
1867.....	34,889
1868.....	39,728

ATTENDANCE.

The whole number of pupils enrolled in all the schools during the last year was 17,426; the average number belonging was 12,661, and the average daily attendance was 11,871. As there was no record kept in 1866-67 of the whole number attending it will be impossible to compare the present with the past year. Last year the average attendance was 10,177; this year it is 11,871, an increase of 1,694 pupils during the year. The number of new pupils enrolled who have not before attended the city public schools during the year was 5,716; the number of pupils received by transfers from other schools was 2,980; the number of pupils re-entered, 6,636; number left during the year, 7,484; the total number of days attendance in all the public schools during the year was 2,339,817; total number of days absence in all the schools, 159,711; total number of tardinesses during the year, 63,534.

The following is a comparative statement of the whole number enrolled, and the average attendance of all the public schools, since 1852, as reported by the State Superintendent:

	No. Enrolled.	Average Daily Attendance.
During the year ending October 31, 1852....	2,132	445
During the year ending October 31, 1853....	2,870	703 $\frac{1}{2}$
During the year ending October 31, 1854....	4,199	1,011 $\frac{1}{2}$
During the year ending October 31, 1855....	4,694	1,484.
During the year ending October 31, 1856....	3,370	2,516
During the year ending October 31, 1857....	4,637	2,155
During the year ending October 31, 1858....	5,273	2,521
During the year ending October 31, 1859....	6,201	2,829
During the year ending October 31, 1860....	6,108	2,837
During the year ending October 31, 1861....	6,674	3,377
During the year ending October 31, 1862....	8,203	3,794
During the year ending October 31, 1863....	8,177	4,389
During the year ending October 31, 1864....	10,981	5,470
During the year ending October 31, 1865....	—*	6,718
During the year ending October 31, 1866....	—*	8,131
During the year ending October 31, 1867....	—*	10,177
During the year ending October 31, 1868....	17,426	11,871

It is gratifying to record such a rapid growth in our juvenile population. These figures show not only a great increase of the population of the city, but also, that our public schools are rapidly advancing in the estimation and favor of the public.

PERCENTAGE OF ATTENDANCE.

The following table presents the percentage of attendance in the different Public Schools during the year:

Boys' High School.....	.98 $\frac{1}{2}$
Girls' High School.....	.98 $\frac{4}{10}$
Lincoln Grammar School.....	.95 $\frac{1}{10}$
Denman Grammar School.....	.95 $\frac{1}{10}$
Rincon Grammar School.....	.96 $\frac{1}{2}$
Union Grammar School.....	.94 $\frac{9}{10}$
Washington Grammar School.....	.94 $\frac{4}{10}$
Mission Grammar School.....	.93 $\frac{7}{10}$

* No record of whole number enrolled.

Spring Valley Grammar School.....	.93 $\frac{9}{10}$
Cosmopolitan Grammar School94 $\frac{3}{5}$
Shotwell Street School.....	.94 $\frac{1}{10}$
North Cosmopolitan School94 $\frac{3}{5}$
Tenth Street School87 $\frac{3}{10}$
Union Primary School.....	.94 $\frac{1}{5}$
Fourth Street Primary School92 $\frac{1}{10}$
Powell Street Primary School93 $\frac{4}{5}$
Pine and Larkin Primary School.....	.90 $\frac{1}{10}$
Broadway Primary School.....	.92 $\frac{3}{5}$
Hayes Valley Primary School.....	.94 $\frac{1}{5}$
Eighth Street Primary School95 $\frac{1}{2}$
Spring Valley Primary School88 $\frac{4}{5}$
Tehama Primary School.....	.94 $\frac{8}{10}$
Cosmopolitan Primary School92 $\frac{7}{10}$
West End Primary School.....	.87 $\frac{3}{10}$
Lincoln Primary School.....	.92 $\frac{9}{10}$
San Bruno School.....	.90 $\frac{1}{10}$
Fairmount School.....	.85 $\frac{4}{5}$
Potrero School.....	.90 $\frac{2}{5}$
Pine Street School98
Tyler Street School.....	.87 $\frac{2}{5}$
Bryant Street School.....	.93 $\frac{3}{5}$
Ocean House School.....	.79 $\frac{4}{5}$
State Normal Training School.....	.93 $\frac{9}{10}$
City Normal Training School92 $\frac{4}{5}$
Drumm Street School.....	.95 $\frac{7}{10}$
Hyde Street School.....	.88 $\frac{4}{5}$
Colored School.....	.90 $\frac{2}{5}$
Chinese School.....	.66 $\frac{3}{5}$
Percentage of attendance in all the Schools93 $\frac{3}{5}$

The following is a statement of the percentages of attendance of all the Public Schools since 1860:

186083
186190
186290
186391
186492
186592 $\frac{9}{10}$

186693 $\frac{1}{2}$
186793 $\frac{3}{4}$
186893 $\frac{3}{5}$

These figures present the most valuable statistics of the School Department, since the degree of punctual and regular attendance is the best evidence of the success and efficiency of our Public Schools; they are particularly gratifying, in comparison with the attendance of the older organized schools in Eastern cities. In San Francisco the per cent. of attendance is .92 $\frac{3}{5}$; in Boston it is .92 $\frac{1}{3}$; in New York, .90; in Louisville, Kentucky, .86 $\frac{3}{5}$; and in Albany, New York, it is .71.

NATIVITIES.

Since it may be interesting to the future scholar and historian to know the different elements of our cosmopolitan society, I have requested the teachers to keep a record of the nativities of the pupils attending the Public Schools, from which I have compiled the following table:

UNITED STATES.			
Vermont.....	27	Wisconsin.....	71
New Hampshire.....	18	Illinois.....	128
Maine.....	172	Michigan.....	38
Massachusetts.....	1020	Minnesota.....	35

NON-ATTENDANCE AND TRUANCY.

Irregular attendance and truancy are growing evils in our Public Schools, which should command the deepest interest and careful solicitation of every citizen of San Francisco. I allude to them at the present, not that they exist to a greater extent here than elsewhere, but because now is the time to adopt some means to remedy these crimes, which, in all great cities, are fruitful sources of youthful depravity and corruption. During the last year there have been in all the Public Schools 159,711 absences; 63,534 cases of tardiness; 917 instances of truancy; and 85 suspensions.

The census returns for June, 1868, also show that of the 23,386 children between six and fifteen years of age, who should be attending school, there are 3,366 who have received no educational advantages during the year. It is safe to estimate that at least 1,500 of these have received a fair business education, and have left school to engage in some trade or occupation to earn their own livelihood, or to assist in supporting others. After deducting this number, there still remains 1866 wandering in our streets, subjected to all the evil influences of a life of

vagrancy and crime. They prowl around our Public Schools and initiate the pupils in truancy and vice. While much good may be accomplished by teachers and school officers, by earnest and judicious appeals to parents in behalf of the best interests of their children, yet I think that the increase of truancy and vagrancy can only be prevented by strict and efficient police regulations. I cannot, therefore, too strongly urge upon the Board of Supervisors the necessity of appointing one or more truant officers, whose special duty shall be to investigate all cases of truancy in our Public Schools. They should also visit the homes of all children leading idle and vagrant lives, in order to induce their parents to assist in reforming and educating them. Since our police records show that there is a large number of youth in San Francisco growing up in crime and ignorance, who require the watchful care of the officers of the law, I desire to call the special attention of the Board of Supervisors to the able Report of Assistant Superintendent Calkins of New York, in regard to the statistics of the work performed by the truant officers of that city: "There are five police officers who are specially detailed to visit the Public Schools throughout the city to take the names and residences of such children as the Principals have good reason to believe are truants, and then to visit their homes, confer with the parents or guardians of these children, showing them the importance of regular school attendance and the evils of truancy. In many cases this course is found to be all that is required to effect a reformation of the pupils. Sometimes it is necessary to arrest a few of these truants and conduct them to school. Others, who have become more confirmed in their evil ways, are committed to the Juvenile Asylum.

"Through the kindness of Captain B. G. Lord, of the Sanitary Department of the Metropolitan Police, I have obtained statistics of the work performed by the truant officers for the past year. During the year 1863, the names and residences of 5,613 children were reported to these officers. On visiting their homes it was ascertained that 1,968 were absent from school for the following reasons: Transferred to other schools by their parents; withdrawn from school; kept at home by sickness, poverty or other reason—therefore not to be classed as truants. Through the exertions of the officers, 3,092 children were induced to at-

tend school regularly; 156 confirmed truants were committed to the New York Juvenile Asylum."

Speaking of the benefits of truant officers and the necessity of establishing truant schools, the same officer remarks as follows: "As now, the knowledge that proper officers are continually searching for absentees from school, already exerts a most salutary influence in deterring from truancy, so the existence of a truant school and a proper execution of the law against idleness and vagrancy, would induce multitudes who now totally neglect all means of education to avail themselves of the facilities in our free schools." Since these remarks will apply with peculiar force and interest to San Francisco, I desire to commend the subject to you, gentlemen of the Board of Supervisors, hoping that you will at once authorize the appointment of proper officers to put a stop to truancy and vagrancy, which are corrupting and demoralizing the youth of our city. The old adage that "an ounce of prevention is worth a pound of cure," will apply with peculiar force to the education of the young. We are, therefore, called upon by every consideration of economy and humanity to exercise greater vigilance and authority in the government and training of a large class of lads growing up in our streets without any wise parental care and authority, or they will become a disgrace and terror to society and a burden to the State.

NEW COURSE OF STUDY AND REVISED MANUAL.

Since the charge of over-working the children attending our public schools has been so often preferred against the officers of the School Department, I desire to refer, for the information of the public, to the revised course of study which has lately been adopted by the Board of Education, for the Grammar and Primary Schools, and which is published in the Appendix to this Report. This course includes ten grades—four in the Grammar and six in the Primary Departments. It will require eight years to complete it, so that pupils entering at six years of age can graduate from the Grammar Schools at the age of fourteen. By a careful reference to this course, it will be observed that, while it is full and complete, it is so gradual that it can be readily mastered in eight years. Compared with the courses of instruction in Eastern cities, it is the most simple, and at the same time the most comprehensive and practical which has yet been published.

Several important changes have been introduced, especially in regard to the methods of teaching geography and arithmetic. Local geography has been introduced in the lower grades, and every pupil will in the future be well informed in regard to the geography of his own State and the Pacific coast before leaving the Primary School. Analytical arithmetic, which, in the old course of study, required much of the pupil's time, has been omitted in the lower grades of the revised course, and in its stead has been introduced the ordinary computation of numbers required in business life—such as the use and application of the table of Federal money, computing the value of bills of merchandise and the method of reckoning simple interest in California. The whole course is peculiarly adapted to the wants of the youth of San Francisco, and will, I predict, meet the approval of teachers, pupils and parents.

The Manual of rules and regulations of the School Department, has also been revised during the year. It now contains a full digest of the powers of the Board of Education and the rights of parents and pupils. The duties and responsibilities of the different teachers have been more clearly defined, which will render the organization and government of the Public Schools much easier and more effective.

TEXT BOOKS.

But few changes have been made in the text books used in the public schools during the year. In order to save as much expense as possible to parents, the Board of Education has endeavored to exercise the utmost care to reduce the number of books used in the different series, and to allow the introduction of no work of a sectarian or political character, which could offend the sentiment or wound the feeling of any large class of our citizens.

The school room, above all other places, should be kept free from all the bitter and exciting issues, which separate society in opposing sects and parties, and which should be discussed and settled upon the forum or in the pulpit.

SCHOOL MEDALS.

In June, 1865, James Denman presented to the Board of Edu-

cation the sum of \$1,000, to establish a Medal Fund, the proceeds of which were to be expended annually in procuring medals for the most deserving pupils attending the Denman School. As this was the first medal fund established for the benefit of any of the public schools of San Francisco, I desire to insert the report of the special committee appointed by the Board of Education to prepare rules and regulations for founding and awarding the medals:

To the Board of Education :

GENTLEMEN—Your Special Committee, appointed July 11th, 1865, to superintend the founding and inauguration of the “Denman Grammar School Medal,” having finished the duties assigned them, beg leave to present their report:

James Denman, Esq., Ex-Superintendent of Schools, and the first teacher in the old school bearing his name, having been solicited by the late Superintendent, Mr. George Tait, and some members of the Board, to make a donation to the Department in trust, the interest or revenue arising from which should be used annually for the purpose of providing medals for the pupils of the school under his charge, in consideration of the Board of Education conferring his name upon said school, met the application with liberality, and very generously donated the sum of one thousand dollars (\$1,000) for that purpose.

Notwithstanding the Board unanimously accepted the gift with a vote of thanks for the liberal donation, yet your Committee in consideration of the conflicting opinion in regard to the propriety and usefulness of offering prizes or rewards of merit in schools, have completely investigated the subject of school medals in the older settled communities of the East, and find that their introduction is generally approved.

In nearly all the countries of Europe, it has been the custom for centuries past, in the higher institutions of learning, particularly in the government schools, to establish medals as rewards of merit, and incentives to emulation and excellence. •

The system there has met the approbation of the greatest educators, and received the approval of successive ages, until it is now everywhere regarded as a part of their institutions of learning.

The Franklin Medal, established in Boston, by Benjamin Franklin, who donated to his native city for that purpose £200, was the first one established in the United States.

Its success and usefulness in stimulating the youth in the schools of that famous city to an honorable ambition to excel in everything, which can elevate the mind and character, has never been seriously questioned.

The long list of distinguished names of those who are enrolled in the catalogue of the Franklin Medal Scholars, is now regarded by every friend of education as the proudest monument to the wisdom and goodness of the great benefactor.

As the Franklin Medal is only awarded to boys, it was resolved by the Common Council of Boston to offer a City Medal to the girls. This medal was presented regularly for several years, until, on account of the opposition of a few, who regarded any awards of merit in school as wrong, and having a pernicious tendency, its issue was discontinued.

It was urged that, since all could not receive them, no discrimination should be made in favor of any, for fear of exciting jealousy and indifference, instead of worthy ambition and emulation.

After a few years' discontinuance, the City Medal was again inaugurated, and has met with universal favor and approbation since that time.

In many of the public schools of Chicago, and in other Eastern cities, school medals have been founded by the liberality and wisdom of private citizens, and your Committee confidently hope that the "Denman Medal," the first inaugurated on the Pacific Coast, may be the means of inducing some of the wealthy and benevolent citizens of San Francisco to imitate the wise example set them, and establish similar medals in each of our well organized public schools. It would be a monument to their memory, more noble and enduring than all the preferments of wealth.

The Committee were some time in doubt, whether to invest the amount received from Mr. Denman in United States bonds or city securities. It was finally decided to purchase Railroad seven per cent. gold-bearing bonds of the City and County of San Francisco, to the amount of one thousand (\$1,000) dollars, as a permanent fund, the interest of which shall forever be set apart for the purpose of procuring the yearly medal.

These bonds, which we herewith present to your honorable body, were purchased at seventy-eight (78) cents on the dollar, which brings the amount expended for this object to seven hundred and eighty (780) dollars. The other expenses incurred by your Committee, in connection with the preparation of the medals, and paid out of the original donation, are as follows:

Paid for preparing and engraving the dies.....	\$125 00
Paid for bullion for gold medal.....	20 00
Paid for bullion for silver medal.....	21 80
Paid for engraving letters on medals.....	15 00
Paid for burnishing and putting rings in medals.....	13 20
	<hr/>
Total expenses.....	195 00
Expended for purchase of bonds.....	780 00
	<hr/>
Entire amount paid out.....	\$975 00

which leaves a balance on hand of \$25, which is herewith presented, and may be used for the purchase of medals at the close of the present school year.

Your Committee are greatly indebted to the Hon. R. B. Swain, Superintendent of the United States Branch Mint in this city, who, upon learning that it was impossible to execute the work of preparing the dies and stamping the medals in San Francisco, except at the Mint, kindly consented to do the work free of charge.

The medal is the size of a double eagle, having on the front a neat engraving of the Denman Grammar School Building, surrounded by the words, "Denman Grammar School Medal, 1865." On the reverse side are the words, "awarded to," inscribed on a neat scroll, under which the name of the recipient, and the date when awarded, is to be engraved in old English script.

The engraving of the dies and medals was executed by Wm. E. Goldsmith, who deserves much credit for the superiority of his workmanship and liberality of his charge.

We do not propose to recommend any set rules for the distribution of the medals in the future, except that no scholar shall be entitled to one, unless she has been perfect in deportment during the year, and has not been absent or tardy except in case of sickness. We also recommend that the President of the Board of Education, the Director of the District, and the Master of the School, shall constitute a Committee to determine and award in future one gold medal to the first or best scholar in the graduating class, and one silver medal to the first or best scholar in each of the other classes in the building, who has not received one in a lower class, and as many silver medals to the scholars of the graduating class as are deserving of the same, or the funds will warrant. No scholar shall receive more than one silver medal, but the number of times she may have been entitled to receive one, on account of highest standing in her various classes, shall, if desired, be engraved on the medal before leaving school.

The engraved dies, from which the medals are struck, are herewith presented to the Board, and we recommend that they be placed in the iron safe of the Department, for safe keeping.

In conclusion, we recommend that, if this report shall receive your approval, it be spread upon the minutes of the Board for reference.

Respectfully submitted,

M. LYNCH,
A. C. NICHOLS,
W. A. GROVER,
Committee.

SAN FRANCISCO, October 23, 1866.

Following is a list of Medal Scholars of the Denman Grammar School, since the organization of the Medal Funds:

DENMAN SCHOOL—MAY, 1866.

GOLD MEDAL.

Miss Annie Compton.

SILVER MEDALS.

First Class—Angie Crary, Louisa Templeton, Belle Baxter.

Second Grade Classes—Carrie H. Smith, Adella Curtis.

Third Grade Classes—Sarah B. Everding, Alexandrina Lyons.

Fourth Grade Classes—Isabella Vizzard, Matilda Clement, Mary E. Donnelly, Candace Jenner.

Fifth Grade Classes—Emily J. Johnson, Jennie C. Miller, Mary A. Lumsden.

Sixth Grade Class—Lelia R. Curtis and Carrie Hogg, for prompt and faithful performance of monitorial duties.

MAY, 1867.

GOLD MEDAL.

Niniama R. McLane.

SILVER MEDALS.

First Class—Clara B. Earle, Mary N. Kline, Charlotte A. Ogilvie, Evelyn G. Blethen, Alice McAteer, Julia I. Haste, Elizabeth O. Traver, Jennie F. Tennent, Annie M. Houseman, Hettie N. Perkins.

Second Class—Alice M. D'Arcy.

Third Grade Classes—Emma Kipp, Mary Alrutz, Rosetta Moore.

Fourth Grade Classes—Flora Brandenstein, Maria V. Moss, Rosa Clement, Ellen Lemmon.

Fifth Grade Classes—Ella H. Morrison, Lucy Little.

Sixth Grade Classes—Camina A. Fenkhausen, Lizzie Harris, Alida Andrews.

Seventh Class—Maggie T. Moroney.

MAY, 1868.

GOLD MEDAL.

Clara B. Morrow.

SILVER MEDALS.

First Class—Ella F. Badger, Ella F. Cottle, Alice M. D'Arcy, Maria F. Eckley, Grace A. Griffin, Emma A. Hall, Josie E. Moroney, Bertha Raphael, Etha F. Sproul, Winnie G. Smith, Lora A. Smith, Ida F. Taylor.

Second Grade Classes—Pauline Raphael, Mary D. Bonner.

Third Grade Classes—Rebecca Keesing, Annie L. Lucksinger, Maria Moss, Mary A. Batten.

Fourth Grade Classes—Mary E. Land, Ella C. Stedman, Fannie Cheney, Alice Green.

Fifth Grade Classes—Minnie A. Reeve, Maggie Hutchinson, Etta L. Paddock.

Sixth Grade Class—Margaret J. Caldwell.

LINCOLN MEDAL.

In December, 1866, the Lincoln Medal was founded, through the influence and exertions of Ira G. Hoitt, Esq., Principal of the Lincoln School, who raised the sum of \$1,687 25 by public exhibitions of the school and private subscriptions. The rules for awarding the Lincoln and Denman School Medals are nearly the same. The following is a list of the Medal Scholars:

MAY, 1867.

GOLD MEDAL.

Charles W. Northup.

SILVER MEDALS.

First Class—Walter Dickins, Daniel Bell, Charles E. Miller, Palmer Seamans, Louis Tobias, Samuel B. Christy, B. F. Langland, William M. Helman.

Bronze Medals—Edwin J. Knowles, Franklin A. Stohr, Joseph Hirschfelder.

Second Grade—Silver Medals: Peter Mitchell, Ferdinand C. Peterson. Bronze Medals: George E. Webber, Edward S. Wiswell, John Kretsinger.

Third Grade—Silver Medals: William R. Weir, Frank Haight, Henry Kustel, Charles B. Turrill. Bronze Medals: Joseph Greenberg, William C. Maurer, Eugene Stolz.

Fourth Grade—Silver Medals: William Baker, Andrew Moore, Alfred Tubbs, Osgood C. Wheeler, Warren J. Davis, Peter A. Wyer. Bronze Medals: Charles Newman, James Hochholzer, John V. Valentine.

Fifth Grade—Bronze Medals: Charles Hug, Jacob B. Wine-shank, Charles Devlin.

MAY, 1868.

First Class—Silver Medals: William B. Anderson, John O'Neil, Ferdinand C. Peterson. Bronze Medals: Henry Gehrlick, William P. McGrath.

Second Grade Classes—Silver Medals: I. H. Cutter, William Goodwin. Bronze Medals: J. Royer, C. Thompson, Charles Delmar.

Third Grade Classes—Silver Medals: William Allison, Charles Curtaz, Aug. Peach, George Messenger, Charles Lindburg, Charles Nelson. Bronze Medals: Frank Darling, T. Houseman, Charles McElwell, Gilbert Oakley, Frank Currie, James Johnston, John Grapel.

Fourth Grade Classes—Silver Medals: John Duane, William Fulton, James Knarston. Bronze Medals: Richard Schumacher, Charles Develin, Robert Moore, Swift Johnston, Robert Campbell, Rolland McMillan, Carroll Davis, Frank McCracken, Edward Cutter, William Cowperthwaite.

CO-EDUCATION OF THE SEXES.

Notwithstanding all that has been said and written in regard to the restraining and refining influences which the presence of girls in a school room throws over the boys, and the ennobling qualities which boys in the same class with girls have in developing a purer and nobler character in woman, yet there exists a prejudice in all of the great cities of the Union against the co-education of the sexes, which is increasing with our increasing wealth and population.

In the sparsely settled districts in the country, where boys and girls are under strict discipline and government at home, and where there is not a sufficient number of pupils of either sex to organize a well graded school, it may be necessary for all to attend in the same building. But in a large city like San Francisco, where many of the children receive much of their daily education in the streets, and within the sight and under the influence of infamy and crime, parents have objections to placing delicate and refined daughters in the same class with rude and depraved boys, which all the beautiful theories of the optimist cannot overcome.

Boys require a different kind of education and government from girls, to make them manly and fit them for the sterner and more eventful duties of life. While it may be true that the sphere of women is as important to the happiness and prosperity of society as that of men, yet their duties and responsibilities are

so different, that the instruction suitable to the one is entirely unfit for the other. In consequence of the strong opposition urged by many against our public schools, on account of teaching boys and girls together, I urged the Board of Education, in 1864, at the opening of the Denman School in the new building, corner of Bush and Taylor streets, to try the experiment of teaching them in different rooms. This change was so popular with the parents sending their daughters to the public schools, that upon the completion of the Lincoln building, the Board of Education organized the Rincon and Denman Schools exclusively for girls, and transferred the boys to the Lincoln School.

While this separation of the boys and girls into different schools has been opposed by a few, who think that the highest type of manhood and womanhood can only be developed by the co-education of the sexes, yet it has received the commendation and approval of nearly every parent and teacher interested in the prosperity of our public schools.

In order to complete the reorganization of the School Department, upon this basis of the separate education of the boys and girls, I presented, during the last vacation, the following communication for the consideration and adoption of the Board of Education, before the election of teachers for the following year:

“To the Honorable Board of Education:

“GENTLEMEN—Before commencing to elect teachers for the ensuing year, I desire to recommend for your careful consideration and adoption the following changes in the organization of the Washington, Union and Broadway Schools:

“First—That the Washington School be declared a Boys’ Grammar School, the Broadway Primary School be changed to a Girls’ Grammar School, and that the Union School be declared a Boys’ Grammar School.

“Second—That the girls in the Washington and Union Schools be transferred to the Broadway Grammar School, and that a Grammar Master be elected in each of these schools.

“The separation of the sexes in all our Grammar Schools is demanded by nearly the unanimous sentiment of this community. This principle, which was adopted about four years since in three of the schools in the southern part of the city, has resulted in

elevating and popularizing our School Department in the confidence and estimation of the public. I therefore sincerely hope and trust that the Board of Education will complete the organization of our Public Schools, by entirely separating the sexes in all except the outside schools where there is not a sufficient number of pupils to make the proper classification in separate schools."

This report received almost the unanimous indorsement of the Board, and the girls in the northern part of the city were transferred to the Broadway School, which was organized as a Girls' Grammar School, under the charge of Prof. W. J. G. Williams, Principal.

The Union and Washington Schools were reorganized as Boys' Grammar Schools, the former under the charge of Mr. T. S. Myrick, and the latter under Capt. L. D. Allen, Principals.

The boys and girls are now all taught separately, except in the suburbs of the city, where there is not a sufficient number of pupils to make a proper classification in different schools.

This has been the only radical change which has been made by the present Board of Education. It is one in which I have taken a deep interest, and for which I predict the most flattering and beneficial results.

CONSOLIDATION OF THE LATIN AND THE BOYS' HIGH SCHOOLS.

Believing in the principle that the public funds should be expended for "the greatest good to the greatest number," I have always been opposed to educating a few at great expense in Greek and Latin, while hundreds of poor children are denied the means of obtaining a primary education. That a large number of children have, until the last year, been denied admission to our public schools from the want of funds to furnish accommodations and teachers, the records of the School Department will conclusively show. There has, therefore, always been a strong prejudice among even the friends of the public schools against incurring the extra expense of maintaining a separate Latin School, while the Board of Education has been asking, at every session of the Legislature, for increased appropriations to pay "deficits," and to meet the wants of our rapidly increasing population.

To remove this source of opposition to our public schools, soon

after I entered upon the duties of my office, I urged the Board of Education to consolidate the Latin with the Boys' High School, and thus save the School Department the rent and expense of taking care of the Latin building and the extra salary of the teacher. This recommendation was almost unanimously adopted by the Board, and the pupils were transferred, in February, from the Latin building on Bryant street to the Boys' High School on Powell street. By this change the pupils are now better classified in their English studies, and are as well taught in the classics. They have, without any increase of expense to the Department, the advantage of one of the best laboratories and philosophical apparatuses on the Pacific coast. Before the consolidation, there were two teachers employed in the Latin School, with an average attendance of thirty-seven pupils, which would make the yearly tuition of each pupil, including rent and teachers' and janitors' salaries, \$125 50. The extra expense of teaching Latin and Greek to every boy now in the classical department of the High School is \$56 25, thus showing a yearly saving of \$69 25 in the education of each pupil. Since uniting the two schools, there is very little opposition to teaching Latin and Greek in our public schools. The parents and pupils are better satisfied, and I predict a greater sphere of usefulness and success for this department of public instruction.

SCHOOL DISCIPLINE.

The discipline of our public schools is generally good. Most of the teachers preserve good order, and enforce strict obedience, without being severe. While the principals are allowed to inflict corporeal punishment in extreme cases, to enforce submission and obedience to rightful authority, yet the members of the Board of Education have thrown every safeguard around the children entrusted to their care and protection, which is consistent with the best interest and future welfare of the pupils. Sec. 10 of the Manual of Rules and Regulations governing the public schools provides that: "The teachers shall practice such discipline in the schools as would be exercised by a kind, firm, judicious parent in his family, and they shall avoid corporeal punishment where good order can be preserved by milder measures. It is strictly enjoined upon all teachers in the schools to avoid all ap-

pearance of indiscreet haste in the discipline of their pupils; and in the more difficult cases that may occur to apply to the Superintendent for advice and direction."

I am a strong advocate and firm believer in the power of moral suasion over the youthful mind and heart; so much so, that during the last three years of my experience in teaching, I never allowed corporeal punishment to be inflicted in the school under my charge. Yet, I am not unmindful of the fact, that there is a large class of depraved and vicious lads growing up in San Francisco, without any parental restraint or authority, who can only be governed by the strong arm of force. I believe with Hon. John Swett, Ex-State Superintendent, that: "Judicious severity is in the end the truest kindness. Utopian systems of government, without punishment, never yet existed, and never will, except in imagination. Fear of punishment is a law of nature. Many parents object to delegating to the teacher the parental right of inflicting punishment. Some even doubt their own right, and settle quietly down into a state of passive non-resistance to their turbulent progeny. Were human nature divested of its animal attributes and passions—could it exist in a purely spiritual state—this fine-spun transcendental philosophy of the law of love might hold true; but, unfortunately, man's animal nature too often controls his moral, and spurns the restraint of his intellectual faculties—passion sways reason, and impulse rules principle."

In a public school of a hundred children, some have been reared under restraining influences of home; the life of others has been a moral blight. Some have been petted and indulged, until every capricious whim has become a household law; some have graduated in the street schools of cities and villages, adepts in all its varied accomplishments of profanity and obscenity; others have learned that courage and manliness consists in bullying smaller boys; others scorn all authority, parental and divine. Is it to be for an instant supposed that these pupils, with their varied characters and dispositions, can suddenly be transformed into mild, kind, peaceable, order-loving scholars, without resort to other means than gentle words? "When the moral faculties have been once warmed into life, then kindness and moral suasion will control, just as the wild horse, once bro-

ken in by a strong arm, can be led by a little child. Teachers have a right to expect that parents will co-operate with them in enforcing a school discipline in accordance with the dictates of common sense. The greatest lesson which the child has to learn in life is that of self-government, and if he cannot govern himself, the strong hand of power and punishment must be laid upon him, to remind him of duty, and compel him to do it."

MORAL TRAINING.

As moral training should form an important part in the education of the youthful mind and heart, I desire to say a few words upon this subject, which is so vital and interesting to all. That the moral culture of the youth attending our public schools receives all the attention which its importance demands, few will affirm; but I do most emphatically deny the charge so frequently made by sectarian bigots, that our public schools are Godless, and that the moral and religious culture of our youth is entirely neglected. While the Board of Education has wisely prohibited teachers from inculcating any sectarian or political doctrines in the schools, yet the education of the religious and moral nature of the children is carefully provided for by direct rules and regulations.

Section 5, of the code of rules governing the teachers and pupils, reads as follows: " Good morals being of first importance to pupils, and essential to their highest progress in useful knowledge, instruction therein shall be given daily in each of the schools. The pupils should be carefully instructed to avoid idleness and profanity, falsehood and deceit, and every wicked and disgraceful practice, and to conduct themselves in an orderly and proper manner; and it shall be the duty of the instructors to inculcate on all suitable occasions the principles of truth, virtue, and patriotism."

The law of California provides that no sectarian or denominational doctrine shall be taught in the public schools, but does not authorize or forbid the reading of the Scriptures. This subject is, therefore, left to the judgment and discretion of the teachers, who have, with few exceptions, refrained from using the Bible as a text book in the school room. In San Francisco, where the population is composed of all sects and classes of society, from every part of the world, with all the conflicting ele-

ments and prejudices of every creed, it is impossible to introduce the reading of any version of the Bible which is not objectionable to any large portion of the community. It may, therefore, be asked if the reading of the Scripture—which is the source of truth and morality—is not daily practiced, what moral and religious instruction is imparted to the youth? This can best be answered by a careful examination of the course of study and text books used in the school department. Through all the grades in which the pupils can read understandingly Cowdery's Moral Lessons has been introduced, to be used by teachers and pupils. The limits of this report will not permit me to speak of the praise and merits of this little work of 260 pages, or of its value in teaching the great lessons of morality and truth. If it could be placed in the hands of every parent as a precept and guide for the training of their children, I think teachers would find less trouble in managing them at school. It contains some thirty lessons on manners and morals, each lesson having a maxim which is illustrated by stories or anecdotes, followed by questions on the principles inculcated. The following are miscellaneous selected:

1. Do unto others as you would have them do to you.
2. Repay all injuries with kindness.
3. We must forgive all injuries as we hope to be forgiven.
4. Speak evil to no one.
5. Think the truth, speak the truth, act the truth.
6. Honor thy father and thy mother.
7. The noblest courage is the courage to do right.
8. The greatest conqueror is the self-conqueror.
9. Swear not at all.
10. Be faithful to every trust.
11. Be neat.
12. Right actions spring from right motives.
13. A person is known by the company he keeps.
14. Be kind to the unfortunate.
15. Be merciful to animals.
16. Live innocently if you would live happily.
17. The good alone are great.

Willson's Readers are used in all the classes of the Grammar and Primary Schools. Can any one assert that they teach no

morality and truth? Examine any of them carefully and they will be found to contain the most instructive and useful lessons in morals and manners anywhere published in the English language. The following are a few of the lessons taken miscellaneously from the Second Reader:

Ten Commandments.

Praise ye the Lord.

The works of God.

Never tell a lie.

The angry boy.

God is near.

Don't kill the birds.

In the Third Reader are the following moral lessons and stories from the Bible:

Be honest and dare tell the truth.

The first temptation.

Earthly and heavenly interests.

Three lessons in industry: Little by little.

My mother's Bible.

The creation. Cain and Abel.

The wise sayings and advice of King Solomon.

Destruction of the wicked by the flood.

Worth of the Scriptures.

In the Fourth Reader, a book for the more advanced pupils, I find such lessons as these:

The curse of Cain.

Better than diamonds.

On good breeding.

Consider both sides of the question.

The hour of prayer.

Practical precepts.

These instructive and interesting stories are told in such a simple and pleasing style that they cannot help improving the youthful mind. Are they not as instructive and moral in their tone and character as the catechisms or articles of faith of any church, which are committed to memory as daily lessons in sectarian schools? While I am opposed to introducing sectarianism or politics in the public schools, yet I believe it is the highest duty of every teacher to inculcate on all occasions the great les-

sons of truth, morality and patriotism. But to secure such instruction, the teachers, and not books, must be the living presence whose example and influence should fill the school room with a moral fragrance and an atmosphere of truth which purifies and ennobles all within its influence.

I cannot forbear quoting the eloquent and truthful language upon this subject, by the Hon. J. M. Gregory, Superintendent of Michigan Schools: "No qualification of the teacher is so important as those moral attributes which win children by their kindness, and inspire them by their purity." There are teachers whose goodness is so evident, that vice feels abashed in their presence, and whose genuine kindness of heart is so genial, that every noble sentiment and every right affection flourishes spontaneously under their eye. "It is mean to lie to Dr. Arnold," said the boys at Rugby school. The open-hearted candor and the generous trustfulness of their great teacher, shamed them from their habits of falsehood. With a weak and selfish, or a passionate and fretful teacher, the very air of the school room will be haunted with a spirit of evil and misrule, and no amount of Bible reading and public prayers can make the moral influences good. The teacher who would successfully teach morals must keep in active exercise the kindest feelings of the heart. Let him aim steadily and honestly to be what he would have his pupils become, and ask no more of goodness in them than he exhibits in himself. "Good government in schools is one of the most potential of all moral influences. And by government, I mean not merely the administration of justice or the repression of noise, but the maintainance of good order and regular system throughout all the exercises of the school. Neatness, order, and quiet—those are the evidences of good government, and these are all friends of virtue.

"The child that has been taught the great lesson of cheerful obedience to rightful authority, and has been trained to the wholesome habits of regular industry and good order, will easily be led to virtuous principles and an upright life. But, besides all these unconscious teachings, there are direct and conscious instructions in morals, which ought to find a place among the daily exercises of the schools. Not, however, in the form of homilies on the several virtues, or set lectures against vice, but

rather illustrative stories from history or experience, in which virtue and goodness shall shine out in human action, and vice may show its deformity in the wicked deeds of its votaries. The story of Washington's truthfulness as a boy and patriotism as a man, of Joseph's forgiveness of his brothers, of Solomon's choice of wisdom rather than riches, of Grace Darling's heroism, and Lyon's bravery, will at once enlighten the judgment and inspire the heart. And let the pupil's conscience be trained to correct knowledge of right and wrong, by a skillful questioning upon the reasonableness and rectitude of the different examples given, or upon the common actions of life. The great moral sentiments of love and truth, love of industry, love of country, love of mankind, and love of God, should be as often as possible awakened in the heart, and opportunities be frequently contrived for the exercise of the virtues of benevolence, temperance, self-control, patience, charity, justice, forbearance, forgiveness, kindness, fortitude, etc. In their exercise, the pupil would learn their value and strengthen their power over him. By means such as these, daily pursued, the moral nature of the child will gradually unfold itself into settled principles of goodness, and be established in permanent habits of virtue.

“Our schools, adding this high moral culture to the intellectual training which they are beginning to conduct with so much skill, will crown their pupils with a better than a laurel wreath, and will give to society and the State citizens, whose virtue and intelligence will carry the great Republic along its pathway of empire and wealth, and work out even grander proofs of the ability of mankind to govern themselves.”

SCHOOL LIBRARIES.

According to the revised school law of 1865-6, the sum of \$50 for every five hundred children between five and fifteen years of age is to be annually set apart from the State apportionment for the purpose of purchasing libraries for the public schools. How this fund should be appropriated and the libraries organized, is an important subject of discussion which it is difficult to settle. The need of good school libraries is evident and admitted by all, but whether it is better to establish a few large central libraries or to distribute the fund among all the different schools, is a

question in regard to which there is a great diversity of opinion. The Board of Education last year adopted the plan of dividing the money among all the schools, the primaries as well as the higher grades. But as the appropriation only amounted to about \$1,700 for the whole city, the apportionment for each school was too small to be of any practical use. I, therefore, desire to recommend that in the future the library fund be divided only among the High and Grammar Schools, which would make the apportionment for each school large enough to procure, in a few years, a valuable collection of books for each district. In order to insure parents and the public against the introduction of improper or objectionable works, the law provides that the State Board of Education shall recommend a suitable list of books from which to select libraries. This list, which was adopted about two years since, contains several hundred volumes of the most interesting works on education, history, travel, literature, arts, science, and children's fairy tales and story books. While the State Board has exercised great care in the selection of proper books, yet it is important that teachers should also use great caution and judgment in selecting such works as are adapted to the grade of instruction pursued by the youth under their charge. They should be able to use the library as an educational instrument, as well as the blackboard, the map, or the mathematical instrument. Children should no more be left to their own caprices in the selection of the books they read, than in choosing the studies which they pursue in the school room. Books are serviceable not simply because of the popularity and character of the author, the ability with which they are written, or the importance of the subject discussed, but rather in proportion as the reader gives them thought and investigation, and carefully selects and digests the subjects he investigates.

Let, then, the teacher be ever watchful to give the right direction to the youthful mind in all its investigations in the domain of truth or fiction. Let him recommend none but works which will enlarge the understanding and purify and exalt the affections. Then will our libraries prove a blessing to society and a benefaction worthy of the wise and liberal policy of the State in founding them.

EVENING SCHOOLS.

While the evening schools of San Francisco have done much good since their organization, still much remains to be accomplished in this important department of public instruction. During seven months of the year, there were five schools in operation, numbering 491 pupils, with an average attendance of 229.

They were held in the following school houses, viz.: four classes in the Lincoln Grammar building, Mr. R. K. Marriner, Principal; one class for foreigners, in the Cosmopolitan building, on Post street, Mr. W. W. Theobalds, Teacher; one class in the Broadway Grammar school, Mr. T. J. Leonard, Teacher; one class for females, in the Girls' High school, corner of Bush and Stockton streets, Miss E. A. Pitts, Teacher. A class for colored people was taught, a few months, by Mr. J. B. Sanderson, in the colored school building on Broadway street, but it was closed before the end of the year for want of a sufficient number of pupils.

Generally, the teachers have devoted themselves to their difficult work with commendable zeal, and have discharged their duty with fidelity and success. Most of the pupils during the last year have evinced considerable interest in their studies, and a greater desire for improvement in moral and intellectual discipline, than at any previous time. A few do not seem to appreciate the advantages which are so liberally offered to them. I would therefore recommend that stricter rules be enforced in regard to the discipline and attendance at these schools, so that the orderly and deserving pupils shall not be annoyed, and often compelled to leave school, in consequence of the noisy conduct of idle and vicious boys, who attend only for the purpose of mischief and insubordination. None should be admitted who are not twelve years old. Children under that age are too young to endure the fatigue of working all day, and studying from 7½ till 9½ o'clock in the evening. If they are not employed in some necessary occupation, they should be compelled to attend the day schools. All applicants, before entering school, should be required to file a statement, that their object in attending the evening school is for the purpose of study and improvement, and that they will pledge themselves to attend regularly, and cheer-

fully obey all necessary rules and regulations for their government. If they are under sixteen years of age, their parents or guardians should be required to make similar pledges for them.

Governed by wise rules and regulations, and under the instruction of able and devoted teachers, the evening schools cannot fail to prove a great blessing to a large number of youth in San Francisco, who in early life have been deprived of the advantages of elementary instruction and culture. I therefore trust that they will continue to receive the fostering care and liberal support of the Board of Education.

COMMERCIAL EVENING CLASS.

The great success of the commercial schools in San Francisco demonstrates the necessity of establishing increased facilities for obtaining a commercial education. There is a large class of young lads who are compelled to leave school in early life to enter stores and offices, to support themselves or to assist in supplying the wants of a large family. Brought up in the busy mart of commerce and trade, they will, if the opportunity is offered to them, make our most active and successful men of business. It is for the purpose of securing the best possible business and commercial education for this class of young men, that I earnestly recommend the Board of Education to establish a commercial evening school, which, under the charge of some competent teacher, would prove a great blessing to many who have not the time to enter the commercial department of the Boys' High School, or the means to defray the great expense of a full course of instruction in schools conducted by private enterprise. I do not think the public funds could be applied to a nobler object or for a more worthy purpose.

HIGH SCHOOLS.

These schools have passed another year of great prosperity and usefulness. They deservedly sustain a high reputation for superiority of scholarship, thorough discipline and instruction. During the year the whole number enrolled in these schools was 261—120 in the Girls' High and Normal School, and 141 in the Boys' High School. A full statement of the organization and

success of the High Schools will be found in the able report of Dr. W. Ayer, chairman of the committee, which is inserted at the close of this report.

The Girls' High and Normal School has labored under great inconvenience and embarrassment on account of inferior school accommodations. The present building, corner of Bush and Stockton streets, is in every respect totally unfit for a High School, except as to its location, which is very central and easy of access to all parts of the city. I cannot, therefore, help regretting that your honorable body refused to allow the Board of Education the privilege of erecting a wooden building on the present lot, which on account of its close proximity to all the principal car routes will be the most desirable location in the city for the next ten years. Owing to the want of sufficient funds to erect a suitable and worthy brick edifice within the fire limits, the idea of obtaining a central location has been abandoned, and the Board of Education has been compelled to select the lot owned by the Department, on Bush street, near Hyde, as a site upon which to erect the new edifice. Although this location is not as central as it should be, yet it possesses the advantage of being in a select and retired portion of the city, free from the busy noise and curiosity of the crowded streets.

The new building will be a neat, but plain three-story wooden structure, containing ten session rooms and a general assembly hall on the third floor. It will accommodate the pupils of the City Training School and the Girls' High and Normal School. While it is to be regretted that the Board of Education has not sufficient funds to erect a High School edifice worthy of the School Department, and one which would be an honor to the bounty and liberality of San Francisco, yet the plan of the new structure embraces all the modern improvements in school architecture, and will afford ample and pleasant accommodations for the young ladies for several years.

GRAMMAR SCHOOLS.

The grammar classes of the English and Cosmopolitan schools have generally been taught by an able and efficient corps of teachers, who have labored faithfully and successfully during the year to discharge their responsible duties. There are 3,734 pu-

pils attending the grammar department of the public schools, requiring 76 teachers, with an average of 49 pupils to each teacher employed. At no time since the commencement of the public schools have the classes of the grammar department been under better instruction or a more perfect and effective organization. The course of study has been revised and simplified so as to meet the wants of the general mass of pupils who will receive all their scholastic education in the primary and grammar classes. It is now peculiarly adapted to the wants of the youth of California. Technical grammar has been omitted in the lower grades, and in its stead have been introduced frequent exercises in writing composition and abstracts of the daily lessons, which are much more practical and useful. The arithmetical course has also been made more efficient and useful, by omitting obsolete tables and abstract demonstrations and principles, which are of no utility in the ordinary affairs of life. The instruction in geography has been much improved by spending less time in learning the names of small towns which are never remembered after leaving school, and which only tend to confuse important facts with useless detail. More time and attention have been given to teaching the local and physical geography of the Pacific coast. The general geography of the world is taught in the higher grades by topical exercises, such as the principal mountain and river systems, plains and plateaus, the newest important mineral and vegetable products of the principal countries of the world, exports and imports of the great commercial countries, principal commercial and manufacturing cities of the world, and peculiar animals and products of the different zones and climes.

For a detailed statement of the condition of the different grammar schools, I desire to refer to the valuable remarks and suggestions of the committee on grammar schools; also, to the able report of the committee on classification, which was prepared by Dr. Washington Ayer, a gentleman who has devoted much time and interest during the last four years to the classification and instruction of the grammar and primary schools.

PRIMARY SCHOOLS.

Since the early training of the youthful mind and heart has such a powerful influence in moulding and shaping the future

destiny of the youth committed to our charge, the importance of primary education cannot be overestimated. It is in the primary schools that the first lessons of human life and the rules of social intercourse and morality are impressed upon the plastic mind. How important, then, that these earliest impressions should receive the first and highest consideration in every system of education. The statistics of the school department show that the number of children enrolled in all the primary schools during the last year was 12,962, with a corps of teachers. This is more than three times the number of pupils in the Grammar and High schools.

According to the late census returns, there are also 17,930 children in the city under six years of age, who will be dependent for several years upon the instruction of primary schools. It is, therefore, a question of the highest importance how to elevate the standard of instruction and promote the welfare and usefulness of this department of our public schools. Acting in accordance with these views, I have devoted the greatest share of my time and attention in visiting and examining these classes, and I take great pleasure in reporting their excellent condition and flattering success. Greater improvement has been made during the last few years in primary education than in any other department of public education. The able corps of lady principals and assistant teachers have labored with a zeal and devotion in the discharge of their responsible and trying duties which should entitle them to the thanks and gratitude of every friend of education. While it may be true that some of the classes of our primary schools have not been so well taught as they should have been, yet, with few exceptions, the instruction and discipline will compare favorably with the training in any other city in the country.

The great want of suitable accommodations which for several years retarded the progress and efficiency of our primary schools, happily, for the comfort and welfare of the children, has not existed to any great extent during the last year. But while the large number of buildings erected during the year 1866-67 were ample for the primary pupils at the time, yet the large number of children now being taught in rented buildings and the 18,000 little ones in our city not old enough to attend school, should

warn us to renewed energy and effort to erect temples of knowledge for the mighty mass of juvenile population which is constantly rolling in upon us and demanding the means of intellectual culture and development, or, like the waters of the Nile, it will deluge us in an overwhelming number.

ORGANIZATION OF THE PRIMARY SCHOOLS.

There were at the close of the year 24 Primary Schools, including the colored and Chinese schools. These are divided into seven districts, which are under the general control and direction of the Grammar Master of each district, who is required to visit all the primary classes under his charge at least once a month, for the purpose of noting the methods of instruction and the general management and success of the schools; also to examine the various classes and recommend such changes and improvements as will secure a uniform system of instruction in accordance with the provisions of the New Manual of Rules and Regulations.

It is also made the duty of the Grammar Masters to carefully examine, semi-annually, for promotion, all the pupils below the sixth grade. The questions are all printed and prepared under the direction of the Superintendent, and are the same for all scholars of the same grade in the city. This system of examinations, which was first adopted about three years since, has resulted in establishing a more uniform and progressive system of instruction, which has elevated the character and increased the efficiency of the Primary Schools. The percentage of the examination of each class is carefully made out and preserved in the records of the Department, which is a great incentive to an honorable and worthy rivalry among the teachers to bring their classes to the highest state of excellence and success.

In all the large Primary Schools, with eight or more classes, there is an assistant teacher appointed for each class, which enables the Principal to give her entire time and attention to the supervision of the whole school. This wise and important regulation has been the means of securing greater uniformity and efficiency of instruction in the lower grades of the Primary Department. Owing to the small salaries paid to assistant teachers, and the rapid increase of the Public Schools, the Board of Edu-

cation has been obliged to employ a large number of young graduates from our High and Grammar Schools, who have never had any experience in the art of teaching. They often require as much instruction in the performance of their difficult duties as the little tyro under their charge; it is therefore exceedingly important to secure the most able and experienced Principals, and to give them ample time to initiate these novices in their new and responsible calling.

It gives me great pleasure to bear testimony to the zeal and ability with which most of our Primary Principals have discharged their duties. The quiet order and thorough discipline of our Primary Schools, the excellent scholarship of the pupils, and the high percentages of the semi-annual examinations speak volumes of praise for the ability and success of these devoted teachers.

COSMOPOLITAN SCHOOLS.

These schools have passed another year of usefulness and prosperity. They have been taught by able and faithful instructors, who have earnestly labored to elevate their character and enlarge the sphere of their usefulness.

The Cosmopolitan Schools were first opened about three years since, in a rented room on Tehama street, near First. They have since increased from one to thirty-four classes, numbering 2,242 pupils in the North and South Cosmopolitan Schools, requiring 40 teachers to instruct them. This rapid increase shows that the public demand the instruction imparted in these schools. It should therefore be a question of the highest consideration how to organize this important department of our Public Schools, so as to promote the best interest of the large number of children attending these classes. Their object should be more clearly defined by the Board of Education, so that parents can intelligently discriminate in regard to their value and usefulness. While our Public Schools for instruction in the English studies are so popular in the public estimation, it is to be presumed that parents send their children to the Cosmopolitan Schools for the purpose of educating them in the French and German languages. I therefore desire to recommend that less time be devoted to English studies, and that more attention be given to acquiring a

knowledge of these languages. Since children in early youth can learn a foreign language with about as much facility as they can their own vernacular, they should be taught to study and recite all their lessons in the language which they wish to acquire. If most of the branches now taught in English in the Cosmopolitan Schools were recited in French or German, I think the object of educating the pupils in these languages would be more easily and thoroughly accomplished, and in much less time than at present. With the present able corps of teachers, the Cosmopolitan Schools, if properly organized, will prove a great benefit to a large class of our citizens, who desire to give their children a liberal and finished education, which will fit them to adorn and elevate society.

DUTIES OF THE SUPERINTENDENT AND THE BOARD OF EDUCATION.

The duties of the Superintendent have become so varied and arduous, that it is impossible to discharge them with credit to himself or with profit and satisfaction to the public.

By law, he is required to keep himself acquainted with the progress of public education in other cities, to enable him to suggest improvements and remedy defects in the Public Schools of San Francisco. He is to advise the teachers as to the best methods of instruction and discipline; and for this purpose he is required to hold Teachers' Institutes. He shall exercise a general supervision over all the Public Schools, and visit and examine each of the 258 classes once in three months, which is an impossibility, if he performs a tithe of his other duties. He shall prepare and examine all the record books in the Department, and be always ready to render any aid or perform any duty required of him by the different Committees of the Board of Education. He shall also have a general charge of the disbursements of the Department, which now amount to over \$400,000 a year. But I do not speak so much of his duties which are defined by Statute as I do of the requirements of custom and public expectation. He should be always in his office to hear the complaints of disappointed and indignant parents, and decide trifling disputes which should never be known outside of the school room. He must listen to merits and claims of the numerous applicants for positions, from janitors to the the highest

offices in the Department, and receive the malediction of all disappointed candidates, and not unfrequently of the successful ones, if they succeed against his supposed opposition. In the language of my predecessor, "He must listen to everybody's wants and complaints; accommodate all and displease none; cater to caprices; combat, yet often succumb to prejudices; defy opposition, yet often yield to it; be everywhere; do everything and know everything; or else he is a very negligent, unfaithful, unkind, unjust, and short-coming Superintendent."

His real duties, that of superintending and supervising the instruction and education of the youth attending our Public Schools, must necessarily be very much neglected while attending to the other numerous duties of his office. It is true that popular elections and political influences have done much towards embarrassing the Superintendent in the proper discharge of his legitimate duties. But it is to be hoped that the law passed by the last Legislature, taking the selection of that officer from political conventions, and placing it in the hands of the Board of Education and Board of Supervisors, will do much towards relieving him from partisan pressure, which is certain to retard and embarrass the honest, faithful and independent performance of every public duty.

The rapid growth of the School Department, even under the most perfect organization, renders it necessary that he should be relieved of many duties now devolving upon him. I therefore desire to recommend the necessity of appointing a *Deputy Superintendent* to attend to the general duties and business of the office, so that the Superintendent may devote his entire attention to his appropriate and legitimate duties of visiting schools, advising with teachers and pupils, and supervising the organization and classification of the School Department. There is abundant labor to perform, which will profitably occupy the time and attention of both officers.

At the last session of the Legislature the Board of Education prepared a bill which provided for the appointment of a Deputy Superintendent and the reorganizing of the Board, making the term of election three years, so that not more than one-third of the new Directors should be elected each year, thus always retaining a majority of the old and experienced members in the

Board. This wise and meritorious bill, which passed the Assembly, was defeated in the Senate through partisan opposition and misrepresentation. But I hope and trust that some provision of this kind will receive the fair and liberal consideration of the next Legislature and become a law. According to the present statutes, one-half of the Board is elected yearly, but in reality there are always a majority; this year there will be nine members, or three-quarters of the Board elected. This constant change and introducing inexperienced members in the Board of Education will render the School Department liable to great changes and revolutions, which must endanger the stability and usefulness of the Public Schools. In this connection I desire to urge the propriety and justice of paying the members of the Board of Education for their services. Most of the members are actively engaged in some employment for a livelihood, and can therefore ill afford to spend their time from business to attend to the increasing duties of their office.

The School Department has now grown to such large proportions that it requires much of each Director's time and attention to properly discharge the duties of his office; especially is this the case with the members of certain Committees, such as those belonging to the Committee on School Houses and Sites, the Committee on Classification, etc. It is, therefore, neither just nor fair to expect their services unless they are properly remunerated. The public receives the benefit of their labor and should as liberally pay them in proportion to the duties required as other public officers are rewarded.

IMPROVEMENTS.

The general improvements which have been made during the year may be briefly stated as follows:

1. A more perfect system of Classification.
2. The separation of the sexes in the classes of all the larger Grammar and Primary Schools.
3. The revision of the Manual, which more clearly defines the rights and duties of teachers and pupils.
4. The introduction of a more practical and useful course of study peculiarly adapted to the youth of San Francisco.
5. The organization of the City Training School for the pur-

pose of preparing and educating the young ladies of the High and Normal School for the profession of teaching.

6. Increased accommodations and completion of new school houses.

7. The consolidation of the Latin and Boys' High School.

8. Renewed earnestness and zeal among the teachers to faithfully discharge their duties and promote the usefulness and welfare of the Public Schools.

The hearty co-operation of the teachers with the Superintendent and Board of Education to elevate the standing and promote the usefulness of the public schools, should entitle them to the praise and respect of parents and friends of education everywhere. For their courtesy, uniform kindness and assistance to me in the discharge of my laborious and difficult duties, I desire to return my warmest thanks and gratitude. The prosperity of our public schools is mainly due to their devoted labors. While school officers may do much in the cause of education, yet the real educators are the living, earnest and devoted teachers. Those who bear the toil and burden of the school room are the true benefactors of our race, and they should wear the crown.

To the President and members of the Board of Education, I would express many thanks for their generous approval and indorsement of my official labors as Superintendent. It is true, the organization and classification of our public schools have given rise to divisions and differences of opinion. I may have made many mistakes in my official acts, yet I think I can honestly say that I have ever striven to faithfully discharge my difficult duties with impartiality to all. I have been swerved neither by party prejudices, sectarian bigotry, nor the fear or favor of any.

CONCLUSION.

I have endeavored in this Report to present a correct review of the condition of the public schools and to give such statistics as would be of general interest to the community. The exhibit should inspire every one with confidence and hope for the future. In the retrospect of the past there is much to gladden the heart of every friend of education. The records of the School Department show that San Francisco is rapidly increasing in popula-

tion and all the elements which constitute a great and prosperous city.

Since 1847, the number of children in our city has increased from 50 to 39,728, and the teachers from one to 284. While this rapid increase is unequalled in the annals of any city of the Union, yet we can congratulate ourselves that our progress in education and our provision for intellectual culture has kept pace with this rapid increase in population. Through all the struggles and revolutions that San Francisco has passed in its transition from the confusion and disorder consequent to the mingling together of so many discordant elements, to its present orderly and flourishing condition, our public schools have ever been regarded with pride and pleasure as the trust on which rested our future hopes of happiness and prosperity. With a past so full of progress, our future is radiant with hope and promise, if we pursue the same onward course we have commenced in erecting temples where our youth may come and drink from the fountains of knowledge and virtue "without money and without price." I cannot better express the great blessing of universal education than by quoting the language of the immortal Webster:

"Education, to accomplish the ends of good government, should be universally diffused. Open the door of the school house to all the children in the land. Let no man have the excuse of poverty for not educating his own offspring. Place the means of education within his reach, and if they remain in ignorance be it his own reproach. If one object of the expenditure of your revenue be protection against crime, you could not devise a better or cheaper means of obtaining it. Other nations spend their money in providing means for its detection and punishment, but it is the principle of our Government to provide for its never occurring; the one acts by *coercion*, the other by *prevention*. On the diffusion of education among the people rests the preservation and perpetuation of our free institutions. I apprehend no danger to our country from a foreign foe. The prospect of a war with any powerful nation is too remote to be a matter of calculation; besides, there is no nation on earth powerful enough to accomplish our overthrow. Our destruction, should it come at all, will come from another quarter. From the

inattention of the people to the concerns of their Government, from their carelessness and negligence, I must confess I do apprehend some danger. I fear that they may place too implicit a confidence in their public servants and fail properly to scrutinize their conduct; that in this way they may be made the dupes of designing men, and become the instruments of their own undoing. Make them intelligent, and they will be vigilant; give them the means of detecting the wrong, and they will apply the remedy. * * * * *

“For the purpose of public instruction we hold every man subject to taxation in proportion to his property, and we look not to the question whether he himself has or has not children to be benefited by the education for which he pays. We regard it as a wise and liberal system of police by which property and life and the peace of society are secured. We seek to prevent, in some measure, the extension of the penal code, by inspiring a salutary and conservative principle of virtue and of knowledge in an early age. We hope to excite a feeling of respectability and a sense of character by enlarging the capacity and increasing the sphere of intellectual enjoyment. By general instruction we seek, as far as possible, to purify the whole atmosphere, to keep good sentiments uppermost, and to turn the strong current of feeling and opinion, as well as the censures of the law and denunciations of religion, against immorality and crime. We hope for a security beyond the law and above the law, in the prevalence of enlightened and well principled moral sentiments. * * * * *

“We do not, indeed, expect all men to be philosophers or statesmen, but we confidently trust, and our expectation of the duration of our system of government rests on that trust, that by the diffusion of general knowledge and good and virtuous sentiments, the political fabric may be secure as well against open violence and overthrow as against that slow but sure undermining of licentiousness.

“We seek to educate the people. We seek to work upon the mind as well as on matter; and in working on mind, it enlarges the human intellect and heart. We know, when we work upon materials immortal and imperishable, that they will bear the impress which we place upon them through endless ages to come.

If we work upon marble, it will perish; if we work upon brass, time will efface it; if we rear temples, they will crumble to the dust; but if we work on men's immortal minds, if we imbue them with high principles—with the just fear of God and their fellow men—we engrave on those tablets something which no time can efface, but which shall brighten and brighten to all eternity."

Let, then, every friend of humanity and good government be urged on in this glorious work by every consideration of virtue, religion and patriotism. Let the sons and daughters of San Francisco be so trained and educated that they will intelligently discharge all the great duties of life and prove a blessing to the Commonwealth and an honor to our common country.

Respectfully submitted,

JAMES DENMAN.

REPORTS OF COMMITTEES.

REPORT OF THE COMMITTEE ON CLASSIFICATION, FOR THE GRAMMAR AND PRIMARY SCHOOLS, FOR THE SCHOOL YEAR ENDING JUNE 30, 1868.

To the President and Members of the Board of Education :

GENTLEMEN—Your Committee, after due consideration, have made some modification in the course of instruction, which they trust will be equally practical without lessening the standard of any of the grades.

They have introduced Towne's Analysis of the English language into the Third Grade, to be continued as before in the Second and First Grades, and also, with the approval of the Board, have substituted Guyot's Intermediate Geography for Clarke's Grammar School Geography. No other change in text books has been deemed advisable.

Your Committee have also given much time and careful attention to the examinations and classification, and respectfully present the following report upon the standing of the different schools in this Department :

The percentage fixed for promotion in the Grammar schools was 70; in the

Primary schools, 80. Those pupils who had been in the school or in the class but a short time were not examined.

The following shows the number of pupils attending Grammar and Primary Schools, May, 1868, and aggregate number promoted :

NAME OF SCHOOL.	Number Attending.	Number Examined.	Number Promoted.
Lincoln Grammar.....	908	612	442
Denman Grammar.....	680	398	284
Rincon Grammar.....	541	376	296
Washington Grammar.....	284	268	185
Union Grammar.....	422	422	90

GRADUATES OF GRAMMAR SCHOOLS, 1868.

LINCOLN SCHOOL.

Americo Alex Gori, Geo. H. Fore, Daniel H. Everett, Henry P. Gehricke, Geo. D. Edwards, E. T. Brown, John A. Mattingly, David Meeker, J. J. O'Neil, Abraham Seligsohn, John U. Harbourne, Ferdinand C. Peterson, John C. Dunn, Peter J. Mitchell, J. Levingston, Geo. E. Peck, Chas. E. Wolfe, Richard S. Culverwell, Willie Steinway, Wm. H. Ware, Wm. B. Anderson, Vincent F. Valentine, Geo. W. Frank, Chas. Wright, Louis J. Frank, Harry J. Moors, Patrick W. McGrath, and Herdy Morrison—total, 28.

DENMAN SCHOOL.

Misses Clara Morrow, Maria F. Eckley, Marion Evans, Sarah Dobrzensky,

Josephine E. Lande, Bertha J. Cornwall, E. Lindberg, Maggie Carroll, Rosa Goldsmith, Katie Sherk, Ella Frances Badger, Katie May Simmonds, Mary D. Alrutz, Esther Frances Sproul, Winnie G. Smith, Katie C. Haun, Florence Cornwall, Theresa F. Stickle, Carrie Mills, Mary Carroll, Ida Florence Taylor, Rosina Maud Brady, Lora Smith, Bertha Raphael, Stella B. Wyche, Josephine Moroney, Aurora R. Bronsden, Annie R. Ashley, Marie Louise Woolsey, Alice Maria D'Arcy, Grace Adelaide Griffin, and Emma Fulton—total, 32.

RINCON SCHOOL.

Misses Laura Horn, Nellie White, Mary Mathews, Alice Hall, Martha Jones, Marietta Carleton, Katie Read, Annie Campbell, Maggie McNevin, Marion Thompson, Annie Evans, Annie Shea, Matilda Maguire, Eva Turner, Olive Parker, Irene Doyle, Mary McMillan, and Emma Tabor—total, 18.

WASHINGTON SCHOOL.

Misses Carrie Pinkham, Addie Rogers, Louise Porter Nichols, Maggie Bannan, Augusta Eastman; Masters Thomas J. Carroll, Benjamin P. Wall, Dominick W. Barrett, and James E. Clark—total, 9.

UNION SCHOOL.

Wm. Edward Dargie, Isaac E. Delavan, Peter J. Dunne, Joseph M. Robinson, and Edward C. Holmes—total, 5.

SPRING VALLEY SCHOOL.

Misses Kate Stanford, Minnie A. Hatman and Rachel Benjamin; Masters James D. Brown and Wm. P. Bullard—total, 5.

SOUTH COSMOPOLITAN SCHOOL.

Miss Annie Lee Gunn.

MISSION SCHOOL.

Misses Charlotte E. Ciprico, Annie O'Connor, Louisa Knowlton, Mary Gallagher and Mary L. Perry; Master Everett Nickerson—Total, 6.

Total number graduated from Grammar Schools in 1868, 104.

The number of children who were eligible to our schools during the year was 23,619; the whole number in attendance, 17,426; the percentage in attendance of those eligible was 74. This percentage places our city second on the roll of honor among all the cities of the Union.

Our public schools are so well managed that only a few private schools can be supported among us.

The average percentage of those eligible and who were in attendance at public schools here and in the East is as follows, viz.:

In Lowell, Massachusetts.....	80
In San Francisco.....	74
In Zanesville.....	65

In Boston	60
In Newark	55
In Springfield, Buffalo, Troy and Syracuse.....	50
In Chicago	50
In Detroit	45
In Milwaukie	40
In Cincinnati	25

This showing is a just cause of pride to this Department, and is full of promise for the future enterprise, prosperity and happiness of the State. Enterprise and thrift are the handmaids of learning; where we find the most enterprise we also find the best schools and seminaries of learning. But, unless much time and careful attention are given to the subject of classification, the present prosperous condition of our schools cannot be maintained.

Yet, if we continue to educate the masses as we are now doing, and keep the subject of schools alive in the heart of the people, within the next decade of years, our steamers, our engines, our railroads and telegraphs will regulate the commerce of the world, and spread the golden mantle of prosperity over every sea and every clime. Then California will be known as the favored land of toil, and San Francisco hailed as the Queen of the West, where all the luxuries of the earth are centered.

In conclusion, your Committee present a few suggestions and consider some of the necessary conditions upon which our schools may be continued in the position of usefulness they now hold.

In the first place, we should carefully guard against misleading ourselves into expectations which cannot be met.

Theory and experience do not always move harmoniously together; the former is often the offspring of sudden emotion and indulges in impracticable speculations, while the latter acts as the corrective genius of error, and deals with facts.

Many things are theoretically true, yet practically false, and the discrepancies between theories and actual results may lead to great injustice, as sometimes is seen in the election and classifying of teachers and the promotion of pupils.

At our annual examinations we fix the per cent. required for promotion, and it sometimes occurs that the best pupils fail to reach the standard. In such cases we take the recommendation of the teacher as the best guide for promotion, and are seldom disappointed.

To secure the best interests of our schools we should legislate cautiously and wisely, and have our deliberations marked by a spirit of candor, and not be governed by the views of an ideal community, who reason out results that will follow any certain course of action without considering its relation to the whole.

We must take humanity as it is in the real live boys and girls which we meet in the street, and deal with them as they are; we must consider the circumstances, thoughts and feelings of parents and friends, and put their influence into the scale and carefully note the results; otherwise we can scarcely expect

to have our schools continued to reflect the interests and wants of the public.

These things must have their influence upon the Committee in the full discharge of their duties, that the schools may prosper and the best results be realized.

Respectfully submitted.

WASHINGTON AYER,
H. A. COBB, Chairman.

SAN FRANCISCO, July 28, 1868.

REPORT OF THE COMMITTEE ON HIGH SCHOOLS FOR THE SCHOOL YEAR ENDING JUNE 30, 1868.

To the President and Members of the Board of Education:

GENTLEMEN—In compliance with the requirements of law and the regulations of this Board, your Committee would respectfully present the following report upon the High Schools of the city:

During the past year the Boys' High School has been in charge of a very efficient corps of teachers, with Mr. Theodore Bradley, Principal; T. C. Leonard, Teacher of Mathematics; A. L. Mann, Teacher of Ancient Languages; J. M. Sibley, Assistant in the English and Commercial Department; and Mrs. C. L. Atwood, Teacher of Belles Lettres.

The whole number in attendance at the beginning of last year was 80; number in English at the close of the year, 71; number entered from Latin School, 32; number in Latin, at the close, 30; whole number in school, at the close, 101; percentage of attendance, 98.7; number in school this term, 132.

Of those who left the school during the past year, most secured good situations which their necessities prompted them to take; three left on account of illness, and one for bad deportment. With this exception, the general deportment of the students was excellent, and their progress praiseworthy.

The course of studies pursued in the English department, is adapted to the business wants of this community. During the past year exercises in the application of the sciences to the arts were introduced, which in future will vastly increase the usefulness of the school, and enable the student to apply his learning to the practical pursuit of life. For the suggestion and introduction of this course, we acknowledge our indebtedness to the present able Principal of the school; and its great importance cannot fail to secure the earnest support of all who will bestow their attention upon the subject of practical learning. So worthy have the graduates of last and previous years proved themselves, that they have reflected the highest credit upon the school and this department.

The numerous applications made by business men for our graduates must make the fact evident to all that the office which the school fulfills is eminently promotive of the interests of the city and State. They step from the school

into the counting room, the machine shop, the office of the assayer, and the chemical laboratory, armed with those scientific instruments through which only can there be successful procedure in the various arts of life.

During the last examination, there were ten who graduated in the senior class, two in the junior and five in the commercial—about twenty-three per cent. of the whole school—which is equal to any of the schools of a similar grade in the East.

In Boston the per cent. of the graduates is 15; in Lowell, 19; New Orleans, 12; Springfield, Ill., 23; St. Louis, 7; Louisville, Ky., 5; Portland, Me., 8.

These facts are gathered from the different reports of 1863 to 1866, published in these cities, and give us encouragement to hope for the continued success of this school.

Our legislators, aided by our learned men and best educators, have anticipated the wants of California, and considered the important relations of science with mining and agriculture, and made provision for a Mining and Agricultural Chair in the University of the Pacific, where the young men may receive thorough instruction in these important branches of learning and manual labor.

In our High School we have taken the initiatory to this advanced University Course, in the application of the sciences to the arts; yet, with our present facilities, we cannot expect to go beyond the primary branches of the course; but if we only sound the key-note to the "Anvil Chorus," and the Song of Labor, our work will receive its reward in the future.

Here we also give instruction in Commercial Law and Comity, and in all forms of business which engage the attention of the most active and progressive community in the world.

That the plan of the school may be made more successful, we would recommend that the Committee on High Schools be authorized to make such changes and additions to the laboratory as will facilitate the application of the sciences to the arts, and secure the best interests of the class.

We would also recommend the Board to secure an insurance upon all the philosophical apparatus and cabinet belonging to the school.

THE GIRLS' HIGH SCHOOL.

This school has been under the care of Mr. E. H. Holmes, Principal; Mrs. S. R. Beals, Teacher of Belles Lettres; Miss S. A. Barr, Miss M. McKenzie, Assistant, and Madame V. Brisac, Teacher of French.

The school is in a flourishing condition, and is one of the most attractive features of our city, bearing equal importance with any of the schools in the Department.

At the commencement of the school year just ended there were in attendance, 113; at the close, 108. Of this number there graduated, 33. Average per cent. of attendance for the year, 98.3.

In connection with this school there are four normal training classes, where the senior class can receive instructions in the art of teaching.

During the past year this school has been in charge of Mrs. Du Bois, a very efficient teacher, and well qualified to fill the position.

The importance of this school with its normal training can scarcely be over-estimated in its connection with the High School. Here the young ladies who desire to become teachers, receive their first great lessons in school government and method of teaching; and when they come to us, they come as experienced teachers asking for positions in the department, and are entitled to our consideration. Without this preparation it would be our duty to secure the services of strangers, who have had experience, whenever we could do so, instead of giving employment to the young ladies educated among us.

It is not expected that all who go through the full course of the High School will become teachers, or that they will avail themselves of the Normal course. It would, therefore, be justice toward those who take the Normal Training to lessen their studies in the other department, at the discretion of the Committee on High Schools, or as the Board shall direct.

The following is a list of the graduates for the year ending June 30th, 1868: Annie B. Earle, Mary Gallagher, Gertrude Soulé, Florence Ames, Maggie Gallagher, Pauline Wertzlar, Sarah Avery, Susie Earle, Lizzie Wells, Mary Stevens, Jennie Stanford, Annie Dowling, Mary Williams, Alice Gregg, Mary A. Thayer, Mary E. Bennett, Ellen Coffin, Georgie Morton, Carrie McEwen, Amelia Goldstein, Margery Robertson, Esther Seeligsohn, Anne Benson.

While this school is looked upon with pride by all our citizens as a place where their daughters can receive that instruction and moral training which will fit them for all the honorable walks of life, but little care has been bestowed upon their accommodation and the building in which they daily assemble.

Your Committee feel that the present accommodations for the High and Normal School in dark, damp and ill-ventilated rooms, afford a sad commentary upon the integrity and good judgment of this Board, and would urge the erection of a suitable building for the Girls' High School, without delay.

Respectfully submitted,

WASHINGTON AYER,
A. W. SCOTT,
J. F. MEAGHER.

SAN FRANCISCO, July 14, 1868.

REPORT OF THE COMMITTEE ON GRAMMAR SCHOOLS FOR THE SCHOOL YEAR ENDING JUNE 30TH, 1868.

To the Honorable President and Members of the Board of Education:

GENTLEMEN—Your Committee on Grammar Schools would respectfully present the following report:

During the past year our Grammar Schools have, in most instances, been in charge of able and faithful teachers, and the result of the annual examina-

tion has, with few exceptions, been very creditable to the teachers and satisfactory to all friends of the schools. A tabular statement of the promotions and the average per cent. of the different classes will be found in the report of the Committee on Classification. The schools which have succeeded the best and are entitled to special consideration are the Denman, Lincoln and Rincon Grammar Schools.

About the close of the second term of the school year the Hon. John Swett was placed in charge of the Denman School, and under his care the school has maintained its reputation as a first-class Grammar School. And about the same time, Dr. William T. Lucky, a very accomplished gentleman, was elected to fill a vacancy in the Lincoln School, and the result of his labor has been most gratifying.

During the entire year the Rincon School has been under its former Principal, E. Knowlton, an earnest and faithful teacher. These schools being centrally located, possess some advantages over most of the others, as home influence and the comforts of social life, and we should feel greatly disappointed if any had fallen below its present standard.

The school at the Mission under Mr. E. D. Humphreys has also made very commendable improvement, and promises to take rank with any of the schools in the city. The Union School, under Mr. T. S. Myrick, and the Spring Valley School, under Mr. B. Marks, both old and efficient teachers, have met with success. The Mason Street School, under the care of Mr. J. Stratton, has been successful in the various classes, excepting in that of the First class.

We congratulate the public upon the great prosperity of the Schools, the general good health of the children, and that so few seats have been made vacant by death. The school rooms for the most part are light, airy and well ventilated, and great care is taken for their cleanliness.

The Assistant Teachers are earnest, faithful and accomplished ladies, and should receive every encouragement at our hands, and the hearty co-operation of the public.

The course of instruction has been carefully considered, and arranged in the different grades, so as to meet the wants of the masses and do the greatest possible good to the greatest number.

While the education of the youth of our city is a subject of the highest importance, and has awakened a deep interest in the community, comparatively few having children in the schools give their earnest support to the Teachers.

PARENTAL INFLUENCES.

Much complaint has been made to the Committee, that some parents never visit the schools only to find fault with the teachers, which they do in the presence of the class, thus encouraging a spirit of insubordination. The best efforts of the teacher may fail by the adverse influence of home upon the scholars.

The conversation of the parents about the school, the spirit they manifest towards the teacher, may determine the character of the scholar as obedient and zealous, or as unruly and indolent. Great care should therefore be taken,

lest unguarded and unqualified expressions shall induce the child to disobey. The parents should always seek to secure hearty and exact obedience to the requirements of the school. To sustain the spirit of insubordination in the slightest degree may raise a spirit not easily subdued, that shall return again and again to torture the heart of the parent.

The training of home and that of the school should go hand in hand. The more attention bestowed upon one, the more prosperity will there be in the other.

Our schools are for the intellectual and moral training of the children of all sects and parties, and we must not suffer them to become paralyzed by any party zeal or prejudice, such as would lead to an unwise interference with the duty of the teacher.

Society looks to education for an enlightened moral sentiment which will impart security to property, to life, and the peace of a community, above and beyond the law. If parents would visit our schools more frequently, become familiar with their management, and view them in their moral aspect, we are sure they would find much less occasion to complain. If anything is really wrong, we ask them to co-operate cordially and wisely to put it right, and at the same time we would urge them not to withdraw their confidence, or suffer their feelings to rise and fall with the ebb and flow of party zeal.

Respectfully submitted,

WASHINGTON AYER,
H. A COBB,
WM. F. HALE.

SAN FRANCISCO, July 14th, 1868.

APPENDIX.

MEMBERS OF THE BOARD OF EDUCATION, OFFICERS AND STANDING COMMITTEES, FOR THE SCHOOL YEAR ENDING
JUNE 30, 1868.

PRESIDENT.....THOMAS H. HOLT.

MEMBERS.

- 1st District—E. H. COE, Flint's Warehouse, foot of Battery street. Dwelling east side of Calhoun, between Union and Green streets.
- 2d District—THOS. H. HOLT, No. 605 Montgomery street. Dwelling No. 1803 Stockton street
- 3d District—WM. F. HALE, M. D., No. 520 Kearny street.
- 4th District—H. A. COBB, No. 327 Montgomery street. Dwelling No. 1413 Powell street.
- 5th District—WASHINGTON AYER, M. D., No. 408 Kearny street. Dwelling No. 227 Kearny street.
- 6th District—T. W. J. HOLBROOK, No. 424 Montgomery street.
- 7th District—J. F. MEAGHER, St. Mary's Cathedral, corner California and Dupont streets. Dwelling No. 61 Minna street.
- 8th District—A. WASSERMAN, No. 429 Sacramento street. Dwelling No. 515 Post street.
- 9th District—A. W. SCOTT, southwest corner Steuart and Folsom streets. Dwelling No. 19 Rincon Place.
- 10th District—A. K. HAWKINS, San Francisco Gas Works, corner Natoma and First streets. Dwelling No. 829 Howard street.
- 11th District—P. B. CORNWALL, foot of Market street.

- 12th District—JAMES A. ROGERS, northeast corner Pacific and Polk streets. Dwelling northwest corner Filbert and Octavia streets.
- JAMES DENMAN—*Superintendent Public Schools*, Office No. 22 City Hall.
- GEO. BEANSTON—*Secretary of the Board of Education*, No. 22 City Hall. Dwelling west side of Hollis street, between O'Farrell and Ellis streets.
- RICHARD OTT—*Clerk of the Board of Education*, No. 22 City Hall. Dwelling No. 218 Stockton street.
- JAMES DUFFY—*Messenger*, No. 22 City Hall. Dwelling Buchanan street, between O'Farrell and Ellis.

STANDING COMMITTEES.

- Nomination of Teachers—Directors Meagher, Cornwall, Holbrook, President, and Superintendent.
- Rules and Regulations—Directors Hawkins, Meagher, and Scott.
- Classification and Course of Instruction—Directors Hale, Holbrook, Coe, and Superintendent.
- High and Normal Schools—Directors Ayer, Meagher, and Hawkins.
- Cosmopolitan Schools—Directors Wasserman, Cobb, and Ayer.
- Text Books and Music—Directors Meagher, Rogers, and Hawkins.
- School Houses and Sites—Directors Rogers, Cornwall, and Holbrook.
- Evening Schools—Directors Hawkins, Wasserman, and Cornwall.
- Furniture and Supplies—Directors Hale, Coe, and Rogers.
- Salaries and Judiciary—Directors Cornwall, Rogers, and Hawkins.
- Finance and Auditing—Directors Scott, Meagher, and Ayer.
- Teachers' Institute—Directors Holbrook, Hawkins, and Cornwall.
- Printing—Directors Coe, Holbrook, and Scott.
- Janitors—Directors Rogers, Hale, and Holbrook.

SCHOOL CENSUS—MARSHAL'S REPORT OF CENSUS RETURNS FOR THE CITY AND COUNTY OF SAN FRANCISCO FOR THE SCHOOL YEAR ENDING JUNE 30TH, 1868.

Time lost by absence during schools hours.....	156 h. 55 m.
Number of visits to parents made by Teachers.....	3,734
Number of visits made by School Directors.....	2,027
Number of visits made by Superintendent.....	759
Number of school visits made by other persons.....	12,643

REAL ESTATE OF THE SCHOOL DEPARTMENT.

During the last year, the Board of Education has acquired ninety lots.

Seventy-three of these are in the western part of the city, west of First Avenue. The size of each lot is 150 by 240 feet, running from east to west, through the center of the block, each lot having a frontage of 150 feet on both streets.

Eleven of the lots are 150 by 200 feet; and beautifully located in the Potrero and Mission Surveys.

There are also six 50-vara lots located between First Avenue and the Charter Line.

This property has been set apart for School purposes by the Board of Supervisors, and is a portion of the Outside Lands belonging to the city. In a few years, the rapid march of improvements will make this an immensely valuable estate. It is a benefaction to the School Department worthy of the city of San Francisco.

Under the Van Ness Ordinance, there were set apart for School purposes eighteen 50-vara lots in the Western Addition, six at the Mission, and three lots, 100 by 200 feet each, in the Potrero Nuevo Survey. I regret to report that the title to some of this property is in dispute, and that the city will be compelled to obtain possession of it by litigation. Through the recommendation of John R. Jarboe, Esq., Chairman of the Committee on Judiciary, the Board of Education instructed the City Attorney and Superintendent to commence actions of ejectment against all parties holding adverse possession to any School property.

A general suit for all the city property was commenced before the expiration of the "Limitation Act," but, on account of his ill health and pressure of other business, the City Attorney has not been able to try these suits or press them to a final issue. As the city is now rapidly extending in the direction of this valuable property, it is exceedingly important that the title to it should be settled as soon as possible. Large and commodious school houses will soon be required on each lot, to accommodate the rapidly increasing population.

The following is a schedule of the School Property belonging to the Department:

LOTS DEEDED BY COMMISSIONERS OF FUNDED DEBT.

Fifty vara lot No. 301, corner of Bush and Stockton streets.

Fifty vara lot No. 462, corner of Kearny and Filbert streets.

Fifty vara lot No. 663, corner of Vallejo and Taylor streets.

One hundred vara lot No. 128, corner of Market and Fifth streets.

Lot on Fourth street, 80 feet by 125 feet, portion of one hundred vara No. 174, corner of Harrison and Fourth streets.

LOTS OBTAINED BY EXCHANGE.

Fifty vara lot No. 482, on Greenwich street, received in exchange for fifty-vara lot No. 695, corner of Stockton and Francisco streets.

Inner portion of one hundred vara lot No. 76, fronting on Vasar Place, Harrison street, near Second street (100 by 180 feet), obtained in exchange for fifty vara lot No. 732, corner of Fremont and Harrison streets.

Part of one hundred vara lot No. 274, 115 feet on Eighth street by 275 feet deep, received in exchange for one hundred vara lot No. 258, corner of Folsom and Seventh streets.

Part of fifty vara lot No. 157, on Broadway near Powell street ($69\frac{1}{4}$ by $137\frac{1}{2}$), received in exchange for portion of one hundred vara lot No. 174, corner of Fourth and Harrison streets.

Part of fifty vara lot No. 581, 70 feet on Post street, between Dupont and Stockton streets, received in exchange for portion of one hundred vara lot No. 174, corner of Fourth and Harrison streets.

Lot 100 feet on Tyler street, by $137\frac{1}{2}$ feet deep, between Pierce and Scott streets, for lot No. 2, block 431, Western Addition.

 Miss Mary Williams.....“

BRYANT STREET PRIMARY SCHOOL.

Location.....North side Bryant street, between Third and Fourth.

Pupils registered, 338; average attendance, 207.6; number to each Teacher, $51\frac{9}{10}$; monthly tuition of each pupil, \$1 37.

TEACHERS.

Miss Jennie Smith.....Principal.
 Mrs. Theresa M. Sullivan.....Assistant.
 Miss Clara J. Dolliver.....“
 Miss Augusta S. Cameron.....“

HYDE STREET PRIMARY SCHOOL.

Location.....Northwest corner of Bush and Hyde Streets.

Pupils registered, 198; average attendance, 125.5; number to each Teacher, $41\frac{1}{4}$; monthly tuition of each pupil, \$1 49.

TEACHERS.

Miss A. M. Manning.....Principal.
 Miss Mary F. Metcalf.....Assistant.
 Miss Mary E. Savage.....“

DRUMM STREET PRIMARY SCHOOL.

Location.....Northeast corner Sacramento and Drumm Streets.

Pupils registered, 217; average attendance, 126.8; number to each Teacher, 42½; monthly tuition of each pupil, \$1 53.

TEACHERS.

Miss Annie M. Murphy.....Principal.
 Mrs. Helen V. Shipley.....Assistant.
 Miss Carrie A. Menges.....“

POTRERO SCHOOL.

Location.....Northeast corner Kentucky and Napa Streets.

Pupils registered, 105; average attendance, 70.4; number to each Teacher, 35½; monthly tuition of each pupil, \$2 05.

TEACHERS.

Miss Annie S. Jewett.....Principal.
 Miss Sarah E. Anderson.....Assistant.

PINE STREET SCHOOL.

Location.....North side Pine Street, between Scott and Devisadero.

Pupils registered, 107; average attendance, 69.9; number to each Teacher, 34½; monthly tuition of each pupil, \$1 93.

TEACHERS.

Miss L. A. Prichard.....Principal.
 Miss Abbie F. Sprague.....Assistant.

TYLER STREET SCHOOL.

Location.....North side Tyler Street, between Pierce and Scott.

Pupils registered, 144; average attendance, 77.6; number to each Teacher, 38½; monthly tuition of each pupil, \$1 93.

TEACHERS.

Miss Jennie E. Gunn.....Principal.
 Mrs. Laverna Allen.....Assistant.

WEST END SCHOOL.

Location.....Near Six Mile House.

Pupils registered, 69; average attendance, 25.5; monthly tuition of each pupil, \$3 25.

W. W. Holder.....Principal.

SAN BRUNO SCHOOL.

Location.....San Bruno Road, near Toll Gate.

Pupils registered, 88; average attendance, 49.7; monthly tuition of each pupil, \$1 71.

Miss Marion Sears.....Principal.

OCEAN HOUSE SCHOOL.

Location.....Near Ocean House.

Pupils registered, 23; average attendance, 17.4; monthly tuition of each pupil, \$4 31.

Albert Lyser.....Principal.

FAIRMOUNT SCHOOL.

Location.....Fairmount Tract.

Pupils registered, 57; average attendance, 29; monthly tuition of each pupil, \$2 93.

Miss Susan D. Carey.....Principal.

COLORED SCHOOL.

Pupils registered, 161; average attendance, 98; number to each Teacher, 32 $\frac{2}{3}$; monthly tuition of each pupil, \$2 41.

TEACHERS.

Mrs. Georgia Washburn.....Principal.

Mrs. H. F. Byers.....Assistant.

Miss Adrianna Beers.....“

CHINESE SCHOOL.

Location.....Northeast corner Sacramento and Stockton Streets.

Pupils registered, 179; average attendance, 38.8; monthly tuition of each pupil, \$2 06.

William M. Dye.....Principal.

SPECIAL TEACHERS.

F. K. Mitchell.....Teacher of Music.

W. D. Murphy.....“ “

Hubert Burgess.....Teacher of Drawing.

Charles Burgess.....“ “

REGULATIONS AND COURSE OF STUDY OF THE GRAMMAR AND
PRIMARY SCHOOLS.

SECTION 1. The Grammar Schools for boys, and the mixed Grammar Schools (boys' and girls') shall each be instructed by a Master, a Head Assistant, and as many Sub-Masters and Female Assistants as the Board may determine. In the Primary Schools of eight or more classes, there shall be an Assistant Teacher appointed to take charge of each class, so that the Principal may spend her whole time in superintending the school. It shall be the especial duty of the Principals to see that Assistant Teachers faithfully conform in their teaching to the course of instruction adopted by the Board of Education; and they are authorized to visit the classes under their charge for the purpose of examining the scholars and giving directions to the Assistants.

SEC. 2. Grammar Schools for girls shall each be instructed by a Master, a Head Assistant, and three or more female Assistants.

SEC. 3. Every Teacher's desk shall be supplied with the following reference books: Willson's Manual of Instruction, Sheldon's Elementary Instruction, Calkin's Lessons on Objects, and Cowdery's Moral Lessons, and such works of reference as the Board may require.

SEC. 4. In the Primary Grades, the specific directions of Willson's Manual relating to the use of Willson's Charts, Readers and Spellers, shall be followed in detail; and in Oral Instruction and other subjects the suggestions of the reference books shall be pursued as far as practicable.

SEC. 5. For the purpose of allowing time to study in school, every grade shall be divided into two sections — one section to study while the other is reciting. In general slate and black-board exercises in Arithmetic, in Writing and Drawing, and written examinations, and such general exercises as require the attention of the whole class, both sections may recite together.

SEC. 6. Not more than one-fourth of the time in any grade shall be devoted to the recitations in Arithmetic, and in grades below the Sixth, not more than three-quarters of an hour, daily, shall be given to Arithmetic.

SEC. 7. In all grades, excepting the lowest two, Friday may

be devoted to reviews, written examinations, declamations, reading of compositions and select pieces, and other general exercises; and during the last term of the year, there shall be at least one written examination in some study on Friday of each week.

SEC. 8. There shall be ten grades in the course of study—four in the Grammar Department and six in the Primary Department. The regular course of study shall consist of eight years, so that children entering at six years of age may graduate at fourteen years of age.

SEC. 9. There shall be registered in the Grammar Schools not less than fifty scholars to each teacher. In classes of the First, Second, and Third Grades, the average number belonging shall be not less than forty scholars. In classes of the Fourth Grade the number registered shall not be less than fifty-six scholars, and the average number belonging not less than forty-five; and in the Primary classes there shall be registered not less than sixty nor more than seventy pupils, and the average number belonging shall not be less than fifty-five.

SEC. 10. Pupils admitted from the Primary Schools are expected to enter the Grammar Schools at the commencement of the term in July; but all other applicants found on examination qualified in all respects, may enter school at any time by applying to the Master. Pupils regularly transferred from one school to another may be admitted at any time, on presenting their certificates of transfer, without an examination. Monday morning should be specially set apart by the Principals for receiving and examining new scholars.

SEC. 11. Lessons assigned daily to be studied out of school, shall not be longer than a pupil of good capacity, in the upper Grammar classes, can acquire in one hour and a half, and a pupil of the lower classes can acquire in one hour.

SEC. 12. Within the two weeks preceding the last Monday in each term, the Master of each District shall visit each Primary in his School District, and examine the classes in the presence of their instructors, and he shall give certificates of promotion to such pupils as he may find qualified. If, however, the parent or guardian of any pupil not promoted on the examination of the Master, is dissatisfied with his decision, such person may apply to the Superintendent for another examination of said applicant.

SEC. 13. Each class shall pursue the studies and use the text books assigned to its grade; but whenever it shall appear that a lower class has, in any particular branch of study, made the progress requisite for promotion to a higher grade, at a period earlier than the regular time for general promotion, then such class may, with the approval of the Superintendent, enter upon the study of one of the text books prescribed for the next higher class.

SEC. 14. At the beginning of each school year, the Superintendent shall direct and supervise the organization of the several classes in the School Department, and see that none are retained members of any class who ought to be admitted to classes of higher grades.

SEC. 15. Vocal Music shall be taught in all the grades of both departments under the direction of the Music Master, whose time shall be apportioned among the schools and classes of each district, by the Grammar Master of that district.

SEC. 16. Map Drawing shall be required in all the grades in which Geography is studied, under the general direction of the Principals. Specimen Maps drawn during the year should be preserved by the teacher and credited at the annual examination for promotion.

SEC. 17. Penmanship shall be taught as directed by the Principal of the District. In the Second, Third, Fourth, Fifth and Sixth Grades, four regular lessons in copy books should be given each week. At least two copy books must be written through each term. The general principles of Penmanship shall be explained by the teacher of each class. One-half of the credits in Penmanship will be awarded for neatness and improvement made in copy books.

SEC. 18. Vocal Music, Drawing, Map Drawing, Reading and Oral Instruction, Composition and Writing shall all be credited in the annual examination for promotion.

SEC. 19. Physical exercises, such as are adapted to the several grades, and the different school rooms, shall be given by all the teachers in all the schools, at least once a day, and in the Primary classes twice each day, under the general direction of the Grammar Master of each district.

SEC. 20. During the entire course, particular and continued

attention shall be given to the spelling of all names used in the lessons of Local Geography. All difficult names must be written on the blackboard and copied on slates or in exercise books.

SEC. 21. In every grade, except the Tenth, the teacher shall review the course of study of the preceding grade, and the Oral Instruction of all the preceding grades.

SEC. 22. No pupil shall be admitted to the Girls' High School unless 13 years of age, and no girl under 12 years of age shall be admitted to the first class of the Grammar schools.

SEC. 23. No lesson to be studied at home shall be given to pupils in the Tenth, Ninth and Eighth Grades.

SEC. 24. For the purpose of saving time and teaching pupils to carefully express their *lessons* and ideas in written language, it is recommended that teachers require their classes to write their lessons on their slates. In the higher classes, after the lessons have been written, the scholars should exchange slates and correct mistakes according to correct answers, which should be dictated by the teacher. Review the lessons orally which have been written. Every alternate lesson could be profitably recited in writing.

SEC. 25. Scholars are responsible for the condition and neatness of their desks and the floor near them. Teachers are particularly required to enforce order and neatness in the school room, by precept and the example of keeping everything about their own desks in order. Principals are required to give daily attention to the observance of this rule.

REVISED COURSE OF STUDY FOR THE GRAMMAR AND PRIMARY SCHOOLS.

PROBATIONARY, OR TENTH GRADE.

Time for completing this Course, One Year.

For general directions in this grade, see Willson's Manual, First School Year, pages 289 to 294.

READING.—Lessons from Willson's Charts, Nos. 1, 2, 3 and 4. Willson's Primer begun. For instructions in methods of teaching to be pursued in this grade, see Willson's Manual, pages 24 to 41, and 291 and 292; Calkin's Manual, pages 269 to 290.

SPELLING.—From the Charts and Primer, as directed in Willson's Manual.

LANGUAGE—ORAL COMPOSITION.—By combining words and making short sentences, as directed in Willson's Manual, pages 24 to 41; also Sheldon's Elementary Instruction, pages 219 to 230.

Be careful to correct all faulty expressions of the pupils, and require them to repeat their answers, using the correct language.

PRINTING AND DRAWING.—Printing letters on the blackboard, at least fifteen minutes by each division, daily. Printing on the slate, daily, at least fifteen minutes. One division shall be sent to the blackboard, while the other is at work on the slates. See page 26, Willson's Manual.

Drawing, both on the slate and blackboard, as directed in Willson's Manual, pages 51 to 55; Calkin's Manual, 94 to 98.

NUMBERS.—Counting, reading and writing numbers to 100. Adding and subtracting small numbers, not to exceed 4+10, both mentally and by writing them on the blackboard. Use the numeral frame. Roman numerals to XXV. Adding on the board and slate, columns of units not to exceed 5, to an amount not to exceed 25. For methods of teaching, see Sheldon's Elementary Instruction, pages 138 to 174; and Willson's Manual, pages 30 to 32; Calkin's, 135 to 153.

MORALS AND MANNERS.—Taught by enforcing habits of personal cleanliness, neatness in dress, and obedience to parents; and by *telling*, not reading, simple stories to illustrate the virtues of honesty, truthfulness and kindness. Sheldon's Elementary Instruction, pages 384 to 388, for practical exercises; Calkin's Lessons, pages 349 to 358.

ORAL INSTRUCTION—*Color*.—Teach the names of the Primary and Secondary colors on Willson's Color Chart No. 13, and teach pupils to distinguish the colors of objects. Willson's Manual, page 92; Calkin's Manual, 112 to 116.

PARTS OF THE BODY.—See Calkin's Manual, pages 189 to 200.

OBJECTS.—Chair, watch, clock, pin, thimble, knife, cart, and all other objects named on page 308, Calkin's Manual. See Calkin's Manual, pages 291 to 308.

ANIMALS.—See Sheldon's Elementary Instruction, 310 to 316; take dog, goat, cat and kittens, hen and chickens, and animals named on pages 315 and 316, in Sheldon's Manual.

PLACE.—Location of the school house, of the house of each pupil, the number of the house, and name of the street. Names of the five principal streets of the city.

GENERAL DIRECTIONS.—Make two divisions of the class, and keep one at the blackboard, or occupied with their slates, while the other is receiving instruction in reading and spelling, or numbers, from the teacher. Physical exercises, according to Mason's Manual, must be given twice a day, five minutes each time.

The teachers of this grade are requested to study thoroughly and carefully Willson's Manual, Calkin's Object Lessons, Sheldon's Elementary Instruction—particularly the sections relating to the first lessons in teaching.

NINTH GRADE.

Time for completing this Grade, Five Months.

READING.—Willson's Primer, completed. Use Charts Nos. 5 and 6, and review Nos. 1, 2, 3 and 4.

One reading lesson from the Charts daily, and one from the Primer daily.

For detailed instructions, see Willson's Manual, pages 24 to 41, and pages 294, 295; paragraphs 25 and 37, with references. Sheldon's Elementary Instruction, pages 231 to 248.

SPELLING.—From the Charts and Primer, and from words printed on the board by the teacher. See Willson's Manual, pages 294, 295, paragraphs 25 and 37, with references.

LANGUAGE.—*Oral Composition*, as directed in Willson's Manual, pages 24 to 41, at least fifteen minutes each day. Sheldon's Elementary Instruction, pages 219 to 230.

Be careful to correct the faulty pronunciation and ungrammatical expressions of pupils, and particularly careful to require them to repeat their answers in sentences, using correct language.

WRITING AND PRINTING.—Begin script writing on the blackboard, easy capitals, and small letters, followed by writing on the slates, at least fifteen minutes daily.

Writing from Chart No. 9. See Willson's Manual, page 294, paragraph 27. Sheldon's Elementary Instruction, page 258. First Step.

DRAWING.—Both on the blackboard and slates, at least twenty minutes daily. Sheldon's Elementary Instruction, pages 419 to 426. Calkin's, 94 to 98.

NUMBERS.—Counting by 1's, 2's, 5's and 10's to 100, and backwards; reading and writing numbers to 1,000; addition and subtraction tables to 6 *plus* 10, regularly and promiscuously. Reading and writing Roman numerals to 50. Tables to be printed on the board. The Abacus to be used in illustration of simple operations.

Pupils shall perform slate and blackboard exercises in adding columns of units to an amount not exceeding 100. Name and value of silver coins. For methods, see Sheldon's Elementary Instruction, pages 168 to 179; Calkin's, 138 to 154.

MORALS AND MANNERS.—Continued as in the First Term. Tell stories from Abbott's Library Book, "Learning about Right and Wrong." Read five or ten minutes each day, from some interesting juvenile book from the School Library. Tell stories from Willson's Intermediate Third Reader. See Sheldon's Elementary Instruction, 389 to 391. Calkin's Lessons, pages 353 to 357. Teach ten maxims from Willson's Manual, or Sheldon's Elementary Instruction.

COLORS.—The leading colors and shades, from Color Chart No. 13, matching and selecting colors from the box of color cards. Also, teach the color of familiar objects.

SIZE.—Length, the inch, foot and yard, taught by marking lengths on the blackboard, and by actually measuring with sticks, cut in lengths of a foot and a yard, measuring the length and width of the room, desks and other objects. Teach that 12 inches make one foot; three feet make one yard. See Sheldon's Elementary Instruction, pages 200 to 207.

PLACE.—See Calkin's, 244 to 258; Sheldon's Elementary Instruction, 263 to 270, five lessons. Review of the Tenth Grade exercises. Ten additional names of streets, right and left hand, North, East, South and West. Location of any public buildings in sight of the school house. Tell the situation of the Bay of San Francisco; Goat Island; Alcatraz Island; North Beach; Rincon Point; the Presidio; the Protrero; Telegraph Hill; the Coast Range of Mountains and Oakland.

PARTS OF THE BODY.—Continued from the First Term. Calkin's Manual, pages 189 to 226.

OBJECTS.—Review the exercises of the Tenth Grade, and take the following additional: glass, slate, water, milk. See Calkin's Manual, pages 308 to 317.

ANIMALS.—Sheldon's Elementary Instruction, Second Step, pages 316 to 320. Willson's Charts No. 15 and No. 1.

PLANTS.—Chart No. 21. Willson's Manual, pages 292, 294. See paragraphs 8 and 32.

Conversational Lessons from Sheldon's Elementary Instruction, pages 26 to 32.

GENERAL DIRECTIONS.—Review the work of the lower grade. Two divisions in the class.

Physical exercises twice a day, five minutes each time.

Teachers are required to carefully study the reference books.

No exercises to exceed fifteen minutes in length.

Review studies of the lower grades.

EIGHTH GRADE.

Time to complete this Grade, Five Months.

READING.—Willson's First Reader, to page 47. Concert vocal exercises, on the vowel sounds, before each reading lesson. Drill exercises in rising and falling inflection, and emphasis. Calkin's Manual, 269 to 297.

SPELLING.—Words from the Reader, and the names of common objects. Two short exercises daily—one oral, the other written or printed on the slate or blackboard.

LANGUAGE.—Oral Composition, as directed in Willson's Manual; Conversational Lessons. Sheldon's Elementary Instruction, pages 27 to 33.

DRAWING.—For instruction, see Sheldon's Elementary Instruction, pages 419 to 426. Use easy drawing cards, as may be directed by the Principal or Drawing Master.

WRITING.—Each division of the class must have an exercise of ten minutes at the blackboard, daily, and one of equal length on the slates. Short sentences from the Reader, to be printed or written on the slates and the board, and the lessons in spelling to be learned by printing or writing the words on the slates or board. Writing script letters, both capital and small letters. Teach the relative proportions of the small letters, as the height

of the letters *m* and *d* compared with *h* and *b*. Review of the Ninth Grade course.

NUMBERS.—Counting to 100 by 2's, beginning with one: as 1, 3, 5, 7, 9, etc.; and review counting on even numbers by 2's, 5's, and 10's. Reading and Writing to 10,000. Roman numerals to 100. Addition and Subtraction tables taught together to 10+10, regularly and promiscuously. Multiplication table: 2×1 to 2×10 . Teach the use of the terms *plus* and *minus*, and drill the class in rapid mental combinations of small numbers: as, $4+2+2+3+1-3-2+4$ —how many? Calkin's Manual, 135 to 160. Tables to be printed on the board: blackboard drill in adding columns of units to an amount not exceeding 100; multiplication of units, the product not to exceed 20, in the form of written arithmetic. See Sheldon's Elementary Instruction, pages 172 to 179. Teach pupils the sign of dollars, and how to write dollars, not to exceed \$10,000.

MORALS AND MANNERS.—Continué as in the Ninth Grade. Sheldon's Elementary Instruction, 389 to 390. Cowdery. Teach 10 new Maxims from Willson or Sheldon, and review the 10 learned in the previous term.

ORAL INSTRUCTION—*Forms.*—Lines: straight, curved, parallel, perpendicular, vertical, horizontal, oblique, spiral and waving.

Angles.—Right, acute and obtuse; and plane surfaces, the square, the triangle, and the circle. For instructions, see Sheldon's Elementary Instruction, pages 63 to 80; Calkin's Manual, 41 to 77.

Color.—Exercises on the Color Chart, reviewing the leading colors, tints and shades.

Size.—Square measure introduced by drawing a square inch, and a square foot, on the blackboard. Exercises in measuring the length of objects in the school room. See Sheldon's Elementary Instruction, pages 200 to 207.

Place.—Calkin's 245 to 258. Sheldon's Elementary Instruction, 268 to 278.

Objects.—Review the work of the Ninth Grade, with the following additional: sugar, coal, sponge, india rubber. Calkin's, page 317 to 330.

Animals.—Review the lessons of the Ninth Grade. Willson's Chart, No. 15. Willson's Manual, pages 150 to 162.

Plants.—Names of plants from Chart No. 21, and names of plants which the children see at home, or in the gardens.

LOCAL GEOGRAPHY.—Teach the following directions, both in the room and out of doors: North, East, South, West. Direction of the principal streets. Locate, in addition to the places named in the Ninth Grade, the following: Russian Hill, Rincon Hill, Mission Peaks, the Plaza, Union Square, Washington Square, the City Hall, Custom House, Post Office, United States Marine Hospital, the Lincoln School House, the Golden Gate, Pacific Ocean, Angel Island, the Shot Tower, Woodward's Garden, City Gardens, Lone Mountain Cemetery, Seal Rocks and Fort Point.

GENERAL DIRECTIONS.—Review the studies of the lower grades. Two divisions of the class.

SEVENTH GRADE.

Time to complete this Grade, Five Months.

READING.—Willson's First Reader, completed. Short exercises in vocal sounds, breathing, and inflection, of five minutes before each lesson. Punctuation marks and inflections. See Willson's Manual, page 301, paragraph 76.

SPELLING.—Willson's Primary Speller, to page 40, to be used as directed in the preface by the author. Every word to be used in constructing a sentence, either written or oral; accent of syllables, and the marks used to distinguish the different sounds of the vowels, whether long or short. Short exercises daily, in spelling words in *common* use by children.

LANGUAGE.—Oral composition continued as in the Eighth Grade. Writing short sentences from Willson's Speller, in connection with the spelling lessons. Writing short sentences about animals or things. The pupils taught to use Capital Letters at the beginning of sentences, and periods at the close. Require pupils to answer questions by using a complete sentence.

WRITING.—Blackboard and slate writing daily. Proportions of the small letters taught by ruled spaces on the board. In classes where the pupils have desks, use a long slate pencil, and require it to be held like a pen. Begin to use paper, writing with a long lead pencil. The use of pencils to be followed by the use of a pen; blank books or paper used in this class. Gen-

eral exercises to secure freedom of movement with the hand and arm. For instructions for position at the desk, see Grade Sixth.

DRAWING.—For instructions, see Willson's Manual, pages 51 to 54. Sheldon's Elementary Instruction, 426 to 433.

NUMBERS.—Robinson's Primary Arithmetic, to page 42. Counting by 3's, on odd and even numbers: as 1, 4, 7 and 2, 5, 8, 11, etc., and backwards by subtraction, as 99, 96, 93, etc. Review of counting 2's, 4's, 5's and 10's, and backwards. Problems to be solved with open books. Multiplication and division tables, singly and simultaneously, to 6 times 12, regularly and promiscuously. Reading and writing numbers to one million. Roman numerals of the Eighth Grade reviewed, and continued to 1,000.

Printing tables on the board and the slate daily. Rapid mental combinations of small numbers in Addition, Subtraction, Multiplication and Division, as in former grades. Examples in adding columns of units and tens on the board, the amount not to exceed 1,000. Teach pupils to read and write fractions not to exceed 10ths, and to perform slate and blackboard exercises, in Multiplication, the product not to exceed 100; as 24 multiplied by 4. Teach the form of writing examples in Division, using only unit figures for the divisor; as $3\overline{)36}$

MORALS AND MANNERS.—Begin to read from Cowdery's Moral Lessons, one lesson a week, of twenty minutes. Politeness of behavior should be strictly inculcated, and neatness of dress encouraged. Teach ten new maxims, and review those learned before.

ANIMALS.—Review the exercises of the Eighth Grade. Sheldon's Elementary Instruction, pages 320 to 324. Third Step. Chart No. 17. Teach the names of birds, and their most striking characteristics.

PLANTS.—Willson's Chart No. 21. Teach the names of plants and their most common uses.

FORM.—Square, parallelogram, right-angled triangle, pentagon, hexagon, heptagon, octagon, circle, semi-circle, ring, oval and ellipse. Review form in lower grades.

COLOR.—Review the charts on color, and teach the leading colors, tints and shades. Compare with the charts the color of articles of clothing, flowers, plants, etc.

OBJECTS.—Salt, alum, honey, gum Arabic, wax, putty, mortar,

chalk, iron, gold, silver and copper. See Calkin's Object Lessons, pages 333 and 334.

LOCAL GEOGRAPHY.—Review the places taught in the lower grades, and in addition teach the direction and situation of Oakland, Goat Island, Mercantile Library, the largest church and school edifices, San Pablo, San Rafael, Petaluma, Vallejo, Benicia, San José.

SIZE.—Develop ideas of width, as wide and narrow; of thickness; of height, as high and low, tall and short; of depth, as deep and shallow. See Calkin's Primary Object Lessons, pages 168 to 171. Review size in lower grades.

PLACE.—Develop ideas of surface of the country by the children's own observation of land, water, hills, valleys and mountains. See Calkin's Primary Object Lessons, pages 263 to 265. Also Sheldon's Elementary Instruction, pages 271 to 284.

CALISTHENIC AND PHYSICAL EXERCISES of five minutes, at least three times a day. Review studies of lower grades.

SIXTH GRADE.

Time to complete this Grade, One Term of Five Months.

READING.—Willson's Second Reader. Thorough drill in inflection, pitch, force, pauses, emphasis and accent, of five minutes before commencing to read. Exercises in vocal culture in connection with reading lessons.

Thorough drill on the sounds of the vowels and consonants.

In this grade, the work of learning how to study lessons begins.

Secure the careful attention of the pupils to the *meaning* of their lessons by questioning them on the sense. Require the pupils to close their books and give the substance, first of a sentence, next of a paragraph, and finally of a page or the entire lesson.

SPELLING.—Willson's Primary Speller, to page 60—omitting pages 49, 50, 51 and 55. *Every word* to be used in constructing a sentence, either oral or written, as directed in the Speller. Lessons of the Seventh Grade reviewed. Spelling of words in common use by the pupils.

LANGUAGE.—Written and oral sentences, as directed in Willson's Manual. Short written extemporaneous compositions under the direction of the teacher. For suggestions, use Brookfield's Elementary Composition. Attention paid to spelling, capitals, periods, and the pronoun I as a capital letter. Require pupils to answer questions by using complete sentences. Be careful to correct all ungrammatical expressions.

WRITING.—Exercises in writing on the blackboard, for the purpose of learning the proportions of the small letters and capitals. Writing in a blank book such exercises with a pen as will secure a free use of the fingers, hand, wrist and arm, and correct and easy positions at the desk.

Position in Writing.—Require the pupil to sit with the right elbow resting on the right-hand corner of the desk, the left elbow on the left-hand corner, the body facing the desk squarely, the weight thrown lightly on the left arm, and the book placed diagonally on the desk. This is, for most writing, the easiest and best position at the school desks.

DRAWING.—Blackboard and slate exercises, using drawing cards selected by the teacher.

ARITHMETIC.—Robinsen's Primary, to page 64. Pupils to recite lessons with open book, and the tables to be printed by the pupils on the blackboard and slate. The analysis of problems not to be required, but pupils to perform on the blackboard, as well as mentally, the problems on each page, under the tables. List of "tables" to be learned: Avoirdupois Weight, United States Money, Time, Dry Measure, and Liquid Measure to gallons; Long Measure, learned by actual measurement on the board—12 inches 1 foot, 3 feet 1 yard, $5\frac{1}{2}$ yards or $16\frac{1}{2}$ feet 1 rod; Square Measure—144 square inches 1 square foot, 9 square feet 1 square yard, drawn on the board.

Blackboard drill in adding columns of units, tens, and hundreds, the amount not to exceed 1,000. Drill on the board in written multiplication, the multiplier being limited to unit figures and the multiplicand to six places.

Written division, using 2 for the divisor and three places for the dividend.

Subtraction, limited to four places, and the reasons for "borrowing" not to be required.

Numeration and notation to 1,000,000.

Roman Numerals to 1,000.

Counting or Adding, beginning with both 1 and 2, to 100, by 2's, 3's, 4's and 5's, and subtracting the same from 100. Rapid combinations of unit figures, in the four operations, both mentally and on the slate and blackboard, as $6 \times 4 \div 8 + 2 \times 4 - 2 \div 9 + 7 \div 3 \times 7 - 1 \div 10 =$ how many?

Teach pupils to read and write common fractions to hundredths, and decimal fractions to hundredths.

Teach pupils the use of the sign \$, and to read, write, and add dollars and cents.

No lessons in Arithmetic in this grade to be assigned by the teacher to be studied at home.

MANNERS AND MORALS.—Cowdery's Moral Lessons, one lesson of half an hour each Friday. The moral judgment may now be called into exercise to determine the right or wrong of actions, with some of the simple reasons for such opinions. Read from Willson's Third Reader, and from the Rollo Books in the library. Teach ten new Maxims, and review those of the previous grade.

ORAL INSTRUCTION—Form.—Teach from the box of solids the following: Cube, pyramid, sphere, cone, cylinder, and review the work of all the lower grades.

Color.—Color chart, review of leading colors, tints and shades, the same as in Eighth Grade.

Objects.—Review the work of the previous grade, and take the following additional: Paper, leather, lead, egg, cheese, orange, apple, peach, pear. See Sheldon's Lessons on Objects, and Elementary Instruction.

Animals.—Extend and review the lessons of the Seventh Grade and lower grades. For suggestions, see Sheldon's Elementary Instruction, 324 to 358.

Plants.—Review and extend the lessons of the Seventh Grade. For suggestions, see Sheldon's Elementary Instruction, 359 to 384.

Teach the name of the President of the United States, the Governor and Lieutenant-Governor of the State, the Mayor and principal officers of the City of San Francisco.

PLACE—Local Geography.—Review the places named in the Seventh Grade, and locate the following additional ones: Mer-

cantile Library, Mechanics' Institute, Masonic Temple, Odd Fellows' Hall, the larger church buildings, San Pablo, San Rafael, Petaluma, Vallejo, Benicia, San José, Angel Island, Racoon Straits, Golden Gate, Fort Point, Lime Point, Bay Counties, Upper Coast Counties, Lower Coast Counties, Mountain Counties, Gold producing Counties, Grazing Counties, Grain producing Counties, Location of Copper Mines, Quicksilvre Mines, Coal Mines, and Marble and Granite Quarries. Require the direction, by points of the compass, of all the places named in the lower grades, from the school house which the pupils attend.

Require the pupils to draw on a board on a large scale a rough outline map of the Bay of San Francisco and vicinity. Require the pupils to spell the names of all the places taught in Local Geography, by writing them on the slate or in exercise books.

Natural features of land and water. Distance in miles of places in the city from the City Hall, and of towns in the vicinity from San Francisco.

A globe introduced to the pupils, and the equator, axes, poles and daily revolutions, made familiar. Oceans and continents pointed out, and the location of California.

TIME.—Teach the scholars to distinguish the time of day by the clock.

GENERAL DIRECTIONS.—Physical exercises, breathing exercises, and concert vocal exercises, at least twice every day. General review of the course in the lower grades.

FIFTH GRADE.

Time to complete this Grade, One Year.

READING.—Willson's Intermediate Third, one-half of the book. Concert vocal exercises on the elementary sounds, inflection, pitch and stress, five minutes at each reading lesson. The teacher is referred to Russell's Vocal Culture. Teach abbreviations as found in Sargent's Speller, the teacher to copy them on the blackboard. Scholars should not be required to purchase the book.

SPELLING.—Willson's Primary, reviewed and completed, omit-

ting Lessons 98, 99, 102, and pages 76 to 80. Written and oral construction of sentences as directed in the Speller. Oral spelling, alternating with exercises in writing, both on the slate and with pencil and pen on paper. Weekly exercise in spelling the names of objects and places named in the course of oral instruction.

WRITING.—Payson & Dunton's Copy Books as directed by the Principal. Particular attention given to the manner of holding the pen. Bad habits of position at the desk, and incorrect manner of holding the pen, to count as fifty per cent. of demerit in the examination in writing. Four lessons a week, and a fifth lesson in copying a corrected composition.

DRAWING.—Under the direction of the drawing teacher. For suggestions in blackboard drawing, the teacher is referred to Sheldon's Elementary Instruction, pages 433 to 441.

LANGUAGE.—Oral and written sentence-making, in connection with Willson's Speller, as required under the head of spelling. One extemporaneous composition, time half an hour each week, on some subject presented and talked about by the teacher, as in oral instruction. One studied composition weekly, and presented each Friday, to be recopied as a writing lesson the following week. For suggestions use Brookfield's Composition, Sheldon's, Calkin's, and Willson's Manuals, and Quackenbos' First Lessons.

Require pupils to use correct language in recitation.

GEOGRAPHY.—Cornell's Primary to the Map of Asia.

ARITHMETIC.—Robinson's Rudiments to page 82, omitting Sections 74, 75 and 76, rules and definitions, and making practical operations the main object. Mental examples to be performed with open book. Class drill on the blackboard fifteen minutes, twice a week, on practical operations, dictated by the teacher in the four rules. Rapid mental combinations of numbers, class-drill twice a week, of ten minutes each. Rapid counting, class-drill, by 2's, 3's, 4's, 5's, 6's, 7's, 8's, 9's, 10's, 11's and 12's, to 100. Roman numerals reviewed. Continue the reading and writing of common fractions, not to exceed 100ths, and of decimal fractions, not to exceed 1,000ths. Addition and subtraction of decimals, and their multiplication by whole numbers, limited to small numbers, and simple operations. Similar exercises with dollars and cents.

LOCAL GEOGRAPHY.—Review of the course in the Sixth Grade. Rough outline map of California, drawn on the board by the pupils, and the following additional places located: Yreka, Crescent City, Red Bluff, Marysville, Grass Valley, Nevada, Sacramento, Stockton, San José, Santa Cruz, Monterey, Los Angeles, San Diego, and exercises in distances of those places from San Francisco. Locate the following places: Virginia City, Salt Lake City, Portland, Salem, Vancouver, Sitka, four Mountain Ranges, and seven principal rivers and bays of the Pacific Coast in the United States. Pupils should be taught to spell the names of all the places taught in local geography by writing them on the slate or in their exercise books.

MORALS AND MANNERS.—Cowdery's Moral Lessons; one exercise of half an hour each Friday; for suggestions in conducting moral lessons, see Sheldon's Elementary Instruction, pages 402, 403. Teach ten new Maxims; commit to memory ten stanzas from the best poets.

ORAL INSTRUCTION.—General review of colors, form, size and place, as taught in the Sixth and Seventh Grades.

METALS AND MINERALS.—General properties, qualities and uses of the following: iron, gold, silver, lead, copper, salt, coal, granite, marble and slate, the objects to be presented to the class. For instruction and models, see Sheldon's Lessons on Objects, pages 132 to 168.

ANIMALS.—Chart No. 16. Teach the names and most prominent characteristics and habits of the animals named on the Chart, omitting difficult technical names and classification.

GOVERNMENT.—Give short oral lessons upon the Monarchical and Republican forms of Government, and teach the names of the rulers of England, France, Prussia, Austria, Russia, Italy and Brazil.

PLANTS.—Willson's Chart No. 22. Take the Medicinal plants, and those used as beverages. For directions, see Willson's Manual, pages 249 to 266.

GENERAL DIRECTIONS.—Some regular physical exercise, at least twice a day.

In schools for girls exclusively, the class should be provided with light wooden dumb-bells.

Short written examination at least once in two weeks.

Review the studies of the lower grades.

FOURTH GRADE.

Time, One Year.

READING.—Willson's Intermediate Third Reader. Vocal exercises, as in the Fifth Grade, continued. See Russell's Vocal Culture.

SPELLING.—Willson's Large Speller, to page 60. Particular and continued attention to be given to the oral and written construction of sentences, as directed in the preface; to the parts of speech, as directed after each lesson on the upper half of each page; and to the sounds of the vowels and their notation, as indicated at the head of each lesson.

The "lessons," on the upper half of each page, may be spelled orally, but the "exercises," on the lower half of each page, containing synonyms, must be written, and the phrases expanded into sentences. Abbreviations reviewed from Sargent's Speller.

WRITING.—Three lessons a week in the copy books, and one in copying corrected compositions: half an hour each lesson. Faulty habits of position at the desk and holding the pen, to count 20 per cent. demerit of the credits allowed in examination.

DRAWING.—As directed by the Drawing Teacher.

LANGUAGE.—Require usually answers to be given by using a complete sentence. Correct faulty expressions, and require the pupil to repeat the correction. Oral and written exercises in sentence-making, as found in connection with Willson's Speller. Short extemporaneous compositions, or exercises on the slate, on simple subjects, taken from the topics of oral instruction, twice a week, half an hour each time. One studied composition every Friday, on some subject selected and talked about by the teacher. Teach the pupils how to write, fold and direct a letter, and require them to write composition exercises in the form of letters, until they learn how to do it correctly, by practice. All corrected compositions to be recopied in school, as a writing exercise. For topics, refer to Willson's, Calkin's, or Sheldon's Manuals; Lessons on Objects.

GEOGRAPHY—Cornell's Primary, reviewed and completed. Exercises on the Outline Maps. Five Lessons on the Globe, to explain the location of continents and oceans, latitude, longitude, meridians, parallels, poles, equator, and the revolution of the earth.

Local.—Review the exercises of the Sixth Grade. Require the pupils to draw on the board, and on paper, large sized maps of California. Locating, in addition to places named in the Fifth and Sixth Grades, the following: Sonora, Placerville, Watsonville, Napa, Brooklyn, Copperopolis, San Bernardino, Red Bluff, Visalia, Folsom, Redwood City. Locate the mountain ranges and principal rivers of the Pacific Coast. Teach the principal mineral and vegetable productions of the Pacific Coast, and the physical characteristics and climate of the country, and draw maps of the Pacific States and Territories.

Pupils should be taught to spell all the names of places taught in local geography, by writing them on their slates or in their exercise books.

ARITHMETIC.—Robinson's Rudiments, from page 82 to 153, omitting the black-lettered sections, 132, 138, 141, 142, 145, 150, 152, 162 to 165, with all examples involving their applications. Review the first 82 pages by taking the last five examples under each paragraph or section. Analysis not required in examination. Class-drill exercises on the board and slate at least every other lesson in arithmetic, of fifteen minutes. Teach the pupils the method of reckoning simple interest in California, in the common business form. Require the pupils to write promissory notes, orders, and bills, until every member of the class can write each form correctly and creditably.

ORAL INSTRUCTION.—General review of the Color Charts, and the box of geometrical solids. See Sheldon's, Willson's, and Calkin's Manuals.

Metals and Minerals.—Review the lessons of the lower grades, and add the following: quicksilver, tin, zinc, brass, quartz, mica, sandstone, lime, asphaltum and chalk. See Sheldon's Lessons on Objects.

Animals.—Review and extend the lessons of the lower grades, and take up Chart No. 18: Fishes.

Plants.—Chart No. 22, Sections 7, 8, 9 and 10. See Willson's Manual, page 266 to 287.

General.—Teach and explain the principal trades, occupations and professions.

MORALS AND MANNERS.—Fifteen minutes every Friday. Cowdery's Moral Lessons, and selections from the School Library.

General rules of deportment in public places and at home. Habits of personal neatness. For suggestions, see Sheldon's Elementary Instruction, 384 to 418. Commit to memory ten stanzas from the best poets.

GENERAL DIRECTIONS.—Written examination in some one study of the course at least one hour every Friday, the credits to be added in the monthly report. General exercise of half an hour on Friday, in questioning pupils about the library books which they have read during the week. Declamations by the boys. Reading of compositions and recitations of poetry by the girls, at least half an hour, weekly—the class to be divided into suitable sections.

Review studies of lower grades.

THIRD GRADE.

Time, One Year.

READING.—Willson's Third Reader. Concert exercises in vocal culture, weekly, on emphasis, pitch, force and inflection. Teach the scholars how to distinguish the vowel sounds in Webster's Dictionary. See Russell's Vocal Culture.

SPELLING.—Willson's Speller, to page 90, expanding the phrases into sentences.

Classify the nouns, verbs and adjectives in the Exercises and Defining Lessons near the end of the Speller (adjectives), pages 150 to 156, Lessons 1 to 7.

Definitions, and use of capitals on page 167 of the Speller, and Rules, page 168.

WRITING.—Four lessons a week, half an hour each; Payson & Dunton's Copy Books. One exercise in writing, weekly, in copying corrected compositions.

DRAWING.—Under the direction of the drawing teacher.

LANGUAGE.—Kerl's Common School Grammar, from page 70 to 121. Town's Analysis, to page 56, section 10. Sentence-making, as directed in Willson's Speller, constructing full sentences out of the phrases in the "Exercises," from Exercise 48 to 77. Short composition exercises on slates, twice a week, from fifteen minutes to half an hour each, to be written on topics assigned

and explained by the teacher. A studied composition to be required once a week on a subject assigned and explained by the teacher.

At least two composition exercises during each term, to be in the form of letters, properly folded and directed.

All compositions, after being corrected by the teacher, to be carefully re-copied by the pupil as an exercise in writing, in school.

GEOGRAPHY.—Guyot's Intermediate, to page 33—Nature of the country.

Local Geography.—Review the exercises of the Fourth Grade. Draw on a large scale, a map of California, and the Pacific States and Territories, using Clarke's Common School Geography. Oral instruction on the climate, surface, soil and productions of the Pacific States and Territories. Teach the spelling of geographical names—the same as in Fourth Grade.

ARITHMETIC.—Robinson's Rudiments, completed, and reviewed by taking the last five examples under each section, omitting the same sections as in the Fourth Grade, and also from page 153 to 167, and Article 195. Require the pupils to learn and recite all the black-letter definitions. Rules required for fundamental and fractional operations, but not required to be memorized in the exact language of the book. Blackboard and slate drill exercises of the whole class, at least twice a week, and fifteen minutes each time, or better still, ten minutes daily, after or before the regular recitation of the book lesson. Teach the California methods of reckoning simple interest, and require each pupil to learn to write readily and correctly, a promissory note, an order, and a bill. Rapid mental combinations of small numbers, involving the four rules, at least every alternate lesson in Arithmetic. Review of counting by 3's, 4's, 7's and 9's. Most of the work of this grade to be done at school. Not more than five problems shall be assigned to be worked at home, for any one lesson, and not more than three difficult problems.

MANNERS AND MORALS.—One lesson each week, on Friday, 20 minutes. Use Cowdery's Moral Lessons, and for suggestions, see Sheldon's Elementary Instruction, pages 413 to 418. Commit to memory five short pieces of poetry from the standard poets—to be dictated by the teacher and copied by the pupils.

ORAL INSTRUCTION.—Review the Color Charts. See Willson's Manual, Sheldon's, and Calkin's.

Metals and Minerals.—Review the Exercises of the Fourth and Fifth Grades, and add the following: clay, borax, soda, potash, agate, gypsum, diamond, emerald, ruby, garnet and carnelian. For illustrations, see Sheldon's Lessons on Objects.

Animals.—Review the work of the previous grades. See Willson's Manual, pages 130 to 177.

Plants.—Review the work of the previous grades.

Color.—Review the Color Charts, Primary, Secondary and Tertiary Colors, and tints, hues and shades.

General relation of trades, occupations and professions to the industrial interests of the country.

GENERAL DIRECTIONS.—Written Examination every Friday, of at least half an hour, on some one study of the course, the papers to be credited in the monthly report. Declamation for the boys, and select reading for the girls, every Friday; the class to be divided into suitable sections for the purpose.

SECOND GRADE.

Time, One Year.

READING. — Willson's Intermediate Fourth Reader, lessons twice a week. An exercise in vocal culture, fifteen minutes, once a week. The teacher is referred to Russell's Vocal Culture for the analysis and classification of elementary sounds, and for concert exercises in stress, emphasis, force, movement and pitch. Teach the pupils how to distinguish the vowel sounds, as marked in Webster's Dictionary.

SPELLING.—Willson's Speller, from page 90 to 120, reviewing the work of the previous grade. Four lessons a week. Particular attention paid to accent, pronunciation, and the marks used to denote the different sounds of the vowels.

Definitions and Rules on pages 167 and 168. Defining Lessons (nouns) 7 to 14, pages 157 to 163, with a review of the seven previous lessons. Spelling of important geographical names on the Pacific Coast, one exercise of not less than 20 minutes, each week.

WRITING.—Four lessons a week. Payson & Dunton's Copy Books. Principles explained from the blackboard by the teacher. Incorrect manner of holding the pen and in sitting at the desk to be counted as demerits in the examination in penmanship.

DRAWING.—First half year, linear drawing; second half year, for boys, ground plans, raising elevations, specimens, etc.; for girls, pencil and crayon drawing.

LANGUAGE.—Kerl's Common School Grammar, to page 227, and the work of the Third Grade reviewed. Teach Punctuation, pages 336 to 346, and False Syntax, pages 276 to 295. Town's Analysis, to page 105. Extemporaneous composition, three-fourths of an hour to an hour, once a week; a studied composition, once a week; both to be written on subjects assigned and divided into appropriate heads or topics by the teacher. All corrected compositions to be carefully re-copied by the pupils and returned to the teacher.

GEOGRAPHY.—Guyot's Intermediate, completed. Outline map of California, of Nevada, of Oregon, and Alaska. Review of the Local Geography of the lower grades. Outlines of the Physical Geography of the United States.

Teach the principal mountain ranges, rivers and plains, and the more important vegetable and mineral products of the different States.

Teach the scholars to spell geographical names in this grade, the same as in the Fourth Grade.

ARITHMETIC.—Robinson's Practical Arithmetic, to page 217, omitting as follows: Sections 86 to 90, 92, 93, 99, 189, 190, 191, 202 to 206, and 213 to 217 inclusive. In reviewing the work of the previous grades, take the important leading definitions in black letters. One full lesson of three-fourths of an hour each week, to be devoted exclusively to class drill at the blackboard, on practical questions involving the application of the principles which have been learned. Not more than five questions to be assigned for any one lesson, to be performed out of school. Review of simple interest, as taught in the previous grades, and exercises in writing promissory notes, orders and bill continued until practically learned.

MENTAL ARITHMETIC.—Colburn's Intellectual, section 4 to section 9. In the longer and more difficult operations, the ques-

tions to be recited with open book. Class drill in rapid mental combinations, as in the preceding grades. Counting to 100, beginning with both 1 and 2, by 3's, 5's, 7's, 9's, 13's, 14's, 15's, and 16's.

HISTORY OF THE UNITED STATES.—Anderson's Introductory, through the American Revolution.

PHYSIOLOGY AND HYGIENE.—Taught under the head of oral instruction. In girls' schools, the teachers recommended to read from Miss Beecher's Physiology and Calisthenic Exercises.

MANNERS AND MORALS.—Use Cowdery's Moral Lessons. One lesson a week. For suggestions, see Sheldon's Elementary Instruction, pages 413 to 418.

ORAL INSTRUCTION.—*Metals and Minerals*.—Review the Exercises of the Third Grade, with the following added: specimens of gold-bearing quartz, lava, trap-rock, feldspar, hornblende, garnet, chalcedony, serpentine, asbestos, soapstone and emery. See Sheldon's Lessons on Objects.

Animals and Plants.—Review the work of the lower grades, continuing the use of Willson's Charts.

SOUND.—Teach how sound is produced, and its general laws as taught in Parker's First Lessons in Natural Philosophy, pages 64 to 71.

GENERAL DIRECTIONS.—Written review of one hour every Friday on some one study of the course, the result to be credited in the monthly report. Reading compositions, declamations and select pieces, weekly; the class being divided into suitable sections. Review studies of lower grades.

FIRST GRADE.

Time, One Year.

READING.—Review Willson's Intermediate Fourth Reader, and use Russell's Vocal Culture.

SPELLING.—Willson's Speller, completed and reviewed. Defining Lessons in fine print, 14 to 17, with a review of the preceding 14 lessons. Spell geographical names of the Pacific Coast, and the principal mountains, seas, rivers, bays, and commercial and manufacturing cities in the world. This exercise should be connected with topical geography.

WRITING.—Payson & Dunton's Copy Books.

DRAWING.—Lessons as arranged by the drawing teacher.

ARITHMETIC.—Robinson's Practical, completed, omitting in schools for girls, and for girls in mixed schools, paragraphs 270 to 291, 302 to 306, 325 to 351, 396 to 406, 429 to, and including, promiscuous examples. Principles and operations reviewed by slate and blackboard drill exercises. Not more than five problems to be assigned at any one lesson to be worked out of school. Pupils required to be able to write correctly, promissory notes with indorsements, and to make out bills, orders and other common business forms.

MENTAL ARITHMETIC.—Colburn's Mental, reviewed and completed.

HISTORY OF THE UNITED STATES.—Anderson's Introductory, completed and reviewed. Important events in the history of California, taught orally. The teacher is referred to Tuthill's History of California.

PHYSIOLOGY.—Cutter's Elementary, completed.

NATURAL PHILOSOPHY.—Parker's Elementary, completed.

BOOK KEEPING.—Payson & Dunton's, Single Entry.

GRAMMAR.—Kerl's Common School, completed and reviewed. Town's Analysis, completed and reviewed. Extemporaneous composition exercises, once a week; studied composition once in two weeks, on topics assigned by the teacher. Analyze the Declaration of Independence, and the Constitution of the United States, applying the rules of punctuation and the analysis of sentences.

GEOGRAPHY.—Guyot's Intermediate, reviewed, last half year. Physical Geography of California and the Pacific Coast, reviewed.

ORAL INSTRUCTION.—*Metals and Minerals*.—Brief review of the list in the Second and Third Grades, using specimens from the cabinet: ores of silver, copper, and quicksilver, and such other cabinet specimens as the teacher may choose to take. Brief review exercises in geometrical solids, form, abbreviations, and color, as taught in the lower grades. Outline of the Government of the United States. General Geography of the world by topics, taking up the principal mountain systems and river systems, plains and plateaus; the most important mineral and

vegetable products of the principal countries of the world; exports and imports of the great commercial countries; principal commercial cities and manufacturing cities of the world. Peculiar animals and products of the several zones. Pupils should be taught to spell the principal geographical names in the world, by writing them in an exercise book kept for that purpose. Give short lessons on the different forms of government, and teach the names of the principal rulers in the world.

GENERAL DIRECTIONS.—Written examination, once a week, on some study of the course, the results to be credited in the monthly reports of the pupils. Declamations and Readings at least once a month, and weekly, at the option of the teacher.

Review studies of the lower grades.

ERRATA.

Owing to the absence of the Superintendent from the city during the printing of most of this report, the following mistakes were overlooked:—

- Page 395—Audited demands for the third quarter "\$84,429 32" should read "\$84,249 32."
- Page 400, line 3—" \$76,324 55" read "\$76,316 55."
- Page 403, lines 8, 12 and 14—insert commas after the word "rooms."
- Page 405, line 22—" Davidson " read "Devisadero."
- Page 406, line 17—" commonwealth " read "Commonwealth."
- Page 415, line 14—insert a comma after "San Francisco."
- Page 418, line 26—"completely" read "carefully."
- Page 421—"Niniama R. McLane" read "Niniana R. McLane."
- Page 429, line 9—insert a comma after "understandingly."
- Page 437, line 24—"newest" read "most." On the same page the names of Committees should commence with capital letters.
- Page 438, line 9—insert "180" after the word "of."
- Page 442, line 20—omit comma after the word "pressure."
- Page 443, line 7—"are" read "is."
- Page 444, line 35—omit the words "of the past."

REPORT

OF THE

CLERK OF THE JUSTICES' COURT.

JUSTICES' COURT, CLERK'S OFFICE,
SAN FRANCISCO, September 12, 1868. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In compliance with a resolution of your Honorable Body, passed June 29th, 1868, I herewith transmit to you the following report of business done in said Court:

Whole number of suits brought from January 1st, 1868,	
to June 30th, 1868.....	1,174
Executions issued during the same period.....	155
Appeal cases to County Court.....	103
Whole amount of fees received and paid over to City and County Treasurer.....	\$8,385 60

For the expenses of said Court I respectfully refer you to the Auditor, as I have no means of knowing.

Yours very respectfully,

GEO. L. WEDEKIND,
Clerk of Justices' Court.

REPORT

OF THE

SUPERINTENDENT OF PUBLIC STREETS, HIGHWAYS AND SQUARES.

SAN FRANCISCO, August 15th, 1868.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN—In accordance with Resolution No. 8,566 of your Honorable Body, I herewith submit my Annual Report for the fiscal year ending June 30th, 1868, containing the statistics of the Street Department for that time. A comparison of the statistics for the year ending June 30th, 1864, when I entered upon the duties of the office, with those of the last year, shows, in a striking manner, the rapid growth of the city. This statement, in a tabular form, will be found at the end of this report.

The great increase in the grading and macadamizing shows the march of improvement in the newer portions of the city, and the consequent addition to the labors of the office.

The total length of the sewers at the former date was 62,686 lineal feet, whereas it now reaches 207,284 lineal feet, or (allowing for the instances where brick sewers have taken the place of redwood sewers which have been removed and have thus been counted twice), there are now more than 38 miles of sewers, of

which more than 27 miles have been constructed during the last four years.

The substitution of smooth wooden pavements for the noisy cobble stones on many of our principal streets, of circular corners for the old-fashioned square ones, and the use of pure cement mortar in the construction of sewers, have been among the most prominent improvements of the last few years.

Respectfully submitted,

GEO. COFRAN,
Superintendent of Public Streets, Highways and Squares.

G R A D I N G .

APPENDIX

TO

THE MUNICIPAL REPORTS OF 1867-8.

The foregoing pages contain Reports from the various Officers of the City and County, made in conformity to the requirements of the Consolidation Act, and the Board of Supervisors, showing the financial transactions and condition of the several Departments during the eighteenth fiscal year.

The various changes in the manner of administering the Municipal Government, which have occurred since 1846, when San Francisco was formally taken possession of, and Washington A. Bartlett appointed Alcalde, are fully shown in preceding reports.

Prior to the passage of the so-called Consolidation Act, in April, 1856, little care seems to have been taken to preserve the records and official papers, and as a consequence there is, in some instances, scarcely anything to show that certain Departments had an existence before that period. It is possible that this neglect may not have resulted in loss to the city nor to individuals, but certain it is, that it has occasioned no little annoyance in the various Departments.

Under the earlier system of our Municipal Government, there was scarcely any limitation or restriction of the powers of the Boards of Aldermen and Assistant Aldermen, and money was appropriated and expended by them in a manner which now seems extravagant; and it was doubtless a belief in the necessity of some restriction which led to the passage of the Consolidation Act, which makes all Officers responsible for the faithful performance of their duties and provides wholesome checks against extravagance and abuses of all kinds, by restricting the various Officers to the performance of well defined duties, and limiting appropriations for the various Departments to fixed sums.

The powers granted to the Board of Supervisors by the Consolidation Act are limited, and their duties circumscribed, affording scarcely an opportunity for extravagance or abuses of any kind; yet their powers so far have been adequate for nearly every purpose, and so complete has been the working of the system provided by this and amendatory Acts, that there is little reason to hope that a better can be devised.

It is claimed, and cannot well be refuted, taking into consideration the rapid growth and the consequent expense required for fire and police protection, lighting, cleaning and keeping in repair accepted streets, in the erection of buildings for public purposes, and the necessary provision made for the sick and indigent, that in the economical administration of her affairs, San Francisco will compare favorably with any city in the Union.

The average rate of taxation from 1850-1 to 1855-6, was \$3 16 on each one hundred dollars valuation of property, of which an average of 53½ cents was for State purposes; and since the consolidation of the City and County, the average has been \$2 77, of which the State tax averaged 84½ cents.

The improvements which rapidly, during the past year, changed, beautified and enhanced the value of property; the energy displayed by the various Railroad Companies, who seem to be striving to unite us with the East in the coming year; the enterprise of the Pacific Mail Steamship Company, and the promise of our manufactories, all assist in making this the entrepot of the Eastern and Western Hemispheres, and render our commercial importance secure; the wonderful agricultural resources of our State, more valuable than all our far famed gold mines, enriching and ennobling our toilers, promoting industry and frugality, concentrating our wealth for the still further development of the country, and giving us what is wanted—a permanent population. All these impress in their magnitude and progress, and enforce a belief in the certain realization of all hopes and wishes for the future greatness of our city.

The following pages present comparisons of the Revenues and Expenditures of preceding years, and various matters for future reference:

THE REVENUE.

A full statement of the receipts of the year is presented in the account of the Treasurer, included in the Auditor's Report. The succeeding tables will show from what sources revenue was derived, as well as present a comparison with the receipts of preceding years.

ASSESSMENT ROLL 1868-9.

The Assessment Roll of Real Estate was.....	\$63,576,179 00
The original Assessment Roll of Personal Property was.....	\$41,027,202 60
The supplemental Assessment Roll of Personal Property was.....	1,755,425 00
Total Personal Estate.....	<u>42,782,627 60</u>

1865-6	49,138,027	*	39,264,247	88,402,274
1866-7	53,485,421		43,214,976	96,700,397
1867-8	58,188,413		51,152,614	109,341,027
1868-9	63,576,179		42,782,628	106,358,807

* NOTE.—Assessments upon improvements are included in Real Estate, and Mortgages in Personal Property Roll; the amount of the latter in 1867-8 being about \$24,000,000. The difference in the Personal Property Roll arises from sworn statements filed by the various Savings and Loan Societies with the Assessor, in consequence of which nearly \$16,000,000 of Mortgages held by them are not included in the Roll.

The Supplemental Roll returned by the Assessor in October is included in the total footing for the year.

RATES OF TAXATION.

Fiscal Years.	For State.	For City.	For County.	Annual Rates.

In Fiscal Year 1866-7.....	1,315,294 31
In Fiscal Year 1867-8.....	1,462,231 56

The foregoing figures give the current expenses, exclusive of the purchase of Lots and the erection of Buildings for public purposes, amounting this year to \$90,555 55; Loans from Sinking Funds, Armory Rents advanced, and Loans in the matter of widening streets; also of the large sums paid in liquidation of the Bonded Debt.

In Auditor's Report, page 50, the various sources are presented comprising the Net Revenue, amounting in the aggregate to \$1,826,306 88; and on page 38 the Net Expenditure foots up \$1,788,586 07.

INDEBTEDNESS OF THE CITY AND COUNTY OF SAN FRANCISCO FOR BONDS OUTSTANDING JUNE 30, 1868.

Issued in	For City and School Purposes	Payable in	Annual Rates.	Annual Sinking Fund	In Circulation.
1851	City.....	1871	10 per cent.	\$1,189,200 00
1855	City.....	1875	6 per cent.	\$30,000	236,000 00
1858	City and County.....	1888	6 per cent.	42,500	1,078,500 00
1860	School.....	1870	10 per cent.	5,000	54,500 00
1861	School.....	1870	10 per cent.	2,500	16,000 00
1862	San Francisco and San José Railroad Company.....	1877	7 per cent.	25,500	257,500 00
1863	San Francisco and San José Railroad Company.....	1878	7 per cent.		
1863	City Slip.....	1883	7 per cent.	42,500	801,500 00
1864	City Slip.....	1884	7 per cent.		
1864	Central Pacific Railroad Co.	1894	7 per cent.	Commences. 1873.	400,000 00
1865	Western Pacific Railroad Co.	1895	7 per cent.		
1866	School.....	1881	7 per cent.	15,000	243,000 00
Total.....					\$4,554,200 00

The financial position of the City is now in an enviable condition. In the Report of the Auditor, from pages 74 to 76, is presented a detailed statement, showing that, deducting the amount of assets, the net amount of the Funded Debt at the close of the year was \$3,382,145 58.

The total amount of Bonds redeemed during the year was \$243,966 69, against an issue of \$50,000 (City and County School Bonds 1866-7), showing a net decrease of \$193,996 90 from the amount outstanding at its commencement.

THE OUTSIDE LANDS.

The long vexed question of the title to this property, and its disposition, has at last been settled. "In early times, but few believed in the existence of a Pueblo here, and for that reason the lands around the city were entered upon by settlers, in the belief that they belonged to the United States, and steps were taken by the settlers to secure to themselves the rights given by Acts of Congress to settlers on the public lands, and disputes, squatter-riots and litigations were the order of the day. It was of course not desirable that this condition of things should continue, and as it was evident that it would take years to finally determine through the Courts whether the lands belonged to the City or to the United States, it was thought best for the City to assume ownership of those within the then charter limits, and grant them to the parties in the actual possession—thus making them taxable, and causing them to contribute to the support of the government. This was done; and the Legislature and Congress having confirmed the Act of the municipal authorities, the title became perfect in the possessors, notwithstanding the controversy as to the existence of the Pueblo. The wisdom of this course cannot be questioned; for it is apparent that otherwise the now populous district so disposed of would have remained to this day the same as it was at the time the grant was made—almost a waste, contributing nothing to the treasury, and constituting an impassable barrier to the growth of the city.

"The concession made to possessors by the Van Ness Ordinance, and the Acts of the Legislature and Congress confirmatory thereof, withdrew a formidable opposition to the claim of the City to four leagues as the successor of the Pueblo; but the controversy was still pending in the Courts of the United States till late in 1866.

"On the 8th of March, 1866, for the purpose of ending the litigation and settling the title to these outside lands, Congress passed an Act relinquishing to this City all the right of the United States in the land described in the decision of Judge Field, in trust to be conveyed to the parties in possession thereof at the time of the passage of the Act—subject to the direction of the Legislature as to terms, conditions, and quantities. In consequence of the passage of that Act, and because the United States had no interest afterwards, the appeal from Judge Field's decision was dismissed. If that Act had not been passed, the appeal would have been prosecuted, and in all probability would have been still undecided.

"After the passage of this Act by Congress, and before the dismissal of the appeal by the United States, the Board deemed it important that some action should be taken preparatory to the meeting of the next Legislature. That action, of course, had to be shaped by considerations of public good—the chief public advantages to be sought being settlement of titles, and the increase of revenue by opening up for taxation *all* lands occupied and claimed by individuals. As the Act of Congress recognized the rights of possessors, it was evident that they would not abide by any action of the Board not in conformity to that Act; and as the decree of the Circuit Court would not conclude them from questioning the source of title, it was evident that the only dispo-

sition of the lands which would not result in almost interminable litigation, would be such as conformed substantially to the terms of that Act."

In order to meet those wants, Orders No. 733 and 748 were passed, under the provisions of which Supervisors R. P. Clement, Frank McCoppin and Charles H. Stanyan were elected a Special Committee, on the 15th day of October, 1866, and thereupon commenced the duties devolved upon them, presenting a report on January 21st, 1867, recommending a plan for the subdivision into blocks of all the lands described in Section 1 of Order No. 733, which was approved by Resolution No. 6,404, and said Committee in compliance with Resolution No. 6,551 (approved February 26th, 1867), entered into a contract with William P. Humphreys and Georges C. Potter to make the surveys, measurements and the map or maps of the Outside Lands required by said Order, at a cost of twelve thousand dollars.

The first petition for a confirmatory title to land was filed January 28th, 1867. The total number filed and referred by the Board has been ten hundred and fifty-four, of which some twenty were withdrawn in instances where erroneous descriptions or sale of lands were made.

Of the applications thus submitted up to this time, deeds were issued to some two hundred purporting to convey the City's title to lands held under the Van Ness Ordinance.

On December 2d, 1867, the present Board elected a Committee on Outside Lands, consisting of Supervisors Charles H. Stanyan, A. J. Shrader and R. Beverly Cole; and on* the 23d, Supervisor Stanyan introduced a general Order providing for the settlement and quieting of titles to land, which was passed for printing. The Board having at informal meetings, on invitation of the Committee, discussed and considered the Order in connection with a prior Order introduced December 2d by Supervisor Ashbury, amended its provisions, and on January 13th, 1868, Supervisor Stanyan reported back the Order from the Committee with amendments, as the result of the deliberations of the Board, which were adopted. The Order finally passed by a unanimous vote and was numbered eight hundred (800); submitted to and approved by His Honor the Mayor on the following day.

The provisions of Order No. 800 differed from that of Order No. 733, inasmuch as it provided for making the reservations selected for public purposes absolute, allowed the Board to make the several selections irrespective of the claimants in undivided tracts, and that the residue of the lots and lands should be assessed to pay the cost of the reservations; the appraisements and assessments to be made by a Committee to be chosen by the Board.

In pursuance of Section 13 and to carry out the provisions of Order No. 800, the following members were chosen: Charles H. Stanyan, Chairman; A. J. Shrader, R. Beverly Cole, Monroe Ashbury, and Charles Clayton.

Supervisors Stanyan, Shrader, Cole and Ashbury were elected on January 20th, 1868, and at the next meeting, on the 27th, the Committee was filled by the election of Supervisor Clayton.

*NOTE.—By Resolution No. 7,809, approved December 24th, twenty-five hundred (\$2,500) dollar was appropriated to pay for survey of the Pueblo Lands, by the United States Surveyor-General for California, necessary to obtain a patent for said lands from the United States.

Pending the ratification of the Order by the Legislature, a proviso was inserted by the Judiciary Committee of the Assembly, which it was thought would deprive the City of getting possession of her reservations until compensation was made, and defeat the intent and object of all efforts to settle this question.

At a meeting held March 22d, 1868, at the instance of Supervisor Ashbury, a resolution was telegraphed to the San Francisco delegation requesting them to use their influence to procure the objectionable proviso stricken out, notwithstanding which the bill passed the Legislature, but by request of His Honor Mayor McCoppin and Supervisor Ashbury, the Governor withheld his approval of the bill until a supplemental bill was passed, doing away with the effect of the aforesaid amendment, and defining the manner of collecting the assessments for cost of reservations. These Acts were both approved March 27th, 1868, and complete what was necessary to fully, fairly and finally settle the question of titles to Pueblo Lands. The Map of the Outside Lands was completed, presented, and two reports (the Committee disagreeing as to the boundaries of a Public Park) were submitted to the Board of Supervisors on May 18th, 1868.

The map remained in the Clerk's Office for public inspection from that time until June 18th inclusive, notice of the same being published in all the daily papers during said period.

At meetings held by the Committee (in pursuance of Resolution No. 8,514 of the Board) on June 18th and 19th, of which public notice was given, all persons who desired and had filed petitions or protests in relation to the reservations prior to the 19th were heard in the matter, and on June 22d, the Committee presented their final Report as to changes in the location of reservations.

Action on claims for land outside the Charter Line has been deferred until the Committee who are now appraising the reservations and the value of lands complete the assessment. So far they are steadily progressing, being busily engaged from day to day, anticipating the completion of their labors prior to December next.

In Section 11 of Order No. 800, it was provided that no claim should be delineated on the map unless all taxes were paid prior to April 1st, 1868, for the five fiscal years preceding the year beginning July 1st, 1866. Under this and a similar provision of Order No. 733, nearly \$60,000 has been paid.

For public reference, and to preserve so far as possible in a convenient form all important action in relation to these lands by the Legislature and the Board of Supervisors, the following is herewith presented:

FINAL DECREE CONFIRMING THE CLAIM OF THE CITY OF SAN FRANCISCO TO
ITS PUEBLO LANDS, ENTERED MAY 18TH, 1865.

THE CITY OF SAN FRANCISCO }
vs. }
THE UNITED STATES.

The appeal in this case taken by the petitioner, the City of San Francisco, from the decree of the Board of Land Commissioners to ascertain and settle private land claims in the State of California, entered on the twenty-first day of December, 1854, by which the claim of the petitioner was adjudged to be valid, and confirmed to lands within certain described limits, coming on to be heard upon the transcript of proceedings and decision of said Board, and the papers and evidence upon which said decision was founded, and further evidence taken in the District Court of the United States for the Northern District of California pending said appeal—the said case having been transferred to this Court by order of the said District Court, under the provisions of section four of the Act entitled “An Act to expedite the Settlement of Titles to Lands in the State of California,” approved July 1st, 1864—and counsel of the United States and for the petitioner having been heard, and due deliberation had, it is ordered, adjudged, and decreed, that the claim of the petitioner, the City of San Francisco, to the land hereinafter described, is valid, and that the same be confirmed.

The land of which confirmation is made is a tract situated in the County of San Francisco, and embracing so much of the extreme upper portion of the peninsula above ordinary high-water mark (as the same existed at the date of the conquest of the country, namely, the seventh of July, A. D. 1846) on which the City of San Francisco is situated, as will contain an area of four square leagues—said tract being bounded on the north and east by the Bay of San Francisco; on the west by the Pacific Ocean; and on the south by a due east and west line drawn so as to include the area aforesaid, subject to the following deductions, namely: Such parcels of land as have been heretofore reserved or dedicated to public uses by the United States; and also such parcels of land as have been by grants from lawful authority vested in private proprietorship, and have been finally confirmed to parties claiming under said grants by the tribunals of the United States, or shall hereafter be finally confirmed to parties claiming thereunder by said tribunals, in proceedings now pending therein for that purpose; all of which said excepted parcels of land are included within the area of four square leagues above mentioned, but are excluded from the confirmation to the city. This confirmation is in trust, for the benefit of the lot-holders under grants from the Pueblo, Town, or City of San Francisco, or other competent authority, and as to any residue, in trust for the use and benefit of the inhabitants of the City.

FIELD, Circuit Judge.

SAN FRANCISCO, May 18th, 1865.

GRANT BY CONGRESS.

CHAP. XIII.—*An Act to Quiet the Title to Certain Lands within the Corporate Limits of the City of San Francisco.*

[Approved March 8th, 1866.]

Be it enacted, by the Senate and House of Representatives of the United States, in Congress assembled, That all the right and title of the United States to the land situated within the corporate limits of the City of San Francisco, in the State of California, confirmed to the City of San Francisco by the decree of the Circuit Court of the United States for the Northern District of California, entered on the eighteenth day of May, one thousand eight hundred and sixty-five, be, and the same are hereby relinquished and granted to the said City of San Francisco, and its successors, and the claim of the said city to the said land is hereby confirmed, subject, however, to the reservations and exceptions designated in said decree, and upon the following trusts, namely: that all the said land, not heretofore granted to said City, shall be disposed of and conveyed by said City to parties in the *bona fide* actual possession thereof, by themselves or tenants, on the passage of this Act, in such quantities and upon such terms and conditions as the Legislature of the State of California may prescribe,

except such parcels thereof as may be reserved and set apart by ordinance of said City for public uses; *provided, however*, that the relinquishment and grant by this Act shall not interfere with, or prejudice any valid adverse right or claim, if such exist, to said land or any part thereof, whether derived from Spain, Mexico, or the United States, or preclude a judicial examination and adjustment thereof.

The following decision of the Supreme Court of the United States re-affirmed all former decisions confirming the Pueblo Lands to the City of San Francisco:

J. B. Townsend and J. P. Powelson, plaintiffs in error, vs. George G. Greeley. December Term, 1866.

Mr. Justice Field delivered the opinion of the Court.

This is an action of ejectment to recover the possession of a tract of land situated in the corporate limits of the City of San Francisco, in the State of California. The plaintiff in the Court below, the defendant in this Court, claims to be owner in fee of the premises, by virtue of an ordinance of the Common Council of the City, passed on the 20th of June, 1855, and an Act of the Legislature of the State, confirmatory thereof. At the time this ordinance was passed the City of San Francisco asserted title, as successor of a Mexican Pueblo, established and in existence on the acquisition of the country by the United States, to four square leagues of land, embracing the site of the present City, and had presented her claim for the same to the Board of Land Commissioners, created under the Act of March 3d, 1851, for recognition and confirmation, and the Board had confirmed the claim to a portion of the land and rejected the claim for the residue. The portion confirmed included the premises in controversy in this case.

By the second section of the ordinance the City relinquished and granted all the title and claim which she thus held within her corporate limits, as defined by the Charter of 1851, with certain exceptions, to the parties in the actual possession thereof, by themselves or tenants, on or before the first day of January, 1855, provided such possession was continued up to the time of the introduction of the ordinance into the Common Council, or if interrupted by an intruder or trespasser, had been, or might be recovered by legal process.

The party through whom the plaintiff in the Court below traces his title was in such actual possession of the premises in controversy at the times designated by the ordinance; at least the jury must have found under the instructions of the Court that he was in such actual possession, and in this Court the finding must be taken as conclusive.

We have not looked into the rulings of the Court below upon this matter, and therefore do not intimate, nor have we any reason to suppose that error intervened. We have not looked to those rulings, because if error was committed, it would not constitute ground of reversal.

The 25th section of the Judiciary Act of 1789, under which alone this Court has jurisdiction to review the final judgments and decrees of the highest Courts of a State, provides for such review only in three classes of cases:

First—Where is drawn in question the validity of a treaty or statute of, or authority exercised under, the United States, and the decision is against their validity.

Second—Where is drawn in question the validity of a statute of, or an authority exercised under, any State, on the ground of their being repugnant to the Constitution, treaties or laws of the United States, and the decision is in favor of their validity; and

Third—Where is drawn in question the construction of any clause of the Constitution, or of a treaty or statute of, or commission held under, the United States, and the decision is against the title, right, privilege, or exemption specially set up or claimed by either party under such clause of the Constitution, treaty, statute or commission. And in these cases no error can be regarded as ground of reversal except it appear on the face of the record, and relate to these questions of validity or construction.

The inquiry then is, whether error was committed in the disposition of any questions of this character arising upon the record.

The defendants in the court below alleged in their answer to the complaint—the designation applied in the practice of California to the first pleading of a civil action, whether at law or in equity—in substance as follows: That by virtue of the treaty of Guadalupe Hidalgo,

between the United States and the Republic of Mexico, the ownership and fee of the premises in controversy passed to the United States; that by force of the Act of March 3, 1851, to ascertain and settle private land claims in California, and the final decree of the Board of Commissioners created under that Act, the ownership and fee of the premises vested in the City of San Francisco; and that by various mesne conveyances and ordinances of the City, and Acts of the Legislature of the State, they passed to one Mumford, under whom one of the defendants holds as tenant, and for whom the other has acted as agent.

On the trial the defendants produced the petition of the city of San Francisco to the Board of Land Commissioners for confirmation of the claim asserted to four square leagues; the decision of the Board confirming the claim to a portion of the land; the dismissal of the appeal on the part of the United States by order of the District Court, in March, 1857; the recovery of a judgment against the City; the issue of an execution thereon; the purchase of the premises by one Wakeman; the delivery of a Sheriff's deed to him; and the transfer of his title by sundry mesne conveyances to Mumford.

Upon objection the evidence thus offered was excluded on various grounds, and among others that the title of the City to the premises was not the subject of seizure and sale under execution. This ruling denied the position assumed by the defendants in their answer respecting the operation of the treaty, the Act of Congress, and the decision of the Board in passing a fee simple title to the City; for if the City had in this way, or in any other way, become invested with a title in fee simple at the time the judgment was docketed or the execution was issued, there could be no question that the title passed by the Sheriff's sale and deed.

The treaty of Guadalupe Hidalgo does not purport to divest the Pueblo, existing at the site of the City of San Francisco, of any rights of property, or to alter the character of the interests it may have held in any lands under the former government. It provides for the protection of the rights of the inhabitants of the ceded country to their property; and there is nothing in any of its clauses inducing the inference that any distinction was to be made with reference to the property claimed by towns under the Mexican Government. The subsequent legislation of Congress does not favor any such supposition, for it has treated the claims of such towns as entitled to the same protection as the claims of individuals, and has authorized their presentation to the Board of Commissioners for confirmation.

Nor is there anything in the Act of March 3, 1851, which changes the nature of estates in land held by individuals or towns. One of the objects of that Act was to enable claimants of land, individual or municipal, by virtue of any right or title derived from Spain or Mexico, to obtain a recognition of their claims, and when these were of an imperfect character, to furnish a mode for perfecting them.

Thus the Government provided for discharging the obligation of protection cast upon it by the stipulations of the treaty, and at the same time for separating private lands from the public domain. By proceedings under that Act, imperfect rights—more equitable claims—might be converted by the decrees of the Board or Courts, and the patent of the Government following, into legal titles; but whether the legal title thus secured to the patentee was to be held by him charged with any trust, was not a matter upon which either Board or Court was called upon to pass. If the claim was held subject to any trust, before presentation to the Board, the trust was not discharged by the confirmation and the subsequent patent. The confirmation only inures to the benefit of the confirmee so far as the legal title is concerned. It establishes the legal title in him, but it does not determine the equitable relations between him and third parties. It is true if a claim were presented by one designating himself as trustee, executor, or guardian, or if such relation of the claimant to others appeared in the examination of the case before the Board or Courts, the decree might declare that the confirmation was to the claimant in such fiduciary character. But if the trust was not stated, and did not appear, the legal title was none the less subject to the same trust in the hands of the claimant.

By the laws of Mexico, in force at the date of the acquisition of the country, Pueblos were entitled for their benefit and the benefit of their inhabitants to a certain use of lands constituting the site of such pueblos and towns, and of adjoining lands, within certain prescribed limits. This right appears to have been common to the cities and towns of Spain

from an early period in her history, and was recognized in the laws and ordinances for the settlement and government of her colonies on this continent. These laws and ordinances provided for the assignment to the pueblos or towns, when once established and officially recognized, for their use and the use of their inhabitants, of four square leagues of land.

It may be difficult to state with precision the exact nature of the right or title which the pueblos held in these lands. It was not an indefeasible estate; ownership of the lands in the Pueblos could not in strictness be affirmed. It amounted in truth to little more than a restricted and qualified right to alienate portions of the land to its inhabitants for building or cultivation, and to use the remainder for commons, for pasture lands, or as a source of revenue, or for other purposes. This right of disposition and use was, in all particulars, subject to the control of the government of the country.

The royal instructions of November, 1789, for the establishment of the town of Pictic, in the Province of Sonora, were made applicable to all new towns which should be established within the district under the command of the General of that province, and this included California. They gave special directions for the establishment and government of the new pueblos; declared that there should be assigned to them four square leagues of land, and provided for the distribution of building and farming lots to settlers, the laying out of pasture lands, and lands from which a revenue was to be derived, and for the appropriation of the residue to the use of the inhabitants.

It is evident from this brief statement that these lands were not assigned to the pueblos in absolute property, but were to be held in trust for the benefit of their inhabitants.

This is the view taken by the Supreme Court of California after an extended and elaborate consideration of the subject.*

This view was also taken by the Circuit Court of the United States, in the final decree confirming the claim of the City to her municipal lands. Since the trial of the present cause in the Court below, the appeal taken by the City from the decree of the Board of Commissioners has been heard by the Circuit Court of the United States, to which the case was transferred under the Act of July 1st, 1864.† That decree declares that the confirmation "is in trust for the benefit of the lot-holders, under grants from the pueblo, town, or City of San Francisco, or other competent authority, and as to any residue, in trust for the use and benefit of the inhabitants of the city." From this decree the United States and the City of San Francisco appealed, the United States from the whole decree, and the City from so much thereof as included certain lands reserved for public purposes in the estimate of the quantity confirmed, but during the present term of this Court both parties have, by stipulation, withdrawn their objections, and their respective appeals have been dismissed. *It is therefore now the settled law that the municipal lands held by the City of San Francisco, as successor to the former pueblo existing there, are not held in absolute property, but in trust for its inhabitants.* Trust property, thus held, is not the object of seizure and sale under judgment and execution against the trustee, whether that trustee be a natural or an artificial person.

Judgment affirmed.

ACT CONFIRMING ORDINANCE NO. 800.

AN ACT to confirm a certain Order passed by the Board of Supervisors of the City and County of San Francisco.

[Approved March 27th, 1863.]

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Whereas, the Board of Supervisors of the City and County of San Francisco passed an Order numbered eight hundred, which said Order was approved by the Mayor and President of the Board of Supervisors on January fourteenth, eighteen hundred and sixty-eight, and which is as follows:

* Hart vs. Burnett, 15 Cal. 530; Fulton vs. Hanlow, 20 Id., 430.

† Statutes at Large, Vol. 13, p. 333; 3 Wallace, p. 686.

ORDER No. 800.

An Order for the settlement and quieting titles to land in the City and County of San Francisco, situate above high-water mark of the Bay of San Francisco and the Pacific Ocean, and without the corporate limits of the City of San Francisco.

The People of the City and County of San Francisco do ordain as follows :

SECTION 1. Immediately after the passage of this Order the Board of Supervisors shall proceed to devise and adopt a plan for the subdivision into blocks and lots of all the lands not reserved to the United States, situated on the Peninsula of San Francisco, and within the present corporate limits of said city and county, and above the natural ordinary high water mark of the Bay of San Francisco and the Pacific Ocean, as the same existed on the seventh day of July, eighteen hundred and forty-six, and without the corporate limits of the City of San Francisco, as defined in the Act to reincorporate the said City, passed by the Legislature of California on the fifteenth day of April, eighteen hundred and fifty-one, so far as said Board may deem such subdivision necessary ; and to select and set apart for public uses such lots and portions of said land as said Board may deem necessary, subject to the limitations and provisions hereinafter in this Order contained.

SEC. 2. After the adoption of the plan provided for in section one of this Order, the Board of Supervisors shall cause to be made a map of said lands, according to said plan. Such map shall show the streets and public highways, the blocks formed by the intersection of the streets and public highways, and the lots into which said blocks shall be subdivided ; and upon such map shall be designated the lots and portions of land set apart for public uses, and the particular use for which each lot or portion of land shall have been set apart.

SEC. 3. Upon the completion of the map provided for by section two of this Order, it shall be deposited for public inspection in the office of the Clerk of the Board of Supervisors, and there remain for a period of thirty days ; and notice shall be published in three of the daily papers during the whole time that said map shall so remain in said office.

SEC. 4. Any person having or claiming any interest in any portion of said lands, under and by virtue of any of the provisions of this Order, may at any time before the completion of said map, or while the same shall remain in the office of the Clerk of the Board of Supervisors for public inspection, present to the Committee on Outside Lands, hereinafter in this Order provided for, a description and diagram of the lands in which he shall so claim an interest, and have the same delineated on said map ; but no claim shall be delineated upon said map by said Committee unless all taxes shall have been paid thereon for five fiscal years preceding the year beginning July first, eighteen hundred and sixty-six.

SEC. 5. After the said map shall have remained in the office of the Clerk of the Board of Supervisors for the said period of thirty days, as provided in section three of this Order, the Board of Supervisors may examine the objections, if any, made thereto, and may make such alterations in the location or designation of any lots or portions of land set apart for public uses as may be necessary to obviate any objections which the said Board may deem just and proper.

SEC. 6. As soon as the alterations provided for in section five of this Order shall have been made and delineated on said map, the said map shall become and be the official map of said lands ; and the portions of land thereon designated as public streets and highways, and the tract or portion of land set apart and designated on said map as a public park, and the tract or portion of land set apart and designated thereon as a cemetery, and lots for a hospital, city hall, county jail, public schools, fire department, city library, or other public purposes, shall be deemed absolutely dedicated as such.

SEC. 7. No lot set apart for public use, other than for a park, plaza, cemetery, or public square, or for the erection thereon of a city hall, or buildings for a city library, hospital, county jail or an asylum, shall exceed in extent two fifty-vara lots ; and no tract or portion of land set apart for a plaza or public square shall exceed in extent four whole blocks, formed by the intersection of the main streets of the plan ; and the tract or portion of land set apart for a cemetery shall not be less in extent than two hundred acres ; and the tract or portion of land set apart for a public park shall not be less than one thousand acres.

SEC. 8. No person shall be entitled to receive compensation for any lot or portion of land

set apart for public use, unless his claim shall have been delineated on the map hereinbefore in this Order provided for, nor until all conflicting claims to such lot or portion of land shall have been finally determined; and no person shall be entitled to receive compensation for any portion of land included in any street or highway.

SEC. 9. All that portion of land described in section one of this Order, which lies south of a line drawn due south eighty-one degrees and thirty-five minutes east, magnetic, through Seal Rock, and west of a line easterly not less than two hundred feet from ordinary high water mark, is hereby reserved and set apart for public use as a public highway.

SEC. 10. After the Committee hereinafter provided for in section thirteen shall have made their final report upon the said map and reservations, and the report shall be ratified by the Board of Supervisors, it shall be the further duty of the said Committee to make a just appraisement of the lands reserved for public uses other than for streets and highways, and to make a just and equitable assessment of the value of the lands so reserved, rateably and equitably upon and to each piece and parcel of land delineated on said map, according to the appraised value of said lands (exclusive of the lands reserved for public streets and highways). They shall make their report in duplicate, under their hands, or the hands of a majority of them, one copy of which said report shall be filed in the office of the Clerk of the Board of Supervisors, and the other copy of said report shall be filed in the office of the City and County Recorder; *provided*, that no member of such Committee shall act in making such appraisements or assessments who shall be interested in any of the lands to be affected; and in case any member of said Committee shall be so interested, the Board of Supervisors shall appoint some other member to act in his place in making said appraisements and assessments. The said Committee shall be sworn to faithfully discharge their duties.

SEC. 11. Upon the payment to the County Treasurer of the City and County of San Francisco, of the amount assessed by the Committee provided for in section thirteen of this Order, upon the lands as provided for in section ten of this Order, the City and County of San Francisco hereby relinquishes and grants all the right, title and claim which the said city and county now has or may hereafter acquire as the successor of the pueblo of San Francisco, or as the grantee or patentee of the United States in and to the lands hereinbefore in this Order described and not excepted or reserved, or intended to be excepted or reserved, by any of the preceding sections or provisions of this Order, and which may not be set apart for public use under any of the preceding sections and provisions, and upon which shall be paid, previous to the first day of April, eighteen hundred and sixty-eight, all taxes which have been assessed thereon during the five fiscal years preceding the year beginning July first, eighteen hundred and sixty-six, unto the person or the heirs and assigns of persons who were, on the eighth day of March, eighteen hundred and sixty-six, in the actual bona fide possession thereof, by themselves, or their tenants, or having been ousted from such possession before or since said day, have recovered or may recover the same by legal process. And it is hereby declared to be the intent and object of this section to pass the right, title and claim of the said city and county in and to every tract or portion of said and delineated on said map, except the portions that are or may be reserved as aforesaid, possessed by one person, unto the possessor thereof in severalty, and every separate tract or portion thereof, except the portions that are or may be reserved as aforesaid, possessed by more than one person jointly or in common, unto the possessors thereof jointly or in common.

SEC. 12. The grants and relinquishments by this Order made shall be subject to the selections, reservations, and conditions hereinbefore in this Order made and provided for.

SEC. 13. A Committee of five members of the Board of Supervisors shall be chosen by said Board, whose duty it shall be to prepare and report to the Board the plan provided for in section two of this Order, to supervise the making of the map provided for in section three, to select, set apart, and designate the lots and portions of land hereinbefore provided to be set apart for public use, and generally to superintend the carrying out of the provisions of this Order; all the acts of said Committee to be subject to the approval of the Board of Supervisors.

SEC. 14. The Committee aforesaid shall receive a reasonable compensation for their services, to be determined by the County Judge.

SEC. 15. Whenever a survey shall be required to determine the boundaries of any claim or portion of any claim, whether ordered by the Committee or requested by the claimants, the expenses of such survey shall be borne by such claimants; and no survey shall be received by the Committee except it shall have been made by the City and County Surveyor, or a surveyor designated by the Committee; and the amount of compensation for such survey shall be fixed by the Committee at a reasonable rate, not to exceed the ordinary charges for such services.

SEC. 16. The Board of Supervisors shall provide, by order, for the distribution and payment to those entitled thereto, of the moneys assessed for the cost of reservations, and which shall have been paid to the City and County Treasurer under the provisions of section eleven of this Order.

SEC. 17. Nothing in this Order contained shall have the effect to annul or invalidate any action or proceeding heretofore had or commenced under the Orders which are by this Order repealed; and it shall not be necessary to do anew, under this Order, anything therein provided for which is also provided for in the Orders aforesaid, and which has been done under and in pursuance of the provisions of said Orders, and have been ratified by the Board of Supervisors; and all proceedings commenced under said Orders relating to maps and surveys, and not yet completed, shall be continued and completed under this Order.

SEC. 18. Order Seven Hundred and Thirty-three, and all Orders and parts of Orders and Resolutions, so far as they conflict with the provisions of this Order, are hereby repealed.

SEC. 19. This Order is subject in all its parts to ratification by the Legislature, for which application shall be made by the Board of Supervisors.

Be it therefore enacted, That the within and before recited Order be and the same is hereby ratified and confirmed, and all proceedings heretofore had and which have taken place or shall hereafter take place under its provisions, are ratified and confirmed in all respects. *Provided*, That after the Board of Supervisors shall have set apart a tract of land for a cemetery as provided in said Order, and shall have set apart a tract of land for a public park as therein provided, the said Board may, if in their judgment the same would be better for the public health or convenience, by a vote of at least ten members, and with the approval of the Mayor, exchange such lands so set apart for cemetery purposes for other lands, not less than two hundred acres in extent, to be used as a cemetery, and they may also exchange said lands so set apart for a public park for other lands for the purposes of a public park, and not of less extent than one thousand acres. But no person in actual possession of any of the lands mentioned in the first section of said Order, on the said eighth day of March, eighteen hundred and sixty-six, and on which five years taxes shall have been paid, as provided in such Order, shall be dispossessed of any of said lands, under any Order heretofore or hereafter made by said Board of Supervisors, for the reservation of any of said lands for public uses, except for streets, until compensation shall have been actually made to such person, as provided in said Order number eight hundred, and until such compensation shall have been made such person shall be allowed to continue in possession of such lands so possessed by them.

SEC. 2. This Act shall take effect from and after its passage.

ACT MODIFYING THE PROVISIONS OF THE ACT APPROVING ORDER NO. 800.

AN ACT further to provide for the ratification and confirmation of a certain Order passed by the Board of Supervisors of the City and County of San Francisco, and to modify certain provisions of the same.

[Approved March 27th, 1868.]

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Nothing in the provisions of a certain Order passed by the Board of Supervisors of the City and County of San Francisco, numbered eight hundred, and entitled "An

Order for the settlement and quieting titles to land in the City and County of San Francisco, situate above high water mark of the Bay of San Francisco and the Pacific Ocean, and without the corporate limits of the City of San Francisco," nor in the provisions of any Act confirming, or purporting to confirm the same, shall authorize the said Board to exchange any lands set apart and reserved, or to be set apart and reserved for a cemetery or a park, nor deprive the said Board of the power of taking immediate possession of any lands hereafter reserved for public use under the provisions of said Order number eight hundred, or by virtue of the terms of an Act of Congress, approved March eighth, eighteen hundred and sixty-six, entitled "An Act to quiet the title to certain lands within the corporate limits of the City of San Francisco."

SEC. 2. Whenever the report of appraisement mentioned in section ten of said Order number eight hundred shall have been made and filed, as therein provided, it shall be the duty of the City and County Recorder to make out, certify and deliver to the Tax Collector of said city and county a copy of the same, which copy shall be deemed and held to have the same force, effect and validity in regard to the sums therein assessed, as an assessment roll duly approved by the Board of Equalization in regard to State and county taxes. The said Tax Collector shall proceed to collect the said several sums of money assessed in said report in the same manner as State and county taxes are collected by him in said city and county; and all the provisions of the various Acts relating to the collection of the public revenue in said city and county not inconsistent with the provisions of said Order number eight hundred, nor the provisions of this Act, shall apply to the collection of the sums of money so assessed as aforesaid.

SEC. 3. This Act shall take effect from and after its passage.

MAJORITY REPORT OF THE COMMITTEE ON OUTSIDE LANDS UPON THE RESERVATIONS OF LAND FOR PUBLIC USES.*

[Filed May 18th, 1863.]

MR. PRESIDENT—The Committee on Outside Lands have performed the duty imposed upon them by section two of Order No. 800, and have caused to be made according to the plan heretofore adopted by this Board, and now present a map of the Outside Lands, showing the lots and portions of land set apart for public use, and showing also all the claims made by individuals up to the present time.

The duty of preparing this map, and of making the necessary selections for public use, has been much more laborious, and has taken much more time than was anticipated, either by the public or your Committee; yet a glance at the map will convince any one that the time and labor have not been expended in vain; that it cannot fail to be of great utility hereafter as a muniment of title to all the lands which shall pass to individuals by operation of Order No. 800, as well as for the protection and preservation of the City's right to the reservations.

The map in connection with the accompanying schedule exhibits fully the conclusions made by your Committee in regard to all the questions before them; but a general statement of those conclusions, and the reasons which led to them, will aid the Board in its consideration of the work of the Committee.

ENGINE LOTS.

The lots set apart for the use of the Fire Department number 32. They have been selected at convenient distances from each other, so that every house which shall be erected hereafter on the outside lands may be reached from some one of them within a minute from the time of an alarm. The lots vary in size from 25 by 80 feet to 30 by 120 feet.

SCHOOL LOTS.

The aggregate area set apart for school purposes is about 71 acres, consisting of 98 lots.

* A description of the Reservations accompanied the Report.

All the lots in the new survey extend through the middle of the blocks, and have a frontage of 150 feet each on two streets. Those in the old survey are six in number and 137½ feet square. Those on the Potrero are 150 by 200 feet, and number eleven. The lots are selected with a view to cheap improvement and easy access; and the size and form are such as to give the greatest accommodation at the least expense.

HOSPITAL LOT.

The lot for a hospital is located at the point deemed the most suitable of any within the city and county for the purpose.

Besides the advantage of being to the leeward of present and prospective populous districts, it has these positive advantages:

1. It has a western frontage and inclination, so that the principal parts of the hospital will have the full benefit of that most important of sanitary agents, sunshine.
2. It is protected from the direct force of the westerly winds, but not so much as to be deprived of sufficient and pure air.
3. The soil is firm, so as to be easily kept clean and free from dust; and fertile, so as to be capable of cultivation.
4. It is near to Islais creek, and is sufficiently elevated to have perfect drainage—a consideration of first importance.
5. It is nearest that part of the city where the principal manufactories will be located eventually, and where accidents requiring immediate surgical attention will most frequently happen.
6. It fronts on one of the finest avenues of the city—Potrero Avenue—100 feet in width; and has a commanding view of a large portion of the city—a desideratum of great importance to patients confined within the limits of a hospital.

LOTS AND BLOCKS FOR MISCELLANEOUS USES.

The map shows selections for various uses: public squares, lots for asylums of various kinds; for a city hall and library; for the use of the Academy of Sciences, etc.: and the propriety of the various selections sufficiently appears from the map, and needs no special notice in this report.

CEMETERY.

It is a fact that there is no place within the city and county really suitable for a cemetery, and none that ought to be used for the purpose. Still a public burial place is a necessity, and your Committee unanimously agreed that the tract designated was the best for the purpose, and least objectionable of any at our disposal. It is sheltered from the wind to some extent; has a beautiful view; is susceptible of cultivation, and has a firm clayey soil, which is much better in a sanitary point of view than a light or sandy soil.

PARK.

Your Committee have been able to agree unanimously upon all reservations except that for a park.

At the commencement of our labors upon this subject each member had a plan of his own; and after the fullest discussion, and the most sincere and earnest effort on the part of every one to reconcile conflicting opinions, and to do away with the various objections urged against the several plans, we have been compelled to report the map with only a majority in favor of the park as thereon designated.

Your Committee were unanimous upon the following propositions:

1. That the park should not be more than 1,000 acres in extent.
2. That it should extend to the ocean beach.
3. That it should be situated so as to include at least a part of the tract finally selected by a majority of the Committee.

And it is proper that the general reasons which made those propositions acceptable to the Committee should be stated before we enter upon the consideration of matters upon which there was not a unanimous agreement.

First—As to the extent of the Park. San Francisco is peculiarly favored in being permitted to take without cost to her, any quantity of land deemed necessary for the purpose of a

grand park—and not less favored in having a tract of so great extent and of such varied topographical formation from which to make the selection. A large portion of the outside land is suitable for park purposes. The formation is such that, with very little expenditure beyond the cost of cultivation and of road making, a great variety of scenery and landscape may be obtained in a comparatively small compass.

But the expense of cultivation and the cost of roads and paths will necessarily be great; and the cost of maintenance and police will also be great. It is not to be expected that a public park can be cultivated and maintained and policed in San Francisco at anything like so cheap a rate as in New York. The high price of labor here, which will doubtless exist for many years, and the scarcity of water and the necessity of irrigation, will make our ordinary expenses for those purposes greatly in excess of those of New York.

During the first two years of the existence of Central Park and when less than one-half of the 768 acres was improved, New York paid for expenses—other than cost of construction and improvements—more than \$500,000 per annum; and the cost of improvement and construction during the same period was over \$1,300,000 per annum—at least five times as much as we are likely to be authorized to extend for similar purposes, during any one year for 20 years.

If we are correct in these views, then 1,000 acres is as much as will ever be properly improved and cultivated. We ought not to reserve more than will some day be wrought to a high degree of beauty; and it would be better for the city, better for the park to have too few acres than too many. If any portion reserved should not be properly cultivated, if it should remain a waste, it would be an injury instead of a benefit—instead of an ornament it would be a disgrace to the city.

Again, a park of 1,000 acres is sufficient and will be sufficient for all the people that can live within a convenient distance of it. If the time shall ever come when such a park shall be too small to accommodate all of the inhabitants, that will be the time for the creation of another one near the suburbs.

Second—As to the ocean boundary or terminus. The object of a public park is such that it should unite, as far as possible, every element of natural beauty, and combine every means of recreation and enjoyment. With the eastern portion of the park cultivated and decorated in the highest style of landscape gardening and architecture, the now desert and drifting dunes transformed, as it is now demonstrated they may be, into pine forests, and the drives and riding paths connected with one of the finest beach drives in the world, every phase of attraction and usefulness of which such a place of recreation is capable, will be presented.

Third—As to the general locality of the Park. Once admitting the necessity of uniting the park and the ocean beach, the general location of the park is fixed so as to include at least a part of the valley at the eastern extremity of the main tract. This valley presents a topographic character susceptible of being wrought into the greatest variety and beauty of natural scenery at the least expense—comprising as it does fertile soil, bearing even now, without cultivation, a great variety of shrubs and flowers; water easily obtainable; picturesque hills, some of sufficient height to command a view of the ocean and the Golden Gate; charming vales, rocky points; depressions capable of being changed to sylvan lakes; winding ravines almost completely fitted by nature for roads and paths, and serving the purpose of the artificial way suggested by Mr. Olmstead in his report to this Board on the subject of a park; and level prairies which only need protection and water to be green lawns the year round. The ease with which this beautiful valley may be transformed into a delightful park is manifested in the beauty, variety and thriftiness of the indigenous flowers and shrubs with which it is clad.

Besides, there is no other tract of any considerable extent at our disposal furnishing direct and easy communication with the beach—none possessing so great a variety of topography, and at the same time protected from the winds, of good soil and easy of access, from the settled portion of the city and county. The irreconcilable disagreement in opinion occurred when we came to fix the form and define the boundaries of the park. The reasons by which were reconciled the differences in opinion at first existing among the members of the majority, may be briefly stated:

First—As to the width and eastward extension of the main Park. Having determined that

the Park should connect with the beach, and that it should not include more than about 1,000 acres, the eastern extension and the width become dependent upon each other, subject to certain conditions, some of which we deem imperative, and all worthy of consideration.

1. The width should be sufficient to afford a variety of scenery, and permit the creation of rural retreats and places of sylvan seclusion. This condition is not met if the park is less than half a mile wide. Central Park of New York is a few feet over half a mile; and a map of it shows that the width is none too great for proper arrangement and decoration.

2. The main park should not extend so far east as to complete the barrier between the eastern and western portions of the City. The Government Reserve, extending from the bay on the north to the cemeteries, is and will always remain impassable. From the Reserve to Fulton street there is a line of cemeteries. Across that line no streets, in addition to the one now open, can ever be extended. The one now open, for the reason that it passes *through* a cemetery, is unsuited and ought not to be used for general travel and business communication. Of course the park cannot be used for purposes of business and traffic. It therefore becomes absolutely necessary to leave sufficient space somewhere between the hills on the south and the cemeteries on the north for business communication between the two sections. For this reason alone we deem it wholly impracticable to extend the eastern line of the main park further east than Stanyan street. Indeed, it is a question whether it would or would not be better to make First Avenue the eastern boundary.

3. To the east of First Avenue nearly all the land is held in small lots by persons intending them for homesteads. The land is now of great value, and upon some portions of it valuable improvements have been made. This is not of itself a reason why that land should not be included in the park, if the park would in any manner be incomplete or insufficient without it; but it ought to be sufficient to solve a doubt otherwise existing in regard to the eastern terminus. All land taken must be paid for and by a comparatively small number of people, owners of not a great quantity of land. We should, therefore, always keep in view the requirements of the park in the first place—reserve as little land of present high value to pay for and preserve as much for assessment and taxation, as possible. Fixing the eastern boundary at Stanyan street, the cost of the park will be less than one-half what it would be if extended to Baker street; and the amount of property preserved for taxation will be of more value, and for the next ten years will pay more taxes, than would the whole of the outside lands if that property were included in the park.

4. It might at first appear to some that the park is too far from the populous parts of the city. There would not be much force in the objection even if the park were created for the present rather than for the future; for the eastern line is but about half a mile further west than it would be if brought down to the charter line; and it is only as far from the City Hall as is the Mission Church; and only one mile and one-eighth from the present centre of population. But the park is not created for the present, and it is reasonable to expect that by the time the eastern half of it shall be improved, that half will be the centre of population.

Second—Generally as to the form, location, and extent of the Park as reported. The main tract exhibited on the map contains 998.8 acres, and is about 3.1 miles long and exactly half a mile wide. The wide avenue or entrance is about four-fifths of a mile long, and 275 feet wide, and contains 24.36 acres. The hill to the southward of Haight street contains 66.30 acres.

The arable land included within the Park is about 350 acres. No better soil than these 350 acres can be found in the whole city and county—none better suited in any respect for Park purposes. If it should be claimed that the amount of fertile land is too small, we should answer that it is as great as the City will be able to improve, and as great as the people will require until the sands may be reclaimed.

We speak of the reclamation of the sands as a fact certain to be accomplished; and are justified in so doing by the result of efforts to the same end in France and the Eastern States, and by the gratifying success of the experiment of Mr. Rousset upon a tract adjoining the Park. The reclamation of the sands to the west of the Park and the cultivation of a pine forest so as to break the wind and prevent the further encroachment of the sands upon the fertile land, would be a necessity, even if the Park were wholly east of the dunes; and it is

proper and right that the City should bear the expense of that reclamation and improvement.

The Park, as reported, contains about 145 acres more of the sand, and but little, if any, less of fertile soil than it would contain if it extended from the ocean to the charter line with such width as to include only 1,000 acres.

The avenue leading to the main tract is of itself a park of considerable extent; and with such arrangement and cultivation as it is capable of, and bordered as it surely will be at an early day with elegant private residences and grounds—will furnish one of the most delightful places of resort for a walk, or ride, or drive, that can be found in the vicinity of any city. And this strip, owing to its form and the character of its soil, may be easily, cheaply and quickly improved. A single year from the time this Board shall have authority to expend \$50,000 upon it will be sufficient to make it a pleasant place of resort, and five years will change it into one of the most delightful retreats. This consideration, so obvious to every one, is a sufficient reason for the adoption of a plan which shall present such a tract, capable of being immediately improved so as to *appear to be finished*. No part of an open tract three or four times as wide, could be brought into a state of apparent completeness in ten years from the time work should be begun on it.

Mr. Olmstead, in his report to this Board, concludes that in the plan of any pleasure grounds for San Francisco, the following conditions should be observed: That the ornamental parts should be compact, guarded from the direct action of the northwest winds, conveniently entered, rich in detail, pleasant to the eye, and fitted to an extensive system of walks, and rides, and drives, and resting places; that the resting places should be sheltered as much as possible from the wind, and of such plan that their public use can be conveniently regulated without cumbrous, unusual or very expensive police arrangements, and be easily kept clean and free from dust; that no grounds should be selected for such object which is already of great value, yet the neighborhood should be of a character which will ultimately invite the erection of the best class of private and public edifices; that entrance to it should be practicable, and no great distance from that part of the town already built up; that it should extend in the direction in which the city is likely to advance, or should be so arranged that an agreeable extension can be readily made in that direction hereafter; that it should have such form that when the city shall be much enlarged, it may so divide it that it shall be a barrier to conflagration; that it should not present any insurmountable obstructions to the ordinary ways of passage or business transportation between different parts of the city, nor block the city railroads, nor greatly disturb buildings already erected, nor otherwise cause heavy loss or depreciation of value to the existing property of citizens.

Some of these conditions are matter of arrangement and detail rather than of location; but so far as they depend upon location or form of boundaries, they are met as nearly as it is possible to meet them, by the Park as delineated on the map.

To recapitulate: The hill known as "The Island," in the centre of the main tract, and the hills to the northwestward overlooking the ocean, with the hills on the south and east, nearly enclose the eastern half of the main Park, and so protect it, to the utmost possible extent, from the winds.

The wide avenue reaching almost as far east as we are permitted to go, and connecting by broad streets with the general street system to the eastward, furnish a convenient entrance, capable of the highest order of ornamentation and cultivation.

The great length and width of the main Park, and the width of the main entrance, together with the natural topography of the whole tract, fits the ground to an extensive and intricate system of *rural* rides, drives, walks, and resting places and play-grounds.

The fertile portion of the grounds selected are, as we have shown, the cheapest suitable for the purpose; and the neighborhood is of a character which even now invites the erection of the best class of edifices.

The entrance is through the lowest pass of the Lone Mountain range of hills, and is reached by an easy grade, commands a full and perfect view of the present city, and the bay to the east and south.

The direction of the Park is the only practicable one. It is the only direction in which a connection with the ocean beach could be made, and the tendency of population is undoubtedly in the same direction.

The form is such that while it does not interrupt communication with the business portion of the city, (as it would if the entrance were wide,) it does completely separate the northern portion of the outside lands from the southern.

It does not injuriously affect the value of property anywhere, and does not confiscate an unnecessary amount of land of present great value.

With these remarks the result of the labors of your Committee is submitted. We trust that it may receive the same full and candid consideration as the questions involved have received from every member of your Committee; and if it shall receive such consideration, we believe that it will be approved by the Board and the public.

C. H. STANYAN, Chairman,
A. J. SHRADER,
R. BEVERLY COLE.

MINORITY REPORT OF THE COMMITTEE ON OUTSIDE LANDS AS TO THE BOUNDARIES FOR A PUBLIC PARK.

[Filed May 18th, 1868.]

To the Honorable President and Board of Supervisors :

MR. PRESIDENT—The undersigned, members of the Outside Lands Committee, beg leave to make the following report, to wit :

First—We recommend the following boundaries for a Public Park : Commencing at a point on the south line of Haight street, distant 248.9-100 feet west of the west line of Devisadero street ; thence by the following courses and distances :

South 63° 50' east 200 feet ; south 7° 49' east 100 feet ; south 35° 10' east 100 feet ; south 38° 36' east 100 feet ; south 58° 33' east 100 feet ; south 54° 35' east 100 feet ; south 28° 03' east 150 feet ; south 13° 42' west 150 feet ; south 38° 06' west 100 feet ; south 34° 58' west 100 feet ; south 40° 39' west 150 feet ; south 59° 16' west 100 feet ; south 51° 59' west 300 feet ; south 23° 57' west 501.6 feet ; north 83° 00' west 100 feet ; north 76° 30' west 100 feet ; north 73° 15' west 100 feet ; north 89° 05' west 50 feet ; north 84° 10' west 100 feet ; south 75° 20' west 100 feet ; south 84° 32' west 100 feet ; north 85° 18' west 100 feet ; north 61° 28' west 100 feet ; north 63° 53' west 100 feet ; north 52° 38' west 100 feet ; north 78° 23' west 100 feet ; south 78° 05' west 18.6 feet ; north 66° east 242.6 feet ; north 82° 19' east 123 feet ; north 42° 01' east 79 feet ; north 41° 7' west 128 feet ; north 19° 25' west 119.6 feet ; north 14° 18' west 156 feet ; north 00° 7' east 71 feet ; north 03° 24' east 95 feet ; north 23° 26' east 281 feet ; north 21° 32' east 100 feet ; south 88° 14' west 346 feet ; north 22° 34' east 165 feet ; north 55° 29' east 139.6 feet ; north 39° 25' east 240 feet ; north 21° 01' east 86 feet ; north 01° 55' west 72 feet ; north 80° 45' east 1125 feet, to place of beginning, containing 66 acres.

Second—Commencing at the southwest corner of Fell and Broderick streets, distant 481 feet 3 inches west from the westerly line of Devisadero street ; thence at right angles westerly along the south line of Fell street 1,856 feet 3 inches, to the east line of Masonic avenue ; thence at right angles westerly along the east line of Masonic avenue 687 feet 6 inches, to the south line of Grove street ; thence at right angles westerly along the south line of Grove street 3,525 feet, to the east line of First avenue ; thence at right angles northerly along the east line of First avenue 130 feet, to the south line of D street ; thence at right angles westerly along the south line of D street 15,250 feet, to within 200 feet, more or less, of high water mark of the Pacific Ocean ; from thence in a southerly direction along the line of the Reservation for a Public Highway on the ocean beach to the centre of the block between G and H streets ; from thence in an easterly direction, and parallel with G and H streets, 16,550 feet ; thence at right angles northerly 950 feet, to the north line of Haight street ; thence at right angles easterly along the northerly line of Haight street 2,480 feet, to the east line of Masonic avenue ; thence at right angles northerly along the east line of Masonic avenue 687 feet 6 inches, to the north line of Oak street ; thence at right angles easterly along the north line of Oak street 1,856 feet 3 inches, to the west line of Broderick street ; thence at right angles northerly along the west line of Broderick street 275 feet, to the place of commencement—containing 977 acres ; making in all reserved for a Public Park, 1,043 acres. As to all the other

reservations we agree with the majority of the Committee, as submitted in their report. These amount to 324 acres, making in all 1,367 acres reserved for public uses, deducting one-third for public streets, we have 912 acres which will have to be paid for by a tax assessed upon all the lands delineated on the Map of Outside Lands, rateably and equitably upon and to each piece and parcel of land so delineated. The whole amount of Outside Lands, as delineated on the map, amount to about 8,400 acres; deducting the amount reserved for public streets and highways, will leave 5,600 acres, upon which the value of the reservations will have to be assessed.

In selecting ground for a Public Park, it is our duty to so contrive it that a portion of the land selected can be made enjoyable at an early day. It should be centrally situated and accessible to the present population of the city. Frederick Law Olmstead, in his report in regard to a Public Pleasure Ground for the City of San Francisco, says: "In any Pleasure Grounds for San Francisco, the ornamental part should be compact, should be guarded from the direct action of the northwest winds, should be conveniently entered, should be rich in detail, close to the eye, and should be fitted to an extensive system of walks, rides, drives and resting places; these latter should be sheltered as much as possible from the northwest winds and should be easily kept clean and free from dust." The best and only place for such a pleasure ground on the Outside Lands is a valley commencing immediately west of the Charter Line of 1851, between Grove and Haight streets, and extending in a westerly direction, about one mile, to First avenue. This valley contains about 120 acres of low, level land, with good soil and an abundance of water near the surface. It is centrally situated and accessible at all times, it is unusually protected from the northwest winds by the high hills that bound it on the north and west. Here, in the driest season, trees, shrubs and plants will grow and flourish without irrigation better than anywhere else in the Outside Lands. Here a beautiful Pleasure Ground can be made in a few years for a small outlay, which the citizens of San Francisco will regard with pride and satisfaction. By constructing three or four artesian wells, with wind-mills, an abundance of water can be had for irrigation. This valley, which is included in the boundaries recommended by the undersigned, well improved, will be all the Park that the city will require for many years. It remains for this Board to say whether this beautiful valley shall be reserved for a Public Pleasure Ground or given over to speculators in Outside Lands.

Respectfully submitted,

MONROE ASHBURY,
CHAS. CLAYTON.

FINAL REPORT OF THE COMMITTEE ON OUTSIDE LANDS AS TO CHANGES IN RESERVATIONS FOR PUBLIC USE, ETC.

[Filed June 22d, 1868.]

To the Honorable the Board of Supervisors of the City and County of San Francisco:

GENTLEMEN—Your Committee, having carefully examined all petitions and protests that have been presented to them, and also having heard many of the protestants personally, in relation to the reservations selected by them and delineated upon the Map of the Outside Lands—which said map having been exposed for public inspection for the full period of thirty days' time within the Office of the Clerk of the Board of Supervisors in and for the City and County of San Francisco, in the City Hall, in conformity to the requirements of Order No. 800 of this Board—beg leave to report as follows, to wit, in favor of granting the following petitions:

Petition of L. Eoff, to change reservation of school lot from block No. 158 to No. 95.

Petition of Adelia D. Clark, to change reservation of school lot in block No. 684.

Petition of McKoon and Pritchard, to change reservation of school lot in block No. 541.

Petition of Thomas Byrne, to change location of school lot in block No. 136, by removing the same fifty-five feet northerly to avoid disturbing house and improvements.

Petition of Eberhard W. Park, to reduce in size school lot in block No. 178, taking fifty feet from off the front on Bryant street, running back westerly one hundred feet (50 by 100 feet from the north line of lot as now delineated).

Petition of E. J. Foster, to reduce in size school lot in block No. 260 one-half, leaving it 150 feet front on west Twenty-fourth street by 120 feet in depth.

Petition of Sullivan and Lies, to strike out reservation of school lot in block No. 867.

Petition of J. Spotiswood, to change location of fire engine lot from block No. 507 to the center of block No. 507, to front on the south side of O'Farrell street, between Baker and Broderick.

Petition of Robert White, to change location of fire engine lot in block No. 184, by moving the same so as to commence 325 feet south of Twenty-fifth street, on the west line of Valencia street, running thence north 25 feet, to avoid disturbing house and improvements.

Petition of George Hudson and others, to have a street, sixty-eight (68) feet wide, declared open from Twenty-fourth street to Twenty-sixth, along the line of the old San José road.

Petition of Giles H. Gray, to have New Cemetery Avenue reduced in width to 68 feet and 9 inches, the reduction to be made from off the west line of the avenue as at present delineated on the map.

Petition of William H. Brown and others, to change the location for a Woman's Hospital from block No. 538 on Bush street (changed at request of Mr. Milo Hoadley, who was present in person at the meeting of committee on the 19th inst.) to the two middle fifty-vara lots of block No. 579, bounded on the east by Baker street, on the west by Lyon, on the north by Clay, and on the south by Sacramento, the said two fifty-vara lots in block 579 belonging to said M. Hoadley.

Petition of Thomas Boyce, to change the location of reservation for the Academy of Sciences from block No. 642, said location to be changed to a lot beginning on the east line of First Avenue 100 feet north of the north line of Point Lobos Avenue, running thence east to Mears street and along the line of Mears street and First Avenue, for quantity equal to two fifty-vara lots, same being the property of E. Franklin, he, the said Franklin, having petitioned the committee to make such change.

Petition of J. DeForest and A. N. Tilden, to change the boundaries of the Park reservation south of Haight street to conform to the following courses and distances, to wit: Commencing at the center line of Baker street at its intersection with the south line of Haight street; thence south $67^{\circ} 58'$ east 100 feet, south $86^{\circ} 31'$ east 100 feet, south $52^{\circ} 8'$ east 75 feet, south $24^{\circ} 31'$ east 125 feet, south $38^{\circ} 56'$ east 100 feet, south $46^{\circ} 43'$ east 100 feet, south $36^{\circ} 52'$ east 270 feet, south $30^{\circ} 20'$ west 300 feet, south $58^{\circ} 53'$ west 450 feet, south $24^{\circ} 39'$ west 344 feet, south $46^{\circ} 10'$ west 550 feet, north $86^{\circ} 55'$ west 115 feet, north $72^{\circ} 27'$ west 100 feet, north $49^{\circ} 30'$ west 100 feet, north $13^{\circ} 55'$ west 100 feet, north $53^{\circ} 14'$ west 170 feet, north $22^{\circ} 34'$ west 130 feet, north $11^{\circ} 8'$ west 190 feet, north $15^{\circ} 8'$ east 510 feet, north $52^{\circ} 15'$ east 378 feet, north $28^{\circ} 8'$ west 60 feet, south $76^{\circ} 43'$ west 100 feet, north $35^{\circ} 40'$ west 88 feet, north $67^{\circ} 5'$ west 100 feet, north $1^{\circ} 42'$ west 167 feet, to a point on the south line of Haight street; thence along the south line of Haight street north $80^{\circ} 45'$ east 865 feet to the place of beginning—containing 40.46 acres. Also, to open a public highway 80 feet wide around the same to intersect the south line of Haight street.

Petition of E. L. Sullivan and others, to reduce the size of the reservation around Mountain Lake from thirteen acres to conform to the following described boundaries, to wit: Beginning on the southerly line of the United States Government Reserve at the most easterly point of Mountain Lake, running thence east along said line of the Government Reserve two hundred feet, thence southerly to a point where a line drawn easterly and westerly parallel with the most southerly line of blocks, as delineated (such line to be two hundred feet south of the most southerly point of the lake) would intersect; thence westerly along the last named line to a line which, if drawn north and south, would be two hundred feet west of the most westerly point of the lake; thence northerly at right angles and along the last named line to the said line of the United States Government Reserve, and thence easterly along the Government Reserve line to the lake.

Petition of Lies and Sullivan, to close all of the streets delineated on the map lying south of Waller street, and between Stanyan street on the west and Park reservation on the east.

Petition of Rev. Bishop J. Alemany, to open Ellis and Broderick streets through his property—Juniper Park or Square—and to close the circular streets as delineated on the map.

Petition of P. H. Blake and others, to change the width of Fulton street as delineated to

68 feet and 9 inches, from the southeast corner of Masonic Cemetery to First Avenue, reduction in width to be added to the blocks along the north line of Fulton street.

Also, in favor of establishing the width of old Cemetery Avenue at 60 feet, from Geary to Bush streets, and that the land lying between the old and new Cemetery Avenues, and Bush and Sutter streets, be used as a public square, and that that lying between Sutter and Post streets, and the old and new Cemetery Avenues, be used for street purposes.

Also, to have erased from the map the reservations of school lots, respectively in blocks Nos. 577, 582, 588, 594, 606, 600, 612, 618, same being embraced within the lines of the Park reservation; and instead of those erased and changed by petitions, to locate school lots each 137½ feet square from the center of blocks No. 815 on Clay street, No. 810 on Broadway street, No. 811 on Pacific street, and No. 848 on Clay street, making the whole number of lots reserved for school purposes, ninety-one.

Also, to authorize and direct Messrs. Potter and Humphreys to indicate on the Map of Outside Lands the frontage and depth, in feet and inches, of all the reservations made for public uses where such reservations are less or more than one whole block in extent, with reference to streets and boundaries of blocks.

Also, to change the names of "West 2nd," and all intervening streets parallel thereto west to the Pacific Ocean, from "Streets" to "Avenues," retaining the same numerical order and designation as 2nd Avenue, 3d Avenue, etc., etc.

Also, to extend the west line of the Park Reservation west to the Pacific Ocean.

Adversely to the following petitions:

Petition of Sweeny and Baugh, for change of Cemetery Reservation.

Petition of Peter Donahue, for change of Park Reservation.

Petition of Treat and Morgenthau, for change of Hospital Reservation.

Petition of Mission View Homestead Association, for change of school lot in block No. 122, Potrero.

Petition of J. Friedman and Margaret Doyle, for change of school lot in block No. 530.

And your Committee recommend that the Map of Outside Lands heretofore reported to this Board be changed accordingly.

C. H. STANYAN,
R. BEVERLY COLE,
A. J. SHRADER,
MONROE ASHBURY,
CHAS. CLAYTON.

Resolution No. 8,565 (adopted June 22d, 1868), approving and adopting the final Report of Committee, reads as follows:

Resolved, That the Report of the Committee on Outside Lands, in relation to alterations of the Map of Outside Lands, be and the same is hereby adopted and approved; and that the said Committee be and is hereby authorized and instructed to cause the alteration specified in the said Report to be delineated on said map, and to make the said map in all things (except as to the alterations above referred to) conform to the Report of a majority of said Committee presented with the said map on the 18th day of May, 1868.

On June 29th, 1868, Supervisor Stanyan presented the following communication and report:

OFFICE OF THE SURVEY OF OUTSIDE LANDS, }
SAN FRANCISCO, June 29th, 1868. }

C. H. Stanyan, Esq., Chairman of the Committee on Outside Lands:

SIR—We hereby certify that the Map of the Outside Lands has, by the direction of the Committee on Outside Lands, been made in all things to conform to the instructions given to the Committee by the Board of Supervisors in Resolution No. 8,565, passed June 22d, 1868.

Very respectfully,

POTTER & HUMPHREYS,
Surveyors of the Outside Lands.

REPORT OF COMMITTEE.

To the Honorable Board of Supervisors :

MR. PRESIDENT—Your Committee on Outside Lands respectfully report they have caused the Map of the Outside Lands to be made to conform to the instructions given to the Committee by the Board in Resolution No. 8,565, passed June 22d, 1868, in reference thereto, and the said map is now the Official Map of said lands.

C. H. STANYAN,
R. BEVERLY COLE,
A. J. SHRADER,
CHAS. CLAYTON,
MONROE ASHBURY.

A difference of opinion existing as to whether the Reservations delineated upon the Map of the Outside Lands could be secured by the adoption of a resolution, or whether the same required to be by an "Ordinance," as expressed in Act of Congress, the matter was referred to the City and County Attorney, who submitted the following opinion:

OPINION OF THE CITY ATTORNEY ON THE PUEBLO RESERVATIONS.

CITY AND COUNTY ATTORNEY'S OFFICE, }
JULY 8th, 1868. }

To the Honorable the Board of Supervisors :

GENTLEMEN—There has been referred to me for my opinion, the acceptance of the Map of the Outside Lands ; and the question is asked, whether the same must be by resolution, or ordinance passed to print and signed by the Mayor, in order to secure the reservations made and delineated thereon. In regard thereto, I have to say: By Order 800 of this Board, and by an Act of the Legislature confirming the same, approved March 27th, 1868, it is provided, that the Board of Supervisors shall proceed to devise and adopt a plan for the subdivision into blocks and lots, of all that property commonly called "Outside Lands," so far as said Board shall deem such subdivision necessary, "and to select and set apart for public uses such lots and portions of said land as said Board may deem necessary, subject to the limitations and provisions hereinafter in this order contained." (Sec. 1.)

After this plan has been devised, the Board of Supervisors are to cause to be made a map of said lands according to said plan, which map is to show the streets, public highways, the blocks formed by the intersection of such streets and public highways, the lots into which such blocks shall be subdivided, and upon such map "shall be designated the lots and portions of land set apart for public uses, and the particular use for which each lot or portion of land shall so be set apart." (Sec. 2.)

Upon the completion of the map thus provided for, it is to be deposited for public inspection in the Office of the Clerk of the Board of Supervisors, there to remain for thirty days ; and notice of this during such time is to be published in three daily papers. (Sec. 3.)

For the period of thirty days, or until the completion of the map, any person interested in said lands may present his claims to the Committee on Outside Lands ; and, on complying with certain conditions, have such claim delineated on such map. (Sec. 4.)

All these steps have been taken. The plan has been devised ; the map has been caused to be made ; the same has been deposited for public inspection, and persons interested have had their claims delineated thereon.

It is next provided, that when the map shall have so remained on deposit for thirty days, "The Board of Supervisors shall examine the objections, if any have been made, and may make such alterations in the location or designation of any lots, or portions of land set apart for public uses, as may be necessary to obviate any objection which said Board shall deem just and proper." (Sec. 5.)

This provision has also been complied with. Objections were made, and these were examined by the Committee on Outside Lands. The amended delineations were embodied in a report from that Committee, and adopted by a majority of the Board, on June 22d, 1868.

That the Board of Supervisors could, by adopting the Report of the Committee on Outside Lands, make the delineations of the Committee those of the Board—the alterations of the Committee those of the Supervisors—does not admit of a doubt. For it is specially enacted that “A committee of five members of the Board of Supervisors shall be chosen by said Board, whose duty it shall be to prepare and report to the Board the plan provided in Sec. 2 of this order; to supervise the making of the map provided for in Sec. 3; to select, set apart and designate the lots and portions of land hereinbefore provided to be set apart for public use, and generally to superintend the carrying out of the provisions of this Order; all the acts of said committee to be subject to the approval of the Board of Supervisors.” (Sec. 13.)

The resolution passed by a vote of the majority of the Board on the 22d of June was to the effect, “that the report of the Committee on Outside lands be, and the same is hereby adopted and approved.”

So, too, it was perfectly competent to instruct the Committee to “cause the alterations to ~~be made~~ and to make the same conform to the majority report. (People

See Addenda for communication from Mayor, which should have preceded the City and County Attorney's opinion on the Pueblo Reservations.

reservations in the first instance by ~~the~~ uses, and adopting the map.” If this argument had been, that it would seem to be equally or more “politic” or more “wise,” instead of more “necessary,” I might subscribe to it. But addressed to the question of “power,” apart from the question of “policy” or “wisdom,” such view is erroneous.

The reason that the distribution or payment is to be made by order is, that the word “order” is expressed in Sec. 16 of the Act; and the legal inference is that the word “order” having been expressed in section sixteen, and in no other section, that the word “order” is confined to section sixteen, and can be extended to no other section; that the word “order” having been applied to the subject of payment and distribution of assessment, and no other subject; that the word “order” is limited to the subject of payment and distribution of assessment, and can be applied to no other subject embraced within the Act. *Expressio unius*

REPORT OF COMMITTEE.

To the Honorable Board of Supervisors :

MR. PRESIDENT—Your Committee on Outside Lands respectfully report they have caused the Map of the Outside Lands to be made to conform to the instructions given to the Committee by the Board in Resolution No. 8,565, passed June 22d, 1868, in reference thereto, and the said map is now the Official Map of said lands.

C. H. STANYAN,
R. BEVERLY COLE,
A. J. SHRADER,
CHAS. CLAYTON,
MONROE ASHBURY.

A difference of opinion existing as to whether the Reservations delineated upon the Map of the Outside Lands could be secured by the adoption of a resolution, or whether the same required to be by an "Ordinance" as or

... was completion of the map, any person interested in said lands may present his claims to the Committee on Outside Lands ; and, on complying with certain conditions, have such claim delineated on such map. (Sec. 4.)

All these steps have been taken. The plan has been devised ; the map has been caused to be made ; the same has been deposited for public inspection, and persons interested have had their claims delineated thereon.

It is next provided, that when the map shall have so remained on deposit for thirty days, "The Board of Supervisors shall examine the objections, if any have been made, and may make such alterations in the location or designation of any lots, or portions of land set apart for public uses, as may be necessary to obviate any objection which said Board shall deem just and proper." (Sec. 5.)

This provision has also been complied with. Objections were made, and these were examined by the Committee on Outside Lands. The amended delineations were embodied in a report from that Committee, and adopted by a majority of the Board, on June 22d, 1868.

That the Board of Supervisors could, by adopting the Report of the Committee on Outside Lands, make the delineations of the Committee those of the Board—the alterations of the Committee those of the Supervisors—does not admit of a doubt. For it is specially enacted that “A committee of five members of the Board of Supervisors shall be chosen by said Board, whose duty it shall be to prepare and report to the Board the plan provided in Sec. 2 of this order; to supervise the making of the map provided for in Sec. 3; to select, set apart and designate the lots and portions of land hereinbefore provided to be set apart for public use, and generally to superintend the carrying out of the provisions of this Order; all the acts of said committee to be subject to the approval of the Board of Supervisors.” (Sec. 13.)

The resolution passed by a vote of the majority of the Board on the 22d of June was to the effect, “that the report of the Committee on Outside lands be, and the same is hereby adopted and approved.”

So, too, it was perfectly competent to instruct the Committee to “cause the alterations to be delineated on the map,” and to make the same conform to the majority report. (People vs. McCreary; manuscript decision of Supreme Court.)

The report of that Committee has since been filed, and therein it is stated that the alterations have been made on said map, and that the same has been made to conform to the majority report.

Is there any further step to take to make this map the official map of these lands? Is there any further thing to do in order to secure these reservations? Let the text of the Legislative enactment answer:

“As soon as the alterations provided for in section five of this order shall have been made and delineated on said map, the said map shall become and be the official map of said lands; and the portions of land thereon designated as public streets and highways, and the tract or portion of land set apart and designated on said map as a Public Park, and the tract or portion of land set apart and designated thereon as a Cemetery, and lots for a Hospital, City Hall, County Jail, Public Schools, Fire Department, City Library, or other purposes, shall be deemed absolutely dedicated as such.” (Sec. 6.)

This language is too plain to be misunderstood. It is clear that everything has been performed necessary to create the map the official map of these lands, and to secure the reservations thereon delineated, unless there is some other portion of this Act, or unless there are other Acts, which overrule this section of the Statute of 1868, and set at naught the evident intent of the Legislature, thus pointedly expressed. Such other portion of the Act is said to be Sec. 16; and such other Acts are declared to be “The Consolidation Act,” and the Act of Congress approved March 8th, 1866. Of these in their order:

I. Sec. 16 enacts that “the Board of Supervisors shall provide, by order, for the distribution and payment to those entitled thereto, of the moneys assessed for the costs of reservations, and which shall have been paid to the City and County Treasurer under the provisions of section eleven of this Order;” and it is argued that, if it be necessary for the Board hereafter to provide by ordinance for the distribution of the moneys assessed for the costs of reservations, “it would seem to be equally or more necessary to establish those reservations in the first instance by an ordinance describing the land dedicated to public uses, and adopting the map.” If this argument had been, that it would seem to be equally or more “politic” or more “wise,” instead of more “necessary,” I might subscribe to it. But addressed to the question of “power,” apart from the question of “policy” or “wisdom,” such view is erroneous.

The reason that the distribution or payment is to be made by order is, that the word “order” is expressed in Sec. 16 of the Act: and the legal inference is that the word “order” having been expressed in section sixteen, and in no other section, that the word “order” is confined to section sixteen, and can be extended to no other section; that the word “order” having been applied to the subject of payment and distribution of assessment, and no other subject; that the word “order” is limited to the subject of payment and distribution of assessment, and can be applied to no other subject embraced within the Act. *Expressio unius*

est exclusio alterius is the rule of law; exactly the reverse of what is claimed by the reasoning indicated.

II. Section sixty-eight of "the Consolidation Act," among other things, provides:

"Every ordinance or resolution of the Board of Supervisors providing for any specific improvement, the granting of any privilege, or involving the lease or other appropriation of public property, or the expenditure of public moneys (except for sums less than five hundred dollars), or laying any tax or resolution imposing a new duty or penalty shall, after its introduction in the Board, be published, with the ayes and nays, in some city daily newspaper, at least five successive days before final action by the Board upon the same; and every such ordinance, after the same shall pass the Board, shall before it takes effect, be presented to the President of the Board for his approval. If he approves, he shall sign it; if not, he shall return it within ten days to the Board, with his objections in writing.

I am unable to see that this provision has any bearing upon the question. The resolution accepting the report of the Committee, and instructing the Committee to delineate on the map the alterations made and agreed upon, does not grant any "privilege," or involve the matter of a "lease," or authorize the "expenditure of public money." Nor does it lay any tax or assessment. It is true that *hereafter* there is to be made "a just and equitable assessment of the value of the lands so reserved, ratably and equitably upon, and to, each piece and parcel of land delineated on said map, according to the value of said land—exclusive of the lands reserved for public streets and highways." But when this is to be done, how to be done, upon what conditions to be done, is fully provided for by section ten. It is not to be done, or attempted, until after the Committee shall have made their final report upon the said map and reservations, and the report shall have been ratified by the Board of Supervisors. Then indeed, it becomes the further duty of the said Committee to make a just appraisal, assessment, etc. But to say that the "present" duty of accepting the report, is the "further" duty of making an assessment; to say that the thing to be done "now," as provided in section five, is the thing to be done "hereafter," as provided in section ten; to say that a resolution ratifying the report of the Committee, is a resolution to levy an assessment, when by the law itself it is provided as a condition precedent to the making of any assessment, that the report shall first be made and ratified, is to confound all distinctions of terms and obliterate all rules of construction.

It is, however, unnecessary to dwell upon this longer than to ask and answer this question. The Report has been made. The resolution accepting the Report, and instructing the Committee to delineate on the map the alterations, has been passed, and those alterations have been delineated on said map. *Has* such procedure made any assessment? *Is* there at this time any assessment of the value of the lands so reserved made upon any one piece of land delineated on said map? *Has* even the appraisal been made upon which to found the assessment? The answer to these inquiries can only be, that no such appraisal or assessment has resulted from the action of the Board in accepting the map and delineating thereon the alterations. Such appraisal and assessment remain "the *further* duty" of the Committee.

It is said, however, that this resolution "appropriates" public property. Such is not the case. That there is an appropriation of public property when these lands are dedicated to public uses may be admitted. But such "appropriation," such "dedication," is not effected by the resolution accepting the Report and causing the alterations to be delineated on the map. Such "appropriation," such "dedication," is effected solely by section six of the Order 800 and the Act of the Legislature.

It is true, that by accepting the Report of the Committee, and causing the alterations to be delineated on the map, a step is taken which leads directly to an appropriation of public property. But so was the devising and adopting a plan for the subdivision of this land, as provided in section one, a step leading directly to this result. So causing a map to be made, as provided in section two. So, on the completion of the map, the depositing it for thirty days in the office of the Clerk of the Board, and the publishing the notice in the papers, as provided in section three. So the delineating on the map the claims of persons interested, as provided in section four.

All these were steps taken for the purpose of appropriating these lands to public uses.

Had any one of them been omitted, the appropriation could not have been made, nor the reservations saved to the city.

The last step provided by section five, that of examining the objections and delineating the alterations on the map, is in itself no more an appropriation of public property than any one of these others, and is only brought into prominence because, instead of the first, it necessarily is the last. But it no more requires an order passed to print, and signed by the Mayor, to accept the map from the Committee, with the alterations to be delineated on the map, and to delineate them thereon, than it required an order passed to print, and signed by the Mayor, to hang up the map in the office of the Clerk for thirty days, to cause the map to be made, or to devise the plan for subdivision.

It must be remembered that it is not the Mayor, nor yet the Board of Supervisors, either separately or conjointly, who alone make this map the Official Map of the Outside Lands, or who dedicate to public uses any land carved out therefrom. It is the Legislature of the State of California, acting in conjunction with the Board of Supervisors, that accomplishes this work. The Legislature, by its enactment of March 27th, 1868, says to the Board, take certain steps, all of which are enumerated in the first five sections of the law. When you have taken them, then we, the People of the State of California, represented in Senate and Assembly, do enact as follows: "As soon as the alterations provided for in section five of this Order shall have been made, the said map shall become and be the Official Map of said lands, and the portions thereon designated as public streets, park, cemetery, etc., shall be deemed absolutely dedicated as such."

To your Honorable Body has been confided the right of selection, the right to determine what shall be reserved, appropriated, dedicated, but that which makes the reservation, appropriation, dedication, is not the power of the city, but the power of the State. And, unless it can be shown that an order passed to print and signed by the Mayor is necessary to give efficacy to an Act of the Legislature, no such order is necessary to make this map the Official Map of the Outside Lands, or to cause the reservations made to be absolutely dedicated as such.

All the limitations in section sixty-eight of the Act of the Legislature, known as the "Consolidation Act," are limitations on the Board of Supervisors, but not limitations on the Legislature itself.

If Order 800 were only an ordinance of the Board, the limitation in the Consolidation Act in regard to appropriations of public property might be of effect. But being not alone an ordinance of the Board, but an Act of the Legislature of the State, the same is destitute of all application.

III. The Act of Congress, approved March 8th, 1866, remains for review.

It is urged, that because the title to these lands is derived from the United States through this particular Act, that the conditions named in that Act must be observed. One of those conditions is said to be, that all reservations made by the city must be by "Ordinance."

Three answers can be made to this objection, any one of which being correct is sufficient.

I. The inquiry at once arises, what is the meaning of the word "ordinance," as used in the Act of Congress?

It has been assumed, and does not seem to have been denied, that the Senators and Representatives in Congress assembled, when they used the word ordinance in this Act, must have meant an order passed to print, and signed by the Mayor. Such assumption is entirely unwarrantable; for the question is, not what the Board of Supervisors of San Francisco, nor the Legislature of the State of California, mean by the word "ordinance," but what is meant by the use of that word by the Congress of the United States.

As is said by the Supreme Court, in *Perry vs. Washburn*, in regard to the meaning of the word taxes. "Whatever view may be taken of taxes under our statute, and whether in the provisions for their enforcement they can be treated as debts due the State, the question still recurs, what did Congress intend by the Act under consideration?" (20 Cal. 351.)

To arrive at the intention of Congress, we must seek the meaning of the word "ordinance," as defined by authoritative writers and lexicographers, and the well settled rules of construction must be invoked and applied. Now, by the best general authorities, the meaning of the word "ordinance" is declared to be "a statute, law, rule, regulation, appointment." (Vide Webster, Worcester, Johnson, Ash, Crabbe and Roget.)

By the best legal authorities ordinance is defined "a law or regulation of a municipal corporation." "In American law, an act or regulation," etc. "A law or rule." (Vide Burrill, Wharton and Bouvier.)

The rules of construction unquestionably are, even as touching the commonest contract, *a fortiori* a statute—that words are always to be interpreted to the extent of their meaning. That they are to be held generic rather than specific, and thereby made to cover things collateral rather than identical. That interpretation is ever to be in favor of the comprehensive over the restrictive, the general over the particular sense.

Applying these definitions and these rules, it appears that Congress has said, in the Act approved March 8th, 1863, no more than this: that these lands shall be given to the *bona fide* settlers, etc., "except such parcels thereof as may be secured and set apart by law, rule, regulation, or appointment of said city."

It cannot be said that this is a forced definition, or a strained construction. That it is the mere meaning of a word in language as written and not as acted on, since it is its practical and every-day meaning in various cities. For while it is true that an ordinance by many municipal corporations is enacted, as with us, by a vote of the Supervisors, or Common Council, a passage to print and a signing by the Mayor; nevertheless, not a few municipal corporations create their ordinances simply by a vote of the Supervisors, or Common Council, without any further action whatsoever. An examination of the charters of such American cities as I have been able to find shows this to be the case in the proportion of three to five. Indeed, while desiring to avoid all affectation of learning, it is proper to say that the word "ordinance" originally meant a law or rule, enacted by the legislative body alone, without the aid or assent of the Executive. It was this very feature which distinguished an ordinance from a statute. (Vide Coke Litt. 159, b 3 Reev. Hist. English law, 146; Barr on Stat., 41 note, X.) And this meaning has not been lost either in definition or usage. The fact that the word ordinance is followed by the words "of said city" does not impair the definition and construction herein adopted. The words "of said city" are not words of "restriction," but words of "description." They are not words of "condition;" they are words of "designation."

But it aids to uphold the definition and construction contended for to consider for a moment what this work of "reservation" is. It is not the city's parting with title to another, which might demand some solemn act. It is not even the city's creating title to herself, which perhaps should require an act more formal. The Act of Congress (as now decided) operates as an absolute grant of all the title of the United States in these lands, to the *bona fide* settlers, except such portions as may by the city for her own use be "reserved," i. e. "withheld," "retained." The grant has already been made; the gift already bestowed; the title already created. It awaits action upon the part of the city to render the same perfect. But that action is simply one of "assent," of "choice," of "preference," and may be evidenced on the part of the city by any method which is capable of being understood.

To narrow down, then, the word ordinance by definition and construction, instead of enlarging it, in view of the inconsiderable matter which is to be performed by it, would be to sacrifice the spirit to the letter; the substance to the shadow.

(2). This Act of Congress, which declares that the city shall have such portion of the Outside Lands "as may be reserved and set apart by ordinance of said city," is, as to making the reservations, *directory, not mandatory*. Every element of a directory statute is contained in it, and every element of a mandatory statute is absent from it. The intent of the Act is to divest the United States of all its title, and to vest the same in the *bona fide* settlers and the city. The aim and the object of the statute are, for the United States to part with a large and valuable domain. The manner in which—the form in which—the same shall be acquired by the settlers or the city, is not of the essence. This of itself would make the statute directory.

But further, there are no negative words in the statute. The language used is in the permissive and not in the commanding sense. The words are, "such parcels thereof as may be reserved and set apart by ordinance of said city." To make this a mandatory statute, the word "shall" ought at least to have been inserted. The word being "may," to escape being held directory, it must be followed by negative words, as "such parcels thereof as

may be reserved and set apart by ordinance of said city, and *not otherwise*," or "by ordinance, and in *no other manner*." The city is not commanded to reserve any of this land. There is no duty enjoined on her by the statute to reserve any part of it. She may reserve a portion of it, or she may not; and what she *may* reserve she *may* reserve in such manner and form as to her seems meet and proper. At times it is difficult to determine whether a statute is mandatory or directory, and all the authorities may then with advantage be cited. But as no such difficulty is experienced here, I content myself by referring to the leading text book on the subject—viz: Sedgwick on Constitutional and Statutory Law, 368, *et seq.*

(3.) The third and last answer to be given to the objection, that the Act of Congress enacts that the reservations shall be made by "ordinance" of the city is, that the reservations *have* been made by ordinance; and that, if Congress commands the reservations to be made by *one* ordinance it certainly does not command them to be made by *two*. The ordinance to which I refer is that of Order 800. That ordinance has been passed by your honorable body, printed and signed by the Mayor; and that ordinance, so far as any ordinance can, has reserved these lands to the city.

At the time of its introduction, the Board of Supervisors had no power to enact it, but it has since been ratified and confirmed by the Legislature, which ratification and confirmation relate back to the time of its passage, and legalize it from the very date of its inception.

In this connection, it is said that the reservations are not in Order 800 described by metes and bounds. But by this it cannot be intended to refer to the Act of Congress, as commanding that the ordinance shall contain a description of the reservations by metes and bounds.

If it be conceded that Congress commanded the Board to reserve the lands by ordinance, it surely will not be contended that Congress commanded what such ordinance should contain. Congress did not dictate the terms of the ordinance. Congress did not draw up the ordinance for your honorable body to enact. Admitting that you must proceed by ordinance, what that ordinance shall be, is left with you to determine. You have determined it, and give expression to that determination.

The objection must be independent of any Act of Congress, and this only; that Ordinance 800 is incompetent to reserve these lands for the want of sufficient description. This cannot be held to be true. There is a sufficient description. An ordinance need not be more particular in description than a deed, a will, or a contract, and it is well settled that reference to a diagram, a map, etc., in any of these instruments is sufficient. The objection is the want of certainty of description. But that is certain which can be rendered certain. And when it is enacted, that all portions of land designated on the Official Map as reservations, shall be absolutely dedicated as such, and when all the reservations are designated thereon, neither the want of sufficiency nor certainty is perceived. Besides, if this objection of want of description is good to any one reservation, whether the Park, Cemetery, or lots for Hospital, City Hall, County Jail, City Library, etc., it is good for *all the streets* intended to be laid out on said lands. These are reservations as much as any one, or all of the others. They are called such in the statute, and in the ordinance; they are classed as such in the same sections.

I am not aware that any one proposes by another ordinance to describe therein all the "streets" by metes and bounds, but only reservations like the park, cemetery, etc., and yet if metes and bounds are necessary for one reservation, they are necessary for all. The objection would fail on the ground of "inconvenience" alone.

Limiting myself, then, to the question of "power"—and that, too, as directly and immediately presented—I am of the opinion that no further ordinance is needed to make this map the Official Map of the Outside Lands, or to secure to the city the "reservations" thereon delineated. Such further ordinance would neither help nor hurt the matter as it now stands, for the same is no longer capable of being improved or impaired.

Very respectfully,

HORACE M. HASTINGS, City Attorney.

The preceding opinion was presented and read July 13th, 1868, at which meeting Resolution No. 8,622 was presented by Supervisor Stanyan and adopted by a unanimous vote, to wit:

Resolved, That whereas the Map of Outside Lands, reported to this Board by the Committee on Outside Lands, on the 18th day of May, 1863, has been duly exhibited, considered, perfected and completed, as required by, and in conformity to, the provisions of Order No. 800; and the said Committee has made its final report upon said map, showing that the same has been made in all things to conform to the instructions given to the Committee by this Board in Resolution No. 8,565, passed June 22d, 1868; therefore,

Resolved, That the said final report of said Committee be and the same is hereby approved, ratified and adopted, and that under and by virtue of the provisions of said Order No. 800, the said map has become and is the Official Map of the Outside Lands; and all the lots and parcels of land set apart for public uses, as thereon designated, have become and are absolutely dedicated to the uses for which they have been so severally set apart and designated.

Supervisor Stanyan also introduced the following Order to avoid any doubt existing as to the legality of the proceedings, which was passed to print, finally passed July 20th, and numbered 823, submitted to and approved by His Honor, the Mayor, July 24th, 1868:

Approving the acts of the Committee on Outside Lands, and ratifying their final report on the Map and Reservations.

Whereas, the Board of Supervisors did, by Order No. 800, entitled "An Order for the settlement and quieting titles to land in the City and County of San Francisco, situate above high water mark of the Bay of San Francisco and the Pacific Ocean, and without the corporate limits of the City of San Francisco," provide for the making of a map of the lands described in section one of said order, and for the reservation of portions of said lands for public uses; which said order has been duly ratified and confirmed by an Act of the Legislature of the State of California; and,

Whereas, Said map and reservations for public uses have been made in conformity to the provisions and requirements of said order; and all the conditions and regulations provided in said order for the inspection of said map have been strictly and fully observed; and all the alterations made by the Board of Supervisors in the location and designation of lots set apart for public uses, have been made and delineated on said map; and the Committee on Outside Lands has made its final report upon said map and the reservations for public uses, showing that said map has been made to conform in all things to the alterations made by the Board of Supervisors, and to the instructions given to the said Committee in Resolution No. 8,565, passed June 22, 1868; and that said map has become, and is, by virtue of the provisions of said Order No. 800 and the Act of the Legislature ratifying the same, the official map of said lands; and the lands set apart for public uses, as thereon shown and designated, have become and are, by virtue of the provisions of said order and the Act of the Legislature aforesaid, absolutely dedicated to the uses for which they have been so severally set apart and designated; and this Board has adopted a resolution conforming to said report.

Now, therefore, to avoid any possible doubt of the legality, sufficiency and binding and conclusive effect of said Resolution,

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. All the acts of the Committee on Outside Lands in reference to the map of outside lands and the reservations, setting apart and designation of lots and lands for public uses, are hereby approved, and its final report upon said map and reservations, made June 22, 1868, is hereby approved, ratified and adopted, and the said map has become, and is hereby declared to be the official map of lands described in section one of said Order No. 800.

SEC. 2. All the lots and lands shown and designated on said map as set apart for public uses, including those for streets, have become, and they are hereby declared to be, set apart and absolutely dedicated, under and by virtue of the provisions of said Order No. 800 and the Act of the Legislature ratifying the same, to the particular uses for which they have been so severally set apart and designated on said map.

SEC. 3. A written description of the land reserved and set apart for public uses (except those for streets) as shown and designated on said map, shall be made and properly au-

thenticated by the Committee on Outside Lands and the Surveyors, and filed in the office of the City and County Recorder, the said description to conform in all respects to the designation and delineation on the map.

DESCRIPTION OF RESERVATIONS.

For the following description of Reservations, the compiler is indebted to the courtesy of P. W. Van Winkle, Esq., Clerk of the Outside Land Committee:

ACADEMY OF SCIENCES.

Beginning on the east line of First avenue, 100 feet northerly from northerly line of Point Lobos avenue, thence northerly along said line of First avenue 157 feet 7 inches; thence at right angles easterly 240 feet, to westerly line of Mears street; thence southerly along said line of Mears street 157 feet 7 inches, and thence westerly to the beginning; being a portion of Block 647.

ASYLUM FOR FOUNDLINGS.

Beginning at northeasterly corner of Point Lobos and Thirtieth avenues, thence northerly along said line of Thirtieth avenue to southerly line of Clement street; thence easterly along said line of Clement street to westerly line of Twenty-ninth avenue; thence southerly along said line of Twenty-ninth avenue to northerly line of Point Lobos avenue, and thence along said line of Point Lobos avenue to the beginning; being the whole of Block 210.

CEMETERY.

Beginning at the southeasterly corner of Thirty-third avenue and Clement street, thence along southerly line of Clement street to westerly line of Forty-eighth avenue; thence at right angles to westerly line on Forty-eighth avenue to northerly line of California street; thence in northeasterly direction to southwesterly corner of Forty-seventh avenue and ——— street; thence in a northeasterly direction 600 feet north of the southwest corner of Forty-fifth avenue and ——— street; thence easterly, parallel with California street, to easterly line of Thirty-third avenue; thence southerly along said line of Thirty-third avenue, to the beginning.

CITY HALL AND LIBRARY.

Beginning at intersection of the easterly line of Treat avenue and northerly line of Twenty-sixth street, running thence northerly along said line of Treat avenue to southerly line of Twenty-fifth street; thence easterly along line of Twenty-fifth street to westerly line of Harrison street; thence southerly along line of Harrison street to northerly line of Twenty-sixth street; thence westerly along the northerly line of Twenty-sixth street, to the beginning; being the east half of Block 180.

COUNTY JAIL

Beginning on easterly line of Rhode Island street, 133 feet southerly from southerly line of Colusi street, running thence southerly along said line of Rhode Island street 300 feet; thence at right angles easterly 200 feet, to westerly line of De Haro street; thence northerly along said line of De Haro

street 300 feet, and thence westerly at right angles 200 feet, to the beginning; being portion of Block 152.

HOME FOR INEBRIATES.

Beginning on easterly line of Tenth avenue, 225 feet northerly from the northerly line of Point Lobos avenue, running thence northerly along said line of Tenth avenue 150 feet; thence easterly at right angles 240 feet, to westerly line of Ninth avenue; thence southerly along said line of Ninth avenue 150 feet, and thence westerly at right angles 240 feet, to the beginning; being portion of Block 190.

HOME FOR VETERAN SOLDIERS.

Beginning on the easterly line of Twenty-third avenue, 225 feet northerly from northerly line of Clement street, thence northerly along said line of Twenty-third avenue 150 feet; thence at right angles easterly 240 feet, to westerly line of Twenty-second avenue; thence southerly along said line of Twenty-second avenue 150 feet; thence westerly at right angles 240 feet, to the beginning; being portion of Block 160.

HOSPITAL.

Beginning at the intersection of easterly line of Potrero avenue and northerly line of Nevada street, thence northerly along said line of Potrero avenue to southerly line of Sierra street; thence easterly along Sierra street to westerly line of Nebraska street; thence southerly along Nebraska street to northerly line of Nevada street, and thence westerly along said line of Nevada street, to the beginning; being all of Blocks 79, 80, 88 and 89.

LADIES' RELIEF SOCIETY.

Beginning on easterly line of Nineteenth avenue, 225 feet northerly from northerly line of California street, thence northerly along said line of Nineteenth avenue 150 feet; thence easterly at right angles 240 feet, to west line of Eighteenth avenue; thence southerly along said line of Eighteenth avenue 150 feet, and thence westerly 240 feet, to the beginning; being portion of Block 89.

PARK.

Beginning at the northwest corner of Baker and Fell streets, running thence northerly along Baker street to southerly line of Fell street; thence westerly along Fell street to westerly line of Stanyan street; thence northerly along Stanyan street to southerly line of Fulton street; thence westerly along said line of Fulton street to its intersection with the southerly line of D street; thence westerly along D street to the Pacific Ocean; thence southerly along the shore line of said ocean to a point or projection of the northerly line of H street; thence easterly to and along said line of H street to the westerly line of Stanyan street; thence northerly along Stanyan street to the northerly line of Oak street, and thence easterly along Oak street to the point of beginning—1,013 9-100ths acres. Also, beginning at the point of intersection of the centre line of Baker street with the southerly line of Haight street, running thence the following courses and distances: South $67^{\circ} 59'$, east 100 feet, south $86^{\circ} 31'$, east 100 feet, south $52^{\circ} 8'$, east 75 feet, south $24^{\circ} 31'$, east 125 feet, south

38° 50', east 100 feet, south 46° 43', east 100 feet, south 36° 52', east 270 feet, south 30° 20', west 300 feet, south 58° 53', west 450 feet, south 24° 39', west 344 feet, south 46° 10', west 550 feet, north 86° 55', west 115 feet, north 72° 27', west 100 feet, north 49° 30', west 100 feet, north 13° 55', west 100 feet, north 53° 14', west 170 feet, north 22° 34', west 130 feet, north 11° 8', west 190 feet, north 15° 8', east 510 feet, north 52° 15', east 378 feet, north 28° 8', west 60 feet, south 76° 43', west 100 feet, north 35° 40', west 88 feet, north 67° 5', west 100 feet, north 1° 42', west 167 feet, to a point on the southerly line of Haight street; thence north 80° 45', east 865 feet, to the point of beginning—36 22-100ths acres. Total, 1,049 31-100ths acres.

PUBLIC SQUARE.

Beginning at the intersection of northerly line of W street and easterly line of Twenty-eighth Avenue; thence northerly along said line of Twenty-eighth Avenue to southerly line of V street; thence easterly along said line of V street to westerly line of Twenty-sixth Avenue; thence southerly along line of Twenty-sixth Avenue to northerly line of W street, and thence westerly along said line of W street to the beginning; being all of blocks 1,241 and 1,242.

PUBLIC SQUARE.

Beginning at the southeasterly corner of Bush street and New Cemetery Avenue, running thence easterly along Bush street 83 feet 3 inches to westerly line of Old Cemetery Avenue; thence southerly along Old Cemetery Avenue 278 feet $\frac{1}{2}$ inch to the northerly line of Sutter street; thence westerly along Sutter street 42 feet $1\frac{1}{4}$ inches to said line of New Cemetery Avenue; thence along last named line northerly 275 feet to the beginning.

PUBLIC SQUARE.

Beginning at the intersection of northerly line of T street and easterly line of Twenty-fourth Avenue; thence northerly along said line of Twenty-fourth Avenue to southerly line of S street; thence easterly said line of S street to westerly line of Twenty-second Avenue; thence southerly along said line of Twenty-second Avenue to northerly line of T street; thence westerly along said line of T street to the beginning; being all of blocks 1,124 and 1,125.

PUBLIC SQUARE—MOUNTAIN LAKE.

Beginning on southerly line of United States Government Reserve 200 feet easterly from easterly point of Mountain Lake; thence south 3° 15' east to clear point of said lake (200 feet distant) 747 feet; thence south 86° 45' east 1,942 feet; thence north 3° 15' west 285 feet; thence north 76° east 581 feet; thence south 151 feet, and thence north 67° east 1,465 feet to the beginning; containing 19.93 acres more or less.

WOMAN'S HOSPITAL.

The two middle fifty-vara lots of block No. 579, bounded on east by Baker street, on west by Lyon street, on north by Clay street, and on south by Sacramento street; said lots having a frontage of $137\frac{1}{2}$ feet on Clay and Sacramento streets.

SCHOOL RESERVATIONS.

[Middle 50-vara Lots in Blocks.]

Block 523—Fronting $137\frac{1}{2}$ feet on the southerly side of Page street, between Broderick and Baker.

Block 530—Fronting $137\frac{1}{2}$ feet on the northerly side of McAllister street, between Broderick and Baker.

Block 546—Fronting $137\frac{1}{2}$ feet on the northerly side of Pacific street, between Broderick and Baker.

Block 553—Fronting $137\frac{1}{2}$ feet on the northerly side of Lombard street, between Broderick and Baker.

Block 657—Fronting $137\frac{1}{2}$ feet on the southerly line of Haight street, between Lott street and Masonic avenue.

Block 810—Fronting $137\frac{1}{2}$ feet on the north side of Broadway street, between Walnut and Laurel streets.

Block 815—Fronting $137\frac{1}{2}$ feet on the south side of Clay street, between Walnut and Laurel streets.

Block 841—Fronting $137\frac{1}{2}$ feet on the north side of Pacific street, between Cherry and Maple streets.

Block 848—On southerly line of Clay street, beginning 220 feet westerly from southwesterly corner of Clay and Cherry streets, running thence westerly $137\frac{1}{2}$ feet and southerly $137\frac{1}{2}$ feet.

[Size of Lots, 150 by 240; all located in the centre of Blocks.]

Block 95—150 feet front on Twenty-fourth and Twenty-fifth avenues, between California and ——— streets.

Block 152—150 feet front on Thirtieth and Thirty-first avenues, between Clement and California streets.

Block 164—150 feet front on Eighteenth and Nineteenth avenues, between Clement and California streets.

Block 170—150 feet front on Twelfth and Thirteenth avenues, between Clement and California streets.

Block 176—150 feet front on Sixth and Seventh avenues, between Clement and California streets.

Block 242—150 feet front on Forty-second and Forty-third avenues, between A street and Point Lobos avenue.

Block 248—150 feet front on Thirty-sixth and Thirty-seventh avenues, between A street and Point Lobos avenue.

Block 254—150 feet front on Thirtieth and Thirty-first avenues, between A street and Point Lobos avenue.

Block 266—150 feet front on Eighteenth and Nineteenth avenues, between A street and Point Lobos avenue.

Block 272—150 feet front on Twelfth and Thirteenth avenues, between A street and Point Lobos avenue.

Block 278—150 feet front on Sixth and Seventh avenues, between A street and Point Lobos avenue.

Block 339—150 feet front on Forty-second and Forty-third avenues, between B and C streets.

Block 345—150 feet front on Thirty-sixth and Thirty-seventh avenues, between B and C streets.

Block 351—150 feet front on Thirtieth and Thirty-first avenues, between B and C streets.

Block 357—150 feet front on Twenty-fourth and Twenty-fifth avenues, between B and C streets.

Block 363—150 feet front on Eighteenth and Nineteenth avenues, between B and C streets.

Block 369—150 feet front on Twelfth and Thirteenth avenues, between C and B streets.

Block 375—150 feet front on Sixth and Seventh avenues, between B and C streets.

Block 395—150 feet front on Fifteenth and Sixteenth avenues, between C and D streets.

Block 407—150 feet front on Twenty-seventh and Twenty-eighth avenues, between C and D streets.

Block 418—150 feet front on Thirty-eighth and Thirty-ninth avenues, between C and D streets.

Block 673—150 feet front on First and Second avenues, between I and J streets.

Block 690—150 feet front on Eighteenth and Nineteenth avenues, between I and J streets.

Block 696—150 feet front on Twenty-fourth and Twenty-fifth avenues, between I and J streets.

Block 702—150 feet front on Thirtieth and Thirty-first avenues, between I and J streets.

Block 708—150 feet front on Thirty-sixth and Thirty-seventh avenues, between I and J streets.

Block 714—150 feet front on Forty-second and Forty-third avenues, between I and J streets.

Block 780—150 feet front on Twelfth and Thirteenth avenues, between K and L streets.

Block 786—150 feet front on Eighteenth and Nineteenth avenues, between K and L streets.

Block 792—150 feet front on Twenty-fourth and Twenty-fifth avenues, between K and L streets.

Block 798—150 feet front on Thirtieth and Thirty-first avenues, between K and L streets.

Block 804—150 feet front on Thirty-sixth and Thirty-seventh avenues, between K and L streets.

Block 810—150 feet front on Forty-second and Forty-third avenues, between K and L streets.

Block 878—150 feet front on Eighteenth and Nineteenth avenues, between M and N streets.

Block 884—150 feet front on Twenty-fourth and Twenty-fifth avenues, between M and N streets.

Block 890—150 feet front on Thirtieth and Thirty-first avenues, between M and N streets.

Block 896—150 feet front on Thirtieth and Thirty-first avenues, between M and N streets.

Block 902—150 feet front on Forty-second and Forty-third avenues, between M and N streets.

Block 957—150 feet front on Twelfth and Thirteenth avenues, between O and P streets.

Block 963—150 feet front on Eighteenth and Nineteenth avenues, between O and P streets.

Block 969—150 feet front on Twenty-fourth and Twenty-fifth avenues, between O and P streets.

Block 975—150 feet front on Thirtieth and Thirty-first avenues, between O and P streets.

Block 981—150 feet front on Thirty-sixth and Thirty-seventh avenues, between O and P streets.

Block 987—150 feet front on Forty-second and Forty-third avenues, between O and P streets.

Block 1,038—150 feet front on Twelfth and Thirteenth avenues, between Q and R streets.

Block 1,044—150 feet front on Eighteenth and Nineteenth avenues, between Q and R streets.

Block 1,050—150 feet front on Twenty-fourth and Twenty-fifth avenues, between Q and R streets.

Block 1,056—150 feet front on Thirtieth and Thirty-first avenues, between Q and R streets.

Block 1,062—150 feet front on Thirty-sixth and Thirty-seventh avenues, between Q and R streets.

Block 1,068—150 feet front on Forty-second and Forty-third avenues, between Q and R streets.

Block 1,114—150 feet front on Twelfth and Thirteenth avenues, between S and T streets.

Block 1,120—150 feet front on Eighteenth and Nineteenth avenues, between S and T streets.

Block 1,126—150 feet front on Twenty-fourth and Twenty-fifth avenues, between S and T streets.

Block 1,132—150 feet front on Thirtieth and Thirty-first avenues, between S and T streets.

Block 1,138—150 feet front on Thirty-sixth and Thirty-seventh avenues, between S and T streets.

Block 1,144—150 feet front on Forty-second and Forty-third avenues, between S and T streets.

Block 1,191—150 feet front on Eighteenth and Nineteenth avenues, between U and V streets.

Block 1,197—150 feet front on Twenty-fourth and Twenty-fifth avenues, between U and V streets.

Block 1,203—150 feet front on Thirtieth and Thirty-first avenues, between U and V streets.

Block 1,209—150 feet front on Thirty-sixth and Thirty-seventh avenues, between U and V streets.

Block 1,215—150 feet front on Forty-second and Forty-third avenues, between U and V streets.

Block 1,258—150 feet front on Eighteenth and Nineteenth avenues, south of W street.

Block 1,264—150 feet front on Twenty-fourth and Twenty-fifth avenues, between W and — streets.

Block 1,276—150 feet front on Thirty-sixth and Thirty-seventh avenues, between W and — streets.

[School Reservations of Irregular Size.]

Block 260—150 feet front on Twenty-fourth avenue, between A street and Point Lobos avenue, having a depth of 120 feet.

Block 678 (portion of)—Beginning at a point on the easterly line of Seventh avenue, distant 225 feet northerly from northerly line of J street; running thence northerly along said line of Seventh avenue 150 feet; thence easterly at right angles 240 feet to the westerly line of Sixth avenue; thence southerly along last named line 150 feet, and thence westerly 240 feet to the beginning.

Block 775 (portion of)—Beginning at a point on the easterly line of Eighth avenue, distant 225 feet northerly from northerly line of L street; running thence northerly along said line of Eighth avenue 150 feet; thence easterly at right angles 240 feet to westerly line of Seventh avenue; thence southerly along the last named line 150 feet, and thence westerly 240 feet to the point of beginning.

Block 872 (portion of)—Beginning on easterly line of Thirteenth avenue, distant 225 feet northerly from northerly line of N street; thence northerly along line of Thirteenth avenue 150 feet; thence easterly at right angles 240 feet to westerly line of Twelfth avenue; thence southerly along last named line 150 feet; thence westerly 240 feet to the beginning.

Block 953 (portion of)—Beginning on the southerly line of Ninth avenue, distant 225 feet northerly from northerly line of P street; running thence northerly along said Ninth avenue 150 feet; thence easterly 240 feet to the westerly line of Eighth avenue; thence southerly along Eighth avenue $14\frac{1}{2}$ feet to the westerly line of San Miguel Ranch; thence southwesterly along said line of ranch 147 feet five inches, and thence westerly 181 feet 11 inches to the point of beginning.

Block 1,186 (portion of)—Beginning on the easterly line of Fourteenth avenue, distant 225 feet southerly from southerly line of U street; running thence southerly along said line of Fourteenth avenue 150 feet; thence easterly 92 feet 6 inches, to westerly line of San Miguel Ranch; thence in northerly direction along last named line 161 feet 2 inches; and thence westerly 152 feet 10 inches, to the point of beginning.

Block 1,282 (portion of)—Beginning on the easterly line of Forty-third avenue, distant 225 feet southerly from southerly line of W street; running thence southerly along said line of Forty-third avenue 35 feet 7 inches, to the "Four-league line;" thence easterly along last named line 240 feet 5 inches, to westerly line of Forty-second avenue; thence northerly along said line of Forty-second avenue 44 feet 2 inches; and thence westerly 240 feet, to the point of beginning.

[School Reservations in Mission and Potrero Survey.]

Block 122 (portion of)—Beginning on the easterly line of Vermont street, distant $141\frac{1}{2}$ feet northerly from northerly line of Nevada street; running thence northerly along said line of Vermont street 150 feet; thence easterly 200 feet to westerly line of Kansas street; thence southerly along last named line 150 feet, and thence westerly 200 feet to the point of beginning.

Block 136 (portion of)—Beginning on the easterly line of Valencia street, distant 55 feet southerly from southerly line of Twenty-second street; running thence southerly along said line of Valencia street 150 feet; thence easterly 250 feet to Bartlett street; thence northerly along last named line 150 feet, and thence westerly 250 feet to the point of beginning.

Block 147 (portion of)—Beginning on the easterly line of Bryant street, distant 185 feet northerly from northerly line of Twenty-third street; running thence northerly along said line of Bryant street 150 feet; thence easterly 200 feet to westerly line of York street; thence southerly along the last named line 150 feet, and thence westerly 200 feet to the point of beginning.

Block 149 (portion of)—Beginning on the easterly line of Kansas street, distant 141 feet 6 inches northerly from northerly line of Colusi street; running thence northerly along line of Kansas street 150 feet; thence at right angles easterly 200 feet to westerly line of Rhode Island street; thence southerly along last named line 150 feet, and thence westerly 200 feet to the beginning.

Block 178 (portion of)—Beginning on the easterly line of Columbia street, distant 185 feet northerly from northerly line of Twenty-sixth street; running thence northerly along said line of Columbia street 150 feet; thence easterly 100 feet to westerly line of Bryant street; thence southerly along last named line 100 feet, and thence westerly 200 feet to the point of beginning.

Block 183 (portion of)—Beginning on the westerly line of Mission street, distant 185 feet southerly from southerly line of Twenty-fifth street; running thence southerly along said line of Mission street 150 feet; thence westerly $117\frac{1}{2}$ feet; thence northerly 150 feet, and thence easterly $117\frac{1}{2}$ feet to the point of beginning.

Block 226 (portion of)—Beginning on the easterly line of Arkansas street, distant $141\frac{1}{2}$ feet southerly from southerly line of Nevada street; running thence southerly along said line of Arkansas street 150 feet; thence easterly 200 feet to westerly line of Connecticut street; thence northerly along last named line 150 feet, and thence westerly 200 feet to the point of beginning.

Block 254 (portion of)—Beginning on the easterly line of Connecticut street, distant $141\frac{1}{2}$ feet northerly from northerly line of Colusa street; running thence northerly along said line of Connecticut street 150 feet; thence easterly 200 feet to westerly line of Missouri street; thence southerly along last named line 150 feet, and thence westerly 200 feet to the point of beginning.

Block 265 (portion of)—Beginning on the easterly line of Missouri street, distant $141\frac{1}{2}$ feet northerly from northerly line of Sierra street; running thence northerly along said line of Missouri street 150 feet; thence easterly 200 feet to westerly line of Texas street; thence southerly along last named line 150 feet, and thence westerly 200 feet to the point of beginning.

Block 287 (portion of)—Beginning on the easterly line of Texas street, dis-

tant $141\frac{1}{2}$ feet southerly from southerly line of Nevada street; running thence southerly along said line of Texas street 150 feet; thence easterly 200 feet to westerly line of Mississippi street; thence northerly along last named line 150 feet, and thence westerly 200 feet to the point of beginning.

Block 373 (portion of)—Beginning on the easterly line of Minnesota street, distant $141\frac{1}{2}$ feet northerly from northerly line of Sierra street; running thence northerly along said line of Minnesota street 150 feet; thence easterly 200 feet to westerly line of Tennessee street; thence southerly along last named line 150 feet, and thence westerly 200 feet to the point of beginning.

RESERVATIONS FOR FIRE ENGINE LOTS.

[Size, 25 by 80 feet.]

Block 54—Beginning on the easterly line of Folsom street, 247 6-11 feet northerly from Twenty-second street; running thence northerly along Folsom street 25 feet; thence at right angles easterly 80 feet; thence southerly 25 feet, and thence westerly 80 feet to the beginning.

Blocks 179, 180—Beginning on the easterly line of De Haro street, 420 6-11 feet northerly from Nevada street; running thence northerly along De Haro street 25 feet; thence at right angles easterly 80 feet; thence southerly 25 feet, and thence westerly 80 feet to the beginning.

Block 184—Beginning on the westerly line of Valencia street, 195 feet northerly from Twenty-sixth street; running thence northerly along Valencia street 25 feet; thence at right angles westerly 80 feet; thence southerly 25 feet, and thence easterly 80 feet to the beginning.

Blocks 217, 218—Beginning on the easterly line of Wisconsin street, 420 6-11 feet northerly from Colusa street; running thence northerly along Wisconsin street 25 feet; thence at right angles easterly 80 feet; thence southerly 25 feet, and thence westerly 80 feet to the beginning.

Blocks 391, 392—Beginning on the easterly line of Tennessee street, 420 6-11 feet northerly from Sierra street; running thence northerly along Tennessee street 25 feet; thence at right angles easterly 80 feet; thence southerly 25 feet, and thence westerly 80 feet to the beginning.

Block 507—Beginning on the southerly line of O'Farrell street, 193 9-11 feet easterly from Broderick street; running thence easterly along O'Farrell street 25 feet; thence at right angles southerly 80 feet; thence westerly 25 feet, and thence northerly 80 feet to the beginning.

Block 524—Beginning on the northerly line of Page street, 193 9-11 feet easterly from Baker street; running thence easterly along Page street 25 feet; thence at right angles northerly 80 feet; thence westerly 25 feet, and thence southerly 80 feet to the beginning.

Block 544—Beginning on the northerly line of Washington street, 193 9-11 feet easterly from Baker street; running thence easterly along Washington street 25 feet; thence at right angles northerly 80 feet; thence westerly 25 feet, and thence southerly 80 feet to the beginning.

Block 555—Beginning on the northerly line of Francisco street, 193 9-11

feet easterly from Baker street; running thence easterly along Francisco street 25 feet; thence at right angles northerly 80 feet; thence westerly 25 feet, and thence southerly 80 feet to the beginning.

[Size, 30 by 120 feet.

Block 173—Beginning on the westerly line of Ninth avenue 285 feet northerly from Clement street; running thence northerly along Ninth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 183—Beginning on the westerly line of Second avenue 285 feet northerly from Point Lobo's avenue; running thence northerly along Second avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 258—Beginning on the westerly line of Twenty-sixth avenue 285 feet northerly from A street; running thence northerly along Twenty-sixth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 373—Beginning on the westerly line of Eighth avenue 285 feet northerly from C street; running thence northerly along Eighth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 378—Beginning on the easterly line of Fourth avenue 285 feet northerly from C street; running thence northerly along Fourth avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 401—Beginning on the westerly line of Twenty-first avenue 285 feet northerly from D street; running thence northerly along Twenty-first avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 413—Beginning on the westerly line of Thirty-third avenue, 285 feet northerly from D street; running thence northerly along Thirty-third avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 424—Beginning on the westerly line of Forty-fourth avenue, 285 feet northerly from D street; running thence northerly along Forty-fourth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 674—Beginning on the easterly line of Third avenue, 285 feet northerly from J street; running thence northerly 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 681—Beginning on the easterly line of Tenth avenue 285 feet northerly from J street; running thence northerly along Tenth avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 693—Beginning on the easterly line of Twenty-second avenue 285 feet northerly from J street; running thence northerly along Twenty-second

avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 705—Beginning on the easterly line of Thirty-fourth avenue 285 feet northerly from J street; running thence northerly along Thirty-fourth avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 716—Beginning on the easterly line of Forty-fifth avenue 285 feet northerly from J street; running thence northerly along Forty-fifth avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 913—Beginning on the westerly line of Forty-fourth avenue 285 feet northerly from O street; running thence northerly along Forty-fourth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 924—Beginning on the westerly line of Thirty-third avenue 285 feet northerly from O street; running thence northerly along Thirty-third avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 936—Beginning on the westerly line of Twenty-first avenue 285 feet northerly from O street; running thence northerly along Twenty-first avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 1,115—Beginning on the westerly line of Thirteenth avenue 285 feet northerly from T street; running thence northerly along Thirteenth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 1,123—Beginning on the easterly line of Twenty-second avenue 285 feet northerly from T street; running thence northerly along Twenty-second avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 1,135—Beginning on the east line of Thirty-fourth avenue, 285 feet northerly from T street; running thence northerly along Thirty-fourth avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 1,146—Beginning on the easterly line of Forty-fifth avenue, 285 feet northerly from T street; running thence northerly along Forty-fifth avenue 30 feet; thence at right angles easterly 120 feet; thence southerly 30 feet, and thence westerly 120 feet to the beginning.

Block 1,224—Beginning on the westerly line of Forty-fourth avenue, 285 feet northerly from W street; running thence northerly along Forty-fourth avenue 30 feet; thence at right angles westerly 120 feet; thence southerly 30 feet, and thence easterly 120 feet to the beginning.

Block 1,261—Beginning on the westerly line of Twenty-first avenue 285 feet southerly from W street; running thence southerly along Twenty-first avenue 30 feet; thence at right angles westerly 120 feet; thence northerly 30 feet, and thence easterly 120 feet to the beginning.

Block 1,273—Beginning on the westerly line of Thirty-third avenue 285 feet southerly from W street; running thence southerly along Thirty-third avenue 30 feet; thence at right angles westerly 120 feet; thence northerly 30 feet, and thence easterly 120 feet to the beginning.

ORDER NO. 748.

Order No. 748, although passed by the Legislature, failed to receive the Governor's approval. This Order was framed by Supervisor McCoppin, and passed by the Board, to simply give a written evidence of title, the necessity of which is fully shown in the following extract from a Report of the Committee: “The deeds issued under Order 748 do not and cannot conclude the rights of third parties; but where there is no controversy as to title, they give, not a title (that was vested long ago), but a written evidence of title. The want of a record title has long been felt by the holders of property under the Van Ness Ordinance. The evidence necessary to prove up possession under that ordinance being all parole, it becomes more difficult to furnish it each succeeding year, and it is evident that unless some effort be made to gather up and preserve, in an authentic form, such proofs of possession as the ordinance contemplates and the Courts require, the title to all this land will in a short time rest upon tradition alone.”

ORDER NO. 748.—TO EXPEDITE THE SETTLEMENT OF LAND TITLES IN THE CITY AND COUNTY OF SAN FRANCISCO, APPROVED DECEMBER TWENTY-SECOND, EIGHTEEN HUNDRED AND SIXTY-SIX.

WHEREAS, The duly constituted authorities of the City of San Francisco, and of the City and County of San Francisco, have by ordinances and orders ceded the lands of said city and county to the parties in the possession thereof, subject to the exceptions and reservations in said ordinances and orders contained;

And whereas, it is desirable that all parties should be quieted and secured in the possession of the lands rightfully possessed by them to which the City and County of San Francisco claims title; now, therefore,

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Upon receiving a petition from any person or persons claiming that they by themselves, their tenants, or the persons through whom they claim or derive possession, have been from and including the 8th day of March, 1866, and still are in the possession of any of the lands without the corporate limits of the City of San Francisco, as defined in an Act to re-incorporate said city, passed by the Legislature of the State of California on the fifteenth day of April, eighteen hundred and fifty-one, and described in the decree of Justice Field, of the United States Circuit Court, confirming the claim of the City and County of San Francisco, entered November second, eighteen hundred and sixty-four, in the Circuit Court of the United States for the Northern District of the State of California; or upon receiving a petition from any person or persons setting forth that said petitioners by themselves, their tenants, or the persons through whom they claim or derive possession, have been from and including the first day of January, eighteen hundred and fifty-five, to and including the twentieth day of June, eighteen hundred and fifty-five, and still are in possession of the land described in said petition, embraced within the corporate limits of the City of San Francisco, and above high water mark, as defined in the Act to incorporate said city, passed by the Legislature of the State of California on the fifteenth day of April, eighteen hundred and fifty-one; and such petition in either case setting forth that such lands have not been sold, leased, dedicated, reserved, or conveyed by authority of the said City and County of San Francisco, or the United States, to any one or for any purpose, and asking for a grant from said city and county, the Board of Supervisors shall proceed to act thereon as herein after provided. This petition shall be verified by the oath or affirmation of the party in whose behalf the petition is presented, or by some one acting as his agent and conversant with the facts detailed in the petition. [Amended April 9th, 1867.]

SEC. 2. All petitions mentioned in the first section of this order shall be referred to the Committee on Outside Lands. Said Committee shall appoint a Clerk, who shall be a Notary Public, to perform the duties herein prescribed. The party presenting the said petition may appear before said Clerk, and make proof, verbal and documentary, of the truth of the matters alleged in his petition. Copies of the documentary evidence shall be filed with said Clerk, and the oral testimony shall be reduced to writing by said Clerk, and subscribed by the witness. The proofs of the petitioner being closed, the said Committee shall proceed to consider the same, and shall make such report and recommendation thereon as to them shall seem just and proper in the premises. The said Committee shall file with the Clerk of the Board of Supervisors the testimony taken as aforesaid, together with the report of the said Committee; and said report shall be submitted to the Board of Supervisors for their approval, and if in their judgment the claim of the petitioner is well founded, they shall, by an order entered in their minutes, adjudge and award a grant of such lands to the petitioner or petitioners therefor, less the amount reserved for public use. The said Board shall thereupon give public notice of their award, by a notice published at least once a week for three successive weeks, in some daily newspaper published in the City and County of San Francisco, which notice shall specify the name of the applicant, the date and filing of his petition, and the tract of land awarded, by a good and sufficient description thereof. Proof of publication of such notice shall be made in the manner now or hereafter required by law for the proof of publication in civil process. The Clerk of the said Committee shall be allowed the same compensation for taking the oath or affirmation of witnesses, and for reducing the testimony to writing, as is now allowed by law to Notaries Public for like services in taking depositions. The compensation herein allowed to the Clerk of said Committee shall be paid to said Clerk by the party presenting the petition.

SEC. 3. Upon receiving proof of the publication of the notice provided for in the second section hereof, it shall be the duty of the aforesaid Committee of the Board of Supervisors, or any three of such Committee, to execute, acknowledge, and deliver to the party or parties presenting the aforesaid petition, a deed of conveyance of the tract or lot of land as aforesaid

adjudged and awarded to the petitioner; *provided*, the petitioner or petitioners shall, before receiving a deed as aforesaid, be required to quit-claim and peaceably deliver the possession of all land claimed by said petitioner or petitioners, reserved by the Commissioners, acting under Ordinance Eight Hundred and Twenty-two (822), and all those lands which shall be reserved by the Committee of the Board on Outside Lands, for the use and benefit of the City and County of San Francisco; *provided*, however, that in case a suit shall be pending between the petitioner and some third person, involving the right of possession of the tract, or some portion thereof petitioned for, and such third person shall file with the Clerk of the Board of Supervisors a copy of the complaint filed in such action before the deed shall have been executed and delivered to the petitioner, then, and in that case, the deed shall be withheld until such suit shall be finally determined; and there shall thereafter be executed a deed of conveyance of so much of the tract of land as shall be involved in the said suit, to the party in whose favor the said suit shall be finally determined, as aforesaid; *provided*, further, that the expenses hereinafter provided for shall be paid before such conveyance shall be delivered.

SEC. 4. Upon the filing of a petition as hereinbefore provided, the petitioners shall deposit with the Clerk of the Board of Supervisors a sum of money sufficient to pay for the publication of the notice hereinbefore provided, notarial fees, and other expenses incident to the granting of the prayer of the petitioner.

SEC. 5. A conveyance, executed and delivered in pursuance of the provisions of this order, shall operate to grant, convey, remise, and release to the party, his heirs, and assigns named therein, the lands in such conveyance described, and all the estate and interest, present and future, of the said City and County of San Francisco in and to such lands.

SEC. 6. No conveyance of any such lands made as hereinbefore provided, shall be deemed to conclude the rights of third persons in the lands so conveyed. [Amended May 7th, 1867.]

ORDINANCE NO. 822.—VAN NESS ORDINANCE.

[Approved June 20th, 1855.]

SECTION 1. It shall be the duty of the Mayor to enter, at the proper Land Office of the United States, at the minimum price, all the lands above the natural high water mark of the Bay of San Francisco, at the time of the admission of California into the Union as a State, situate within the corporate limits of the City of San Francisco, as defined in the Act to incorporate said City, passed April 15th, 1851, in trust for the several use, benefit, and behoof of the occupants or possessors thereof, according to their respective interests.

SEC. 2. The City of San Francisco hereby relinquishes and grants all the right and claim of the said City to the lands within the corporate limits, to the parties in the actual possession thereof by themselves or tenants, on or before the first day of January, A.D. 1855, and to their heirs and assigns forever; excepting the property known as the Slip property, and bounded on the north by Clay street, on the west by Davis street, on the south by Sacramento street, and on the east by the water lot front. And excepting also, any piece or parcel of land situated south, east, or north of the water lot front of the City of San Francisco, as established by an Act of the Legislature of March 26th, 1851; *provided*, such possession has been continued up to the time of the introduction of this Ordinance in the Common Council; or, if interrupted by an intruder, or trespasser, has been, or may be, recovered by legal process; and it is hereby declared to be the true intent and meaning of this Ordinance, that when any of said lands have been occupied and possessed under and by virtue of a lease or demise, they shall be deemed to have been in the possession of the landlord or lessor under whom they were so occupied or possessed; *provided*, that all persons who hold title to lands within the said limits by virtue of any grant made by any Ayuntamiento, Town Council, Alcalde, or Justice of the Peace, of the former Pueblo of San Francisco, before the seventh day of July, 1846; or grants to lots of land lying east of Larkin, and northeast of Johnston street, made by any Ayuntamiento, Town Council, or Alcalde of said Pueblo, since that date, and before the incorporation of the City of San Francisco by the State of California; and which grant, or the material portion thereof, was registered or recorded in a proper book of record deposited in the office, or custody, or control, of the Recorder of the County of San Francisco, on or before the third day of April, A.D. 1850; or by virtue of any conveyance

duly made by the Commissioners of the Funded Debt of the City of San Francisco, and recorded on or before the first day of January, 1855, shall, for all the purposes contemplated by this Ordinance, be deemed to be the possessors of the land so granted, although the said lands may be in actual occupancy of persons holding the same adverse to the said grantees.

SEC. 3. The patent issued, or any grant made by the United States to the City, shall insure to the several use, benefit, and behoof of the said possessors, their heirs and assigns, mentioned in the preceding section, as fully and effectually, to all intents and purposes, as if it were issued or made directly to them, individually and by name.

SEC. 4. The City, however, as a condition annexed to the next two preceding sections, reserves to itself all the lots which it now occupies, or has already set apart for Public Squares, Streets, and sites for School Houses, City Hall, and other buildings belonging to the Corporation; and also such lots and lands as may be selected and reserved for streets and other public purposes, under the provisions of the next succeeding sections.

SEC. 5. The City shall have the right to proceed to lay out and open streets as soon as the Corporation may deem it expedient, in that part of the City west of Larkin street, and southwest of Johnston street, and reserves the right to take possession of such land as it may be necessary to occupy for that purpose, without compensation; and to assess, in the manner provided by the present, or any existing Charter of the City, upon the lands bounded on such streets, the whole expense of laying out, opening, grading, or constructing the same; and payment of the cost of said improvements shall be deemed a charge upon the lands mentioned in this section, to which the City of San Francisco relinquishes her right and title by the second and third sections of this ordinance.

SEC. 6. The City shall also have the right to select and set apart from the lands west of Larkin street, and southwest of Johnston street, as many lots, not exceeding one hundred and thirty-seven and a half feet square each, as the Mayor and Common Council may by Ordinance determine to be necessary for sites for school houses, hospitals, fire engine houses, and other public establishments necessary and proper for the use of the Corporation; and may lay out and reserve upon the said lands, at convenient and suitable points and distances, public squares, which shall not embrace more than one block, corresponding in size to the adjoining block; *provided*, that the selection shall be made within six months from the time of the passage of this Ordinance; and that the city shall not, without due compensation, occupy for the purposes mentioned in this section, after the laying out of the streets aforesaid, more than one-twentieth part of the land in the possession of any one person; and that such possessor shall voluntarily assent thereto, or refusing to do so, shall not be entitled to the benefit of any concession contained in the second and third sections of this Ordinance.

SEC. 7. The lots and lands reserved for the use of the Corporation, under the provisions of the next preceding section, shall be selected in localities likely to be most convenient and suitable for their respective uses, and in such proportion to the quantity in the possession of the respective occupants as to make the apportionment as nearly equal as circumstances will admit.

SEC. 8. The selection of said lands and lots shall be made by a Commission, to consist of three persons, who shall be chosen by the Common Council, in joint convention, who shall report the same to the Common Council for its approval; and upon such approval, deeds of release to the Corporation for the lands thus selected shall be executed, acknowledged, and recorded, in which deeds shall be specified the uses for which they are granted, reserved, and set apart respectively.

SEC. 9. Although the City hereby renounces in favor of the actual possessors, in accordance with the provisions of section two, any right or claim of its own, nothing in this Ordinance is intended to prejudice any other outstanding title to the said lands adverse to the said possessors.

SEC. 10. Application shall be made to the Legislature to confirm and ratify this Ordinance, and to Congress to relinquish all the right and title of the United States to the said lands, for the uses and purposes hereinbefore specified.

SEC. 11. Nothing contained in this Ordinance shall be construed to prevent the City from continuing to prosecute to a final determination her claim now pending before the U. S. Land

Commission, for Pueblo lands, for the several use, benefit, and behoof of the said possessors mentioned in section two, as to the lands by them so possessed, and for the proper use, benefit, and behoof of the Corporation as to all other lands not hereinbefore released and confirmed to the said possessors.

SEC. 12. That all Ordinances, or parts of Ordinances, conflicting with this Ordinance, or any part of its provisions, be and the same are hereby repealed.

ORDINANCE NO. 845.

Providing for Selecting and Designating Public Squares and Reservations for Hospitals, Fire Engines, and School Purposes, and for adopting the Plan of Streets, in the Western and Southwestern portion of the City, according to the provisions of Ordinance Number Eight Hundred and Twenty-Two, and confirmatory of said Ordinance Number Eight Hundred and Twenty-Two.

[Approved September 27th, 1855.]

The People of the City of San Francisco do ordain as follows:

SECTION 1. Under and by virtue of the provisions of the Ordinance of the Common Council, Number Eight Hundred and Twenty-Two, entitled "An Ordinance for the Settlement and quieting of Land Titles in the City of San Francisco, approved June twentieth, one thousand eight hundred and fifty-five," the Board of Aldermen and Board of Assistant Aldermen shall meet in joint convention at their next regular meeting after the passage of this Ordinance, and proceed to elect three Commissioners, who shall have the powers, and proceed to discharge the duties specified in section eight of said Ordinance Number Eight Hundred and Twenty-Two.

SEC. 2. It shall be the duty of the City Surveyor, acting in conjunction with the said Commissioners, and with their concurrence, to furnish, by way of recommendation, to the Common Council, within one month from the date of their appointment, a plan for the location and dimensions of the streets to be laid out within the city limits, west of Larkin, and southwest of Johnston streets, upon which plan shall also be designated the lots and grounds selected by the said Commissioners for the use of the city under the provision of the afore-said Ordinance Number Eight Hundred and twenty-Two; *provided*, that the compensation of said Commissioners shall not exceed the sum of one hundred dollars each, payable when the Common Council may legally make an appropriation therefor.

SEC. 3. The said Ordinance Number Eight Hundred and Twenty-Two, referred to in the preceding section one, is hereby re-ordained, ratified, and confirmed in all its parts.

In pursuance of the preceding ordinances the Common Council on the 12th of November, 1855, in Joint Convention, elected three Commissioners to make the reservations, to wit: Horace Hawes, Charles H. Gough, Michael Hayes.

The Committee thus appointed were required to report their action within six months from its passage; but the time for making such report was subsequently extended, by ordinance, until April 20th, 1856.

Under date of April 19th, 1856, this report was made, signed by Michael Hayes and C. H. Gough, and certified to by John T. Hoff, City Surveyor, as follows:*

To the Honorable Common Council of the City of San Francisco:

GENTLEMEN—The undersigned Commissioners, appointed to select, under the provisions of Ordinance No. 822, Lots and Squares for School, Fire, Hospital, and other public purposes in that portion of the City west of Larkin and southwest of Johnston streets, and to lay out the streets therein, beg leave to make the following report:

* This report has been lost, but is here reproduced from Dwinelle's History of San Francisco.

Your Commissioners, after a patient and thorough examination of the land, have adopted the accompanying plan or map thereof, showing the streets so laid out, and the Lots and Squares selected for the above public purposes, and recommend its adoption as the Official Map of the portion of the City above mentioned. Your Commissioners found that it was impossible to perform the work assigned them without a partial survey being first made; and as no provision was made by the City for defraying the expenses of such survey, they became responsible for the hire of the chainmen, flagmen, and other expenses incidental to the survey, expecting to be reimbursed by subscription, which has been partially done. The annexed schedule, marked "A," shows the total amount of their disbursements in making the survey:

The number of School Lots selected is twenty-eight (28); their size one hundred and thirty-seven and one half feet by one hundred and thirty-seven and one half feet (137½ feet by 137½ feet), except those located on the Potrero, which are one hundred feet by two hundred feet (100 feet by 200 feet). The number of lots for Fire purposes is twenty-five (25); their size thirty feet by one hundred and thirty seven and one half feet (30 feet by 137½ feet), except those located on the Potrero, which are thirty feet by one hundred feet (30 feet by 100 feet). Six (6) Squares or Plazas are selected; size, four (4) blocks, containing about twelve acres each (12 acres), and four (4) Squares, size, two (2) blocks, containing about five (5) acres each; and one lot for Hospital, size, two (2) blocks. Perhaps more Lots and Squares have been selected than are necessary for the above purposes, yet the selection of the above number was deemed advantageous, since, as a city enlarges so do her wants.

Ordinance No. 822 gave your Commissioners the power to take only the one-twentieth (1-20th) of the land of one person for School, Fire, Hospital, and other public purposes. In a great many instances they found, in laying out the lots for such purposes, that, in order to place them at proper distances from each other, they would fall entirely upon the land of one person, or cover his house or yard; and, moreover, in many cases such persons did not own more than one block. In order, then, to avoid such difficulties, we were forced to locate some of the Public Lots and Squares in places different from those originally designated.

Your Commissioners also made a personal inspection of all the Lots and Squares selected for public purposes, and ascertained from most of the owners thereof that they would deed the lots to the City, whenever called upon, provided the City would deed to them her right and title to the balance of their claim. The time is passed when it is necessary to support this course by argument. The city has pledged its faith by Ordinance No. 822; the measure has become part of the settled policy of the Corporation, and yet the parties interested have not reaped the benefit of it. Your Commissioners would therefore recommend the appointment of two or three suitable persons, with authority to receive the deeds of the Lots and Squares selected for public purposes, and to deed the right and title of the City to all parties in possession, as contemplated by Ordinance No. 822.

All of which is respectfully submitted, April 19th, 1856.

JOHN T. HOFF, City Surveyor.

MICHAEL HAYES, }
C. H. GOUGH, } Commissioners.

ENGINE LOTS.

In Mission Blocks—Lots 30 by 137½ feet.

- Lot in Block No. 5, on Market street, between Tenth and Eleventh streets.
- Lot in Block No. 36, on Sixteenth street, between Valencia and Guerrero streets.
- Lot in Block No. 44, on Bryant street, between Ninth and Tenth streets.
- Lot in Block No. 67, on Valencia street, between Nineteenth and Twentieth streets.
- Lot in Block No. 86, on Nineteenth street, between Dolores and Church streets.
- Lot in Block No. 98, on Sanchez street, between Fourteenth and Fifteenth streets.

In Potrero Nuevo—Lots 30 by 100 feet.

- Lot in Block No. 15, on Columbia street, between Napa and Butte streets.
- Lot in Block No. 102, on Nebraska street, between Santa Clara and Sixteenth streets.
- Lot in Block No. 269, on Texas street, between Solano and Mariposa streets.

In Western Addition—Lots 30 by 137½ feet.

- Lot in 50-vara Lot No. 2, in Block 10, on O'Farrell street, between Larkin and Polk streets.
- Lot in 50-vara Lot No. 2, in Block 41, on Chestnut street, between Polk street and Van Ness avenue.
- Lot in 50-vara Lot No. 2, in Block 49, on Pacific street, between Polk and Van Ness avenue.
- Lot in 50-vara Lot No. 2, in Block 56, on Bush street, between Polk and Van Ness avenue.
- Lot in 50-vara Lot No. 5, in Block 66, on McAllister street, between Polk and Van Ness avenue.
- Lot in 50-vara Lot No. 5, in Block 153, on Ellis street, between Gough and Octavia streets.
- Lot in 50-vara Lot No. 2, in Block 183, on Bay street, between Octavia and Laguna streets.
- Lot in 50-vara Lot No. 5, in Block 192, on Vallejo street, between Octavia and Laguna streets.
- Lot in 50-vara Lot No. 2, in Block 213, on Waller street, between Octavia and Laguna streets.
- Lot in 50-vara Lot No. 2, in Block 236, on California street, between Laguna and Buchanan streets.
- Lot in 50-vara Lot No. 5, in Block 283, on McAllister street, between Buchanan and Webster streets.
- Lot in 50-vara Lot No. 5, in Block 309, on Post street, between Webster and Fillmore streets.
- Lot in 50-vara Lot No. 2, in Block 322, on Green street, between Webster and Fillmore streets.
- Lot in 50-vara Lot No. 2, in Block 351, on Clay street, between Fillmore and Steiner streets.

Lot in 50-vara Lot No. 5, in Block 374, on Kate street, between Fillmore and Steiner streets.

Lot in 50-vara Lot No. 5, in Block 379, on Hayes street, between Steiner and Pierce streets.

Lot in 50-vara Lot No. 2, in Block 416, on Greenwich street, between Pierce and Scott streets.

SCHOOL LOTS.

In Mission Blocks—

Middle 50-vara Lot in Block No. 8, on Harrison street, between Tenth and Eleventh streets.

Middle 50-vara Lot in Block No. 21, on Mission street, between Ridley and Hermann streets.

Middle 50-vara Lot in Block No. 34, on Fifteenth street, between Howard and Mission streets.

Middle 50-vara Lot in Block No. 61, on Nineteenth street, between Howard and Mission streets.

Middle 50-vara Lot in Block No. 93, on Church street, between Eighteenth and Nineteenth streets.

Middle 50-vara Lot in Block No. 104, on Sixteenth street, between Sanchez and Noe streets.

In Western Addition—

Middle 50-vara Lot No. 2, in Block 3, on Grove street, between Larkin and Polk streets.

50-vara Lot No. 6, in Block 14, on southwest corner Larkin and Polk streets.

Middle 50-vara Lot No. 5, in Block 21, on Broadway street, between Larkin and Polk streets.

Middle 50-vara Lot No. 5, in Block 29, on Francisco street, between Larkin and Polk streets.

Middle 50-vara Lot No. 2, in Block 62, on Eddy street, between Polk street and Van Ness avenue.

Middle 50-vara Lot No. 5, in Block 111, on Bay street, between Franklin and Gough streets.

Middle 50-vara Lot No. 5, in Block 117, on Union street, between Franklin and Gough streets.

Middle 50-vara Lot No. 5, in Block 123, on Washington street, between Franklin and Gough streets.

Middle 50-vara Lot No. 2, in block 136, on McAllister street, between Franklin and Gough streets.

Middle 50-vara Lot No. 2, in Block 158, on Sutter street, between Gough and Octavia streets.

Middle 50-vara Lot No. 5, in Block 281, on Turk street, between Buchanan and Webster streets.

Middle 50-vara Lot No. 5, in Block 289, on Page street, between Buchanan and Webster streets.

Middle 50-vara Lot No. 2, in Block 318, on Jackson street, between Webster and Fillmore streets.

Middle 50-vara Lot No. 2, in Block 335, on Greenwich street, between Webster and Fillmore streets.

Middle 50-vara Lot No. 6, in Block 374, on Fillmore street, from Kate to Ridley streets.

Middle 50-vara Lot No. 2, in Block 419, on Green street, between Pierce and Scott streets.

Middle 50-vara Lot No. 2, in Block 431, on Eddy street, between Pierce and Scott streets.

Middle 50-vara Lot No. 2, in Block 460, on Pine street, between Scott and Devisadero streets.

Middle 50-vara Lot No. 2, in Block 465, on Jackson street, between Scott and Devisadero streets.

In Potrero Nuevo—

Middle Lot in Block No. 39, 100 by 200 feet, fronting on York and Hampshire streets, between Butte and Solano streets.

Middle Lot in Block No. 46, 100 by 200 feet, fronting on Hampshire and Jersey streets, between El Dorado and Alameda streets.

Middle Lot in Block No. 163, 100 by 200 feet, fronting on Rhode Island and De Haro streets, between Solano and Mariposa streets.

The Report was received and read in Board of Assistant Aldermen, April 21st, 1856, and laid over for further consideration.

On the 5th of May ensuing, a Joint Resolution, No. 532, passed the Common Council providing for the appointment of a Committee of three from each Board to meet daily, for one week, at the office of the County Surveyor, for the purpose of receiving objections to the recommendations of the Commissioners and Surveyor. The Committee appointed consisted of Aldermen Corser, Greene, and Bryant; Assistant Aldermen Bartlett, Dow, and Wilson.

The Committee gave public notice of the same by advertising, and on the 3d of June following made the following Report to the Common Council:

To the Honorable Common Council of the City of San Francisco:

Your Committee, appointed to attend at the City Surveyor's office, and receive objections to the adoption of the Report of the Commissioners appointed to lay off the Western Addition, and the plan drawn by the same, beg leave to report:

That they have attended to this duty, and up to the present have heard but of three complaints. In view of the large number of persons interested, your Committee must regard this opposition as entitled to slight regard, and believe the plan meets with the general favor of the people of that part of the city.

They, therefore, respectfully recommend that the accompanying ordinance be adopted, which legalizes said plan, and makes provision for its being carried into effect.

Your Committee would further recommend, that the City Surveyor be instructed to report to the Common Council the names proposed for the different streets and squares, and that the same be first confirmed, or other names adopted in their place, before they be officially placed on the map.

C. J. BARTLETT,
CHAS. WILSON,
WM. H. DOW,
CHAS. H. CORSER,
W. GREENE,
G. W. BRYANT.

Owing to the change in the form of government, which occurred soon after the rendering of this report, final action upon the ordinance was not taken by the Common Council; but in the Board of Supervisors succeeding (then composed of Justices of the Peace) on the 16th day of October, 1856, an Order was adopted, bearing date October 16th, 1856, ratifying and confirming the Report of the Commissioners, as follows:

The Board of Supervisors of the City and County of San Francisco do ordain as follows:

SECTION 1. That the Plan or Map of the Western Addition, reported by the Commission created under an ordinance of the last Common Council of the City of San Francisco, be adopted by this Board, and be declared to be the plan of the city, in respect to the location and establishment of streets and avenues, and the reservation of squares and lots for public purposes, in that portion of the then incorporated limits of said city, lying west of Larkin and southwest of Johnston streets.

Be it therefore enacted, That the within and before recited Order and Ordinances be and the same are hereby ratified and confirmed; and all the land entered, or to be entered, in the United States Land Office, in pursuance of section one of the first recited of said Ordinances, in trust, shall pass and inure to, and be deemed to have immediately vested in the occupants thereof, for their several use and benefit, according to their respective interests, in execution of the trust designated in an Act of Congress entitled "An Act for the relief of citizens of towns upon the public lands of the United States, under certain circumstances," approved May twenty-third, one thousand eight hundred and forty-four; as extended and applied by an Act of Congress entitled "An Act to provide for the survey of public lands in California, the granting of pre-emption rights therein, and for other purposes," approved March third, one thousand eight hundred and fifty-three; and it shall be the duty of all Courts and officers to take judicial notice of the said Order and Ordinances, as hereinbefore recited, without further proof, as fully and effectually, to all intents and purposes, as if they were public acts of the State Legislature.

SEC. 2. That the grant or relinquishment of title made by the said city in favor of the several possessors, by sections two and three of the Ordinance first above recited, shall take effect as fully and completely, for the purpose of transferring the city's interest, and for all other purposes whatsoever, as if deeds of release and quit claim had been duly executed and delivered to and in favor of them individually and by name; and no further conveyance or other act shall be necessary to invest the said possessors with all the interest, title, rights, benefits and advantages which the said Order and Ordinances intend or purport to transfer or convey, according to the true intent and meaning thereof; *provided*, that nothing in this Act shall be so construed as to release the City of San Francisco, or City and County of San Francisco, from the payment of any claim or claims, due or to become due this State against said city or city and county; nor to affect or release to said city and county any title this State has, or may have, to any lands in said City and County of San Francisco.

On the 11th of March, 1858, the Legislature by enactment ratified and confirmed Ordinances Nos. 822 and 845, and also the Order of the Board of Supervisors making the reservations.

BOUNDARIES OF THE CITY UNDER ACT TO REINCORPORATE.

[Passed April 18th, 1851.]

On the south by a line parallel with Clay street, two and one-half miles distant, in a southerly direction from the centre of Portsmouth Square; on the west by a line parallel with Kearny street, two miles distant, in a westerly direction from the centre of Portsmouth Square. Its northern and eastern boundaries shall be coincident with those of the county of San Francisco.

GRANT BY CONGRESS.

[Approved July 1st, 1864.]

SECTION 5. *And be it further enacted*, That all the right and title of the United States to the lands within the corporate limits of the City of San Francisco, as defined in the Act incorporating said city, passed by the Legislature of the State of California, on the fifteenth day of April, one thousand eight hundred and fifty-one, are hereby relinquished and granted to the said city and its successors, for the uses and purposes specified in the ordinances of said city, ratified by an Act of the Legislature of the said State, approved on the eleventh of March, eighteen hundred and fifty-eight, entitled "An Act concerning the City of San Francisco, and to ratify and confirm certain ordinances of the Common Council of the city," there being excepted from this relinquishment and grant all sites or other parcels of land which have been, or now are, occupied by the United States for military, naval or other public uses, or such other sites or parcels as may hereafter be designated by the President of the United States, within one year after the rendition to the General Land Office, by the Surveyor-General, of an approved plat of the exterior limits of San Francisco, as recognized in this section, in connection with the lines of the public surveys; *and provided*, That the relinquishment and grant by this Act shall in no manner interfere with or prejudice any *bona fide* claims of others, whether asserted adversely under rights derived from Spain, Mexico, or the laws of the United States, nor preclude a judicial examination and adjustment thereof.

STREET GRADES AND LINES.

In this connection it is, perhaps, rather unfortunate that the topography of the northern and western portions of our city was not considered when streets were laid out and grades established. The expense consequent upon opening streets and rendering property accessible has been large, onerous and attributable in the main to a want of forethought in establishing grades without regarding the effect upon surrounding property.

The grades established within the lines of Johnson and Larkin streets by Ordinance No. 608 of the Common Council, approved July 10th, 1854, and subsequent enactments are herewith presented.

TABLE OF GRADES FOR THE CITY OF SAN FRANCISCO.

The base or zero is six feet and seven-tenths above an ordinary high tide mark on a pile at the boat-stairs, corner of Pacific and Davis streets. The top of the wharf at that point is one foot and one-tenth above the base, or seven feet and eight-tenths above ordinary high tide. The base is actually the same as Mr. Hoadley's, but calculated from ordinary high tide, instead of an arbitrary extreme high tide.

*Act of the Legislature, approved March 2d, 1868.

†Order No. 723, approved September 18th, 1868.

*Order No. 714, approved July 16th, 1868.

An Act of the State Legislature, approved April 25th, 1862, created a Board of Civil Engineers for re-survey of the City—by which Act the Board was composed of George C. Potter, City and County Surveyor, Milo Hoadley, and Thaddeus R. Brooks, who organized and entered upon their duties on the eighth day of May of that year. The Act referred to conferred upon the Board of Supervisors, upon recommendation of the Engineers, power to change the grades of streets previously established; also to establish grades in that portion of the City west of Larkin and south of Johnson streets, which had not been previously done.

The Engineers recommended many changes of street grades in that portion of the City north and east of Larkin and Johnson streets, which, owing to the opposition of property-owners, have in only a few instances been carried out. These are of Kearny street, from Vallejo to Green streets; the crossings of Harrison, Spear, Main and Beale, Clay and Jones, Pacific and Front, Broadway and Front, and Vallejo and Front streets. In all of these changes it was reported by the Commissioners appointed by the County Court that no damages had been incurred by the property-owners from the changes, or they were made by their unanimous consent.

Under the operations of the Van Ness Ordinance, ratified by State legislation and subsequent enactments, a large portion of the lands held under said title has been settled, and now forms an integral part of the City.

The profiles of the streets surveyed, showing the configuration of the land, the elevation above base of the grades established, the official map of the city, and a Block Book* of streets within charter limits of 1851, showing deviations from rigid lines, are filed in the office of the City and County Surveyor, all of which were legalized by an order approved January 26th, 1866, entitled—

ORDER NO. 684,

Establishing the Lines and Grades of Streets and Public Highways in the City and County of San Francisco, and the Legal and Official Plan and Map of said City.

The People of the City and County of San Francisco do ordain as follows:

WHEREAS, Under and by virtue of an Act of the Legislature of the State of California, entitled "An Act to establish the lines and grades of Streets in the City and County of San Francisco," approved April 26, 1862, and the Act amendatory thereof, the Board of City Engineers therein mentioned and constituted, having completed their Survey, Maps and Profiles, and a Book explanatory thereof, called the Block Book, and having delivered the same with their Report, according to law, to this Board.

And this Board having thereupon published a notice for three weeks, stating that such Report had been made, and that the same with the Survey, Maps, Profiles, and Block Book aforesaid, were open for public inspection in the Office of the Clerk of the Board of Supervisors; and notifying any property owner dissatisfied with said Survey, Maps, Profiles and explanatory Block Book, or either of them, within said three weeks, to file in the Office of the Board of Supervisors, with said Clerk, objections, in writing, to the same, or to the establishment of the aforesaid grades and lines; stating specifically the grounds and reasons

*A certified copy of the Block Book is now being made to be deposited in the Hall of Records.

of said objections, which published notice contained a tabular statement of the respective grades as indicated by said Survey, Maps and Profiles;

And the said Report, Survey, Maps, Profiles and Block Book, having been kept open for public inspection in the Office of the Clerk of said Board of Supervisors during the period of the publication of said notice;

And said period of three weeks having expired, and no written or other objections to said Survey, Maps, Profiles and Block Book, or either of them, having been filed;

And the said Survey, Maps, Profiles and Block Book, having been finally submitted to said Board of Supervisors, it is now ordered:

SECTION 1. That the Survey, Maps, Profiles and Block Book, aforesaid, be and they are hereby approved and adopted, and that said Maps, Profiles and Block Book do stand as the legal and valid official plan of the City and County of San Francisco, to determine the lines of the streets and the grades thereof, as provided by the Acts of the Legislature aforesaid.

SEC. 2. That the lines of the streets in those portions of the City and County of San Francisco, as delineated in the aforesaid Block Book, shall be run in accordance with the distances from the monument of re-survey lines to the respective corners as fixed and indicated in said Block Book; and every survey hereafter made shall conform thereto, and shall be plotted in said Block Book, as an official record of such survey.

SEC. 3. That the lines of streets and sizes of blocks in all the other portions of the City (not included in said Block Book) shall be run in accordance with the distances and dimensions marked on the General Map of the City and County of San Francisco, made by said Board of Engineers, in connection with the "Monument Map" of said Board of Engineers, as regards the location of the monuments and stakes with the lines of said streets.

SEC. 4. The respective grades of the streets, as indicated by said Surveys, Maps and Profiles, and hereby determined, are specially shown by the following tabular statement, viz:

STREET GRADES.

At the last session of the Legislature the following Act was passed, and approved March 28th, 1868, authorizing the Board of Supervisors to modify and change the grade of streets upon petition of the owners of three-fourths of the property to be affected:

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. The Board of Supervisors of the City and County of San Francisco are hereby authorized and empowered, upon petition of the owners of three-fourths of the property to be affected thereby, said property to be ascertained and indicated by said Board of Supervisors in the manner provided in the first subdivision of section two of this Act, to change and modify the grade of any street or avenue, or of any part of any street or avenue, in said city and county, as hereinafter provided.

SEC. 2. The grade of any street or avenue, or portion of any street or avenue, the grade of which has been fixed by ordinance, shall not be altered or changed except upon an adjustment of the benefits and damages, and the proceedings shall be as follows: First—The Board of Supervisors upon the receipt of a petition in conformity with the provisions of section one of this Act, shall publish in the official newspaper of said city and county a notice of their intention to make such change. Said notice shall be published for thirty days, and shall describe the proposed change and designate the limits within which the lots of land to be benefited shall be assessed to pay any damages that may be awarded by reason of the change. Second—Within twenty days of the first publication of said notice, any person claiming that he or she would sustain damages, by reason of such change, shall file a petition with the County Clerk, addressed to the County Court, setting forth the fact of his or her ownership, the description and situation of his or her property, its market value, and the amount of damage, over and above all benefits, which he or she would sustain by reason of the proposed change, if completed, asking the appointment of Commissioners to assess such damage, which petition shall be verified by the oath of the petitioner or his or her agents. Third—On the filing of such petition the said County Court shall take jurisdiction of the proceedings, and the County Clerk shall immediately give notice thereof to the President of the Board of Supervisors. Fourth—At the expiration of the time of publication of said notice, and at the time indicated by said notice, or at such other time to which it may be continued, the County Court shall appoint three citizens, who are freeholders in said city and county and competent judges of the value of real estate therein, and are not interested in said proceedings, as Commissioners to assess the benefits and damages to each separate lot of land within the limits designated in the notice. Fifth—The Commissioners shall be sworn by the County Judge to make the assessments of benefits and damages to the best of their judgment and ability, without fear or favor, and that they have no interest in the controversy, nor in any of the land within the limits designated, which oath shall be filed with the County Clerk as a part of the proceedings, a copy thereof and of the order of appointment, certified by the Clerk, may be delivered to said Commissioners as their authority. Sixth—Said Commissioners shall visit and inspect the premises to be assessed, and the premises for which damages are claimed, with a Committee from their body, appointed for that purpose by the Board of Supervisors. Seventh—Said Commissioners shall have power, and it is hereby made their duty to examine, under oath, which any one of them is hereby authorized to administer, any witnesses produced before them, by any party, touching the matters to be investigated, and such other witnesses as they may deem necessary, to fully acquaint themselves with the actual amount of benefits and damages which will result to the respective parties interested in the proposed change. Eighth—Said Commissioners having determined the damages which will be sustained by each petitioner, over and above all benefits by the completion of the proposed change, shall proceed to assess the whole amount thereof, together with the costs, charges and expenses of the proceedings, including the compensation to the Commissioners for their services, to be taxed and allowed by the County Judge, ratably upon the several lots of land benefited within the limits designated

in said notice, so that the same shall be distributed according to the benefits produced by such change as nearly as possible. Ninth—Said Commissioners shall make their report in writing, and shall subscribe the same and file it with the County Clerk; in their said report they shall describe each piece of property which will sustain damage, stating the amount of the damages which it will sustain over and above all benefits, and they shall also give a brief description of each lot benefited within the designated limits; the name of the owner, if known, and the amount of benefit assessed against the same. In case the three Commissioners do not agree, the award agreed upon by any two of them shall be sufficient. On the filing of said report the County Clerk shall notify the Board of Supervisors, in writing, of the fact; and thereupon the said Board shall by ordinance confirm or reject said report. If they confirm it, the grades of the streets shall be changed as contemplated, and the Clerk of the Board of Supervisors shall notify the County Court that the Board have confirmed the report. The County Court shall thereupon enter up judgment against each lot assessed for benefits, describing the same as accurately as can conveniently be done. Upon which judgment an order of sale may issue by order of the Court, commanding the Sheriff of said city and county to collect the amount therein mentioned by sale of the lot assessed, in the mode prescribed by law for the sale of real estate, the proceeds to be paid by the Sheriff to the Treasurer of the City and County of San Francisco, who shall place the same to the credit of the Street Department Fund; and the same shall be paid, and the Treasurer of said city and county shall pay the amount collected, for damages into the County Court, which shall hold, invest and distribute the same in the same manner, as provided in section nineteen of an Act entitled "An Act to declare and regulate the power of the Board of Supervisors of the City and County of San Francisco to take private lands for certain public improvements, and to prescribe the manner of its execution," approved April 4th, 1864. All such judgments shall be in favor of the City and County of San Francisco, and shall be a lien upon the lot until the same is paid; but no sale shall be made nor execution issued until the County Court shall determine that said work has been completed.

SEC. 3. Before entering up judgment, the Court shall fix a day for hearing parties who may feel aggrieved by reason of any of the proceedings; but no objections shall be considered except such as are specifically set forth in writing by the parties; and all errors, omissions and irregularities not specifically set forth shall be deemed to be waived. Any party dissatisfied may, within thirty days after judgment against him or his lot, or the order to pay the damages assessed, appeal to the Supreme Court to review the matter complained of, and the appeal shall be taken in the manner and with the same effect as prescribed in, and in all respects be in conformity to "An Act to declare and regulate the power of the Board of Supervisors of the City and County of San Francisco to take private lands for certain public improvements, and to prescribe the manner of its execution," approved April 4th, 1864, and all subsequent proceedings shall be in conformity therewith and with the same effect.

SEC. 4. All acts and proceedings under this law shall be liberally construed, and the judgments and proceedings of the County Court shall be construed like judgments and proceedings of courts of general jurisdiction.

SEC. 5. The Sheriff shall collect fees for the execution, in case an execution issues, as in other cases, but each party may pay to the Treasurer the amount of the judgment against him, and the Treasurer's receipt being produced to the County Court, satisfaction of the judgment shall be entered by the Clerk. The Clerk shall not charge any fees for the proceedings unless execution issues, in which case he shall be authorized to charge five dollars for each execution, to be collected by the Sheriff on the execution.

SEC. 6. This Act shall take effect from and after its passage.

Under the provisions of this Act the following Street Grades have been established, viz:

Streets.	Height above Base, in Feet.
Capp and Nineteenth.....	36
Capp and Twentieth.....	49
Capp and Twenty-first.....	52
Hyde and Tyler.....	53
Larkin and Tyler.....	58

Another Act, passed and approved March 28th, 1868, authorized the Board to appropriate a sum, not to exceed twenty thousand dollars, to establish the lines and grades of Streets and Avenues, and placing suitable monuments to perpetuate the same in the following Districts, viz:

District No. 1—That tract lying east of Potrero avenue, south of Mission creek, west of the water front and north of Precita creek.

District No. 2—That tract west of Potrero avenue, south of the charter line of eighteen hundred and fifty-one, produced westerly to the westerly line of Douglas street, easterly of the westerly line of Douglas street continued to Figg or Twenty-seventh street, northerly of Figg or Twenty-seventh street and Precita creek.

District No. 3—That tract west of the charter line of eighteen hundred and fifty-one, easterly of Douglas street, southerly of the northerly boundary of the San Miguel Ranch, and northerly of the southerly line of Twenty-second street extended to the westerly line of Douglas street.

District No. 4—That tract lying southerly of the water front, westerly of Devisadero street, northerly of Geary street, easterly of Cemetery avenue and Government Reserve.

District No. 5—That tract lying westerly of the charter line of eighteen hundred and fifty-one, northerly of the San Miguel Ranch, easterly of westerly line of West Eighth street, southerly of the Government Reserve and Lone Mountain Cemetery, and that part of Geary street easterly of Cemetery avenue.

VALUATION OF REAL ESTATE AND IMPROVEMENTS BY WARDS.

The assessed value of real estate and improvements thereon, by wards, for the last two years is shown by the following exhibit :

Wards.	Valuation, 1867-8.	Valuation, 1868-9.
First Ward	\$1,451,840	\$3,552,470
Second Ward	2,170,635	2,172,300
Third Ward	7,548,950	8,900,408
Fourth Ward	2,814,380	3,018,142
Fifth Ward	6,196,400	7,345,750
Sixth Ward	2,912,300	3,347,432
Seventh Ward	3,664,230	3,525,385
Eighth Ward	5,725,425	5,645,984
Ninth Ward	3,150,580	6,666,091
Tenth Ward	7,234,510	5,483,150
*Eleventh Ward	7,503,345	9,585,731
Twelfth Ward	4,507,873	4,333,336
Totals	\$57,880,468	\$63,576,179

* The assessed value of all Outside Lands, in the year 1868-9, is included in the valuation.

FIRES AND FIRE ALARMS.

During the year closed the number of Fires and Alarms was greater than in that preceding, being three hundred and fifty-five against two hundred and sixty-five in 1866-67, yet the aggregate of losses claimed is \$256,121 less than that of the former year.

The following presents an abstract of the Report of John L. Durkee, Fire Marshal, to the Board of Underwriters, showing that during the last year incendiarism has been alarmingly on the increase, the number of Fires from that cause being ninety-two, while that of the preceding years 1866-67, 1865-66, were respectively sixty-seven and thirty-seven. The conviction of persons for the crime of arson seems to be, by the Report, reserved for the future, as, notwithstanding the exertions of the various Departments interested, no conviction has been had in those cases where the guilt of the persons arrested was apparently beyond doubt.

Causes of Fires and Alarms.	Nos.	Loss.	Insurance.	Amounts Received.

FIRE LIMITS.

By the passage of Order No. 798, approved January 21st, 1868, some changes have been made in the boundaries of that portion of the city within which wooden buildings are prohibited from being erected. The district is now bounded by a line commencing at the intersection of Market and Davis streets, and running thence along the westerly line of Davis street to Clark street; thence along the southerly line of Clark street to Front street; thence along the westerly line of Front street to Vallejo street; thence along the southerly line of Vallejo street to Battery street; thence along the easterly line of Battery street to Broadway; thence along the southerly line of Broadway to Stockton street; thence along the easterly line of Stockton street to Clay street; thence along the southerly line of Clay street to Dupont street; thence along the easterly line of Dupont street to Bush street; thence along the southerly line of Bush street to Stockton street; thence along the easterly line of Stockton street to Market street; thence along the southeasterly line of Market street to Fourth street; thence along the northeasterly line of Fourth street to Folsom street; thence northeasterly along the northwesterly line of Folsom street one hundred feet; thence northwesterly and parallel with Fourth street, to a point within one hundred feet of Market street; thence northeasterly and parallel with Market street, to a point within one hundred feet of Third street; thence southeasterly and parallel with Third street to the northwesterly line of Folsom street; thence northeasterly along said line of Folsom street to a point one hundred feet northeasterly from Third street; thence northwesterly and parallel with Third street to a point within one hundred feet of Market street; thence northeasterly and parallel with Market street to a point within one hundred feet of Second street; thence southeasterly and parallel with Second street to the northwesterly line of Howard street; thence northeasterly along the said line of Howard street to a point one hundred feet northeasterly from Second street; thence northwesterly and parallel with Second street to a point within one hundred feet of Market street; thence northeasterly parallel with Market street to a point within one hundred feet of First street; thence southeasterly parallel with First street to the northwesterly line of Howard street; thence northeasterly along the said line of Howard street to a point one hundred feet northeasterly from First street; thence northwesterly and parallel with First street to a point within one hundred feet of Market street; thence northeasterly and parallel with Market street to the northwesterly line of Beale street; and thence to the point of beginning.

JUSTICES' COURT.

Under the Act approved March 24th, 1866, there were chosen at the General Election, September 4th, 1867, five Justices of the Peace, to compose a Justices' Court in and for the City and County of San Francisco:

JAS. C. PENNIE,

T. W. TALIFERRO,
OSCAR T. SHUCK,

P. B. LADD,
GEORGE LEVISTON,

Their term of office commenced on the first day of January, 1868, and continues for two years. Under the provisions of the law, the Board of Supervisors appointed Jas. C. Pennie, Presiding Justice for one year; Geo. L. Wedekind, Justices's Clerk; also, Samuel C. Harding and M. Harkans, Constables for the term of two years.*

The Court fees are payable into the Special Fee Fund of the City Treasury, from which the salaries of the Justices, Clerk, and Constables are to be paid. The salaries (fixed by the Act) are :

Presiding Justice, per annum.....	\$3,000
Four Justices of the Peace, each per annum.....	2,400
One Court Clerk, per annum.....	2,400
†Two Constables, (one additional, if required,) each per annum.....	1,200

In case of three constables being appointed, the salary of each is fixed at \$1,000.

The Board of Supervisors have provided, in the building on the northeast corner of Montgomery and Jackson streets, suitable rooms for the Clerk's Office, Court Room, and separate rooms for offices or chambers for each of the Justices of the Peace, for the transaction of their official business.

The Presiding Justice and Clerk are required to be in attendance at the Clerk's office daily, non-judicial days excepted, from the hour of 9 A.M. until 5 P.M., and at such other convenient hours as may be required by urgent official business; and the other Justices to be in attendance at their respective offices or chambers, for the dispatch of official business, daily, from the hour of nine A.M. until five P.M. Unless otherwise ordered by the Board of Supervisors, leave of temporary absence may be granted by the Mayor to the Clerk or any of the Justices, when such absence will not materially prejudice or delay official business; but absence for more than two hours in a day, or for more than four days in one month, is to be charged with a proportionate deduction of salary.

The Court and Justices have the powers and jurisdiction heretofore exercised by the several individual Justices of the Peace in the City and County; and it is provided that all actions, suits, and proceedings, whereof Justices of the Peace and Justices' Courts in said City and County have jurisdiction, shall be commenced, entitled and prosecuted in said Court. The Court to be always open, non-judicial days excepted, and causes therein to be tried before the presiding Justice, or before any one of the Justices before whom the original process is made returnable, or to whom the cause may be assigned or transferred for trial, or before any three Justices of the Peace constituting the Court in bank; but the Court in bank has exclusive power to hear and determine all applications for new trial.

It is made unlawful for any Justice or Constable to collect or receive any fee or compensation whatever (other than the salary allowed out of the Treasury) for any official services; but all fees or moneys legally chargeable for such services are to be paid into the hands of the Justices' Clerk, and by him paid into the City Treasury.

*In addition, the Constables are allowed thirty dollars per month for keeping a horse, when used in the performance of their duties.

†A Janitor is also allowed, at a salary of seventy-five dollars per month.

The Fees paid into the Treasury for the six months ending June 30th amounted to \$8,385 60. The Expenses were as follows: Salaries, \$9,497 50; furnishing Court Rooms, rent, stationery, etc., \$6,864 49; total, \$16,361 99

Under the former law providing for Justices of the Peace and Constables for each Township, the returns made by them to July 1st, 1867, for cash receipts, not payable into the City and County Treasury, being in lieu of fixed salaries, were:

Dates.	Justices of the Peace.	Constables.	Total.
July 1st, 1865, to January 1st, 1866.....	\$14,193 10	\$7,134 67	\$21,327 77
January 1st, 1866, to July 1st, 1866.....	16,568 75	8,275 48	24,844 23
July 1st, 1866, to January 1st, 1867.....	16,438 87	7,971 06	24,409 93
January 1st, 1867, to July 1st, 1867.....	9,839 75	7,022 14	16,861 89

THE REGISTRY LAW,

Is generally conceded to have been necessary legislation for maintaining inviolate the rights of our citizens in the exercise of the elective franchise, and, although amended in some particulars at the last session of the Legislature, still it is, perhaps, unfortunate that some plan was not adopted, which, preserving the main features of this law, would have obviated its rather cumbersome and expensive workings.

The expenses incurred incidental to holding the elections under the provisions of this Act, with the number of voters enrolled and the number voting, are herewith presented.

THE BOUNDARIES OF THE CITY AND COUNTY,

As prescribed in Section 1 of the Consolidation Act, are as follows: Beginning in the Pacific Ocean, three miles from the shore, and on the line (extended) of the United States Survey, separating townships two and three, south (Mount Diablo meridian), and thence running northerly and parallel with the shore so as to be three miles therefrom opposite Seal Rock; thence in the same general direction to a point three miles from shore, and on the northerly side of the entrance to the bay of San Francisco; thence to low water mark or the northerly side of said entrance, at a point opposite Fort Point; thence following said low water mark to a point due northwest of Golden Rock; thence due southeast to a point within three miles of the natural high water mark on the eastern shore of the bay of San Francisco; thence in a southerly direction to a point three miles from said eastern shore, and on the line first named (considered as extending across said bay); and thence along said first named line to the place of beginning. The islands in said bay, known as Alcatrazes and Yerba Buena, and the islands in said ocean, known as the Farallones, are attached to and form a part of said City and County.

WARDS AND ELECTION DISTRICTS.

In pursuance of authority granted by the Legislature, a number of the Wards have been subdivided so as to constitute twenty-one Election Districts, for greater convenience of voters, a polling place or precinct being designated in each District.

The following shows the boundaries of the Wards and Districts as now established:

FIRST WARD.—Washington street on the south, Kearny street on the west, and the bay of San Francisco on the north and east. Islands in the bay attached to First Ward.

SECOND WARD.—Kearny street on the east, Vallejo street on the south, Larkin street on the west, and the bay of San Francisco on the north.

THIRD WARD.—Washington street on the north, Kearny street on the west, California street on the south, and Market street and the bay of San Francisco on the east.

FOURTH WARD.—Vallejo street on the north, Kearny street on the east, Washington street on the south, and Larkin street on the west.

FIFTH WARD.—California street on the north, Kearny street on the west, and Market street on the south and east.

SIXTH WARD.—Kearny street on the east, Pine street on the south, Larkin street on the west, and Washington street on the north.

SEVENTH WARD.—Harrison street on the south, Second street on the west, Market street on the north, and the bay of San Francisco on the east.

Election District No. 1.—Howard street on the south, Second street on the west, Market street on the north, and the waters of the bay on the east.

Election District No. 2.—Harrison street on the south, Second street on the west, Howard street on the north, and the waters of the bay on the east.

EIGHTH WARD.—Kearny street on the east, Market street on the south, Larkin street on the west, and Pine street on the north.

Election District No. 1.—Post street on the south, Larkin street on the west, Pine street on the north, and Kearny street on the east.

Election District No. 2.—Market street on the south, Larkin street on the west, Post street on the north, and Kearny street on the east.

NINTH WARD.—Harrison street on the north, Seventh street on the west, and the bay of San Francisco on the east.

TENTH WARD.—Market street on the north, Seventh street on the west, Harrison street on the south, and Second street on the east.

Election District No. 1.—Howard street on the south, Fourth street on the west, Market street on the north, and Second street on the east.

Election District No. 2.—Harrison street on the south, Fourth street on the west, Howard street on the north, and Second street on the east.

Election District No. 3.—Howard street on the south, Seventh street on the west, Market street on the north, and Fourth street on the east.

Election District No. 4.—Harrison street on the south, Seventh street on the west, Howard street on the north, and Fourth street on the east.

ELEVENTH WARD.—Seventh street on the east, by Market street and Ridley street in a direct line to the Pacific Ocean on the north, by the Pacific Ocean on the west, and by the line of San Mateo County and the bay of San Francisco to the line of Seventh street on the south and east.

Election District No. 1.—On the east by Seventh street to Mission creek, on the south by Mission creek and Sixteenth street to Dolores street, on the west by Dolores street to Market street, and westerly and northerly by Market street to Seventh street.

Election District No. 2.—On the north by Sixteenth street to Dolores street, on the east by Dolores street from Sixteenth to Ridley street, on the north by Ridley street and a direct line to the Pacific Ocean, on the west by the Pacific Ocean, on the south by San Mateo County line, on the east by the San Bruno road, on the north by Serpentine avenue from the San Bruno road to Folsom street, thence on the east by Folsom street to Sixteenth street.

Election District No. 3.—On the north by Mission creek and Sixteenth street to Folsom street, on the west by Folsom street to Serpentine avenue, on the south by Serpentine avenue from Folsom street to the San Bruno road, thence along the San Bruno road to Precita creek, on the south by Precita creek, and easterly and northerly by the waters of the bay to Mission creek.

Election District No. 4.—On the west by the San Bruno road to San Mateo County, on the south by the line of San Mateo County to the bay, thence easterly and northerly by the waters of the bay and Precita creek to the San Bruno road.

TWELFTH WARD.—Larkin street on the east, by Market street and Ridley street in a direct line to the Pacific Ocean, and the bay of San Francisco on the west and north.

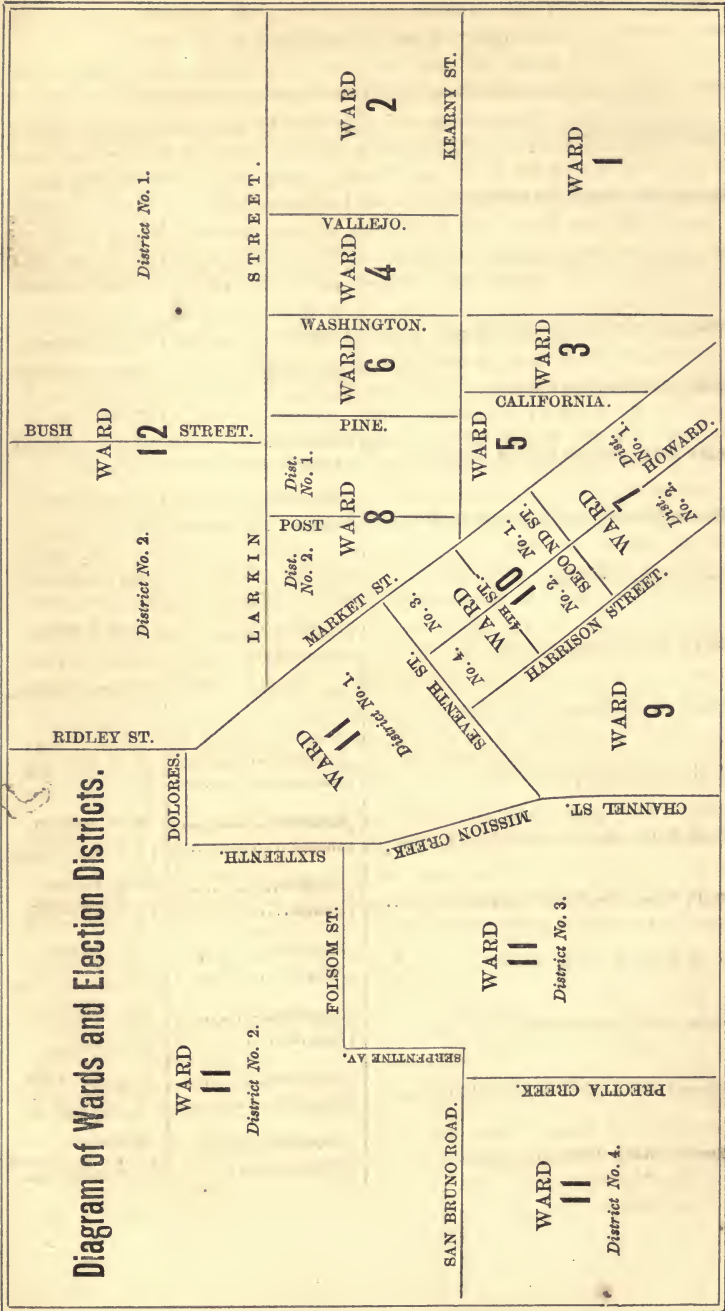

Election District No. 1.—Larkin street on the east, Bush street on the south, the Pacific Ocean on the west, and the bay on the north.

Election District No. 2.—Bush street on the north, Larkin street on the east, Market street to Ridley street, Ridley street in a direct line to the Pacific Ocean on the south, and the Pacific Ocean on the west.

* Under the operations of the new law organizing a Justices' Court from January 1st, 1868, fees are paid into the Treasury.

Several removals and new appointments have been made during the year, and several officers have failed to make returns, which accounts for the difference of receipts.

BOARD OF SUPERVISORS.

The present Board organized on the first Monday in last December, the retiring members, after making appropriate remarks, introducing their successors.

The retiring Mayor and the Mayor elect had both been connected with the City Government for years; Hon. H. P. Coon having filled positions of honor and trust before assuming the Mayoralty, to which office he was elected in 1863, and re-elected in 1865, taking his seat for the first time as Presiding Officer of the Board on July 1st, 1863.

Hon. Frank McCoppin, a member of the Board from November 24th, 1860, having been repeatedly re-elected as a representative of the Eleventh Ward. Both gentlemen possessing in an eminent degree those qualifications and characteristics in which people reposed with confidence, their whole public course being such as to justify the marked preference shown in their elevation to the highest office in the municipality.

The following synopsis of their remarks on this occasion may be found interesting, as reflecting in a measure their opinions on topics which have engaged the public mind. Hon. H. P. Coon addressed the Board as follows:

GENTLEMEN—The next act in the order of business is for me to vacate this seat, and in doing so I will only be complying with a very proper custom in making a few remarks. The last four and a half years has been the most important period of the history of San Francisco. The population has increased upwards of 30 per cent. It might not look a rapid growth, but it really was so. Look at New York, and compare the two cities. It took the latter city two centuries to gather the population we have collected in eighteen years. The assessed value of our property has increased \$30,000,000 in four years. Our streets have been largely extended in all directions; hills have been leveled and valleys filled up, and many locations which were entirely unoccupied are now built over and become populous neighborhoods. Agriculture within a circuit of one hundred miles of the city has taken a wonderful stride, as it had indeed throughout the whole State. California productions are already supplanting importations. Circumstances are favoring the creation of a great foreign commerce. I allude to the China Mail line. Manufactures also have been established, and though still in their infancy, if any of you will make a list of the articles in common use and mark those which are manufactured here, you will be astonished to find how numerous and various they are.

Population has increased largely, but the number of children has even increased amazingly, and with that increase public schools have kept pace. Accordingly, as population, families and schools have increased, so have churches in a corresponding rate to population.

There have been since I entered upon office some untoward events, which at the time filled the minds of all with dread. At the beginning of my term of office, so great were the apprehensions of breaches of the public peace, and also of the appearance of hostile privateers in our very harbor, that my attention was continually occupied in considering the gravest subjects and discussing precautionary measures.

In addition to National dangers and troubles, there were other causes calculated to lay me under the deepest anxiety. On the second evening in which I sat in this seat, a writ of *mandamus* from the Supreme Court to compel us to satisfy certain final judgments, amounting to \$1,500,000, was served upon the members and myself. Most of you will remember the intense feeling of the people on this question, and the intense opposition of the majority of the press and the public to any satisfaction being given by us to these demands. On one hand the popular opinion was opposed to obedience to the Court, and on the other hand was a peremptory order to make satisfaction on penalty of imprisonment. We called our fellow

citizens together and showed them the true position, and while all were convinced that a great wrong had been done the city, it was generally conceded that we had no alternative but obey the order of the highest Court in the State. I might speak of the great labor of signing the bonds, in which and on the coupons I was required to sign my name 80,000 times; but it was not the physical labor which I felt—it was the mental anxiety that I might not be able to satisfy public expectation in the onerous and responsible position which I occupied.

I reciprocate the feelings so kindly expressed towards me by the late member (E. N. Torrey) for the Sixth. He was Chairman of the Fire Alarm and Police Telegraph Committee and Paid Fire Department Committee, and brought both schemes to a successful conclusion. We see the advantage of the first every night, when the alarm bells in five districts of the city give instantaneous and simultaneous notice on the breaking out of a fire, however distant from the centre it may be. The other change followed quickly from the volunteer to the paid service of the Fire Department. The subject was comparatively new and untried. There was great excitement, and in many quarters serious opposition, and even danger of violent resistance. Preparations had to be made against every contingency and difficulty that might arise. The time came, however, and owing to the good sense and respect for order of the retiring department, when the hour approached for taking possession of the property and inaugurating the new system, we found no obstacle to our doing so.

There have been certain questions affecting labor, and causing conflict of opinion and even disturbance, which have imposed labor and responsibility on the authorities. The question of wages at one time excited a portion of the public to that degree, that every preparation had to be made for the suppression of an outbreak. Subsequently the Eight-hour Law caused a somewhat similar excitement, and also the Chinese labor question. All these matters have thrown additional work on the guardians of the public, who are sworn to protect the lives and property of the citizens.

Then, there was the proper care of the poor and of the indigent sick. San Francisco is peculiarly situated. Not only has the city the charge of all the sick and poor arriving by sea, but most of those of the northern States and of the greater part of the interior Counties are thrown upon us. I have often moved our delegation to the Legislature to frame some plan by which San Francisco could be relieved of the unjust burden of maintaining the sick and poor of the State. But nothing has yet been done. I commend the matter to you and my successor in office.

I congratulate the friends of humanity that the Almshouse has been completed, but already we find in its management the same evil we have found in the Hospital. Recently my attention was called to a case of deliberate fraud upon the taxpayers of this city, by a person from another county imposing upon us the cost of maintaining one of his relatives. While we are obliged to house and care for the poor stranger landing on our shores, it is impossible we should relieve the interior counties of the burden of their own sick and indigent.

Public health has during the last year or two occupied more attention in this Board and in the press than during any former year, and much has been done to check the spread of contagious diseases. The registry of deaths has worked, on the whole, to the satisfaction of the public, and as a statistical work was of great value in judging the sanitary condition of the city. But some of the public and writers of the press have urged upon me the duty of adding registration of births to the duties of the Health Officer. I commend the propriety of completing the sanitary statistics by the addition of a register of births to that of deaths, as in other cities.

The vaccination law of the State has not been fully carried out, but all medical men in the city will bear me out in the assertion that the only safeguard against the introduction of that loathsome disease, small-pox, is to vaccinate every Chinaman before he is allowed to land. The Board of Health has ordered inquiries in China, and they have received information that very few of those people are protected by inoculation or vaccination from this disease, and the inquiries made by the English Colonial authorities at Hongkong resulted in the same conclusion.

I congratulate the city on the final settlement of the city's title to the outside lands, in which matter I and the ex-City Attorney, Mr. Sanders, have labored hard. The doubt still

remaining about the final disposition of the balance, after the proper reservations have been made, will, no doubt, shortly be satisfactorily settled.

Regarding the past, I wish to say that I invited Frederick Olmsted, the landscape architect and engineer, who laid out the Central Park of New York, the Brooklyn, and many other parks, to make a careful inspection of this peninsula, with the intention of getting from him plans for a public park. I conducted Mr. Olmsted over every part of surrounding country, and promised to send after him maps and other memoranda to guide him in making the plans in New York. The Board appropriated \$500 for this purpose, from the only source from which they could take the money. Unfortunately the communication in which the maps and memoranda were sent to Mr. Olmsted, were delayed in the Express Office, and reached Mr. Olmsted so late that his plans did not arrive here in time to be submitted to the last Legislature. I make this explanation more full than I otherwise would have done, because I and other members of the Board have been unjustly criticized by the press for want of energy in this matter. Perhaps I do not regret this delay now, because the park matter has taken a new shape. I hope the new members will meet the expectations of the people in this affair, by providing a park not only sufficient for the present, but large enough for the future. The experiments which have been made so far successfully, in imitation of those which have answered so well in France, of raising a peculiar species of pine on those drifting sands, may enable us to raise a pine forest in a portion of our park, through which meandering drives and shady bridlepaths may be cut, which will give us an unique and beautiful park. Those portions of the land which are more cultivable will suffice to exhaust all our genius for horticulture and landscape gardening.

The questions of water and gas and the furnishing of these necessaries of a large city in sufficient quantity and at reasonable prices are important, as are also the guardianship of the city funds and the management of the debt. On these topics I have not time to dwell, and must leave them to my successor.

I have been elected to office several times, and never by a party vote. I have never sought office on any occasion, and I am glad to say this because it accords with my own self respect, and I would rather have made any sacrifice than not to have been able to say it, or have obtained office in such a manner that I should forfeit the good opinion of my fellow citizens by accepting it. Whether now, after so long a service, I have that good opinion which it has been my aim to secure, they may judge.

Of my successor, I have to say that, endowed by his Creator with remarkable abilities, possessed of great tact and readiness, and singularly fitted by seven years' experience of city business for this office, if he does not prove himself an able and popular Mayor, it will be his own fault. I predict for him great success in office, and believe that he will establish a reputation with its fellow citizens that will endure for all time.

On leaving this seat, gentlemen, I bid you all a sincere and hearty farewell, and introduce one whom you know well, and who has been elected by his fellow citizens as my successor.

Mayor McCoppin thereupon addressed the Board as follows:

MEMBERS OF THE BOARD OF SUPERVISORS, OFFICERS AND GENTLEMEN—The law, as you are aware, withholds from your President a vote, and custom a voice in your deliberations. I do not propose nor do I desire to change this custom; but on this occasion I may, I think, defect a little from the ordinary course of events in this chamber.

I can say unadvisedly that I feel considerable diffidence in assuming the duties and responsibilities of the office of Mayor, and in presiding over this honorable body, many of whose members have the advantage of a larger experience than I. It is well, however, for the people to know that I am surrounded by men upon whose wisdom and discretion I can always rely. As an old member of this Board, I bid the new members a cordial welcome. They come to us fresh from the people, and must therefore be familiar with their wants and wishes, and it will be my pleasure, as it is my duty, to aid them at all times, so far as I may be able, in effecting such legislation as may seem most conducive to the welfare and happiness of their respective constituencies, and the community at large.

But, before turning our attention to the future, I desire to say a few words relative to the

past. The memories of the last seven years—a period which in California seems very long—come crowding fast upon me now. Many of my old comrades, who occupied seats here during a portion of that time, have gone to their final home. Bell, Gavin, Lynch, and Fairman, we shall meet here no more, and some of the survivors, who were their colleagues, are scattered over the face of the earth to-day. These things admonish us that we cannot be always here.

For the President and members of this Board, who, having completed their terms, go hence to-night, I cherish none but sentiments of high regard. Some of them are peculiarly endeared to me by long association as co-workers in this chamber, and I can say in truth that, so far as I know, the public interests have not suffered at their hands. For the years of faithful, valuable, and oft times thankless service which they have rendered, the community is greatly indebted to them, and in going hence they carry with them my warmest wishes for their future welfare and happiness. I take this occasion to thank them for their uniform kindness to me. Always hitherto in a minority, politically speaking, yet nothing that occurred here has ever reminded me of that fact, and their example of magnanimity will not, I assure them, be lost upon me. The duties which may devolve upon me as Mayor I shall, to the best of my ability, discharge in an impartial manner, and not in a narrow, partisan spirit. It will be my aim and ambition to represent all the people of San Francisco, and in so doing I feel that I shall be acting in consonance with the noble party that elected me.

With your approbation, I shall ask the Legislature to relieve me of the duty of presiding at your meetings. No public interest can possibly be advanced by my presence here. The presiding officer of every other legislative body known to me has at least a casting vote in case of a tie, while here the Mayor is a mere spectator of your transactions, and not a participator therein. And as it is his duty either to approve or veto all the measures which you pass, he ought to be able to bring his mind to their consideration without prejudice, which is not always possible after witnessing the feelings and the passions developed when they are under discussion. The Mayor, by being present, may unconsciously become the partisan of either side. For these and other reasons which it would be tedious to mention at this time, I am clearly of the opinion that this Board should be permitted to choose from among its own members a permanent presiding officer. I am also of the opinion that the Board ought either to be enlarged considerably or another Board be created. As at present constituted it is too small. The city has outgrown in some respects the Act of 1856, known as the Consolidation Act. That Act was framed with reference to the requirements of the city at the time of its passage. Then the city was but half its present size, and the assessed value of all its property was little more than \$30,000,000. Now the assessment exceeds \$100,000,000. Whilst this city has doubled in population, and almost quadrupled in wealth, its government has, so to speak, remained stationary. In no other city of equal or approximate size in the United States is the governmental power lodged in the hands of a single body of men. Usually, the responsibilities of a municipal government are divided between two bodies, having co-ordinate power; but it has been suggested that under our Constitution we can have but one Board of Supervisors for each county. Sections 4 and 5 of Article XI of the Constitution of this State read as follows:

“Section 4. The Legislature shall establish a system of county and town governments, which shall be as nearly uniform as practicable throughout the State.”

“Section 5. The Legislature shall have power to provide for the election of a Board of Supervisors in each county; and these Supervisors shall jointly and individually perform such duties as may be prescribed by law.”

If we cannot have two small governing bodies—each to act as a check upon the other—then, I say we ought to have one large one. The governing power of this municipal corporation may be said to rest in the hands of seven men. Seven votes will pass any measure, except when a veto is interposed—then eight suffice; and I have yet to see any measure of importance defeated by an exercise of the veto power. The difference between seven and eight votes is so small as to be hardly perceptible, to those who seek to effect any particular legislation.

There are now seventeen election districts in this City and County, and each district ought,

in my opinion, to have one Supervisor. In a board of seventeen members, it would require nine votes to pass a resolution or ordinance, and, in the event of a veto, twelve would be necessary.

The retiring Board has acted with commendable liberality in its endeavors to settle the title to city property. The duty of making reservations for public purposes devolves upon the Board. These reservations ought to be sufficiently large to satisfy the reasonable expectations of the public, and so located as to afford no just ground for popular complaint. One thousand acres for a Park, and two or three hundred for a city cemetery, together with suitable lots for school and engine houses, library and hospital, would amply supply not only the present but future wants of the city. I have already suggested that Order 733 ought to be amended so as to require those persons who hold the remainder of the Outside Lands to pay for the portion reserved for public uses. Thus amended, there would, I think, be little opposition to its ratification by the Legislature. The sooner the titles to our land are settled the better it will be for all. Give us, at least, a perfect title to our homes, since without it we cannot prosper or be happy. The enduring prosperity of this, as of every community, depends much upon the character of the tenure by which property is held. Make it secure, indisputable, and the people become anchored to the soil. Rich citizens make rich cities, but you cannot have the former unless, by your laws, you guarantee them in the perfect enjoyment of their property rights. The city itself is most interested in this question, because as soon as these titles are quieted and settled, confidence will be restored, values will increase largely, improvements will follow, and the revenue of both City and State will be immensely increased. I speak in the interest of the city, and not in my own, except as one of the people, in what I have said upon this subject, because I do not own a single foot of the land in question.

In conclusion, gentlemen, I have only to add that, inasmuch as you make all rules for your own governance here, the responsibility of maintaining the honor, the dignity and good name of this body devolves also upon you.

The Board, as then constituted, was composed of the following gentlemen :

MAYOR AND EX-OFFICIO PRESIDENT—FRANK McCOPPIN.

MEMBERS :

* 1st Ward—P. H. DALY,	7th Ward—CHARLES CLAYTON,
2d Ward—JOHN HARROLD,	8th Ward—J. B. E. CAVALLIER,
3d Ward—EDWARD FLAHERTY,	9th Ward—A. J. SHRADER,
4th Ward—R. BEVERLY COLE,	10th Ward—EDWARD NUNAN,
5th Ward—MONROE ASHBURY,	11th Ward—P. H. CANAVAN,
6th Ward—D. D. SHATTUCK,	12th Ward—CHAS. H. STANYAN.

STANDING COMMITTEES :

Judiciary—CAVALLIER, ASHBURY, STANYAN.
 Finance and Auditing—CLAYTON, HARROLD, SHRADER.
 Fire and Water—SHRADER, FLAHERTY, HARROLD.
 Streets, Wharves, Grades and Public Squares —STANYAN, CANAVAN,
 FLAHERTY.

* Deceased, December 10th, 1867.

STANDING COMMITTEES—Continued.

Public Buildings—HARROLD, COLE, CAVALLIER.

Health and Police—ASHBURY, COLE, NUNAN.

License and Orders—NUNAN, CANAVAN, FLAHERTY.

Hospital—COLE, HARROLD, STANYAN.

Printing and Salaries—SHRADER, CAVALLIER, SHATTUCK.

Industrial School—CANAVAN, ASHBURY, CLAYTON.

Fire Alarm and Police Telegraph—SHATTUCK, CLAYTON, CAVALLIER.

Street Lights—FLAHERTY, SHATTUCK, NUNAN.

* Outside Lands—STANYAN, SHRADER, COLE, ASHBURY, CLAYTON.

 RULES OF PROCEEDINGS.

1. In case the President shall not attend, the Clerk, on the appearance of seven members, shall call the Board to order, when a President *pro tem.* shall be appointed by the Board for that meeting, or until the appearance of the President.

2. In case the Clerk should be absent, the Board shall appoint a Clerk *pro tem.*; provided, such substitution shall not continue beyond the day on which it is made.

3. Whenever it shall be moved and carried that the Board go into a Committee of the Whole, the President shall leave the chair, and the members shall appoint a Chairman of the Committee of the Whole, who shall report the proceedings of the Committee.

4. The Rules of the Board shall be observed in the Committee of the Whole, except the Rules regulating a call for the *ayes* and *noes*, and limiting the time of speaking.

5. On motion, in Committee, to rise and report the question, it shall be decided without debate.

6. No amendment shall be allowed, in the Board, on any question which has been decided in Committee of the Whole, unless by consent of two-thirds of the members present.

7. The Clerk shall make a list of the Orders, Resolutions, or Reports on the table, which shall be considered "the general orders of the day."

THE ORDER OF BUSINESS,

Which can not be departed from, except by the consent of seven members, is as follows:

* Elected January 20th and 27th, 1863, under provisions of Order No. 800.

- 1st. Calling the Roll.
- 2d. Reading the Minutes of last Meeting.
- 3d. Quarterly—the requisitions of Section 66, Article V, of the Consolidation Act.
- 4th. Presentation of Petitions.
- 5th. Presentation of Bills and Accounts.
- 6th. Reports of Committees.
- 7th. Communications and Reports from City and County Officers.
- 8th. Disposition of Proposals for Street Work.
- 9th. Orders, Motions, or Resolutions.
- 10th. Unfinished Business.
- 11th. Special Orders of the Day.
- 12th. General Orders of the Day.

8. If any question under debate contains several points, any member may have the same divided.

9. When any question has been put and decided, it shall be in order for any member who voted in the majority, to move for the reconsideration thereof; but no motion for the reconsideration of any vote shall be made after the Order, Resolution or Act shall have gone out of the possession of the Board; and no motion for reconsideration shall be made more than once upon the same question.

10. A motion to refer or lay on the table, until it is decided, shall preclude all amendments to the main question.

11. It shall be the duty of the Clerk to issue such certificates as may be directed by Orders or Resolutions, and to engross all Orders, Resolutions or Acts, requiring the signature of the President, to the end that they may be placed on file, in addition to the records required to be kept by the Act creating this Board.

12. All accounts and bills presented shall be referred to Committees, that they may report on the same before action is taken by the Board.

13. The President shall preserve order and decorum, and shall decide questions of order, subject to an appeal to the Board.

14. Every member previous to his speaking, shall rise from his seat and address himself to the President, and no motion shall be in order if made while the mover is seated or out of his place.

15. When two or more members shall rise at once, the President shall name the member who is to speak first.

16. No member shall speak more than twice on the same question without leave of the Board; nor more than once until every member choosing to speak shall have spoken; nor longer than five minutes, except by permission of the President.

17. No question, on a motion, shall be debated or put, unless the same be seconded. When a motion is seconded, it shall be stated by the President

before debate, and every such motion shall be reduced to writing, if any member desires it.

18. A motion having been stated by the President, it shall be deemed to be in possession of the Board ; but it may be withdrawn at any time before decision or amendment, with the assent of the second.

19. When a question is under debate, no motion shall be received, unless

- | | |
|----------------------------|------------------------------------|
| 1st. To adjourn. | 4th. To postpone to a day certain. |
| 2d. To lay on the table. | 5th. To commit or amend. |
| 3d. The previous question. | 6th. To postpone indefinitely. |

Which several motions shall have precedence in the order in which they are arranged.

20. A motion to adjourn, and a motion to fix the time of adjournment, shall be decided without debate.

21. The previous question, until decided, shall preclude all amendments and debate to the main question, and shall be put in this form, "Shall the main question be now put?"

22. Every member who shall be present when a question is put, shall vote for or against the same, unless the Board shall excuse him, or unless he be immediately interested in the question, in which case he shall not vote ; but no member shall be permitted to vote upon a question when a division is called unless present when his name is called in its regular order.

23. A member called to order shall immediately take his seat, unless permitted to explain, and the Board, if appealed to, shall decide on the case, but without debate. If there be no appeal, the decision of the Chair shall be submitted to.

24. Upon a decision of the Board, the names of those who voted for and those who voted against a question shall be entered upon the minutes, not only in the cases required by laws, but when any member may require it; and in all appropriations of the public moneys the *yays* and *nays* shall be called by the Clerk, and recorded.

25. All appointments of officers shall be by *ballot*, unless dispensed with by the unanimous consent of the Board ; and a majority of all the members of the Board shall be necessary to a choice.

26. No member shall leave the Board during its session without permission from the President.

27. All Committees shall be appointed by the Board, unless otherwise ordered. Committees appointed to report on any subject referred to them by the Board shall report a statement of facts, and also their opinion thereon, in writing; and no report shall be received unless the same be signed by a majority of the Committee.

28. Every remonstrance, or other written application, intended to be presented to the Board, must be delivered to the President, or any member, not

later than three o'clock on the day on which the Supervisors convene, except on extraordinary occasions; and the President, or member to whom it shall be given, shall examine the same, and indorse thereon the name of the applicant, and the substance of the application, and sign his name thereto, and deposit the same in the office of the Clerk of the Board, so that the members may examine the same before meeting; *only* the indorsement of such remonstrance or application, shall be read by the Clerk, unless a member shall require the reading of the paper, in which case the whole shall be read.

29. The members of the Board shall not leave their places, on adjournment, until the President leaves the chair.

30. Members in speaking of each other shall designate them by the number of their respective Ward.

31. Seven members shall constitute a quorum to transact business; and no Regulation, Resolution, Ordinance, or Order of the Board shall pass without the concurrence of at least that number of members, but a smaller may adjourn from day to day.

32. Should there arise any questions or points of order not embraced in the Rules, the Board shall be governed by the rules of the Senate, and the authorities set forth in Cushing's Manual.

33. Every order shall embrace but one subject, and the same shall be expressed in its title.

34. The ordaining clause of the City Orders shall be: "The People of the City and County of San Francisco do ordain as follows:"

35. Two-thirds of the members of the Board shall be required to alter, suspend or repeal any of the foregoing Rules.

WIDENING KEARNY STREET.

At last, the property condemned for the widening of this street has been cleared from all incumbrance, and from Broadway to its intersection with Market street is now a fine avenue of seventy-five feet in width. Delays have attended the progress of this much needed improvement, annoying as well as injurious to those who were prompt to conform to all the requirements and decisions of the Commissioners. The consequent litigation impeded, and the long interval in which the opinion of the Supreme Court was waited for, began to create a doubt as to whether or no the decision might not alone prevent the street for years being widened, but ruin those who had been no less quick to execute as to conceive.

At the beginning of this year it became apparent, from the fact of several assessments for benefits having been paid under protest to the Tax Collector, that, unless the Legislature authorized the Board to advance sufficient money

to provide for the deficit thus caused, the work would be delayed and great damage would be done to those property owners who (with a few exceptional cases) had shown a praiseworthy desire to expedite this improvement by putting up costly buildings before the land had been legally taken, and which from the condition of the street were not available for business purposes. The Board appointed, on January 6th, a Special Committee, consisting of Supervisors Clayton, Cole and Cavallier, to whom all matters in this connection were referred. The Legislature, in pursuance of resolutions passed by the Board, authorized by a special Act a transfer of \$40,000 from the General Fund for that purpose. Thus was removed the only obstacle to the early completion of this work.

The total amount of excess for benefits over awards for damages and incidental receipts collected by the Tax Collector, was \$579,975 52, of which sum \$35,536 03 was paid under protest, and has been retained by him, awaiting the termination of suits, of which the following have been commenced—by F. A. Hihn, for \$6,015 36, and by Bucknall et al., for \$18,193 10; and which the Special Committee, in compliance with Resolution No. 8,715, employed the Hon. Alexander Campbell, Sr., to defend. The expense of this improvement for Commissioners, counsel fee, and incidental expenses, amounted to \$38,747 66.

By the passage of Order No. 806, approved March 16th, the sum of \$420,377 09 was paid to the several parties legally entitled to receive the same, and the balance due for land taken, \$116,395 85, was paid into the County Court, the rights and interests of the persons claiming being doubtful in the opinion of the Board, statements being filed in said Court of the facts in each case. By Orders No. 807 and 808, approved April 7th, the land was then declared taken, and the former owners given thirty days' time in which to remove the buildings and materials on that portion of the street; and on May 18th, by the passage of Order No. 815, the Superintendent of Streets, etc., was directed to remove all buildings or obstructions remaining on the land so taken.

Through an oversight in the matter of establishing a grade consequent upon the widening, which has been obviated to some extent by the passage of Resolution No. 8,789, authorizing the property owners to repave and curb the street to grade recommended by the City and County Surveyor, and a decision of the Supreme Court in reference to the Nicolson Pavement Company, the street has not as yet throughout its length been so improved as to invite the business and make it the thoroughfare which, in a few months, it will become.

EXTENSION OF MONTGOMERY STREET.

The proceedings necessary to be taken by the Board in extending this street and Connecticut street were finally completed in November last, and a certified copy of the same filed in the County Court on the 13th day of January, 1868.

The following gentlemen—R. H. Sinton, D. J. Oullahan, and A. M. Hay—were appointed, on April 17th, 1868, by the County Court as Commissioners

to ascertain and report the damages and benefits accruing from said improvement. So far they have appraised the damages and completed maps of the property from Market to Brannan street, and are about commencing to appraise the benefits along the line of the new street.

In the month of July a writ of *certiorari* was issued out of the Twelfth District Court to review the proceedings had in the Board of Supervisors, and the action of the County Court in the appointment of Commissioners, which as yet has not been heard.

PUBLIC STREETS.

A full statement of the work done in grading and improving streets is presented in the Report of the Superintendent, together with a comparison of the cost and amount of work done in former years, pages 508 to 540, and present a marked evidence of the general prosperity of the city in the large number of streets which have been opened and graded during the last year. Under the law property owners have the power to prevent the grading of any street in the first instance. It must, therefore, be that when the owners consent to so much improvement, the expense of which must be borne by themselves, that the people are prosperous, and that an active demand exists for unimproved real estate.

As there seems to be some public misunderstanding of the power of the Supervisors over streets, it may not be inappropriate to remark that the Supervisors can only order a street graded when a majority of the property owners do not protest; and for all work so ordered they are required to advertise for proposals, and after the award is made the property owners have the privilege of doing the work themselves at the price at which it is awarded. In such work property owners have, therefore, ample opportunity to protect themselves against abuses by the Supervisors, if any should occur. They have the same power to protect themselves on all other kinds of street work. It is true that the Board of Supervisors have the power (except grading) to order necessary work, notwithstanding the protest of property owners. The necessity of their having that power is obvious. It is only after a street has been accepted that the city becomes responsible for its improvement and repair.

The following amendments to the Street Law passed at the last session of the Legislature:

CHAPTER CCCXX.

AN ACT to amend an Act entitled an Act amendatory of Article Fourth of an Act entitled an Act to repeal the several charters of the City of San Francisco, to establish the boundaries of the City and County of San Francisco and to consolidate the government thereof, approved the nineteenth day of April, eighteen hundred and fifty-six, repealing sections thirty-six to sixty-four, inclusive, and Acts and parts of Acts amendatory and supplementary thereof, and substituting this Act for said Article Four, approved the twenty-fifth day of April, eighteen hundred and sixty-two.

[Approved March 26, 1868.]

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section six of said Act is hereby amended so as to read as follows:

Section 6. Before giving out any contracts by the Board of Supervisors, for doing any work authorized by section three of this Act, the Board of Supervisors shall cause notice to be conspicuously posted in the office of the Superintendent of Public Streets and Highways, and also publish for five days, inviting sealed proposals for the work contemplated. All proposals offered shall be delivered to the Clerk of the Board of Supervisors, and said Board shall, in open session, open, examine and publicly declare the same, and award said work to the lowest responsible bidder; *provided*, said Board may reject any and all bids, should they deem it for the public good, and also the bid of any party who may have proved delinquent or unfaithful in any former contract with said city and county. All proposals shall be accompanied with a bond in the sum of one thousand dollars, signed by the bidder and two sureties, who shall be residents and freeholders of said city and county, and who shall each justify in the above amount over and above all debts and exemptions, conditioned to pay to the Street Department Fund the full sum of one thousand dollars as liquidated damages, if the bidder to whom the contract is awarded shall fail or neglect to enter into a contract as hereinafter provided. It shall be the duty of the City and County Attorney to sue on said bonds in the name of said city and county, and to pay the amount recovered over to said fund. The Board of Supervisors shall have power to relieve the contractor from the performance of the conditions of said bond when good cause is shown therefor. All persons (owners included) who shall fail to enter into contracts as herein provided, or to complete the contracts entered into, are hereby prohibited from bidding a second time for the same work; and in case of owners, they are hereby prohibited from electing to take the same work a second time and from entering into any contract concerning the same. Notice of such awards shall be published for five days. The owners of the major part of the frontage of lots and lands liable to be assessed for said work shall not be required to present sealed proposals, but may, within said five days after the first publication of notice of such award, elect to take said work and enter into a written contract to do the whole work at the price at which the same may have been awarded. Should said owners fail to commence the work within ten days after the first publication of the notice of said award, and prosecute the same with due diligence to completion, it shall be the duty of the Superintendent of Public Streets and Highways to enter into a contract with the original bidder to whom the contract was awarded, and at the price the same may have been awarded him; but if said bidder neglect, for fifteen days after the first publication of the notice of said award, to enter into contract, then the Board of Supervisors shall again publish for said five days and pursue the steps required by this section, the same as in the first instance. If the owners who may have taken said contract do not complete the same within the time limited in the contract, or within such further time as the Board of Supervisors may give them, said Superintendent shall report such delinquency to the Board of Supervisors, who may re-let the unfinished portion of said work, after having pursued the formalities of this section as stated aforesaid. All such contractors shall, at the time of the execution of the contract, also execute a bond to the satisfaction of said Superintendent, with two or more sureties, payable to the City and County of San Francisco, in such sums as the said Superintendent shall deem adequate, conditioned for the faithful performance of the contract, and the sureties shall justify, before any officer competent to administer an oath, in double the amount mentioned in said bond over and above all statutory exemptions. Any person suffering damages by reason of the breach of said contract may sue on such bond in his own name. It shall be the duty of the Superintendent to collect from the contractors, before the contract is signed by him, the cost of publication of the notices required under the proceedings prescribed by this Act.

SEC. 2. Section eight of said Act is hereby amended so as to read as follows :

Section 8. *Subdivision One.*—The expenses incurred for any work authorized by section three of this Act shall be assessed upon the lots and lands fronting thereon, except as hereinafter specially provided, each lot or portion of lot being separately assessed, in proportion to its frontage, at a rate per front foot sufficient to cover the total expense of the work.

Subdivision Two.—The expense of all improvements (except such as done by contractors under the provisions of section fourteen of this Act), until the streets, street crossings, lanes, alleys, places or courts are finally accepted, as provided in section twenty-one of this Act, shall be assessed upon the lots and lands as provided in this section, according to the

nature and character of the work ; and after such acceptance, the expense of all work thereafter done thereon shall be paid by said City and County out of the Street Department Fund ; and if said fund shall not be sufficient to defray such expenses, the Board of Supervisors may transfer from the General Fund to the Street Department Fund sufficient money to meet any deficiency.

Subdivision Three.—The expense of work done on main street crossings, except such as are provided for in subdivision eight of this section, shall be assessed upon the four quarter blocks adjoining and cornering on the crossing ; and each lot, or part of a lot, in such quarter blocks, fronting on such main street, shall be separately assessed, according to its proportion of frontage on the said main streets.

Subdivision Four.—Where a main street terminates at right angles in another main street, the expense of the work done on one half the width of the street opposite the termination shall be assessed upon the lots in each of the two quarter blocks adjoining and cornering on the same, according to the frontage of such lots on said main streets, and the expense of the other half of the width of said street upon the lots fronting on the latter half of the street opposite such termination.

Subdivision Five.—Where any small or subdivision street crosses a main street, the expense of all work done on said crossing shall be assessed on all the lots or portions of lots half way on said small streets to the next crossing or intersection, or to the end of said small or subdivision street, if it does not meet another.

Subdivision Six.—The expense of work done on the small or subdivision street crossings shall be assessed upon the lots fronting upon such small streets on each side thereof, in all directions, half way to the next street, place or court, on either side, respectively, or to the end of such street, if it does not meet another.

Subdivision Seven.—Where a small street, lane, alley, place or court terminates in another street, lane, alley, place or court, the expense of the work done on one half the width of the street, lane, alley, place or court opposite the termination shall be assessed upon the lots fronting on such small street, lane, alley, place or court so terminating, according to its frontage thereon, half way on each side, respectively, to the next street, lane, alley, place or court, or to the end of such street, lane, alley, place or court, if it does not meet another ; and the other one half of the width upon the lots fronting such termination.

Subdivision Eight.—The maps now in the office of the said Superintendent of Public Streets and Highways, showing the street crossings or spaces formed or made by the junction or intersection of other streets with Market street, other than at right angles, also showing other street crossings adjoining fractional or irregular blocks (all of which crossings or spaces are colored on said maps and numbered from three to one hundred and fifty, inclusive), and heretofore certified by said Superintendent—one adopted by a resolution of the Board of Supervisors, number fifteen hundred and seventy-eight, approved on the sixteenth day of December, eighteen hundred and sixty-one, and the other adopted by a resolution of the said Board, number three thousand two hundred and eighty-four, approved on the twenty-first day of March, eighteen hundred and sixty-four, which resolutions are copied on the face of said maps respectively—shall be deemed and held to be official maps for the purposes of this Act, and the same are hereby approved ; and the expenses incurred for the work done on the said crossings or spaces formed by the junction and intersection of East street with Market street, and of other streets with Market street, and not squarely in front of and not properly assessable to lots fronting on such streets, and for work done on said other street crossings and spaces, all of which are colored on said maps, shall be assessed on the contiguous, adjacent and neighboring irregular or quarter blocks or lots of land which are of the same color as the crossings or spaces, and which have a number thereon corresponding with the number of the crossing or space on which the work has been done.

Subdivision Nine.—In all the streets constituting the water front of the City and County of San Francisco, or bounded on one side by the property of said city and county, or crossings cornering thereon, or on the water front, the expense of work done on that portion of said streets, from the center line thereof to the said water front, or to such property of the city and county bounded thereon, and of one-fourth of their crossings, shall be provided for by the said city and county ; but no contract for any such work shall be given out except to the

lowest responsible bidder, after an observance of all the formalities required by this Act.

Subdivision Ten.—Where any work mentioned in section three of this Act (sewers, man-holes, cesspools, culverts, crosswalks, crossings, curbing, grading, piling and capping excepted) is done on one side of the center line of said streets, lanes, alleys, places or courts, the lots or portions of lots fronting on that side only in front of which said work is done shall be assessed to cover the expenses of said work according to the provisions of this section.

Subdivision Eleven.—The assessment made to cover the expenses of the grading mentioned in the proviso in section four of this Act shall be assessed upon all the lands, lots and portions of lots fronting on either side of said street, lying and being between the said main street crossings, in the manner provided in subdivision one of this section. Before any work is done under a contract to complete the grading of a partially graded street, lane, alley, place or court, under the provisions of section four of this Act, the City and County Surveyor shall ascertain, as near as possible, the number of cubic yards of grading done previous to the letting of the contract in front of each lot or parcel of land fronting upon the work under contract, and also ascertain the number of cubic yards of grading necessary to complete the grading included in the contract, and certify such estimates to the Superintendent of Public Streets and Highways before the completion of the work included in said contract. And when any owner of a lot or lots fronting on said partially graded street, lane, alley, place or court, has graded a part of the same and desires credits for grading done by him previous to the publication of the notice of intention, he shall file with the City and County Surveyor, previous to the completion of the grading under contract, a certificate of the City and County Surveyor in the office when the work was performed, certifying the number of cubic yards of grading done by him or those through whom he claims or deraigns title; *provided*, however, that he shall not be allowed any credits at any time for any embankment made above or excavations made below the official grade; but the cost of removing such embankment or filling in such excavations shall always be charged exclusively to the owner or owners of the lot or lots of lands fronting thereon, in addition to the pro rata rate which may be assessed to them. If the credit for grading, so certified as aforesaid, in cubic yards or measurement, equals the proportional amount of grading which such owner would be obliged to do if no grading had been done on such street, lane, alley, place or court, then such owner and his lot or lots shall be exempted from assessment for the remaining work; and if the grading done by such owner is less than his proportional share, then the work required to be done in front of his lot or lots, according to the original profile of the land previous to any grading thereon, shall be included in the assessment; and the work certified as aforesaid to have been done by him at his own expense shall be credited to him at the contract rate, *provided*, that in making the assessment to cover the expense of any work mentioned in this section, the said Superintendent may deviate from its provisions and assess such lots and lands fronting on any street, lane, alley, place or court, as he may decide liable to assessment for said work, which decision may be appealed from as hereinafter provided.

Subdivision Twelve.—Section one of an Act entitled an Act amendatory of and supplementary to an Act to provide revenue for the support of the Government of this State, approved April twenty-ninth, eighteen hundred and fifty-seven, approved April nineteenth, eighteen hundred and fifty-nine, shall not be applicable to the provisions of this section; but the property therein mentioned shall be subject to the provisions of this Act and to be assessed for work done under the provisions of this section.

SEC. 3. Section eleven of said Act is hereby amended so as to read as follows:

Section 11. The contractor or his assigns, or some person in his or their behalf, shall call upon the person assessed, or their agents, if they can conveniently be found, and demand payment of the amount assessed to each. If any payment be made, the contractor, his assigns, or some person in his or their behalf, shall receipt the same upon the assessment, in presence of the person making such payment, and shall also give a separate receipt if demanded. Whenever the persons so assessed, or their agents, cannot conveniently be found, or whenever the name of the owner of the lot is stated as "unknown" on the assessment, then the said contractor or his assigns, or some person in his or their behalf, shall publicly demand payment on the premises assessed. The warrant shall be returned to the Superintendent within ten days after its date, with a return indorsed thereon, signed by the

contractor or his assigns, or some person in his or their behalf, verified upon oath, stating the nature and character of the demand, and whether any of the assessments remain unpaid, in whole or in part, and the amount thereof. Thereupon the Superintendent shall record the return so made, in the margin of the record of the warrant and assessment, and also the original contract referred to therein, if it has not already been recorded at full length, in a book to be kept for that purpose in his office, and shall sign the record. The said Superintendent is authorized at any time to receive the amounts due upon any assessment list and warrant issued by him, and give a good and sufficient discharge therefor; *provided*, that no such payment so made after suit has been commenced, without the consent of the plaintiff in the action, shall operate as a complete discharge of the lien until the costs in the action shall be refunded to the plaintiff; and he may release any assessment upon the books of his office on the production to him of the receipt of the party, or his assigns, to whom the assessment and warrant was issued; and if any contractor shall fail to return his warrant within the time and in the form provided in this section, he shall thenceforth have no lien upon the property assessed; *provided*, however, that in case any warrant is lost, upon proof of such loss a duplicate can be issued, upon which a return may be made with the same effect as if the original had been so returned. After the return of the assessment and warrant, as aforesaid, all amounts remaining due thereon shall draw interest at the rate of one per cent. per month until paid.

SEC. 4. Section thirteen of said Act is hereby amended so as to read as follows:

Section 13. At any time after the period of fifteen days from the day of the date of the warrant as hereinbefore provided, or if an appeal is taken to the Board of Supervisors as is provided in section twelve of this Act, any time after five days from the decision of said Board, or after the return of the warrant or assessment, after the same may have been corrected, altered or modified, as provided in section twelve of this Act (but not less than fifteen days from the date of the warrant), the contractor or his assignee may sue, in his own name, the owner of the land, lots or portions of lots assessed, on the day of the date of the recording of the warrant, assessment and diagram, or on any day thereafter during the continuance of the lien of said assessment, and recover the amount of any assessment remaining due and unpaid, with interest thereon as hereinbefore provided; and in all cases of recovery under the provisions of this Act the plaintiff shall recover the sum of fifteen dollars, in addition to the taxable cost, as attorney's fees; *provided* he shall waive the percentage on recovery as provided by law. Suit may be brought in any Court in said city and county. The said warrant, assessment and diagram, with the affidavit of demand and non-payment, shall be prima facie evidence of such indebtedness, and of the right of the plaintiff to recover in the action. The Court in which such suit shall be commenced shall have power to adjudge and decree a lien against the premises assessed, and to order such premises to be sold on execution as in other cases of the sale of real estate by the process of said Courts; and on appeal, the appellate Court shall be vested with the same power to adjudge and decree a lien, and to order to be sold such premises on execution or decree, as is conferred on the Court from which an appeal is taken. Such premises, if sold, may be redeemed as in other cases. In all suits now pending, or hereafter to be brought, to recover street assessments, the proceedings therein shall be governed and regulated by the provisions of this Act, and also, when not in conflict herewith, by the Civil Practice Act of this State. This Act shall be liberally construed to effect the ends of justice.

SEC. 5. Section fourteen of said Act is hereby amended so as to read as follows:

Section 14. The Superintendent of Public Streets and Highways may require, at his option, by notice in writing to be delivered to them personally or left on the premises, the owners, tenants or occupants of lots or portions of lots liable to be assessed for work done under the provisions of this Act to improve forthwith any of the work mentioned in section three of this Act in front of the property of which he is the owner, tenant or occupant, to the centre of the street or otherwise, as the case may require, or to remove all filth and dirt from the street in front of his premises; and by a like notice to be served personally upon the President or any officer of a railroad corporation or company, or to be left at the office of said corporation or company to require such corporation or company to improve forthwith any work mentioned in this Act which said corporation or company are required by law to do and perform; said notice to specify what improvement is required or work is to be done. After the expiration of three days, the said Superintend-

ent shall be deemed to have acquired jurisdiction to contract for the doing of the work, or making the improvements, or the removing the filth and dirt required by said notice. If such improvement or work of cleaning be not commenced within three days after notice given as aforesaid, and diligently and without interruption prosecuted to completion, the said Superintendent may enter into a contract with any suitable person applying to make said improvements or to do said cleaning, at the expense of the owner, tenant or occupant, or railroad corporation or company, as the case may be, at a reasonable price, to be determined by said Superintendent; and such owner, tenant or occupant, or railroad corporation or company, shall be liable to pay the same. After the certificate referred to in section fifteen shall have been recorded, the sum contracted to be paid shall be a lien, the same as provided in section ten of this Act, and also a lien upon the franchise and property of said corporation or company, and may be enforced in the same manner as other assessments.

SEC. 6. Section fifteen of said Act is hereby amended so as to read as follows :

Section 15. If the expense of such improvements, or removing such dirt and filth after the completion thereof, be not paid to the contractor so employed, or his agent or assignee, on demand, the said contractor or his assigns shall have the right to sue the owner, tenant or occupant, or railroad corporation or company, under the provisions of this Act, for the amount contracted to be paid, and the certificate of the Superintendent that the work has been properly done, and that the charges for the same are reasonable and just, shall be prima facie evidence of the amount claimed for said work and of the right of the contractor to recover for the same in such action.

SEC. 7. Section sixteen of said Act is hereby amended so as to read as follows :

Section 16. In addition, and as cumulative to the remedies above given, the Board of Supervisors shall have power, by resolution or ordinance, to prescribe the penalties that shall be incurred by any owner, tenant, occupant, or railroad corporation or company, neglecting or refusing to make improvements or remove dirt and filth, as provided for in section fourteen of this Act ; which fines and penalties shall be recovered for the use of the city and county, by prosecution in the name of the People of the State of California, as in other cases provided for in subdivision eleven of section fifteen, chapter four hundred and ninety-three, on page five hundred and forty-four of the Statutes of said State, approved May eighteenth, eighteen hundred and sixty-one, and may be applied, if deemed expedient by the said Board, in payment of the expenses of any such improvements when not otherwise provided for.

SEC. 8. Section nineteen of said Act is hereby amended so as to read as follows :

Section 19. The records kept by the Superintendent of Public Streets and Highways, in conformity with the provisions of this Act, and signed by him, shall have the same force and effect as other public records ; and such records, or copies thereof duly certified by said Superintendent, may be used in evidence with the force and effect as the original assessments, diagrams and warrants. The said records shall, during all office hours, be open to the inspection of any citizen wishing to examine them, free of charge.

SEC. 9. Section twenty-two of said Act is hereby amended so as to read as follows :

Section 22. The said Superintendent shall keep a public office in some convenient place, to be designated by the Board of Supervisors, and his office shall be kept open as in this Act required. He shall not, during his continuance in office, follow any other profession or calling, but shall be required to devote himself exclusively to the duties of his office. He shall be allowed, at the discretion of the Board of Supervisors, not more than eight deputies, to be by him appointed from time to time. Four of said deputies shall receive a salary not exceeding one hundred and fifty dollars each, and four a salary not exceeding one hundred and twenty-five dollars per month. It shall be lawful for the said deputies to perform all or any of the duties conferred by this Act upon the Superintendent of Public Streets and Highways, under the direction of the said Superintendent, except the acceptance or approval of work done. The Superintendent of Public Streets and Highways, or his deputies, shall superintend and direct the clearing of all sewers in the public streets, and the expenses of the same shall be paid out of the Street Department Fund in the same manner as provided for the improvements of streets that have been finally accepted as in this Act provided.

SEC. 10. All Acts and parts of Acts, so far as they conflict and are inconsistent with the provisions of this Act, are hereby repealed. This Act shall take effect and be in force from and after its passage.

Patrick H. Daly.

The Board of Supervisors, in the year closed (December 10th), lost by death Mr. Patrick H. Daly, Representative of the First Ward.

At a special meeting, held on Wednesday evening, December 11th, 1867, convened at call of the Mayor, the announcement of his death was made by Mr. R. Beverly Cole, Supervisor of the Fourth Ward, who spoke at length, eulogizing the character of the deceased, and presented the following Preamble and Resolutions, which were unanimously adopted:

WHEREAS, Providence has removed from our midst one of the members of this Board, P. H. Daly, Supervisor of the First Ward, who honorably filled that position during the last year, and who gave promise of future usefulness and ability in the faithful and untiring discharge of the duties of his office, and who by a vote of this Board was recently elected a member of the Board of Fire Commissioners, only entering upon the discharge of the duties of that office one week before his death, and that an office for which by long service in, and familiar acquaintance with the requirements of the Fire Department, he was peculiarly adapted to fill; and whereas, in all his relations with this Board he ever evinced a kindly disposition, as well as a manly and independent spirit of determination for the right, setting all personal feelings and partialities aside, and being apparently inspired with a noble and high ambition for the public good Therefore, in view of this sad event, which so suddeply comes upon us, be it

Resolved, That in the decease of Patrick Henry Daly, Supervisor of the First Ward, this Board has lost a valued member, and the community a prominent and influential citizen, as well as the residents of the First Ward a faithful representative, and an energetic advocate of their interests.

Resolved, That the members of this Board sincerely condole with the family of their departed associate in the great affliction which has fallen upon them.

Resolved, That a copy of these proceedings be transmitted by the Clerk to the family of the deceased, and be entered on the minutes of the Board.

Resolved, That the Chamber of the Board be draped in mourning for thirty days, and that this Board do now adjourn to meet in special session on Thursday, the 12th instant, at one o'clock P. M., to attend, as a body, the obsequies of the deceased.

The Board then adjourned.

James W. Bingham.

On April 23d the Board of Supervisors lost by death Mr. James W. Bingham, who had filled the position of Clerk of the Board from September, 1861. Possessed of an intimate knowledge of municipal affairs, and rare qualifications of mind, he discharged his varied and onerous duties with marked ability, while his well-known courteous disposition earned him an enviable reputation amongst our citizens.

At a special meeting convened at call of the President, on Friday, April 24th, 1868, the sad event was communicated to the Board by Mr. Charles Clayton, Supervisor of the Seventh Ward, who presented the following preamble and resolutions, which were unanimously adopted:

WHEREAS, It has pleased the Almighty in his providence to remove from our midst by death, Mr. James W. Bingham, who for seven years past has ably filled the position of Clerk of this Board; therefore, be it

Resolved, That in the death of Mr. Bingham, this Board has lost a faithful, efficient and zealous officer, who, by his unremitting attention to the duties of his office, his amiable disposition, and his fidelity to the public interests, merited and received the esteem and approbation of all who knew him.

Resolved, That the members of this Board most sincerely condole with the bereaved widow and orphans of our deceased friend, in the great affliction which has befallen them, and earnestly hope they may receive that consolation from above which no earthly power can bestow.

Resolved, That a copy of these Resolutions be forwarded to the family of the deceased, and be entered in the minutes of this Board.

Resolved, That the Chamber of the Board be draped in mourning for a period of thirty days, and that this Board do now adjourn, and that the members be requested to meet, in the Chambers of the Board, to-morrow, the 25th inst., at 1 o'clock P. M., to attend as a body, the obsequies of the deceased.

The Board then adjourned.

Bernard S. Blitz.

On July 14th, the Board of Supervisors lost another old and valued officer, Mr. Bernard S. Blitz, who filled the position of Sergeant-at-Arms from 1861, until his death. He was well and familiarly known for many good qualities, uniting with an obliging and kindly disposition, rectitude of purpose and indomitable courage in the performance of his duties as a public officer.

At a regular meeting, held on Monday evening, July 20th, 1868, pursuant to adjournment, his death was announced by Mr. A. J. Shrader, Supervisor of the Ninth Ward, who presented the following preamble and resolutions, which were unanimously adopted:

WHEREAS, In the inscrutable disposition of the Almighty, there has been removed from among us Bernard S. Blitz, who, during the long period of his official connection with this Board, has so faithfully filled the position of Sergeant-at-Arms; and,

WHEREAS, It is a duty we owe to his memory to place upon record our appreciation of his services in his intercourse with the members of this Board; be it, therefore,

Resolved, That this Board has lost an honest and faithful officer, zealous and cheerful in the discharge of his duties, ever polite and agreeable in his relations with all with whom those duties brought him into contact.

Resolved, That we most sincerely condole with the widow and relatives of our deceased friend, and commend them to the Great Creator for consolation in this, their great affliction.

Resolved, That a copy of these Resolutions be transmitted to his widow, and be entered on the minutes of the Board.

SCHEDULE OF OFFICERS OF THE CITY AND COUNTY, SHOWING ANNUAL SALARIES PAYABLE FROM THE TREASURY, FEES OR PER DIEMS, IN THE YEAR 1867-8.

MEMBERS AND MEMBERS ELECT OF THE BOARD OF SUPERVISORS — 1868-69.

The new Board will be organized on Monday, December 7th, 1868, and will consist of

Mayor and Ex-Officio President.....FRANK McCOPPIN.

MEMBERS.

1st Ward, HENRY WINKLE.	7th Ward, RICHARD RING.
2d Ward, JOHN HARROLD.	8th Ward, J. B. E. CAVALLIER.
3d Ward, EDWARD FLAHERTY.	9th Ward, A. J. SHRADER.
4th Ward, R. BEVERLY COLE.	10th Ward, EDWARD NUNAN.
5th Ward, MONROE ASHBURY.	11th Ward, P. H. CANAVAN.
6th Ward, D. D. SHATTUCK.	12th Ward, CHAS. H. STANYAN.

RESOLUTION No. 8,566.

RESOLVED, That the Heads of the following Departments be, and are hereby, requested to report to this Board, on or before the first day of August ensuing, the condition of their respective Departments during the fiscal year ending June 30, 1868, embracing all their operations and expenditures.

Auditor,
Assessor,
Tax Collector,
County Clerk,
Streets,
Fire Department,
Hospital,
Almshouse,

Treasurer,
Sheriff,
County Recorder,
City and County Surveyor,
License Collector,
Public Schools,
Funded Debt,
Harbor Master,
Fire Alarm and Police Telegraph.

Pound Keeper,
City and County Attorney,
Industrial School,
Police,
Coroner,
Public Administrator,
Health Officer.
Justices' Court.

And that all portions of said Reports be published in a volume, in accordance with the requirements of Section 73 of the Consolidation Act. The Clerk of the Board is hereby instructed to send a copy of this Resolution to the Head of each of the enumerated Departments.

In Board of Supervisors, San Francisco, June 29th, 1868.

Adopted by the following vote:

Ayes — Supervisors Harrold, Flaherty, Cole, Ashbury, Shattuck, Clayton, Cavallier, Shrader, Nunan, Stanyan.

Absent — Supervisor Canavan.

JNO. A. RUSSELL, Clerk.

ADDENDA.

JOHN A. RUSSELL, Esq., Clerk of the Board of Supervisors:

Sir: I have noticed, upon looking over the Appendix to the Municipal Reports for the Fiscal Year ending June 30th, 1868, just issued, that you have omitted to publish a communication of mine to the Board of Supervisors, dated June 29th, in which I gave my reasons for ruling, as President of the Board, that a Resolution purporting to *reserve* certain lands for public purposes, under the provisions of Ordinance No. 800, should be passed for printing before its final passage, as provided in Section 68 of the Consolidation Act, and also by the Act of Congress of March 8th, 1868. A majority of the Board then overruled that decision, but at a subsequent period passed an Ordinance making the Reservations, as I contend, in a legal form, and thus ended the controversy. Had you not published the opinion of the City Attorney (see Appendix, page 568), in answer to the missing communication, I should not have noticed the omission.

Very respectfully,

FRANK MCCOPPIN.

SAN FRANCISCO, November 30th, 1868.

The communication referred to was received and read in Board of Supervisors June 29th, 1868, and should have, in order to give a full history of the proceedings in the matter of Outside Lands, preceded the opinion of the City and County Attorney on the Pueblo Reservations, on page 568. As it was, through inadvertence, overlooked by the compiler, it is herewith presented.

MAYOR'S OFFICE, SAN FRANCISCO, June 29th, 1868.

To the Honorable the Board of Supervisors of the City and County of San Francisco :

GENTLEMEN :—At the last meeting of your honorable body, I decided that Resolution No. 8,565, adopting the map of the Outside Lands, should be passed to print for five days before final action could legally be taken thereon, which decision or ruling you thought proper to set aside; and inasmuch as very important interests must depend upon the validity of that Resolution, should it be adopted in the manner then proposed, I beg leave most respectfully to submit for your consideration the reasons that influenced me upon that occasion. The 68th Section of the Consolidation Act provides that, "every Ordinance or *Resolution* of the Board of Supervisors, providing for any specific improvement, the granting of any privilege, or involving the lease or other appropriation of public property, or the expenditure of public moneys (except for sums less than \$500), or laying a tax or assessment, and every Ordinance or Resolution imposing a new duty or penalty, shall, after its introduction in the Board, be published, with the ayes and nays, in some city daily newspaper at least five successive days, *before final action by the Board upon the same*, and every such Ordinance or Resolution, after the same shall pass the Board, shall, before it takes effect, be presented to the President of

the Board for his approval." The Resolution now pending before your honorable body contemplates the adoption of the Map of the Outside Lands and the absolute dedication of land for public uses. There is nothing in the Act of the Legislature ratifying Order 800, nor in the Act supplemental thereto, nor in any other Act known to me, that repeals that provision of Section 68 of the Consolidation Act to which I have invited your attention, and the last named Act expressly provides that, "the powers of the Board of Supervisors are those granted in this Act, and they are prohibited to exercise any others." I hold, that, as Resolution No. 8,565 has for its object the *disposition of public property, real property, the laying of a tax or assessment, and the imposition of new duties and penalties*, it must assume the form of an Ordinance and be passed in the manner required by law. Section 16 of Order 800 says that "the Board of Supervisors shall provide by *Order* for the distribution and payment to those entitled thereto of the moneys assessed for the cost of the reservations, and which shall have been paid to the City and County Treasurer under the provisions of Section 11 of this Order."

If it be necessary for the Board hereafter to provide by Ordinance for the distribution of the moneys assessed for the cost of the reservations, it would seem to be equally or more necessary to establish those reservations, in the first instance, by an Ordinance describing the land dedicated to public uses and adopting the map. It is impossible to read the Act of Congress of the 8th of March, 1866, an Act which has since been construed by the Supreme Court of the United States, and which Act alone confers upon your honorable body the power you are now about to exercise, without coming to the conclusion that the reservations can only be made by Ordinance.

That Act reads as follows: "Be it enacted by the Senate and House of Representatives of the United States in Congress assembled, That all the right and title of the United States to the land situated within the corporate limits of the City of San Francisco, in the State of California, confirmed to the City of San Francisco by the decree of the Circuit Court of the United States for the Northern District of California, entered on the 18th day of May, 1865, be and the same are hereby relinquished and granted to the said City of San Francisco and its successors, and the claim of the said city to said lands is hereby confirmed, subject, however, to the reservations and exceptions designated in said decree, and upon the following trusts, namely, that all the said land not heretofore granted to said city, shall be disposed of and conveyed by said city to parties in the *bona fide* actual possession thereof, by themselves or tenants, on the passage of this Act, in such quantities and upon such terms and conditions as the Legislature of the State of California may prescribe, *except such parcels thereof as may be reserved and set apart by Ordinance of said city for public uses.*" And it will be remembered that the Supreme Court of the United States has held, in the case of "Grisar vs. McDowell," that the title of the city to the Pueblo Lands rests upon the decree of the Circuit Court, as *modified by the Act of Congress* just quoted. The Act of Congress gives the city the power to make reservations for public uses, but it seems to me this power must be exercised in the mode and manner prescribed by the Act itself. Evidently, then, the reservations for public purposes ought to be made by Ordinance. Whatever differences of opinion may exist in regard to the boundaries of the proposed Park, there appears to be none as to the reservations for other purposes, and I hope, therefore, that the city's title to these will not be endangered, which certainly must be the case should your honorable body insist on reserving them by a Resolution, instead of an Ordinance, as the law requires.

I have the honor to be, very respectfully,

FRANK MCCOPPIN, Mayor.
